Preface and Acknowledgements

Every year, millions of euros of taxpayers' money are lost to fraud against the European Union budget. The fight against fraud has therefore been a key element in protecting the Union's financial interests for decades, and it still is. Since then, many different political and legal approaches have been taken to create a secure situation.

In essence, this financial protection by way of fighting crime is nowadays not only provided by the national judiciary, but also to a significant extent by the EU's own investigative bodies of the European Public Prosecutor's Office (EPPO) and the European Anti-Fraud Office (OLAF).

These two authorities work on the basis of their own EU regulations, each of which has in common to refer to the national legal situation with regard to the conduct of investigations. This concerns the law of the EPPO as a whole, insofar as the EPPO Regulation in Art. 30 para. 1 and para. 4 refers to nationally to be created (para. 1) or nationally existing powers (para. 4). This also applies to OLAF's right to carry out so-called external investigations, which are so important, in the event that an economic operator refuses to participate in the investigation, so that in this case it is not Union law but national law that forms the basis for the investigation (cf. Art. 3 para. 6 OLAF Regulation).

However, these references to national law are not enough; the problems of applying the law are only just beginning: Knowledge of national rules is usually reserved for those familiar with the national legal system, and at the level of the EU authorities these are very few. EU authorities, including the investigative authorities in question here, are rather characterized by the fact that they are made up of many employees from the most diverse member states. It is true that for both authorities, certain mechanisms (namely the EDPs as part of the EPPO and the AFCOS for OLAF) have been put in place to ensure that national legal competence is conveyed. But by and large, the respective national investigative procedure law remains a closed book in terms of criminal procedure or administrative law, not to mention the language barrier that threatens to become insurmountable for most people within the EU when seeking access to the law of other countries.

This publication series aims to remedy these shortcomings. It presents the law of criminal procedure and administrative investigation for all 27 Member States in English and in the language of the Member State. It thus provides easy access to the procedural rules of a foreign legal system, which are so important for EU investigative work. However, this presentation does not stop there, but explains these national rules, which are printed in bilingual form, from a competent source, namely from national experts. In this way, an explanatory work has been created that clearly ensures access to and understanding of foreign areas of law in the field of criminal procedural and administrative fraud investigations.

The editors would like to thank the European Commission for generously supporting the research underlying this work with funds from the EU's Hercule III programme, and they would like to thank the Justus Liebig University of Giessen for generously supporting the open access publication of this work with funds from its Open Access Publication Fund.

Our sincere thanks go to our team at the University of Giessen, in particular Nur Sena Karakocaoğlu and Alastair Laird, who have borne the main burden. Julian Doerk, Felina Frkic Wegener, Maike Kappes, Aleksandra Joachimiak, Tom Löwer and Sophie Meyer have greatly supported the project with a variety of research and formatting work. Corinna Haas and Vanessa Runge have accompanied the project from the beginning and have always backed us up with their sure eye for work-relevant aspects and processes, thus continuously supporting this ambitious project from start to finish.

The project was also successful because the third-party funding administration of the Justus Liebig University in the shape of Dr Christian Maarten Veldman, Anja Daßler and Jochen Stein took a lot of work off our shoulders.

Last but not least, our thanks go to the wonderful supervision and support of the publisher Volkhard Buchholtz and the production coordinator Katharina Kruse and Hannah Kropla from Logos Verlag in Berlin for everything it takes to bring a book to life.

Fair comments and suggestions for improving the work are always welcome at eppo.olaf@web.de.

Executive Summary: This volume provides a comprehensive overview of Finland’s legal framework and practice regarding EPPO and OLAF investigations.

Part A as initial section offers a general collection of key legal materials that underpin Parts B and C. It compiles case law, statutory sources, and details about relevant Finnish institutions, forming the foundation for understanding subsequent discussions.

Part B presents a compendium of Finnish statutory law pertinent to EPPO-led investigations. It connects the references in the EPPO Regulation to Finland’s national laws, illustrating how criminal investigations are initiated and conducted in the Finnish legal context. The chapter navigates through Articles 26–33 of the EPPO Regulation, providing clarity on investigation procedures.

The final section C focuses on OLAF investigations within Finland. It highlights the conduct of on-the-spot checks and fact-finding missions carried out by OLAF and its Finnish partners during external investigations. To enhance accessibility, the main body is translated into English, while the original Finnish legal texts are preserved in the footnotes for reference.

A. General Collection of Material for Part B and Part C

I. Collection of Cases for OLAF and EPPO for Part B and C

Many EU-wide or any national investigation measures may **potentially infringe on individuals' rights** to privacy and e.g. data protection. Understanding **limitations** imposed by the ECJ or national courts helps EDPs, seconded national experts and case analysts balance the need for effective investigations against protecting individuals' fundamental rights in the sensitive area of **PIF *acquis*** actions. 1

1. Obtaining Case Law (first-instance judgements) in EPPO cases

The collection of national cases is possible with the **Finlex Case-Law Database**.¹ Finnish statistics can be obtained as well.² 2

Obtaining first instance judgements

First instance judgements in Finland are public and have to be directly obtained from the individual courts³. However, the request must be detailed enough for court personnel to know what is required. Alternatively, key appellate court judgements can be requested, some of which provide further detail and description of the first instance judgements. Key appellate court judgements, especially of the Supreme courts, may be found at the Finlex Case-Law Database in Finnish or Swedish language. We thank Dr. *Samuli Miettinen* for providing this valuable insight. 

Nota bene: At the moment of writing there were no special EPPO related judgements known in Finland. EDPs can take a look at the chapters on Germany, Luxemburg, Croatia or Austria for judgements concerning their actions or the material scope of the EPPO in general. See e.g. the Austrian volume on a decision of the ECJ from 23 December 2023 and a case concerning all EDPs (→ Art. 31 EPPO Regulation; Information about the principles of Art. 31 EPPO Regulation can be read in the German volume).

EPPO-Regulation	At the moment there are only a few special judgements of the ECtHR concerning Finland, the EPPO or both known. An overview of cases concerning Finland is provided by the EPPO. ⁴ For general implications of ECtHR judgements in criminal proceedings pls. see the leaflet for an overview ⁵ . EDPs must respect the privilege against self-incrimination when obtaining financial or business records. ⁶ Further information on VAT refund fraud schemes relating to e-services were studied by literature. ⁷ These cases typically feature fraudulent companies manipulating VAT reimbursements through cross-border transactions in e.g. telecom services, where certain operations, especially within the telecom sector, were used to obscure tax obligations.

Practitioners should notify EPPO immediately if potential criminal conduct is identified. Conversely, the EPPO may request OLAF's support for administrative aspects, ensuring effective use of resources while respecting their distinct mandates. The EPPO investigates and prosecutes criminal offences while OLAF carries out administrative investigations and supports the EPPO through operational assistance, information sharing, and follow-up measures like administrative recovery actions.

According to Art. 100 EPPO Regulation and Art. 12a OLAF Regulation, OLAF is obliged to notify EPPO about potential criminal conduct within its competence. The decision whether or not to launch an investigation subsequently rests with EPPO and OLAF suspends its related administrative inquiries unless permitted to continue. In addition, OLAF can also assist EPPO by gathering evidence, conducting interviews and performing analyses (→ Art. 12b), whereby the procedural guaranteed are very important. 6

OLAF may take action on the basis of EPPO findings, namely indirectly through the performance of its own administrative investigations or recommending measures for financial recovery (→ Art. 12e). To prevent any duplicity, OLAF coordinates with EPPO in such a way that its activity does not hinder or interfere with the activity of the EPPO in relation to certain investigations (→ Art. 12f). A cooperation agreement sets out the rules within which the two bodies will communicate with and coordinate with each other (→ Art. 12g). For further details see below → in Part C. 7

erimielisyyden Euroopan syyttäjänviraston ja kansallisen syyttäjäviranomaisen välillä ratkaisee valtakunnansyyttäjä. Valtakunnansyyttäjän päätös on perusteltava ja asia on saatettava Helsingin kärjäoikeuden ratkaistavaksi 14 päivän kuluessa päätöksen tekemisestä.

Mitä 1 momentissa säädetään, ei sovelleta, jos kansallisena syyttäjäviranomaisena asiassa toimii valtioneuvoston oikeuskansleri tai eduskunnan oikeusasiamies. Tällöin valtioneuvoston oikeuskanslerin tai eduskunnan oikeusasiamiehen tulee toimittaa toimivallan käyttöä koskeva asia Helsingin kärjäoikeuden ratkaistavaksi 14 päivän kuluessa heidän toimivallan käyttöä koskevan päätöksensä tekemisestä.

Kärjäoikeuden tulee varata Euroopan syyttäjänvirastolle ja asiaa hoitaneelle syyttäjälle tilaisuus tulla kuulluksi asiassa. Asian käsittelystä on muutoin soveltuvien osin voimassa, mitä hakemusioiden käsittelystä säädetään. Asia on käsiteltävä kiireellisenä.

Kärjäoikeus on päätösvaltainen, kun siinä on yksin puheenjohtaja. Asian käsittelyssä kertyneiden oikeudenkäyntiasiakirjojen ja suullisen istunnon julkisuudesta säädetään oikeudenkäynnin julkisuudesta yleisissä tuomioistuimissa annetun lain (370/2007) 16 a §:ssä.

Prosecutor's Office and the national public prosecutor's office concerning the exercise of the powers referred to in Article 25 (6) of the EPPO Regulation shall be settled by the Public Prosecutor. The decision of the Public Prosecutor must be substantiated and the matter must be brought before the Helsinki District Court within 14 days of the decision being made.

The provisions of subsection 1 do not apply if the Chancellor of Justice of the Government or the Parliamentary Ombudsman acts as the national prosecuting authority in the matter. In this case, the Chancellor of Justice of the Government or the Parliamentary Ombudsman must submit the matter concerning the exercise of competence to the Helsinki District Court for resolution within 14 days of the decision on the exercise of their competence.

The district court must give the European Public Prosecutor's Office and the prosecutor in charge the opportunity to be heard. Otherwise, the provisions on the handling of applications shall apply *mutatis mutandis* to the handling of the matter. The matter must be dealt with as a matter of urgency.

The district court has a quorum when it has a sole president.

Section 16a of the Act on Public Access to Proceedings in General Courts (370/2007) provides for the public access to court documents and the oral hearing.

Käräjäoikeuden ratkaisuun saa hakea muutosta valittamalla korkeimpaan oikeuteen, jos korkein oikeus oikeudenkäymiskaaren 30 luvun 3 §:n nojalla myöntää valitusluvan. Menettelyyn sovelletaan soveltuvin osin, mitä rikoksen johdosta tapahtuvasta luovuttamisesta Suomen ja muiden Euroopan unionin jäsenvaltioiden välillä annetun lain (1286/2003) 38–42 §:ssä asiasta säädetään.

10 § Pakkokeinojen käyttäminen
 EPPO-asetuksen 30 artiklan 1 ja 4 kohdassa tarkoitettuja toimenpiteitä ovat kiinniottaminen, pidättäminen, vangitseminen, tutkinta-aresti, yhteydenpidon rajoittaminen, matkustuskielto, tehostettu matkustuskielto, vakuustakavarikko, takavarikko, asiakirjan jäljentäminen, etsintä, datan säilyttämismääräys, tutkimuspaikan tai -kohteen eristäminen, henkilötuntemerkkien ottaminen, DNA-tunnisteen määrittäminen, telekuuntelu, tietojen hankkiminen telekuuntelun sijasta, televalvonta, sijaintitietojen hankkiminen epäillyn ja tuomitun tavoittamiseksi, tukiasematietojen hankkiminen, suunnitelmallinen tarkkailu, peitelty tiedonhankinta, tekninen tarkkailu, peitetoiminta, valeosto, tietolähteen ohjattu käyttö ja valvottu läpilasku.
 Jos EPPO-asetuksen 31 artiklan mukainen rajat ylittävä tutkinta edellyttää 1 momentissa tarkoitettua pakkokeinon käyttöä, pakkokeinon käytön edellytyksenä on, että se olisi Suomen lain mukaan sallittua, jos tutkittavana

The decision of the district court may be appealed to the Supreme Court if the Supreme Court grants leave to appeal pursuant to Chapter 30, Section 3 of the Judicial Procedure Code. The provisions of sections 38–42 of the Act on Extradition between Finland and other Member States of the European Union (1286/2003) apply *mutatis mutandis* to proceedings.

Section 10 Use of coercive measures

The measures referred to in paragraphs 1 and 4 of Article 30 of the EPPO Regulation include apprehension, arrest, imprisonment, investigative arrest, restriction of contact, travel ban, enhanced travel ban, collateral forfeiture, confiscation, copying of a document, search, data retention order, isolation of a research site or site, taking personal identification marks, determining a DNA identifier, wiretapping, obtaining information instead of wiretapping, telemonitoring, obtaining location information to reach suspects and convicts, obtaining base station data, planned surveillance, covert information acquisition, technical surveillance, covert operations, fake purchase, controlled use of information source and controlled check-in.

If a cross-border investigation pursuant to Article 31 of the EPPO Decree requires the use of a coercive measure referred to in subsection 1, the use of a coercive measure is conditional on it being

oleva teko olisi tehty Suomessa vastaavissa olosuhteissa.

Pakkokeinojen käytöstä päättämisessä ja niitä käytettäessä noudatettavasta menettelystä säädetään EPPO-asetuksen 32 artiklassa ja muualla laissa.

11 § Rajat ylittävät tutkintatoimenpiteet
Jos EPPO-asetuksen 31 artiklan mukainen rajat ylittävä tutkinta edellyttää Suomessa vastaavissa olosuhteissa muun viranomaisen kuin asiaa käsittelevän valtuutetun Euroopan syyttäjän päätöstä, tällainen päätös on haettava tutkintatoimenpiteen perusteeksi.

12 § Ylimääräisen tiedon ja henkilötuntemerkkien luovuttaminen
Jos EPPO-asetuksen 31 artiklan mukainen rajat ylittävä tutkinta edellyttää pakkokeinolain (806/2011) 10 luvun 55 §:ssä tarkoitetun ylimääräisen tiedon luovuttamista toiseen Euroopan unionin jäsenvaltioon, tiedon luovuttamisen edellytyksenä on, että tietoa voitaisiin käyttää mainitun luvun 56 §:n 1, 2 tai 4–6 momentin mukaisesti Suomessa vastaavassa tilanteessa.

Pakkokeinolain 9 luvun 3 §:n 2 momentissa tarkoitetun tiedon luovuttamiseen sovelletaan, mitä mainitussa momentissa säädetään.

13 § Asian käsittelyn lopettaminen ja päätöksen tiedoksi antaminen Euroopan syyttäjänviraston päätöksestä lopettaa

permitted under Finnish law if the act under investigation had been committed in Finland in similar circumstances.

The procedure for deciding on the use and use of coercive measures is laid down in Article 32 of the EPPO Regulation and elsewhere in the law.

Section 11 Cross-border investigative measures

If, in similar circumstances, a cross-border investigation under Article 31 of the EPPO Regulation requires a decision of an authority other than the authorised European Public Prosecutor in Finland, such a decision must be applied for as a basis for the investigative measure.

Section 12 Disclosure of additional information and personal identification marks If a cross-border investigation under Article 31 of the EPPO Regulation requires the transfer of additional information referred to in Chapter 10, Section 55 of the Coercive Measures Act (806/2011) to another Member State of the European Union, the disclosure is subject to Article 56 (1), (2) or in accordance with subsections 4–6 in a similar situation in Finland.

The provisions of the said subsection shall apply to the disclosure of information referred to in Chapter 9, Section 3, Subsection 2 of the Coercive Measures Act.

Section 13 Closure of the case and notification of the decision The decision of the European Public Prosecutor's Office

EPPO-asetuksen 39 artiklassa säädetyllä tavalla sen toimivaltaan kuuluvan rikosasian käsittely ilman asian käsitte- lyn siirtämistä kansalliselle syyt- täjäviranomaiselle ilmoitetaan rikosasian asianosaiselle soveltaen, mitä tiedoksian- nosta oikeudenkäynnistä rikosasioissa annetun lain (689/1997) 1 luvun 9 §:ssä säädetään.

14 § Euroopan syyttäjän ja valtuutetun Euroopan syyttäjän tiedonsaantioikeus Mitä syyttäjän tiedonsaantioikeudesta säädetään Syyttäjälaitoksesta annetun lain 22 §:ssä, sovelletaan myös Euroopan syyttäjään ja valtuutettuun Euroopan syyttäjään näiden hoitaessa EPPO-aset- uksen mukaisia tehtäviään. Mitä tietojen luovuttamisesta syyttäjälle säädetään henkilötietojen käsittelystä poliisi- toimessa annetussa laissa (616/2019), henkilötietojen käsittelystä Rajavartio- laitoksessa annetussa laissa (639/2019), henkilötietojen käsittelystä Tullissa an- netussa laissa (650/2019) ja muussa laissa, sovelletaan myös tietojen luovut- tamiseen Euroopan syyttäjälle ja valtu- utetulle Euroopan syyttäjälle näiden hoi- taessa EPPO-asetuksen mukaisia tehtäviään.

15 § Pääsyoikeuden myöntäminen asianhallintajärjestelmään Valtuutettu Euroopan syyttäjä voi käsit- telemiensä asioiden osalta pyynnöstä myöntää pääsyoikeuden toiselle valtu- utetulle Euroopan syyttäjälle Euroopan

The provisions on the transfer of data to the prosecutor in the Act on the Pro- cessing of Personal Data in Police (616/2019), the Act on the Processing of Personal Data at the Border Guard (639/2019), the Act on the Processing of Personal Data in Customs (650/2019) and other law also apply to the transfer of data to the European Public Prosecutor and the European the prosecutor in the performance of their duties under the EPPO Regulation.

syyttäjänviraston asianhallintajärjestelmässä säilytettyihin tietoihin, jos pääsy on tarpeen EPPO-asetuksessa säädettyjen tehtävien hoitamiseksi.

16 § Luvan antaminen henkilötietojen siirtämiseen kolmannelle maalle tai kansainväliselle järjestölle

EPPO-asetuksen 80 artiklan 1 kohdan c alakohdassa tarkoitetun ennakkoluvan henkilötietojen edelleen siirtämiseen kolmannelle maalle tai kansainväliselle järjestölle voi antaa alkuperäisen siirron toteuttanut toimivaltainen viranomainen. Ennakkolupaa koskevaa asiaa ratkaistaessa on otettava asianmukaisesti huomioon rikoksen vakavuus, henkilötietojen alkuperäisen siirron tarkoitus ja muut asiassa merkitykselliset seikat.

B. EPPO-Regulation

I. Introduction by the National Expert

1. Finnish criminal procedure and the European Public Prosecutor's Office (EPPO) Criminal procedure and its safeguards in Finland– general characteristics¹⁰

Author: *Raimo Lahti* (Professor emeritus, University of Helsinki, Finland)

In **Finnish procedural law**, the traditionally recognized basic elements of due process or fair trial are the right to access to court, an independent and impartial tribunal, the presumption of innocence, and guarantees of procedural rights. It is noteworthy that these procedural principles and rules are applicable to all kinds of offences (including corporate and corporate-related crime), except that summary (simplified) penal proceedings and fixed fine penal proceedings for minor offences have some specific features which make the proceedings more expeditious and cost-effective. It has also increasingly been introduced administrative penal sanctions, especially so-called administrative fines, in the fields of corporate and financial offences.¹¹

1

A **fundamental principle** that reflects the presumption of innocence is favor defensionis (in favour of the defence). This ‘*meta*’ principle implies specifying principles, most importantly the principle of *nemo tenetur se ipsum accusare* or privilege against self-incrimination (an individual may not be compelled to testify against him-/herself and has the right to silence) and the principle of *in dubio pro reo* (in case of doubts about the guilt the accusation shall be dismissed). The burden of proof is on the prosecutor.

2

The **Finnish legal system** has long represented a model of a democratic *Rechtsstaat* where democracy and fundamental rights are regarded as complementary principles in a strong sense: there is neither judicial review nor a constitutional court for reviewing the constitutionality of laws; rather, the conformity of a bill to the constitution is reviewed only during the legislative process.¹² Therefore, the ratification of the European Convention on Human Rights and Fundamental Freedoms (ECHR) and the reform of constitutional rights in the 1990s were remarkable because they implied the direct applicability of the fundamental rights of individuals in the courts.

¹² See, e.g. Jyränki 1991, pp. 6–30.

- 4 In May 1990 Finland ratified the ECHR, accepted the jurisdiction of the European Court of Human Rights (ECtHR), and recognized the right of individual petition. The ECHR and other important human rights treaties have been incorporated through an Act of Parliament in blanco. Because of the predominance of the incorporation method, Finland can be said to represent dualism in form but monism in practice when implementing international law into the domestic legal order. This implementation method affects the application of human rights treaties.
- 5 The **Parliamentary Constitutional Law Committee** has confirmed the following principles: the hierarchal status of the domestic incorporation act of a treaty determines the formal rank of the treaty provisions in domestic law (i.e. their rank is normally that of an Act of Parliament), incorporated treaty provisions are in force in domestic law according to their contents in international law, and the courts and authorities should resort to ‘human-rights-friendly’ interpretations of cases having domestic status in order to avoid conflicts between domestic law and human rights law.¹³
- 6 New provisions on the fundamental rights in the **Finnish Constitution** were enacted in 1995, and they were included into the new Constitution of 1999. The new provisions on these basic rights, which are much more detailed than the earlier ones, for instance those concerning not only fundamental freedoms but also social rights, have been essentially inspired by the international human rights treaties. From the point of view of criminal law, there are important new provisions, for example on the legality principle in criminal law (corresponding to Article 7 ECHR) and the provision stating that a punishment entailing deprivation of liberty can only be imposed by a court.
- 7 Several of the enacted constitutional provisions reference both basic and human rights, thus giving semi-constitutional status to human rights treaties.¹⁴ The *travaux préparatoires* for this reform emphasize the fact that the constitutional provisions are also directly applicable in the administration of law by judges and authorities, and so their binding effect is not restricted to law-making only. In addition to the ‘human-rights-friendly’ interpretation of the law, a similar ‘basic-rights-friendly’ interpretation is recommended, although the prohibition of courts to examine the constitutionality of Acts of Parliament was maintained.
- 8 The requirements of *Rechtsstaatlichkeit* (the constitutionally governed state) include several criteria which should be applied in constitutionally governed states (like Finland): first, anticipatory guarantees such as the general principles limiting the use of (substantive) criminal law and the principles concerning the organization of the judiciary; second, the procedural rules regarding the different phases of criminal proceedings; and, third, the methods of appeal in criminal proceedings and the supervision of the

administration of justice. Major reforms of criminal procedural law have been carried out during the last thirty years.

Legislation on the **pre-trial investigation and coercive measures** in criminal proceedings was reformed in 1989 (and replaced by new Acts of 2011¹⁵), the lower court system was restructured in 1993, the public prosecution authorities were reorganized in 1996, a comprehensive reform of criminal procedure in the lower courts was carried out in 1997,¹⁶ and the provisions on the Court of Appeal procedure in 1998. The Judicial Procedure Code, which dates back to the year 1734 under Swedish rule, has been revised innumerable times; in 2015 (732/2015), a crucial reform targeted its chapter 17 on evidence.¹⁷ **9**

There are two special features in the institutions and actors of Finnish procedural law: **10** first, the **pre-trial investigations** are led by senior police officers and not by prosecutors or judges. The decision as to whether an apprehended suspect is to be arrested must be made within 24 hours by a senior police officer or the prosecutor. A request that a person under arrest be remanded for trial shall be made to a court without delay and not later than noon on the third day following the day of apprehension. The court has also an important role in deciding on the use of covert coercive measures. The prerequisites for these measures are regulated in detail by the legal Act; covert coercive measures include telecommunications interception, the obtaining of data other than through telecommunications interception, traffic data monitoring, obtaining base station data, extended surveillance, covert collection of intelligence, technical surveillance (on-site interception, technical observation, technical monitoring and technical surveillance of a device), obtaining data for the identification of a network address or a terminal end device, covert activity, pseudo-purchase, the use of covert human intelligence sources, and controlled delivery.

Second, the office of the prosecutor general is an independent authority outside the judicial administration of the Ministries of Justice and Interior. When the legislation on criminal proceedings was modernized in the 1990s, the main model was Sweden's accusatorial (adversarial) type of trial. The accusatorial principle requires that the judge be an impartial third party, so that all the activities of bringing the criminal charge forward are handled by a separate official, the prosecutor, and his or her role is significant. **11**

¹⁵ Unofficial English translations of these Acts are available on the website of the Ministry of Justice: Criminal Investigation Act (805/2011), as it was in force in 2015 (736/2015), and Coercive Measures Act (806/2011), as it was amended up to 1146/2013: https://www.finlex.fi/fi/laki/kaannokset/2011/en20110805_20150736.pdf; and <https://www.finlex.fi/fi/laki/kaannokset/2011/en20110806>.

- 12** In addition to the **accusatorial principle**, the other leading principles governing the main hearing in the proceedings are the requirements of orality and immediacy. Therefore, all pleadings shall, as a rule, be oral, and the opposing party has the right to cross-examine all evidence presented against him/her. The acceptability of evidence other than oral evidence in open court is very restricted.
- 13** The increased awareness among decision-makers of the importance of human rights and, later, of the constitutional rights affected the contents of the procedural reforms and still affects the application of procedural law. The most important Supreme Court decisions since the beginning of the 1990s, whenever human rights norms were directly applied, address criminal procedural law and particularly the fair trial requirements. The **constitutional reform** produced some new provisions on basic rights, mostly equivalent to the corresponding articles in international human rights treaties but more extensive in some respects.
- 14** In the most recent years, ECtHR case law has influenced especially the fair trial guarantees of evidentiary procedure (such as the privilege against self-incrimination and the exclusion of unlawfully obtained evidence) and the significance and contents of the ‘ne bis in idem’ principle. In these respects, Finnish procedural law has been reformed and applied in line with the practice of the ECtHR and, when necessary, in line with the judgments of the Court of Justice of the EU (CJEU). For instance, explicit provisions have been included in the revised Judicial Procedure Code (chapter 17, sections 18 and 25; 732/2015) on the privilege against self-incrimination and on the exclusion of unlawfully obtained evidence.
- 15** A separate legal Act (781/2013) on the **prohibition of double jeopardy** (i.e., a prohibition against the cumulative use of criminal punishment and administrative penal fee) was introduced for tax fraud cases. Accordingly, as a rule, no charges may be brought nor court judgments passed if the same person in the same case has already incurred a punitive tax or customs increase (PC 29:11).
- 16** The reformed evidence law regulated in **chapter 17 of the Judicial Procedure Code** contains – in addition to clarifying general provisions and provisions on the obligation or **right to refuse to testify** – innovative provisions, such as the above-mentioned provisions on the privilege against self-incrimination and on the exclusion of unlawfully obtained evidence. There are also new provisions on secret evidence and anonymous witness. If, in very serious criminal cases, the protection of the identity of an anonymous witness is required (to protect against a threat against life or health), he or she can be heard in the **main hearing** behind a screen or without the presence of the defendant or, without being present in person, by telephone, video contact, or other suitable means of communication. In the hearing, the voice of the witness may also be altered to protect the anonymous witness against recognition by voice. (See chapter 17, sections 51–53,

of the Code of Juridical Procedure; and chapter 5, sections 11a–b, of the Criminal Procedure Act.)

A new legislation on **consensual proceedings** was enacted in 2014 (670/2014) as part of the revision of the Criminal Procedure Act. The new legislation maintains the legality principle in prosecution as a main rule, but the exceptions – grounds for waiving prosecution – have become more extensive. One of the grounds for waiving prosecution is that criminal proceedings and punishment are deemed to be unreasonable or inappropriate in view of a settlement reached by the suspect in the offence and the injured party, the other action of the suspect in the offence to prevent or remove the effects of the offence (chapter 1, section 8). **17**

One innovation concerns the introduction of **plea bargaining**, which is intended to be applied particularly in complicated cases of economic and corporate crime. Accordingly, the prosecutor may, on his or her own motion or on the initiative of the injured party, take measures for the submission and hearing of a proposal for judgment in confession proceedings. The prosecutor must use his or her discretion in considering the nature of the case and the claims to be presented, the expenses apparently resulting from, and the time required for, a hearing in confession proceedings on one hand and in the normal procedure on the other. Preconditions for confession proceedings are that the suspect in the offence in question admits having committed the suspected offence and consents to confession proceedings as well as that the injured party has no claims in the case or consents to confession proceedings. The prosecutor must commit to requesting punishment on a scale mitigated by one-third. The proposal for judgment will be handled and confirmed by the court. (chapter 1, sections 10–11 and chapter 5b, Criminal Procedure Act.) It should be noted that the mitigation of punishment applies only to the actor’s own guilty plea and not to testimony on the guilt of accomplices. **18**

2. The establishment of European Public Prosecutor’s Office (EPPO) and its effect on the Finnish procedural law

The **establishment of EPPO and Finland** being one of the sixteen Member States which requested the opening of the enhanced cooperation procedure, was not a self-evident issue in the Finnish legal discussion.¹⁸ The official view was modified towards a positive one after the most of the negotiating goals of Finland were achieved. **19**

As Petri Freundlich et al. express it, the major issues were: the opinion of the Council Legal service was taken into account in the final version of the Regulation regarding EPPO competences; the EPPO will function in accordance with national procedural rules of each Member State, and the regulation does not require any changes in the divi- **20**

¹⁸ As for the discussion, see e.g. Lahti 2021, pp. 371–380. (Open access: <https://edition.fi/lakimiesyhdistys/catalog/book/121>). I have in my academic writings supported the idea from the beginning since 2002.

sion of competences between the police and power (cf. above); the **EPPO's structure** is collegiate in nature; and the EPPO Regulation has sufficient references to relevant fundamental rights provisions.¹⁹

- 21** A special law supplementing the provisions of the EPPO Regulation was proposed to be enacted, i.e. the Act on Finland's Participation in the Activities of the European Public Prosecutor's Office (later: **EPPO Act**). This Act was ratified on 15 January 2021 (Act No. 66/2021). In addition, on the basis of provisions in the Regulation it was proposed to make changes to the Criminal Investigation Act (805/2011), to the Criminal Procedure Act (689/1997), to the Act on the National Prosecution Authority (32/2019)²⁰, to the Act on Surrender Procedures between Finland and Other Member States of the European Union (1286/2013)²¹, to the Act on Extradition between Finland and Other Nordic Countries /1383/2007), and to the Act on the Publicity of Court Proceedings in General Courts (370/2007)²². These legislative changes were made in connection with the enactment of the EPPO Act.
- 22** The aim of the EPPO Act was to make additions to the legislation only to the extent that it was necessary to clarify the provisions of the EPPO regulation.²³ The key provisions of the EPPO Act are related to the provisions on appointment and competence of the EPPO's staff of European Prosecutors and European Delegated Prosecutors, the criminal cases within the competence of the EPPO as for the investigation and the coercive measures used in it, as well as data protection and the EPPO's access to information.²⁴
- 23** First, in the EPPO Act the naming procedure by which Finland nominates national candidates for the European Prosecutor and European Delegated Prosecutors was regulated. The regulation of the the procedure for appointing these EPPO's staff members was implemented so that the nomination was maintained at the member state level. In both naming procedures the Council of State acts as the appointing authority.
- 24** In the **case of the European Prosecutor**, the Council of State would make its decision on the proposal of the Ministry of Justice, and the Office of the Prosecutor General has an opportunity to give a statement about the candidates. Mr. Harri Tiensuu, who has qualified in prosecutor's tasks and was the National Member for Finland at Eurojust in

²³ In a corresponding way the Regulation (EU) 2018/1805 of 14 November 2018 on the mutual recognition of freezing orders and confiscation orders was earlier implemented in Finland: see the Act of 895/2020 (27 November 2020).

²⁴ The following examination is based on the Government Bill 184/2020 (*travaux préparatoires* of the EPPO Act), esp. ch. 4.1.

2011–2015, is now the European Prosecutor from Finland. Candidates for European Delegated Prosecutors the Council of State would appoint on the proposal of the Office of the Prosecutor General. State Prosecutors Ms. Ritva Sahavirta and Mr. Tuomas Soosalu are now the **European Delegated Prosecutors in Finland**.

The EPPO Act also includes **provisions supplementing Article 30** of the EPPO Regulation on the coercive measures in criminal procedure. The purpose of this re-gulation is to clarify that article of the EPPO Regulation of coercive measures, especially the correspondence of the listed coercive measures to the valid coercive measures according to the Coercive Measures Act. **25**

The EPPO Act does **not regulate new types of coercive measures** or to change existing one's contents of coercive measures. Regarding investigative situations that cross borders, the EPPO Act prescribes that as a prerequisite for coercive measures requested from another EPPO member state and taking place in Finland would be that the use of coercive measures would be permitted under similar circumstances under Finnish law. **26**

Regarding **cross-border measures of coercion**, the EPPO Act also includes the provisions that if a cross-border investigative measure would require in Finland the decision of an authority other than the prosecutor, such a decision should always be applied for in the investigation as a basis for the measure. **27**

The EPPO Act further states that in matters falling within the competence of the EPPO, the competent submission of the license application to the Supreme Court would belong to the EPPO. In addition, the prosecuting the criminal case in the Supreme Court would belong to the authorised European Delegated Prosecutor on behalf of the EPPO. This regulation would supplement Article 36 of the EPPO Regulation regarding the prosecution in a national court. **28**

A new subsection 2 was added to Section 1 of Chapter 5 of the **Criminal Investigation Act** as a supplement the provisions of Article 24 of the EPPO Regulation on reporting a criminal case under the jurisdiction of the EPPO. Accordingly, the preliminary investigation authority should inform the prosecutor about the criminal case that has come up for investigation and, based on the facts that have come, could fall within the competence of the EPPO. Notification after this further to the EPPO would take place by the national prosecuting authority in accordance with Section 7 of the EPPO Act. **29**

The EPPO Act contains provisions on the **transfer of personal data** from the national authority to the EPPO as well as provisions on the right of the European Prosecutor and European Delegated Prosecutors to receive information from national authorities when they carry out their tasks under the EPPO Regulation. According to the Act, the right of access to information would correspond in scope to national prosecutors' rights stipulated in the current legislation. **30**

- 31** In addition, the Act states that the European Delegated Prosecutor could grant other EPPO authorised European Delegated Prosecutors the **right of access to data stored in EPPO's case management system**, should it be necessary to carry out the tasks in accordance with the EPPO Regulation. The provision supplements Provisions of Article 46 of the EPPO Regulation.
- 32** The provisions concerning the competence of European Prosecutor and European Delegated Prosecutors were added into Act on Surrender Procedures between Finland and Other Member States of the European Union and into the Act on Extradition between Finland and Other Nordic Countries. These provisions supplement Article 33 and Article 104 of the EPPO Regulation.

3. Some additional observations on the EPPO and Finland

- 33** In the notification, dated on 29 January 2021, the Ministry of Justice has notified i.a. to the European Chief Prosecutor about the national substantive criminal provisions of the Criminal Code of Finland which are applicable to the offences defined in Directive (EU) 2017/131.
- 34** In the *travaux préparatoires* of the EPPO Act, it was assessed that in Finland there will be only few cases which should belong to the competence of EPPO.²⁵ The annual reports of EPPO confirm this assumption: at the end of 2021 there were 4 active investigations and at the end of 2022 in all 9 active investigations (6 of them opened in 2022).²⁶

²⁵ See Government Bill 184/2020, ch. 4.5 (p. 102).

35

In 2019 and 2020 the Finnish Government (including Anna-Maja Henriksson as Finland's Minister of Justice in this time) and the Finnish Parliament started to design the legal setting for EPPO actions in Finland²⁷ i.e. on Finnish territory, which is since Finland, unlike other countries such as Poland and Hungary (see → within the compendium volumes), joined the EPPO enhanced cooperation mechanism EPPO territory.

The **competent authority** for the implementation of Regulation (EU) 2017/1939c was appointed. Since 6.10.22 Finnish EDPs²⁸ and EP²⁹ are investigating EU frauds on their own.³⁰ In 2021 the regional office was already set up in the capital of Helsinki. The office can be contacted quite easily.³¹ A judgement was not reached as of 2022 and the first EPPO Annual Report 2021 had not much to report about Finnish Cases.³² Compared to the cases handled by Eurojust³³ and *Lilja Limingoja*³⁴ with a connection to Finland, the figures are still very low but the reason for that is the long-lasting EDP debate. 36

The following volume chapter shall offer an **introduction into the applicable laws and provisions**. First of all, a Synopsis of the Finnish EPPO Adoption Act was presented (see above → III. "Sources of Law"). Secondly, the Chapter takes a close look at the national provisions that remain applicable – even if the EPPO Adoption Act exists and can be seen as *lex specialis* to the common Finnish provisions in the criminal justice sector. 37

One focus of the Chapter is on **examining finish investigative powers**. These are regulated in the EU Regulation in Art. 30 and have already been examined in the past. They are important to the EPPO and foreign EDPs, as well as the lawyers and defense attorneys, as well as ordinary Union citizens who import or export things to Finnish ports and trade with Finland all over the world. 38

³⁴ She was appointed National Member for Finland on 1 August 2019.

- 39** For example, **special customs regulations** already apply at the ports of Finland, which can give rise to fraud at the expense of the Union. For example, an anti-dumping duty could apply, whereby officials could suspect that this was not paid and that this was done knowingly and with deceptive intent. This behaviour would then call for rapid i.e. urgent investigative action by the officers. A decision must be made as to whether there is a suspicion of a crime.
- 40** If this is not the case, there can at least be the suspicion of an administrative violation, which calls OLAF, the administrative anti-fraud authority, into action (see → Part C and Art. 12e OLAF Regulation³⁵).³⁶
- 41** If there is a suspicion of a crime, Art. 26 and 27 of the EPPO Regulation apply (see → Part B). As these two articles refer to national law numerous times, the compendium will present the national regulations in Finnish or Swedish and English to enable understanding and finding the right national regulations.
- 42** Art. 26 explains the process of the so-called **EPPO Crime Reports**, i.e. reports to the EPPO from Finland or other natural and legal persons. Art. 28 is dedicated to the specific conduct of the investigations. Art. 29 deals with the national provisions for immunities of Members of Parliament, which may become important in relation to activities. Finally, the fundamental articles follow: Art. 30–32 EPPO Regulation. Art. 33 refers to the law of detention and investigation and is important because fraud investigations can often take longer than expected. To secure the potential criminal process, the suspects are therefore secured.

1. Where, **in accordance with the applicable national law**, there are **reasonable grounds to believe that** an offence within the competence of the EPPO is being or has been committed, a European Delegated Prosecutor in a Member State which **according to its national law** has jurisdiction over the offence shall, without prejudice to the rules set out in Article 25(2) and (3), initiate an investigation and note this in the case management system.

2. Where upon verification in accordance with Article 24(6), the EPPO decides to initiate an investigation, it shall without undue delay inform the authority that reported the criminal conduct in accordance with Article 24(1) or (2).

3. Where no investigation has been initiated by a European Delegated Prosecutor, the Permanent Chamber to which the case has been allocated shall, under the conditions set out in paragraph 1, instruct a European Delegated Prosecutor to initiate an investigation.

4. A case shall as a rule be initiated and handled by a European Delegated Prosecutor from the Member State where the focus of the criminal activity is or, if several connected offences within the competences of the EPPO have been committed, the Member State where the bulk of the offences has been committed. A European Delegated Prosecutor of a different Member State that has jurisdiction for the case may only initiate or be instructed by the competent Permanent Chamber to initiate an investigation where a deviation from the rule set out in the previous sentence is duly justified, taking into account the following criteria, in order of priority:

- (a) the place of the suspect’s or accused person’s habitual residence;
- (b) the nationality of the suspect or accused person;
- (c) the place where the main financial damage has occurred.

5. Until a decision to prosecute under Article 36 is taken, the competent Permanent Chamber may, in a case concerning the jurisdiction of more than one Member State and after consultation with the European Prosecutors and/or European Delegated Prosecutors concerned, decide to:

- (a) reallocate the case to a European Delegated Prosecutor in another Member State;

(b) merge or split cases and, for each case choose the European Delegated Prosecutor handling it,

if such decisions are in the general interest of justice and in accordance with the criteria for the choice of the handling European Delegated Prosecutor in accordance with paragraph 4 of this Article.

6. Whenever the Permanent Chamber is taking a decision to reallocate, merge or split a case, it shall take due account of the current state of the investigations.

7. The EPPO shall inform the competent national authorities without undue delay of any decision to initiate an investigation.

a) Initiation of Investigations by virtue of Art. 26 para 1 EPPO Regulation

Art. 26 needs to be seen independently from Art. 27. It stands on its own and describes **a principle of legality at Union level**, which has the effect of protecting the Union’s (own) financial interests. 2

In Finnish Law the Pre-Trial Investigation Act and the Criminal Procedure Act apply regarding the initiation of investigations. The Assessment Committee for the EPPO Adoption Act proposed to amend the Chapter 2, Section 11 of the Public Prosecutor’s Office Act. 3

All in all, at least three different areas for the initiation of investigations must be distinguished: 1) the area of general fraud offences, forgery offences, bribery or corruption offences stipulated by the Criminal Code of Finland; 2) the customs revenue fraud offences, anti-dumping duty offences etc. which are either assessed by the fraud offences in the Criminal Code or the special minor offences in the Customs Act and 3) the tax 4

fraud offences damaging the EU budget such as VAT revenue fraud offences (VAT carousels etc.), expenditure frauds related to tax offences.

- 5 This separation clearly indicates that the competent authorities in these areas will most likely be the first state officials to register the signs of a potential crime, violation of a prohibition, peculiar behaviour, behaviour bordering on legality, deceptive behaviour, presentation of deeds or certificates, submission of references (origin), receipt of subsidy benefits etc. Frequently, even non-declarations, i.e. the silence of the relevant person such as an economic operator can trigger obligations, this would raise the suspicion of neglected behaviour. The customs offices e.g. have the obligation to notify these signs (see → Art. 24 et seq. EPPO Regulation, Art. 27 below so that the EPPO can either directly investigate on its own or evocate the case):

Customs Crime Prevention Act

Section 4³⁷ Duties and powers of the Customs Crime Prevention customs officer

In addition to what is stipulated in this law, the duties, powers and obligations of the customs officer for the prevention of customs crime are stipulated in the Customs Act and the Act on Customs Administration (960/2012).

In a preliminary investigation conducted by Customs, a customs officer from Customs Crime Prevention has the same right to take investigative measures in accordance with the Pre-Trial Investigation Act and use coercive measures in accordance with the Coercive Measures Act as a police officer in a preliminary investigation conducted by a police authority, unless otherwise stipulated in this Act or another law.

Chapter 2 Customs' powers in the fight against customs crime

Section 1³⁸ (30.1.2018/116) Customs crime preliminary investigation

The pre-liminary investigation of the customs criminal case is carried out by the Customs. The pre-trial investigation can also be carried out by the police in the event that it has become aware of a customs crime and the said authorities do not agree otherwise.

³⁷ 4 § Laki rikostorjunnasta Tullissa

Tullirikostorjunnan tullimiehen tehtävät ja toimivaltuudet

Sen lisäksi, mitä tässä laissa säädetään, tullirikostorjunnan tullimiehen tehtävistä, toimivaltuuksista ja velvollisuuksista säädetään tullilaissa ja Tullin hallinnosta annetussa laissa (960/2012).

Tullirikostorjunnan tullimiehellä on Tullin suorittamassa esitutkinnassa sama oikeus ryhtyä esitutkintalain mukaisiin tutkintatoimenpiteisiin ja käyttää pakkokeinoin mukaisia pakkokeinoja kuin poliisimiehellä poliisiviranomaisen suorittamassa esitutkinnassa, jollei tässä laissa tai muussa laissa toisin säädetä.

³⁸ 2 luku

Tullin toimivaltuudet tullirikostorjunnassa

1 § (30.1.2018/116) Laki rikostorjunnasta Tullissa

Tullirikoksen esitutkinta

Tullirikosasian esitutkinnan toimittaa Tulli. Esitutkinnan voi toimittaa myös poliisi siinä tapauksessa, että se on saanut tullirikoksen tietoonsa eivätkä mainitut viranomaiset toisin sovi. Rajavartiolaitoksen oikeudesta toimittaa tullirikosasian esitutkinta säädetään rikostorjunnasta Rajavartiolaitoksessa annetun lain (108/2018) 3, 5 ja 8 §:ssä.

The right of the Border Guard to conduct a preliminary investigation of a customs criminal case is regulated in Sections 3, 5 and 8 of the Act (108/2018) on crime prevention in the Border Guard.

Section 2³⁹ Notification obligation

Customs must notify the police of a suspected serious crime that has come to its attention and of the measures it has initiated to investigate such a crime. The crimes covered by the reporting obligation and the practical implementation of the reporting are agreed upon in cooperation between Customs and the police.

Section 4⁴⁰ Director of investigations

In the preliminary investigation conducted by the Customs, the head of the investigation is a Customs official entitled to arrest as referred to in Chapter 2, Section 9, Subsection 1, Clause 2 of the Coercive Measures Act. Another customs officer working in customs crime prevention duties may, based on the order he received, lead an investigation for quality-related or other similar justified reasons.

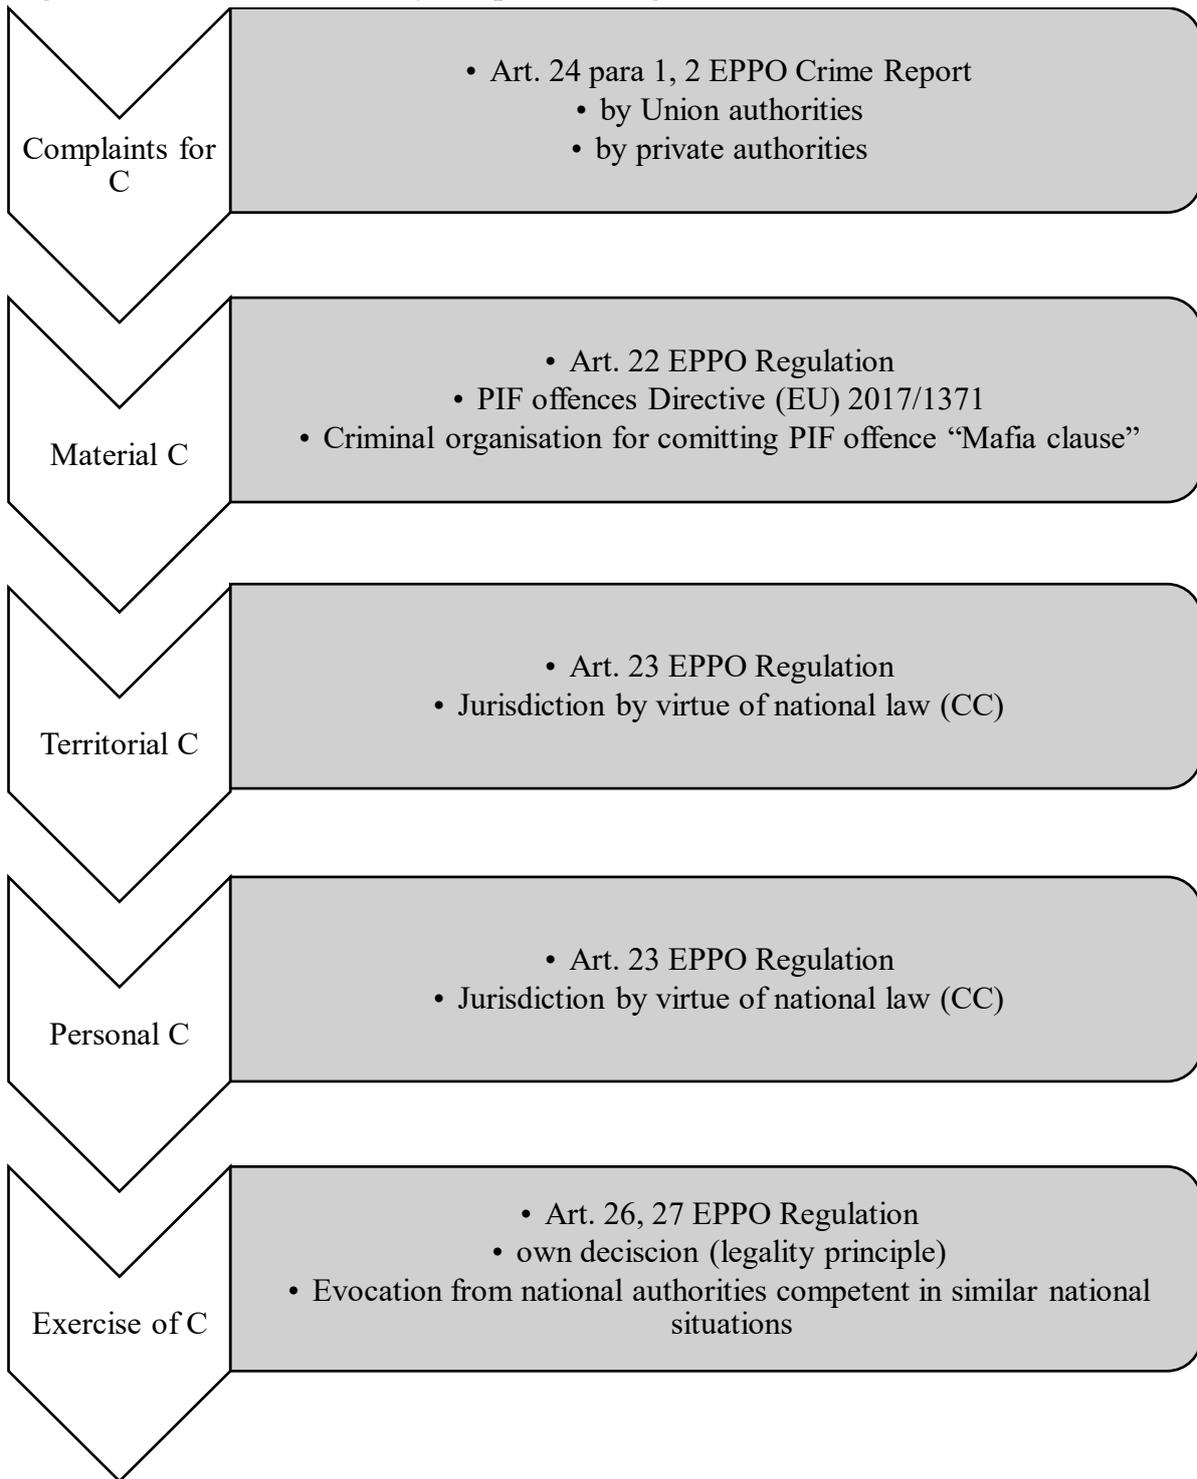

³⁹ 2 § Laki rikostorjunnasta Tullissa
Ilmoittamisvelvollisuus

Tullin on ilmoitettava poliisille tietoonsa tulleesta epäilystä vakavasta rikoksesta ja käynnistämästään toimenpiteestä sellaisen rikoksen selvittämiseksi. Ilmoitusvelvollisuuden piiriin kuuluvista rikoksista ja ilmoituksen käytännön toteutuksesta sovitaan Tullin ja poliisin välisessä yhteistoiminnassa.

⁴⁰ 4 § Laki rikostorjunnasta Tullissa
Tutkinnanjohtaja

Tullin toimittamassa esitutkinnassa tutkinnanjohtajana on pakkokeinolain 2 luvun 9 §:n 1 momentin 2 kohdassa tarkoitettu pidättämiseen oikeutettu Tullin virkamies. Muu tullirikostorjuntatehtävissä toimiva tullimies saa saamansa määräyksen perusteella asiaan laatuun liittyvästä tai muusta vastaavasta perustellusta syyistä johtaa tutkintaa.

Figure 1: EPPO – Exercise of competence in general

The table above shows in an abstract way how the EPPO acts.

But what is the effect of the reference to national law? How have the cases been exercised in practice and what is the situation after one year of operational work? 6

The EPPO Annual Report 2021 provides information on the exercise of jurisdiction under Articles 26 and 27 EPPO Reg. 7

b) Relevant sources of the indications for a criminal offense falling within the competence of the EPPO and Reporting Obligations

“In order to achieve its goals, the EPPO will need to establish smart information flows between the central office in Luxembourg, delegated prosecutors, and national authorities and, at the same time, avoid causing delays in the information exchange. [...] In this regard, some of the existing EU mechanisms concerning de facto reporting of PIF crimes seem to be obsolete, as well as national law duties to report such information to a national prosecution office in advance or in parallel to the EPPO.”⁴¹ 8

One main reporting obligation of EU frauds and PIF Acquis Offences is enshrined in Section 17 of the National Audit Office Act. The law was amended in 2019 and the reasoning of the amendments was affirmed again in 2021, when Finland designed its national strategy to obtain the EU Recovery and Resilience Funds: 9

“Reporting of abuse

In section 6, paragraph 5 of the government’s proposal, the support authority must report on crimes related to the use of recovery and recovery support funds, of which the support authority has the obligation, according to section 17, subsection 1 of the Act on the State Audit Office (676/2000), to file a criminal report, as well as other irregularities ordered to be reported by the National Treasury to the various entities listed in the regulation to the authorities. According to Section 17 of the Act on the State Audit Office, the state authority, the institution, business institution and state fund must file a criminal report for a crime committed in its operations, against the funds or property it manages or is responsible for. A criminal report may not be filed if the act is considered minor considering the circumstances. **Section 17 of the National Audit Office Act** has been amended in 2019 so that, according to **Section 17, subsection 3, the inspection office must notify the European Anti-Fraud Office and other competent European Union authorities of all actions that it becomes aware of in the course of performing its duties**, which can be classified as financial activities of the Union of the EU Directive on combating fraud against benefits by means of criminal law, the so-called **Union Fraud Directive (EU) 2017/1371** requirements.

⁴¹ Klement 2021, pp. 51–52.

17 (231/2018) of the Government's proposal on the Criminal Law and the State Audit Office according to the reasons (page 58), taking into account the underlying purpose of the obligation to prevent crimes according to the directive, it is justified that the obligation is supported as meaning a notification obligation already at the stage when it is suspected that the act could be classified as a crime according to the directive. On the basis of the Pretrial Investigations Act (805/2011), investigation and investigation of crimes are included to the police and prosecution authorities.

However, in order for the authority to act in accordance with Section 17 of the National Audit Office Act, the authorities must, based on the investigations or inspections carried out, have some idea of whether the course of events can be considered to meet the hallmarks of a crime. According to Section 16 of the National Audit Office Act, a state authority, institution, business establishment and Valio's fund must, regardless of confidentiality regulations, immediately notify the Audit Office of any misuse of assets and property it manages or is responsible for."⁴²

Accessed 31 December 2024. „Väärinkäytöstietojen ilmoittaminen Hallituksen esitysluonnoksen 6 §:n 5 kohdassa tukiviranomaisen tulee ilmoittaa elpymis- ja palautumistukiväliseenvarojen käyttöön liittyvistä rikoksista, joista tukiviranomaisella on valtiontalouden tarkastusvirastosta annetun lain (676/2000) 17 §:n 1 momentin mukaan velvollisuus tehdä rikosilmoitus sekä Valtiokonttorin ilmoittavaksi määräämistä muista epäsäännönmukaisuuksista säännöksessä luetelluille eri viranomaisille. Valtiontalouden tarkastusvirastosta annetun lain 17 §:n mukaan valtion viranomaisen, laitoksen, liikelaitoksen ja valtion rahaston on tehtävä rikosilmoitus toiminnassaan tehdystä, sen hoitamiin tai vastattavina oleviin varoihin tai omaisuuteen kohdistuneesta rikoksesta. Rikosilmoitus saadaan jättää tekemättä, jos tekoa on olosuhteet huomioon ottaen pidettävä vähäisenä. Valtiontalouden tarkastusvirastosta annetun lain 17 §:ää on muutettu vuonna 2019 niin, että tarkastusviraston on 17 §:n 3 momentin mukaan ilmoitettava Euroopan petostentorjuntavirastolle ja muille toimivaltaisille Euroopan unionin viranomaisille kaikki sen tehtäviensä hoitaessaan tietoonsa saamat teot, jotka voidaan luokitella EU:n direktiivin unionin taloudellisiin etuihin kohdistuvien petosten torjunnasta rikosoikeudellisin keinoin ns. unionin petosdirektiivi (EU) 2017/1371 vaatimuksia. Hallituksen esityksen rikoslain ja valtiontalouden tarkastusvirastosta annetun lain 17 (231/2018) vp. perustelujen (sivu 58) mukaan ottaen huomioon velvoitteen taustalla oleva tarkoitus estää direktiivin mukaisia rikoksia on perusteltua, että velvoitteen tukitaan tarkoittavan ilmoitusvelvollisuutta jo siinä vaiheessa, kun epäillään, että teko voitaisiin luokitella direktiivin mukaiseksi rikokseksi. Esitutkintalain (805/2011) perusteella rikosten selvittäminen ja tutkiminen kuuluvat poliisi- ja syyttäjäviranomaisille.

Jotta viranomainen voi toimia em. valtiontalouden tarkastusvirastosta annetun lain 17 §:n mukaisesti viranomaisilla täytyy kuitenkin olla tehtyjen selvitysten tai tarkastusten perusteella jonkin asteinen kuva siitä, voidaanko katsoa tapahtumakulun täyttävän jonkin rikoksen tunnusmerkistön. Valtiontalouden tarkastusvirastosta annetun lain 16 §:n mukaan valtion viranomaisen, laitoksen, liikelaitoksen ja valion rahaston on salassapitosäännösten estämättä ilmoitettava viipymättä toiminnassaan tehdystä sen hoitamiin tai vastattavina oleviin varoihin ja omaisuuteen kohdistuneesta väärinkäytöksestä tarkastusvirastolle.!

The National Audit Office Act (*Laki valtiontalouden tarkastusvirastosta – 676/2000*) **10** contains further provisions on reporting and the initiation of administrative investigations by the State Audit Office.

Section 17 National Audit Office Act⁴³

Reporting a crime and providing confidential information

A state authority, institution, business institution and state fund **must file a criminal report for a crime** committed in its operations, against the assets or property it manages or is responsible for. A criminal report may not be filed if the act is considered minor considering the circumstances.

The audit agency must file a criminal report for a crime detected in the course of the audit, committed in the course of the activities of a state authority, institution, business establishment, and state fund, directed at funds or property managed or held by it, unless the person being audited has filed a criminal report himself. The inspection agency may not make a notification if the act is considered to be minor, taking into account the circumstances.

The **Audit Office must notify the European Anti-Fraud Office and other competent authorities of the European Union [e.g. scil. the EPPO]** of all acts it becomes aware of in the course of performing its duties, which can be classified as crimes referred to in Article 3, 4 or 5 of Directive (EU) 2017/1371 of the European Parliament and of the Council on combating fraud against the financial interests of the Union by criminal means.

In order to investigate a crime that occurred in the activities of a state authority, institution, business institution or state fund, and against the funds or property managed by it

⁴³ 17 § Laki valtiontalouden tarkastusvirastosta (29.3.2019/369)

Rikoksesta ilmoittaminen ja salassa pidettävien tietojen antaminen

Valtion viranomaisen, laitoksen, liikelaitoksen ja valtion rahaston on tehtävä rikosilmoitus toiminnassaan tehdystä, sen hoitamiin tai vastattavina oleviin varoihin tai omaisuuteen kohdistuneesta rikoksesta. Rikosilmoitus saadaan jättää tekemättä, jos tekoa on olosuhteet huomioon ottaen pidettävä vähäisenä.

Tarkastusviraston on tehtävä tarkastustoiminnassa havaitsemastaan valtion viranomaisen, laitoksen, liikelaitoksen ja valtion rahaston toiminnassa tehdystä, sen hoitamiin tai vastattavina oleviin varoihin tai omaisuuteen kohdistuneesta rikoksesta rikosilmoitus, jollei tarkastettava ole itse tehnyt rikosilmoitusta. Tarkastusvirasto saa jättää ilmoituksen tekemättä, jos tekoa on olosuhteet huomioon ottaen pidettävä vähäisenä.

Tarkastusviraston on ilmoitettava Euroopan petostentorjuntavirastolle ja muille toimivaltaisille Euroopan unionin viranomaisille kaikki sen tehtäviään hoitaessaan tietoonsa saamat teot, jotka voidaan luokitella unionin taloudellisiin etuihin kohdistuvien petosten torjunnasta rikosoikeudellisin keinoin annetun Euroopan parlamentin ja neuvoston direktiivin (EU) 2017/1371 3, 4 tai 5 artiklassa tarkoitetuiksi rikoksiksi.

Valtion viranomaisen, laitoksen, liikelaitoksen tai valtion rahaston toiminnassa tapahtuneen, sen hoitamiin tai vastattavina oleviin varoihin tai omaisuuteen kohdistuneen rikoksen selvittämiseksi saadaan salassapitoa koskevien säännösten estämättä asianomaisen valtion viranomaisen, laitoksen, liikelaitoksen ja rahaston sekä tarkastusviraston tehtäväänsä hoitaessaan saamia tietoja luovuttaa esitutkinta-, poliisi- ja muille tutkintaviranomaisille sekä syyttävöviranomaisille.

or for which it is responsible, information obtained by the relevant state authority, institution, business institution and fund, as well as the inspection agency while performing its duties, may be disclosed to preliminary investigation, police and to other investigative authorities and prosecutorial authorities.

- 11 A further distinction can be made between the direct and the indirect path for the transfer of information related to the competence:

Figure 2: National (indirect way of) Obtaining information for the EPPO competence and the exercise of jurisdiction

Art. 24 para 8⁴⁴: Tax Departement, Finnish Customs, Police, Border Guards.

Example: During a tax audit a national tax authority might obtain information about irregularities that lead to the conclusion that the relevant conduct of an Economic operator in the area of revenue duties constitute the conduct forbidden by penal sanction by the PIF offences. The Tax Procedure Code forsee in Chapter 2 tax audits on a regular basis:

12 **Section 14⁴⁵ Tax audit**

At the request of the Tax Administration, during the tax year or later, the taxpayer must present his accounting, records, as well as everything related to business activities or other income-generating activities, as well as other materials and assets that may be necessary for his taxation or when handling appeals regarding his taxation, for inspection in Finland. (11.6.2010/520)

The tax payer must be notified in advance of the start date and location of the tax audit, unless there is a special reason for another procedure. (9/9/2016/772)

⁴⁵ 14 § Laki verotusmenettelystä

Verotarkastus

Verovelvollisen on Verohallinnon kehotuksesta verovuoden aikana tai myöhemmin esitettävä Suomessa tarkastettavaksi kirjanpitoa, muistiinpanonsa samoin kuin kaikki se elinkeinotoimintaan tai muuhun tulonhankkimistoimintaan liittyvä sekä muu aineisto ja omaisuus, joka saattaa olla tarpeen hänen verotuksessaan tai hänen verotustaan koskevaa muutoksenhakua käsiteltäessä. (11.6.2010/520)

Verotarkastuksen aloittamisajankohdasta ja tarkastuspaikasta on ilmoitettava verovelvolliselle etukäteen, jollei erityisestä syystä ole aihetta muuhun menettelyyn. (9.9.2016/772)

Suoritetusta verotarkastuksesta on laadittava verotarkastuskertomus, jollei erityisistä syistä muuta johdu.

Toisen viranomaisen edustaja voi avustaa asiantuntijana verotarkastuksessa. (13.11.2020/782)

Verotarkastuksessa noudatettavasta menettelystä sekä esitettävästä aineistosta ja omaisuudesta säädetään tarkemmin valtioneuvoston asetuksella. (9.9.2016/772)

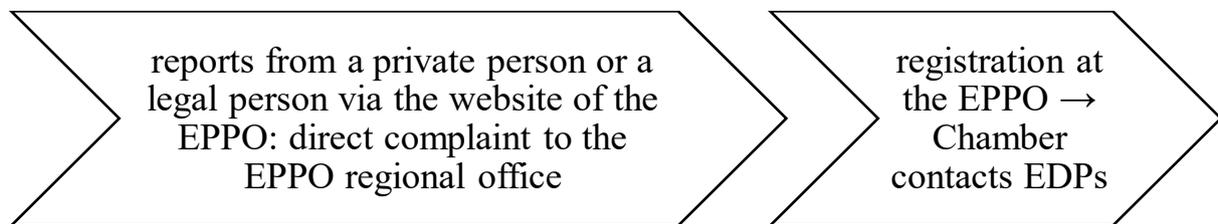

A tax audit report must be drawn up on the performed tax audit, unless there are special reasons.

A representative of another authority can assist as an expert in the tax audit. (13/11/2020/782)

The procedure to be followed in the tax audit, as well as the material and assets to be presented, are regulated in more detail by a government decree. (9/9/2016/772)

In this case the authority needs to assess whether it needs to inform OLAF (Art. 3 et seq, OLAF Regulation) and OLAF needs to decide whether it needs to inform the EPPO on the basis of the OLAF Regulation and the Working Agreement. The other way would be that the authority informs the EPPO directly if it is certain that a criminal conduct under the competence of the EPPO can be assessed. **13**

Figure 3: Supranational (direct way of) Obtaining information for the EPPO competence and the exercise of jurisdiction

Another, third source of information are the Union bodies, which are obliged to report either to OLAF or to the EPPO (e.g. obliged by Working Agreements) – depending on the seriousness of the suspected conduct: only irregularities or clear foundations for potential criminal offences. National authorities who report to OLAF need to obey the EPPO’s Guidelines on how to report irregularities and fraud to the European Commission. OLAF will either way report conduct that falls in the EPPO’s competence by virtue of Art. 12c OLAF Reg. **14**

As seen from the Statistics in relation to the Crime Reports for national offences (similar cases e.g. tax fraud damaging the Budget of the Finnish State) the numbers in this area of special economic crime are quite high (as seen in the 4. Quarter of 2022): **15**

aa. Determination of the competence and verification of Crime Reports

- 16** The first task of the EDPs in a Finnish regional office is to determine whether the EPPO has competence and jurisdiction or can obtain competence and exercise jurisdiction (see below → Art. 27). The Pre-Trial Investigation Act contains rules on complaints. The

Assessment Committee from 2018, that planned on how to issue an EPPO Adoption Act proposed to amend Chapter 5, Section 1 of the Pre-Trial Investigation Act in order to accommodate the requisites of Art. 24 EPPO Regulation.

The **government's proposal to parliament** for a law on Finland's participation in the activities of the European Public Prosecutor's Office (EPPO) and related laws⁴⁶ states the following on including a subsection to Section 1 of the fifth Chapter in the Pre-Trial Investigation Act: "A new subsection 2 is proposed to be added to Chapter 5 § 1 of the Pre-Trial Investigation Act, which would complement the provisions of Article 24 of the EPPO Regulation on the notification of a criminal case within the EPPO's jurisdiction. In accordance with the proposed regulation, the preliminary investigation authority should inform the prosecutor about the criminal case that has been investigated, which, based on the facts that have been brought up, could fall under the EPPO's jurisdiction. After this, further reporting to the EPPO would take place by the national prosecution authority in accordance with Section 7 of the proposed EPPO Act."⁴⁷ And: "In the chain of criminal proceedings, the question of identifying a case that may fall within the competence of the EPPO primarily belongs to the preliminary investigation authorities."⁴⁸

⁴⁶ Hallituksen esitys eduskunnalle laiksi Suomen osallistumisesta Euroopan syyttäjänviraston (EPPO) toimintaan sekä siihen liittyviksi laeiksi, HE 184/2020, 4.1.

⁴⁷ „Esitutkintalain 5 luvun 1 §:ään ehdotetaan lisättäväksi uusi 2 momentti, jolla täydennettäisiin EPPO-asetuksen 24 artiklan säännöksiä EPPO:n toimivaltaan kuuluvan rikosasian ilmoittamisesta. Ehdotetun säännöksen mukaisesti esitutkintaviranomaisen tulisi ilmoittaa syyttäjälle tutkittavaksi tulleesta rikosasiasta, joka esille tulleiden seikkojen perusteella voisi kuulua EPPO:n toimivaltaan. Tämän jälkeen ilmoittaminen edelleen EPPO:lle tapahtuisi kansallisen syyttäjänviranomaisen toimesta ehdotettavan EPPO-lain 7 §:n mukaisesti.“, Hallituksen esitys eduskunnalle laiksi Suomen osallistumisesta Euroopan syyttäjänviraston (EPPO) toimintaan sekä siihen liittyviksi laeiksi, HE 184/2020, 4.1.

⁴⁸ „Rikosprosessiketjussa kysymys EPPO:n toimivaltaan mahdollisesti kuuluvan jutun tunnistamisesta kuuluu ensisijaisesti esitutkintaviranomaisille.“ Hallituksen esitys eduskunnalle laiksi Suomen osallistumisesta Euroopan syyttäjänviraston (EPPO) toimintaan sekä siihen liittyviksi laeiksi, HE 184/2020, 2.2. Chapter 4.

18 The amended Section 1 now looks like this:

19 **Chapter 5 Preliminary investigation cooperation between the preliminary investigation authority and the prosecutor**

Section 1 Pre-Trial Investigation Act⁴⁹

Notice to the prosecutor: The preliminary investigation authority must immediately notify the prosecutor of a matter in which the suspect of a crime is a police officer, unless the matter is dealt with in the procedure provided for in the law on the imposition of fines and misdemeanor fines. In addition, the prosecutor must be notified of a crime that has come under investigation, which the preliminary investigation and prosecutorial authorities have jointly decided to fall within the scope of the reporting obligation based on their powers, or about which the prosecutor has requested to be notified.

The preliminary investigation authority must also immediately inform the prosecutor of a criminal case in which the European Public Prosecutor's Office can exercise jurisdiction. (15.1.2021/67)

20 The EPPO Adoption Act nevertheless contains a section on the notification of a criminal case to the Finnish Regional Office of the EPPO:

Section 7⁵⁰ Reporting a criminal case to the European Public Prosecutor's Office

The prosecutor shall inform the authorised European Public Prosecutor of the criminal case referred to in Article 24 of the EPPO Regulation.

Notwithstanding the provisions on confidentiality, the notification may include the information referred to in Article 24 (4) of the EPPO Regulation and other information necessary to deal with the pending case.

21 These are formal, but essential questions. They are determined by means of Union secondary legislation (Art. 24 EPPO Regulation) and special delegated guidelines required

Esitutkintaviranomaisen ja syyttäjän esitutkintayhteistyö

1 § (18.11.2016/988) Esitutkintalaki

Ilmoitus syyttäjälle

Esitutkintaviranomaisen on viipymättä ilmoitettava syyttäjälle asiasta, jossa rikoksesta epäiltynä on poliisimies, jolle asiaa käsitellä sakon ja rikesakon määräämisestä annetussa laissa säädettyssä menettelyssä. Syyttäjälle on lisäksi ilmoitettava tutkittavaksi tulleesta rikoksesta, jonka esitutkinta- ja syyttävaviranomaiset ovat yhdessä niille kuuluvan toimivallan perusteella päättäneet kuuluvan ilmoitusvelvollisuuden piiriin tai josta syyttäjä on pyytänyt ilmoittamaan.

Esitutkintaviranomaisen on viipymättä ilmoitettava syyttäjälle myös rikosasiasta, jossa Euroopan syyttäjänvirasto voi käyttää toimivaltaa. (15.1.2021/67)

⁵⁰ 7 § Rikosasiasta ilmoittaminen Euroopan syyttäjänvirastolle

Syyttäjän tulee ilmoittaa valtuutetulle Euroopan syyttäjälle EPPO-asetuksen 24 artiklassa tarkoitetusta rikosasiasta.

Ilmoitukseen saa salassapitosäännösten estämättä sisällyttää EPPO-asetuksen 24 artiklan 4 kohdassa tarkoitetut tiedot ja muut vireillä olevan asian käsittelemiseksi välttämättömät tiedot.

by secondary legislation, the so-called **Internal Rules on Procedure [of the EPPO]**. This depends on the criteria of the Regulation (see → Art. 22, 23).

Nota bene: There are rules issued by the EPPO Chamber, but they apply for Art. 27 Right of evocation. Art. 26 para 5 and 6 refer to special rules on splitting or merging cases if different regional offices have initiated an investigation in similar cases. 

(1) The Union standards, Art. 24 para 6 et seq. EPPO Regulation

For the EPPO to be competent, the requirements of the Regulation must be met. 22

Either an examination according to Art. 24 para 6 must show that the EPPO is competent or the delegated prosecutor carries out an examination and assessment by virtue of Art. 26 para 1 EPPO Regulation himself/herself without informing the Permanent Chamber and initiates an investigation about which he/she subsequently informs the Permanent Chamber. 23

The IRP rules state the following: 24

Article 40: Verification of information [Internal Rules of Procedure, 2020-12-/2020.003 IRP – EPPO]

1. The verification for the purpose of initiating an investigation shall assess whether:
 - a) the reported conduct constitutes a criminal offence falling under the material, territorial, personal and temporal competence of the EPPO;
 - b) there are reasonable grounds under the applicable national law** to believe that an offence is being or has been committed;
 - c) there are obvious legal grounds that bar prosecution;
 - d) where applicable, the conditions prescribed by Article 25(2), (3) and (4) of the Regulation are met.
2. The verification for the purpose of evocation shall additionally assess:
 - a) the maturity of the investigation;
 - b) the relevance of the investigation with regard to ensuring the coherence of the EPPO's investigation and prosecution policy;
 - c) the cross-border aspects of the investigation;
 - d) the existence of any other specific reason, which suggests that the EPPO is better placed to continue the investigation.
3. The **verification shall be carried out using all sources of information available** to the EPPO as well as any sources **available to the European Delegated Prosecutor, in accordance with applicable national law, including those otherwise available to him / her if acting in a national capacity.** The European Delegated Prosecutor may make use of the staff of the EPPO for the purpose of the verification. Where appropriate, the EPPO may consult and exchange information with Union institutions, bodies, offices or

agencies, as well as national authorities, subject to the protection of the integrity of a possible future criminal investigation.

4. The European Delegated Prosecutor shall finalise the verification related to the evocation of an investigation at least 2 days before the expiration of the deadline prescribed by Article 27(1) of the Regulation. The verification related to initiating an investigation shall be finalised no later than 20 days following the assignment.

5. If the European Delegated Prosecutor does not finalise the verification on whether or not to initiate an investigation within the prescribed time limit, or he/she informs their inability to do so within the foreseen time limit, the European Prosecutor shall be informed and where deemed appropriate extend the time available or issue an appropriate instruction to the European Delegated Prosecutor.

6. Where it concerns a decision on evocation, the European Delegated Prosecutor may ask the European Chief Prosecutor to extend the time limit needed to adopt a decision on evocation by up to 5 days.

7. Where the European Delegated Prosecutor does not issue a decision within the time limit, it shall be treated as a consideration not to evoke a case, and Article 42 applied accordingly.

- 25** The requirements of Art. 25 para. 2 and 3 must be observed but he/she can still initiate an investigation “without prejudice to the rules set out in Article 25(2) and (3)”. The provisions, jurisdiction (e.g. territory), thresholds i.e. “€” of the Regulation and orders of the Luxembourg Chamber must exist for the exercise of competence.

Article 22 Material competence of the EPPO

- PIF Implementation
- National databases and information according to Art. 40 para 3 IRP

26 Article 23 Territorial and personal competences of the EPPO

- 27** The EPPO is competent if:

- the criminal offenses were committed, in whole or in part, on the territory of one or more participating EU Member States;
- the criminal offenses were committed by a national of a participating EU Member State,
- the criminal offenses were committed by a person subject to the Staff Regulations or rules applicable to EU officials.

SECTION 2 Exercise of the competence of the EPPO 28**Article 24 Communication, registration and verification of information**

The transfer of information to the relevant EDPs or the chamber of the EPPO is mainly regulated by Art. 24 EPPO Regulation. This provision has been made public to all authorities in Italy by virtue of the EPPO Adoption Act, which indicates how the transfer of information should take place in order to comply with the supranational law. The transfer of information that could establish an initial suspicion for a PIF offence depends on the suspected concrete offence.

The notification of the Government from 2021 by virtue of Art. 117 EPPO Regulation helps to understand the transfer of information.⁵¹

(2) Jurisdiction of the European Delegated Prosecutor

The jurisdiction of the EDPs in Finland depend on the EPPO Regulation (→ Art. 22 et seq.) and the rules in the Finnish EPPO Adoption Act: 29

Section 6 Acting as a national prosecutor by the accredited European Public Prosecutor See above → Sources of law.	30
---	----

It depends as well on the jurisdiction of the authorities that may be coordinated by the Finnish EDPs, such as tax and customs authorities. 31

The Customs Crime Prevention Act provides for the following rule: 32

Chapter 1 Section 3 Customs Crime Prevention Act⁵² Jurisdiction of customs	33
--	----

Customs is responsible for combating customs crime as stipulated in this law or elsewhere in the law. Customs is the preliminary investigation authority referred to in the Pre-Trial Investigation Act.	
--	--

The Public Prosecutor's Office Act contains another provision on jurisdiction in criminal matters but it applies only if it does not limit the scope of the EPPO Rules in the EPPO Regulation, which apply through their status as secondary Union Law directly in Finland: 34

⁵¹ From the point-of-view of Brodowski, Herrnfeld 2022, in: Herrnfeld H H, Esser R, Handbuch der EUStA, Art. 117 EPPO is only an indication for PIF implementation laws and has no legal validity character.

⁵² 3 § Laki rikostorjunnasta Tullissa

Tullin toimivalta

Tulli vastaa tullirikostorjunnasta siten kuin siitä tässä laissa tai muualla laissa säädetään. Tulli on esitutkintalaissa tarkoitettu esitutkintaviranomainen.

Chapter 1 Section 10 Public Prosecutor's Office Act⁵³

Jurisdiction of the Prosecutor The prosecutor has independent and independent prosecutorial discretion. The prosecutor independently and independently makes the decisions regarding the implementation of criminal liability in the criminal case under his/her decision-making authority. The prosecutor is competent in prosecutorial duties throughout the country.

bb. How to assess and verify the suspicion level according to Art. 26 para 1 and the CPC for a criminal offense falling within the competence of the EPPO

- 35** The initial suspicion is only to determine the impetus, it is, so to say, “the ball that gets the criminal proceedings rolling.”
- 36** The way in which the public prosecutor's office learns, for example, of the suspicion of subsidy fraud or an offence detrimental to the Union's financial interests according to the EPPO Adoption Act and PIF Implementation Law, is addressed by Union law and the communication with the national authorities and Art. 40 para 3 IRP [2020.003 EPPO].

⁵³ 10 § Laki Syyttäjälaitoksesta
Syyttäjän toimivalta

Syyttäjällä on itsenäinen ja riippumaton syyteharkintavalta. Syyttäjä tekee itsenäisesti ja riippumattomasti päätösvaltaansa kuuluvat, rikosoikeudellisen vastuun toteuttamista koskevat ratkaisut käsiteltävänänsä olevassa rikosasiassa. Syyttäjä on toimivaltainen syyttäjäntehtävissä koko maassa.

(i) Customs Offences in relation to the EU Budget, Chapter 46

- 51** Chapter 46 of the Criminal Code holds the customs offences to the detriment of the EU budget. Chapter 46 of the Criminal Code holds the customs offences to the detriment of the EU budget. The next provisions from Chapter 46 (769/1990) relate to various offenses connected to import and export, with a focus on regulation compliance, smuggling, customs clearance, false declarations, and corporate criminal liability.
- 52** These offenses might be significant for investigations conducted by the EPPO, as they often involve cross-border financial and trade-related crimes that fall under the EPPO's jurisdiction. Smuggling e.g. is central to VAT fraud, customs fraud, and evasion schemes, which are common targets of EPPO investigations (see → German volume for exemplary cases of the EPPO). As we know from the past, the EPPO and Finish EDPs, too might need to investigate criminal networks that distribute illegally imported goods, especially in high-value industries like excise goods (e.g. tobacco or alcohol). It follows an overview of the provisions and their relevance:

Syyte voidaan kuitenkin nostaa ja tuomio antaa, jos veron- tai tullinkorotuksen määräämisen jälkeen on saatu näyttöä uusista tai vasta esiin tulleista olennaisista tosiseikoista ja samassa asiassa aikaisemmin määrätty veronkorotus on erillisellä päätöksellä määrättävästä veron- tai tullinkorotuksesta annetun lain 3 §:n mukaisesti poistettu.

(b) Special national databases for PIF offences/Digital investigations, Art. 40 para 3 IRP 2020.003

There is a Finnish official website providing information on “gray economy and economic crime”.¹¹³ It is established by various ministries and Finnish authorities to inform the citizen on the combating of financial crimes and offers education on the right behaviour. Reports on the fight against economic crime are published by the authorities on this website. The site also carries statistics and a “Strategy and action program for combating the gray economy and financial crime” for the period 2020-2023. **54**

A new resource monitoring tool is on the way: **55**

“Through the new resource monitoring tool, the transparency of the key operational resources of the gray economy and financial crime prevention and the results achieved with them will increase significantly, when the information will be published in the future on the Gray Economy & Financial Crime website. **56**

The resource monitoring tool can be used to quickly form an overall picture of the available resources of certain closely related authorities, their development and possible shortcomings. The presentation is based on chain thinking about the authorities’ resources and their mutual dependence on each other. An increase in resources by another authority or a significant lack of them can cause significant challenges for other authorities. In the future, the resource monitoring tool can be used to prepare a forecast based on information about how resource additions or reductions would likely affect the work situation of other authorities.”¹¹⁴

It is an interactive tool that allows all collected information to be viewed by the user. **57**

(1) In national case-law

- 58 There are distinct types of fraud against the EU budget. A basic distinction must be made between fraud on the revenue side and fraud on the expenditure side. This separation applies not only to investigations by the delegated public prosecutors, but also to OLAF investigators and national authorities in administrative procedures (especially on the expenditure side, for example in the case of subsidies). The first EPPO crime report therefore correctly distinguishes between:

 - VAT revenue fraud
 - Non-VAT revenue fraud
 - corruption cases (4% in 2021).

(a) Fraud**(aa) Revenue frauds**

Revenue frauds are manifold. They may encompass customs fraud, which is why the customs authorities have the right to stop goods entering and exiting the Finnish territory. During the customs clearance procedure, a suspicion of a criminal offence may arise – e.g. in cases where a customs official detects an instance of EU fraud. In such cases, the official must comply with the obligations set out in Article 24 et seq. EPPO Regulation, see above → Art. 26 1. b). **60**

 **Section 32¹¹⁵ Customs Act**
Stopping goods to prevent or investigate a crime other than a customs crime

Customs may stop goods being exported, imported or transported through Finland, if there is a justified reason for doing so in order to prevent or investigate a crime other than a customs crime. In this case, the relevant authority deciding on confiscation must be immediately notified of the stopping of the goods.

The Customs Authorities are as well competent to act in the area of VAT duties, see **61** Chapter 16 of the Finnish VAT Act:

Verohallinto ratkaisee oikeuden 122 §:ssä tarkoitettuun palautukseen ja suorittaa muut palautukseen liittyvät tehtävät. (11.6.2010/529)

Verohallinto vastaanottaa ja toimittaa edelleen 156 m §:ssä tarkoitettuihin jäsenvaltioille tehtäviin palautushakemuksiin perustamansa sähköisen tietojärjestelmän kautta ja suorittaa muut hakemusten edelleen toimittamiseen liittyvät tehtävät. (22.12.2009/1359)

Section 160¹¹⁷

Customs is responsible for the taxation and control of the import of goods, if the person liable for tax on the import is not entered in the VAT register at the time the obligation to pay the tax arises. The tax authority is Customs also when the taxpayer is a natural person and the import is not related to his business.

If the import of goods takes place when the customs procedure referred to in Section 86 a has ended due to the situation referred to in Article 79, Paragraph 1, letter a or c of the Customs Act, or if the imported goods have not been presented to Customs in the situation referred to in the said provisions, the tax on the import in question will nevertheless be borne by Customs in connection with the company inspection related to the customs clearance of imported or imported goods and other controls related to customs clearance, the Customs also supervises the correctness of the value added tax on imports, even when the Tax Administration is the tax authority for the import in question. Customs has the right to provide the Tax Administration with information on control observations relevant to the assessment of the correctness of value-added taxation, regardless of confidentiality regulations and other restrictions on access to information. Information can be provided using an electronic data transmission method.

- 62 First, the scheme should be identified. For this, it is worthwhile to compare the suspected behaviour with known behaviour patterns. From a legal as well as a police point of view, the overview of crime patterns is useful. Especially in Covid-times there has been an increase in characteristics. Assessment can also be based on known cases and the professional groups suspected in these cases.

¹¹⁷ 160 § (11.8.2017/523) Arvonlisäverolaki

Tavarain maahantuonnin verotuksesta ja valvonnasta vastaa Tulli, jos tuonnista verovelvollista ei ole merkitty arvonlisäverovelvollisten rekisteriin veron suorittamisvelvollisuuden syntymishetkellä. Veroviranomaisena on Tulli myös silloin, kun verovelvollinen on luonnollinen henkilö ja tuonti ei liity hänen liiketoimintaansa.

Jos tavaroiden maahantuonti tapahtuu 86 a §:ssä tarkoitetun tullimenettelyn päättyessä tullikoodeksin 79 artiklan 1 kohdan a tai c alakohdassa tarkoitetun tilanteen johdosta tai jos maahantuotuja tavaroita ei ole mainittujen säännösten tarkoittamassa tilanteessa esitetty Tullille, veron kyseisestä tuonnista kantaa kuitenkin Tulli.

Tulli valvoo suorittamansa maahantuotavien tai maahantuotujen tavaroiden tulliselvitykseen liittyvän yritystarkastuksen ja muun tulliselvitystä koskevan valvonnan yhteydessä myös maahantuonnista suoritettavan arvonlisäveron oikeellisuutta silloinkin, kun Verohallinto on kyseisen tuonnin osalta veroviranomainen. Tullilla on oikeus antaa arvonlisäverotuksen oikeellisuuden arvioinnin kannalta merkityksellisiä valvontahavaintoja koskevat tiedot Verohallinnolle salassapitosäännösten ja muiden tietojen saantia koskevien rajoitusten estämättä. Tiedot voidaan antaa sähköistä tiedonsiirtomenetelmää käyttäen.

Case Studies: EU Frauds in Finland

We have researched via AFOCS and OLAF reports, because there were no any public sources in the time prior to the establishment of the EPPO. These reveal: “According to the assessment presented by the Customs, your crimes fall under the formal jurisdiction of the EPPO 18 there would be around 50–100 such cases in Finland each year. The customs crimes under investigation are all evasion or attempted evasion of customs duties on imports crossing the EU’s external border. In general, the acts in question are also related to other tax crimes. As a comparison, statistics on tax fraud crimes investigated by the Customs from the last few years can be presented. In 2018, the total number of tax fraud crimes investigated by the Customs was 1294, of which 116 were gross tax frauds and 251 tax frauds. In 2017, the total number was 1,086 cases, of which 83 were gross tax frauds and 181 were tax frauds. In 2016, the total number of tax frauds investigated was 914, of which 109 were classified as aggravated tax fraud and 183 were tax fraud.”¹¹⁸

(bb) Expenditure frauds

Expenditure frauds involve e.g. subsidy frauds or procurement frauds, which might happen in every sector that is influenced by European Union Law. 64

(b) Corruption offences

Statistics and finish sources state that: “Economic crime reported to the police is continuously acquiring new features. Economic crime increasingly involves international connections, organised crime, and other organised and professional criminal activities, such as cybercrime. Criminals are keen to exploit companies as a means of committing crimes such as fraud and tax offences. On the other hand, companies themselves fall victim to crimes such as identity theft. In cases of **corruption**, corporate structures and positions of power are being abused to the benefit of the perpetrator or for financial gain. In Finland, corruption occurs in the construction sector in particular.”¹¹⁹ 65

(c) Money laundering with PIF crimes

Money Laundering may happen at a border or customs clearance center. This is why the customs has the right to control the economic operators: 66

Section 30¹²⁰ Customs Act – Checking of funds

The customs officer has the right to check the money and other property in his possession in order to reveal the money laundering crime referred to in chapter 32 of the Criminal Code and the financing of terrorism referred to in chapter 34 a of the Criminal Code, which is considered a customs crime.

(2) Data on economic crime cases at the District Courts

67 The Resources Monitoring Tool presents the following data on cases entering the district courts in the area of grey economy and economic crime. District courts do not have separate personnel working on financial crimes, and the work effort used to resolve financial crime cases cannot be separated. De facto district courts decide financial crime cases as first instance courts. In short it can be said that the Finnish courts received 254 financial crimes case, solved 245 and 9 remained unresolved in 2023. One can find more detailed information about solved cases in the following diagram:

69

For all CC offences: “reason to suspect that an offence has been committed”, see s. 3 chapt. 3 Pre-Trial Investigation Act.

Pre-Trial Investigation Act, Chapter 1 Section 2¹²¹ Matters to be clarified in the preliminary investigation In the preliminary investigation, the following is investigated:

- 1) as required by the quality of the case, the suspected crime, the circumstances of its commission, the damage caused by it and the benefit received from it, the parties involved, and other facts necessary for the consideration of charges and the sanction imposed as a result of the crime;
- 2) the possibilities for the return of property obtained by crime and the enforcement of the penalty of forfeiture imposed as a result of the crime or the compensation to be paid to the interested party;
- 3) the private claim of the interested party, if he has requested the prosecutor to pursue his claim pursuant to Chapter 3 § 9 of the Law on Trial in Criminal Matters (689/1997); and
- 4) does the interested party agree and does the criminal suspect intend to agree to the case being dealt with in the district court in the written procedure referred to in chapter 5a of the Act on Trial in Criminal Matters.

In the preliminary investigation, the case must be prepared in such a way that the consideration of the charges and the monitoring of the interests of the parties involved can be carried out properly and that the evidence can be accepted at the main hearing at one time or the case can be resolved in a written procedure.

¹²¹ 2 § Esitutkintalaki

Esitutkinnassa selvittävät asiat

Esitutkinnassa selvitetään:

- 1) asian laadun edellyttämällä tavalla epäilty rikos, sen teko-olosuhteet, sillä aiheutettu vahinko ja siitä saatu hyöty, asianosaiset sekä muut syyteharkintaa ja rikoksen johdosta määrättävää seuraamusta varten tarvittavat seikat;
- 2) mahdollisuudet rikoksella saadun omaisuuden palauttamiseksi ja rikoksen johdosta tuomittavan menettämisseuraamuksen tai asianomistajalle tulevan vahingonkorvauksen täytäntöönpanemiseksi;
- 3) asianomistajan yksityisoikeudellinen vaatimus, jos hän oikeudenkäynnistä rikosasioissa annetun lain (689/1997) 3 luvun 9 §:n nojalla on pyytänyt syyttäjää ajamaan hänen vaatimustaan; ja
- 4) suostuuko asianomistaja ja aikooko rikoksesta epäilty suostua asian käsittelemiseen käräjäoikeudessa oikeudenkäynnistä rikosasioissa annetun lain 5 a luvussa tarkoitetussa kirjallisessa menettelyssä.

Esitutkinnassa asia on valmisteltava siten, että syyteharkinta ja asianosaisten etujen valvominen voidaan suorittaa asianmukaisesti ja että todistelu voidaan pääkäsittelyssä ottaa vastaan yhdellä kertaa tai asia voidaan ratkaista kirjallisessa menettelyssä.

The latter may object to this decision and instruct the European Delegated Prosecutor to proceed with the relevant notification immediately.

d) Consequences to the “Decision to open a case”

- 74 If this decision has been achieved the EDPs will need to plan on how to conduct the investigation and gather the relevant evidence in order to collect all information that is necessary to prove a criminal offence i.e., a criminal liability and the elements that constitute the whole concept of crime in general. A PIF offence will need to be assessed by the relevant conditions for a crime i.e., the elements of a particular PIF offence of the present country.
- 75 The EDPs will need to focus on the actus reus and the mens rea conditions of the relevant offence.¹²³ What Finish criminal justice calls the elements of crime¹²⁴, (*rikoksen tunnusmerkistö*), in relation to the substantive PIF criminal law enshrined in the Criminal Code (*rikoslaki*) or partly in ancillary criminal law (*sivulainsäädäntö*), such as the Fiscal Code (*verolaki*), needs to be assessed according to the requirements that the legislator has established. This includes the concretisation of the objective elements (actus reus, see above)¹²⁵ of the crime, the subjective elements (*mens rea*, see above)¹²⁶, as well as the unlawfulness of the conduct (i.e., no written or unwritten justifications/justificatory defenses¹²⁷ must intervene) and, last but not least, the guilt of the offender, which is

¹²³ See for the common terms in comparing criminal law and criminal procedure Child et al. 2022, Chapter 4 et seq., Chapter 5, Chapter 15 on Fraud (relevant for Ireland, Malta, Cyprus).

¹²⁴ Bohlander 2009, pp. 29 et seq.

¹²⁵ These include in the most criminal law systems questions of causal links, Authorship, causality, “scientific causation” (emphasis added to the cited book) adequacy, limitation of an endless *sine qua non formula*, etc., see recently Walen, Weiser 2022, pp. 57–94.

¹²⁶ See only out of many Safferling 2008, who points at the fact that the traditional german terms are “Intention” and culpability. But even if the terminology is not congruent and differs in detail, it can be said that these are elements of the subjective offense that occur in continental European criminal codes and are also required separately by the PIF Directive for PIF offenses.

¹²⁷ This is a worldwide recognized condition as a basic element of the concept of crime, see Stasi 2021, pp. 31–47.

given if the potential perpetrator is not excused for his/her conduct in relation to a PIF offence.¹²⁸

Similar or the same conditions exist in relation to the general part of the offense (i.e., a PIF offence, Art. 22 EPPO Regulation, Art. 1–5 PIF Directive) in every country in the EU, with a divide running where common law differs and civil law countries encounter. **76**

In addition, it is important to determine how the formal accusation should look like: Are several people involved, and is there not an isolated act, but possibly a complicity (*osallisuus*) or an indirect perpetrator (*epäsuora tekijä*)? In addition, the questions of the criminal liability of a participant must be clarified in order to be able to determine whether an incitement (*kehotus*) to a PIF offence or an abetting (*avustaminen*) to such an act exists.¹²⁹ **77**

If there is no success to a crime, the question arises as to whether a criminal offense can be determined because of the attempt of a PIF offence.¹³⁰ **78**

For all of these questions and purposes, the EDPs can additionally to the present presentations, analysis and compendium references rely on the existing legal commentaries on the penal codes of the EU Member States and the Criminal Procedure Acts of the Member States, which participate in the EPPO, insofar as national law is concerned, e.g. in the concept of a criminal offence or the start of an investigation. **79**

2. Article 27 Right of evocation

a) Provisions with a precluding effect for the Right of evocation of the EPPO, para 2.....	121	ee. Abatement of action (dispense with prosecution)	128
aa. Statute of limitations	121	b) Competent national authorities in paras 3 to 7 of Art. 27	129
bb. Amnesty	125	c) Provisions regarding the finalisation of the national investigation, para 7.....	129
cc. Prosecution before the trial court.....	126		
dd. Opposing legal validity (<i>Rechtskraft</i>).....	126		

1. Upon receiving all relevant information in accordance with Article 24(2), the EPPO shall take its decision on whether to exercise its right of evocation as soon as possible, but no later than 5 days after receiving the information from the national authorities and **shall inform the national authorities** of that decision. The European Chief Prosecutor may in a specific case take a reasoned decision to prolong the time limit by a maximum period of 5 days, and shall **inform the national authorities** accordingly.

2. During the periods referred to in paragraph 1, the national authorities shall refrain from taking **any decision under national law** that may have the effect of precluding the EPPO from exercising its right of evocation.

The national authorities shall take any urgent measures necessary, **under national law**, to ensure effective investigation and prosecution.

3. If the EPPO becomes aware, by means other than the information referred to in Article 24(2), of the fact that an investigation in respect of a criminal offence for which it could be competent is already undertaken by the competent authorities of a Member State, it shall **inform these authorities** without delay. After being duly informed in accordance with Article 24(2), the EPPO shall take a decision on whether to exercise its right of evocation. The decision shall be taken within the time limits set out in paragraph 1 of this Article.

4. The EPPO shall, where appropriate, consult **the competent authorities of the Member State** concerned before deciding whether to exercise its right of evocation.

5. Where the EPPO exercises its right of evocation, **the competent authorities of the Member States** shall transfer the file to the EPPO and refrain from carrying out further acts of investigation in respect of the same offence.

6. The right of evocation set out in this Article may be exercised by a European Delegated Prosecutor from any Member State whose competent authorities have initiated an investigation in respect of an offence that falls within the scope of Articles 22 and 23. Where a European Delegated Prosecutor, who has received the information in accordance with Article 24(2), considers not to exercise the right of evocation, he/she shall

inform the competent Permanent Chamber through the European Prosecutor of his/her Member State with a view to enabling the Permanent Chamber to take a decision in accordance with Article 10(4).

7. Where the EPPO has refrained from exercising its competence, it shall **inform the competent national authorities** without undue delay. At any time in the course of the proceedings, the **competent national authorities** shall inform the EPPO of any new facts which could give the EPPO reasons to reconsider its decision not to exercise competence.

The EPPO may exercise its right of evocation after receiving such information, provided that the national investigation has not already been finalised and that an indictment has not been submitted to a court. The decision shall be taken within the time limit set out in paragraph 1.

8. Where, with regard to offences which caused or are likely to cause damage to the Union's financial interests of less than EUR 100 000, the College considers that, with reference to the degree of seriousness of the offence or the complexity of the proceedings in the individual case, there is no need to investigate or to prosecute at Union level, it shall in accordance with Article 9(2), issue general guidelines allowing the European Delegated Prosecutors to decide, independently and without undue delay, not to evoke the case.

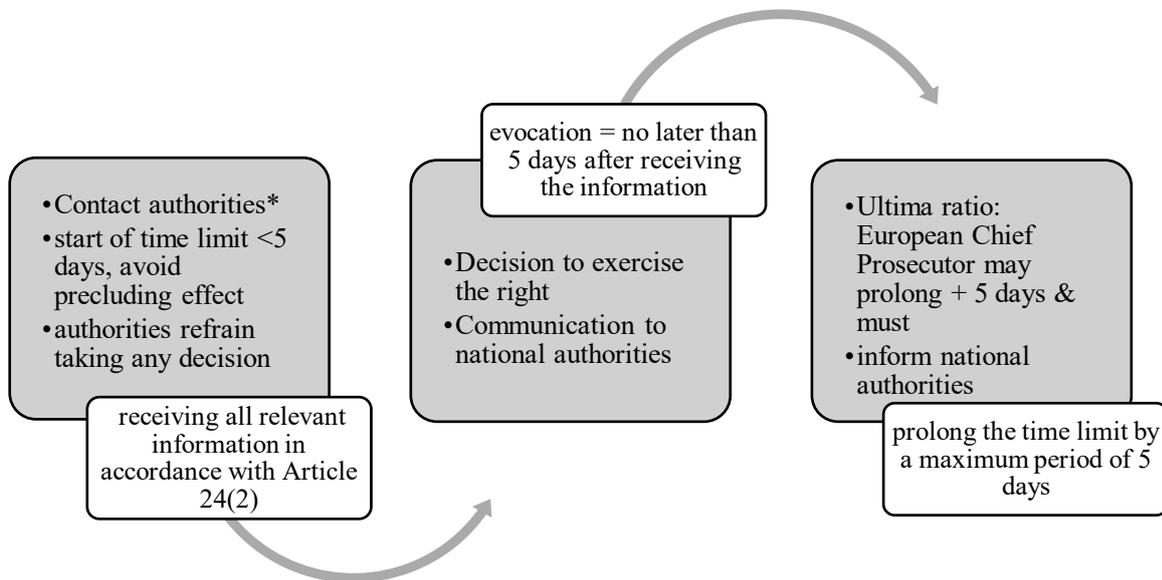

The guidelines shall specify, with all necessary details, the circumstances to which they apply, by establishing clear criteria, taking specifically into account the nature of the offence, the urgency of the situation and the **commitment of the competent national authorities** to take all necessary measures in order to fully recover the damage to the Union's financial interests.

9. To ensure coherent application of the guidelines, a European Delegated Prosecutor shall inform the competent Permanent Chamber of each decision taken in accordance with paragraph 8 and each Permanent Chamber shall report annually to the College on the application of the guidelines.

If the EDPs do not exercise the EPPO's competence by virtue of the Union's legality principle in due time on their own and hereby on behalf (*proprio motu*) of the Union and the Union's interests by analysing the *notitiae crimini europea*, i.e. the obligatory European PIF offences notices, which are sent to the European Prosecution Office in order to inform that a PIF offence is alleged or has been committed, the EDPs and the Chambers must decide on the evocation of cases from the national authorities on to the level of the Union competence. If the national prosecutor or a national office vested with investigative powers have already started investigating or the relevant person has taken any steps applying national law afterwards, these actions may have a precluding effect on the Right of evocation of the EPPO (cf. para 2 of Art. 27 EPPO Regulation). **1**

✍ *Nota bene:* In addition, it should be noted that some of the following provisions will also apply to EDPs when filing an indictment under the EPPO Regulation. This aspect, however, falls outside the primary focus of this compendium, as the country chapters concentrate on the initiation of investigations – a phase during which many operations are likely to be terminated. Nonetheless, the same provisions that govern national authorities while awaiting the EPPO’s decision on whether to exercise its right of evocation (→ Article 27) will also apply in cases of EPPO indictments (→ Article 34 and subsequent articles). These provisions preclude the filing of a formal accusation under national law in a national court until the EPPO has made its decision.

Merenkulun ympäristönsuojelulain 13 luvun 3 §:ssä tarkoitetun, ulkomaiselta alukselta Suomen talousvyöhykkeellä tehdyn ympäristön turmelemisen, törkeän ympäristön turmelemisen, ympäristörikkomuksen ja tuottamuksellisen ympäristön turmelemisen vanhentumisaika on kolme vuotta. Ulkomaiselta alukselta Suomen talousvyöhykkeellä tehdyn kalastusrikoksen lyhin vanhentumisaika on kolme vuotta. (29.12.2009/1680)

Lapsenraiskauksen, törkeän lapsenraiskauksen, seksuaalisen kajoamisen lapseen, törkeän seksuaalisen kajoamiseen lapseen ja lapsen seksuaalisen hyväksikäytön syyteoikeus vanhentuu aikaisintaan, kun asianomistaja täyttää kaksikymmentäkahdeksan vuotta. Sama koskee kahdeksaatoista vuotta nuorempaan henkilöön kohdistunutta raiskausta, törkeää raiskausta, seksuaalista kajoamista, törkeää seksuaalista kajoamista, seksuaalista hyväksikäyttöä, paritusta, törkeää paritusta, ihmiskauppaa ja törkeää ihmiskauppaa. Syyteoikeus vanhentuu rikoksen kohteena olleen henkilön täyttäessä kaksikymmentäkolme vuotta, jos kysymyksessä on 20 luvun 18 §:n 2 momentissa tarkoitettu lapsen houkuttelemisen seksuaalisiin tarkoituksiin. of the environment, aggravated degradation of the environment, an environmental violation and negligent degradation of the environment committed from on board a foreign vessel in the exclusive economic zone of Finland referred to in chapter 13, section 3 of the Act on Environmental Protection in Maritime Transport is three years. The minimum limitation period applicable to a fishing offence committed from on board a foreign vessel in the exclusive economic zone of Finland is three years. (1680/2009) The right to bring charges for sexual abuse of a child, aggravated sexual abuse of a child and aggravated rape of a child becomes time-barred at the earliest when the injured party reaches the age of 28 years. The same applies to rape, aggravated rape, coercion into a sexual act, sexual abuse, pandering, aggravated pandering, trafficking in human beings and aggravated trafficking in human beings directed at a person under 18 years of age. In the case of solicitation of a child for sexual purposes referred to in chapter 20, section 8b, subsection 2, the right to bring charges becomes time-barred when the person who was the object of the offence reaches the age of 23 years. (486/2019).

Section 2¹³³ (297/2003) Beginning of the limitation period for the right to bring charges

The periods mentioned in section 1 above are calculated from the date on which the offence was committed. If omission is punishable according to the statutory definition of the offence, the limitation period for the right to bring charges begins to run when the omitted act should have been performed at the latest. If the statutory definition of the offence requires that a certain consequence be brought about, the period is calculated from the date on which the said consequence occurred. If the criminal act involves maintenance of an unlawful condition, the limitation period for the right to bring charges begins to run when such a condition ends. The limitation period for the right to bring charges for complicity in an offence begins to run on the same date as the limitation period for the right to bring charges for the principal act.

¹³³ 2 § (11.4.2003/297) Rikoslaki Syyteoikeuden vanhentumisajan alkaminen Edellä 1 §:ssä mainitut ajat lasketaan rikoksen tekopäivästä. Jos rikoksen tunnusmerkistössä säädetään laiminlyönti rangaistavaksi, syyteoikeus alkaa vanhentua, kun laiminlyöty teko olisi viimeistään tullut tehdä. Jos rikoksen tunnusmerkistössä edellytetään määrätyn seurauksen syntymistä, aika lasketaan tuon seurauksen ilmenemispäivästä.

Jos rikolliseen tekoon sisältyy lainvastaisen asiointilan ylläpitäminen, syyteoikeuden vanhentumisaika alkaa vasta sellaisen tilan päättymisestä.

Syyteoikeus osallisuudesta rikokseen alkaa vanhentua samana päivänä kuin syyteoikeus päteosta.

Section 3¹³⁴ (297/2003) Interruption of the limitation period for the right to bring charges

Charges are deemed to have been brought in a manner interrupting the limitation period when the person to be prosecuted is lawfully served with a summons or when a request for punishment is made in judicial proceedings where the person is present. The bringing of charges in a case that is subsequently dismissed or in which the charges are withdrawn does not interrupt the limitation period for the right to bring charges. When a violation is considered in the procedure under the Act on Imposing Fines and Fixed Fines, the limitation period is interrupted when the suspect is served with a demand for a fine, an order for a fixed fine subject to objection, or a demand for a punishment. However, the limitation period is not interrupted if the demand is withdrawn, an objection is lodged against the order, or the suspect or injured party withdraws his or her consent referred to in section 4 or 5 of the said Act. (985/2016).

Section 3a¹³⁵ (673/2014) Interruption of limitation of the right to bring charges on the basis of a proposal for judgment

If the limitation of the right to bring charges has not already been interrupted under section 3, the limitation is interrupted when the suspect or the defendant in a criminal case signs a proposal for judgment referred to in chapter 1, section 10 of the Criminal Procedure Act. The submission of a proposal for judgment in a case that is subsequently dismissed does not interrupt the limitation of the right to bring charges. Section 4 (297/2003) Extension of the limitation period for the right to bring charges Upon application, the limitation period for the right to bring charges may be extended once by one year, if 1) the criminal investigation of the offence requires special, time-consuming investigative measures due to which the investigation would be clearly incomplete at the end of the limitation period, 2) the offence has been taken up for criminal investigation exceptionally late, or 3) the person to be summoned as defendant is evading and,

¹³⁴ 3 § (11.4.2003/297) Rikoslaki

Syyteoikeuden vanhentumisen katkeaminen

Syyte katsotaan vanhentumisajan kulumisen katkaisevalla tavalla nostetuksi, kun syytettävälle on laillisesti annettu haaste tiedoksi tai häntä vastaan on hänen henkilökohtaisesti oikeudenkäynnissä läsnä ollessaan tehty rangaistusvaatimus.

Syytteen nostaminen jutussa, joka sittemmin jää tutkimatta tai jossa syyte peruutetaan, ei katkaise syyteoikeuden vanhentumista.

Kun rikkomusta koskevaa asiaa käsitellään sakon ja rikesakon määräämisestä annetun lain mukaisessa menettelyssä, syyteoikeuden vanhentuminen katkeaa, kun sakkovaatimus, vastustuksenvarainen rikesakkomääräys tai rangaistusvaatimus annetaan rikkomuksesta epäillylle tiedoksi. Vanhentuminen ei kuitenkaan katkea, jos vaatimus peruutetaan tai määräystä vastustetaan taikka epäilty tai asianomistaja peruuttaa mainitun lain 4 tai 5 §:ssä tarkoitettua suostumuksensa. (18.11.2016/985)

¹³⁵ 3 a § (22.8.2014/673) Rikoslaki

Syyteoikeuden vanhentumisen katkeaminen tuomioesityksen perusteella

Jollei syyteoikeuden vanhentuminen ole jo katkennut 3 §:n nojalla, syyteoikeuden vanhentuminen katkeaa, kun rikoksesta epäilty tai rikosasian vastaaja allekirjoittaa oikeudenkäynnistä rikosasioissa annetun lain 1 luvun 10 §:ssä tuomioesityksen.

Tuomioesityksen tekeminen jutussa, joka sittemmin jää tutkimatta, ei katkaise syyteoikeuden vanhentumista.

for this reason, it is probable that he or she cannot be served with the summons before the end of the limitation period, and a very important public interest requires that the limitation period be extended.

Section 5¹³⁶ (297/2003) Procedure when extending the limitation period for the right to bring charges

The decision to extend the limitation period for the right to bring charges is made by the court where charges for the offence could be heard under chapter 4 of the Criminal Procedure Act (689/1997). An application for the extension of the limitation period may be made by the prosecutor and by the injured party, if he or she has the right to bring charges as referred to in chapter 1, section 14, subsection 1 or 2, or section 15, subsection 1 of the said Act. The application shall be made in writing before the limitation period expires. (441/2011).

The application for the extension of the limitation period shall be taken up for consideration by the court without delay. It may be considered in a district court by the chairperson alone. If it is likely that a certain person will be charged for the offence referred to in the application for the extension of the limitation period made under section 4, paragraph 1 or 2, the person shall be given an opportunity to be heard regarding the application. The summons may be delivered in person or by post. The decision given on the application is not subject to appeal. A complaint may be lodged with the appellate court within thirty days. The complaint shall be considered as an urgent matter.

¹³⁶ 5 § (11.4.2003/297) Rikoslaki Menettely syyteoikeuden vanhentumisaikaa jatkettaessa

Syyteoikeuden vanhentumisajan jatkamisesta päättää se tuomioistuin, jossa syyte rikoksesta voitaisiin oikeudenkäynnistä rikosasioissa annetun lain (689/1997) 4 luvun mukaan tutkia. Hakemuksen vanhentumisajan jatkamisesta voi tehdä syyttäjä sekä asianomistaja, jos hänellä on mainitun lain 1 luvun 14 §:n 1 tai 2 momentissa tai 15 §:n 1 momentissa tarkoitettu oikeus ajaa syytettä rikoksesta. Hakemus on tehtävä kirjallisesti ennen vanhentumisajan päättymistä. (13.5.2011/441)

Vanhentumisajan jatkamista koskeva hakemus on otettava tuomioistuimen käsiteltäväksi viipymättä. Se voidaan käsitellä käräjäoikeudessa, jossa on yksin puheenjohtaja.

Jos on todennäköistä, että tiettyä henkilöä tullaan syyttämään rikoksesta, jota 4 §:n 1 tai 2 kohdan perusteella tehty hakemus vanhentumisajan jatkamisesta koskee, hänelle on varattava tilaisuus tulla kuulluksi hakemuksesta. Kutsu voidaan toimittaa henkilökohtaisesti tai postitse.

Hakemuksen johdosta annettuun päätökseen ei saa hakea muutosta valittamalla. Päätöksestä saa kannella ylemmälle tuomioistuimelle kolmessakymmenessä päivässä. Kantelu on käsiteltävä kiireellisenä.

Section 6¹³⁷ (297/2003) Limitation of the right to impose a punishment

The right to impose a punishment for an offence referred to in section 1, subsection 1 does not become time-barred. (1161/2005) No punishment shall be imposed in court proceedings or in the procedure specified in the Act on Imposing Fines and Fixed Fines for an offence other than those referred to in subsection 1 after the time specified below has elapsed from the date referred to in section 2: 1) thirty years, if the most severe punishment provided for the offence is imprisonment for a fixed term of more than eight years, 2) twenty years, if the most severe punishment provided for the offence is imprisonment for more than two years and at most eight years, 3) ten years, if the most severe punishment provided for the offence is imprisonment for at most two years, a fine or a fixed fine. (985/2016) No punishment shall be imposed for an offence referred to in section 1, subsection 5 after the period referred to in subsection 2 of this section has elapsed and ten years have elapsed from the date on which the person who was the object of the offence reached the age of 28 or 23 years. (540/2011) An imposed punishment shall lapse if the judgment concerning it has not become enforceable before the period referred to in subsection 2 or 3 has expired. (1161/2005).

Rangaistuksen tuomitsemisen estävä vanhentuminen

Oikeus tuomita rangaistus 1 §:n 1 momentissa tarkoitettusta rikoksesta ei vanhennu. (22.12.2005/1161)

Rangaistusta muusta kuin 1 momentissa tarkoitettusta rikoksesta ei saa tuomita tai määrätä sakon ja rikesakon määräämisestä annetun lain mukaisessa menettelyssä, kun 2 §:ssä mainitusta päivästä on kulunut:

1) kolmekymmentä vuotta, jos rikoksesta säädetty ankarin rangaistus on vankeutta määräajaksi yli kahdeksan vuoden;

2) kaksikymmentä vuotta, jos rikoksesta säädetty ankarin rangaistus on vankeutta yli kaksi vuotta ja enintään kahdeksan vuotta; 3) kymmenen vuotta, jos rikoksesta säädetty ankarin rangaistus on vankeutta enintään kaksi vuotta, sakkoa tai rikesakko. (18.11.2016/985) Edellä 1 §:n 5 momentissa tarkoitettusta rikoksesta ei saa tuomita rangaistusta sen jälkeen, kun tämän pykälän 2 momentissa tarkoitettu määräaika on kulunut ja kymmenen vuotta on kulunut siitä, kun rikoksen kohteena ollut henkilö on täyttänyt kaksikymmentäkahdeksan tai kaksikymmentäkolme vuotta. (20.5.2011/540) Tuomittu rangaistus raukeaa, jos sitä koskeva tuomio ei ole tullut täytäntöönpanokelpoiseksi ennen 2 tai 3 momentissa tarkoitettujen ajan täyttymistä. (22.12.2005/1161)

¹³⁸ 105 § Suomen perustuslaki Armahdus Tasavallan presidentti voi yksittäisessä tapauksessa saatuaan lausunnon korkeimmalta oikeudelta armahtaa tuomioistuimen määräämästä rangaistuksesta tai muusta rikosoikeudellisesta seuraamuksesta joko kokonaan tai osittain. Yleisestä armahduksesta on säädettävä lailla.

cc. Prosecution before the trial court

- 5 The prosecution before the trial court may interrupt or present an obstacle to the evocation of the EPPO. The following Act determines this area: Criminal Procedure Act/Laki oikeudenkäynnistä rikosasioissa (689/1997).

6 **Chapter 1 On prosecution and prosecution (22 August 2014/670)**

General provision

Section 1¹³⁹

A criminal case is not accepted for investigation in court, unless the charge of the crime has been brought by the person who has the right to do so according to the law.

Section 2¹⁴⁰ The task of the prosecutor is to file a criminal charge and prosecute it.

The conditions for bringing charges are stipulated in section 6, subsection 1. In addition, what is stipulated in other parts of the law regarding the request for prosecution of the person concerned and other special conditions for bringing charges are followed. (22.8.2014/670).

7 **Chapter 5 For prosecution**

Challenge application

Section 1¹⁴¹ The prosecutor files the charge by submitting a written subpoena application to the district court's office. The court can order, to the extent it deems appropriate, that the prosecutor may file the charge by issuing the summons himself. However, the prosecutor may always bring the charges himself if the matter is to be dealt with in a written procedure according to chapter 5a. (31.3.2006/243)

The criminal case starts when the subpoena application arrives at the office or, if the prosecutor issues a subpoena, when the subpoena is served.

dd. Opposing legal validity (*Rechtskraft*)

- 8 It may happen that the case is, before the EPPO can evocate the case, has legal validity and the case is therefore resolved. This can only happen if the communication between the national authorities and the EPPO would be very bad.

(13.5.2011/455) Syytteen nostamisen edellytyksistä säädetään 6 §:n 1 momentissa. Lisäksi noudatetaan, mitä asianomistajan syyttämispyyntöstä ja muista erityisistä syytteen nostamisen edellytyksistä muualla laissa säädetään. (22.8.2014/670)

¹⁴¹ 5 luku Syytteen vireillepanosta Haastehakemus 1 § Laki oikeudenkäynnistä rikosasioissa Syyttäjä nostaa syytteen toimittamalla kirjallisen haastehakemuksen käräjäoikeuden kansliaan. Tuomioistuin voi määrätä siinä laajuudessa kuin se katsoo aiheelliseksi, että syyttäjä saa nostaa syytteen antamalla haasteen itse. Syyttäjä saa kuitenkin aina itse nostaa syytteen, jos asia on tarkoitus käsitellä 5 a luvun mukaisessa kirjallisessa menettelyssä. (31.3.2006/243) Rikosasia tulee vireille, kun haastehakemus saapuu kansliaan tai, jos syyttäjä antaa haasteen, kun haaste annetaan tiedoksi.

This situation can thus easily be avoided and should not happen more than once e.g., through a communication failure: 9

Criminal Procedure Act

Chapter 5a Resolving the case without delivering the main hearing

Qualifications

Section 1¹⁴²

The case can be resolved without submitting the main hearing (written procedure) if:

- 1) for any single crime referred to in the prosecutor's indictment, if committed under the circumstances mentioned in the indictment, a harsher punishment than a fine or imprisonment for a maximum of two years has not been prescribed;
- 2) the defendant acknowledges the act described in the prosecutor's indictment, and by giving an explicit notification to the district court, waives his right to an oral hearing and agrees to resolve the case in a written procedure;
- 3) the defendant was of legal age when committing the act;
- 4) the interested party has stated in the preliminary investigation that he has no claims in the case, or agrees to the handling of the case in a written procedure; and
- 5) delivery of the main hearing is unnecessary considering the settled state of the case as a whole.

In the written procedure, the penalty cannot be more severe than nine months of imprisonment. 11

¹⁴² 5 a luku (31.3.2006/243) Asian ratkaiseminen pääkäsittelyä toimittamatta Edellytykset 1 § (31.3.2006/243) Laki oikeudenkäynnistä rikosasioissa Asia voidaan ratkaista pääkäsittelyä toimittamatta (kirjallinen menettely), jos: 1) mistään syyttäjän syytteessä tarkoitettusta yksittäisestä rikoksesta ei syytteessä mainittujen seikkojen valitessa tehtynä ole säädetty ankarampaa rangaistusta kuin sakko tai vankeutta enintään kaksi vuotta; (13.5.2011/455) 2) vastaaja tunnustaa syyttäjän syytteessä kuvatun teon sekä käräjäoikeudelle antamallaan nimenomaisella ilmoituksella luopuu oikeudestaan suulliseen käsittelyyn ja suostuu asian ratkaisemiseen kirjallisessa menettelyssä; (13.5.2011/455) 3) vastaaja on teon tehdessään ollut täysi-ikäinen; 4) asianomistaja on ilmoittanut esitutkinnassa, ettei hänellä ole vaatimuksia asiassa, tai suostuu asian käsittelyyn kirjallisessa menettelyssä; ja (1.6.2018/423) 5) pääkäsittelyn toimittaminen on asian selvitettyyn tilaan nähden myös kokonaisuutena arvioiden tarpeetonta. Kirjallisessa menettelyssä rangaistukseksi ei voida tuomita ankarampaa rangaistusta kuin yhdeksän kuukautta vankeutta.

Chapter 8 Investigating and resolving a criminal case despite the defendant's absence

Section 11¹⁴³

Notwithstanding what is stipulated in Section 3, the matter can be investigated and decided despite the absence of the defendant, if his presence is not necessary to settle the matter and he has been summoned to the court under such a threat. In this case, a misdemeanor fine, a fine or a maximum of three months' imprisonment and a forfeiture penalty of a maximum of 10,000 euros can be imposed.

If the defendant has been sentenced pursuant to subsection 1 to a penalty or a forfeiture penalty, but he has had a legal obstacle that he has not been able to notify in time, the defendant has the right to have the case heard again by notifying the court within 30 days after he has received evidence of the penalty, or from the penalty of forfeiture. If the defendant does not prove a legal obstacle, the case will not be accepted for investigation.

The defendant's absence does not prevent the dismissal of the indictment or other claims

Section 12¹⁴⁴

Notwithstanding the provisions of Section 3, the case may be investigated and resolved with the consent of the defendant, despite his absence, if he has been summoned to the court under such a threat and his presence is not necessary to settle the case. In that case, no harsher punishment than nine months' imprisonment can be imposed.

ee. Abatement of action (dispense with prosecution)

- 12** The Public Prosecutor's Office Act (*Laki Syyttäjälaitoksesta*) does normally not apply if the Regulation applies but if a national authority has handled a case that the EPPO could or could have evocated, the national prosecution office might have taken an abatement of action e.g., a dispense with prosecution so that this Act becomes relevant to determine the scope of the dispense with prosecution (what kind of charges? What kind of conduct? Is there still room for the EPPO to act e.g. in case of another offence?):

Tällöin voidaan tuomita rikesakko, sakkorangaistus tai enintään kolmen kuukauden vankeusrangaistus ja enintään 10 000 euron suuruinen menettämisseuraamus. (1.6.2018/423)

Jos vastaaja on tuomittu 1 momentin nojalla rangaistukseen tai menettämisseuraamukseen, mutta hänellä on ollut laillinen este, jota hän ei ole voinut ajoissa ilmoittaa, vastaajalla on oikeus saattaa asia käsiteltäväksi uudelleen ilmoittamalla siitä tuomioistuimelle 30 päivän kuluessa siitä, kun hän on todisteellisesti saanut tiedon tuomitusta rangaistuksesta tai menettämisseuraamuksesta. Jos vastaaja ei näytä toteen laillista estettä, asiaa ei oteta tutkittavaksi. Vastaajan poissaolo ei estä syytteen eikä muiden vaatimusten hylkäämistä.

Consultation of national authorities**

See above → Sources of law and Institutions.

c) Provisions regarding the finalisation of the national investigation, para 7

The Criminal Procedure Act states the following in Chapter 5 (Prosecution):

13

Section 12 CPA¹⁴⁵ Transferring the case to the main hearing

The case must be assigned to the main hearing without delay, once the preparation has been submitted.

The case must be assigned directly to the main hearing, if requesting a written answer or oral preparation is considered unnecessary.

Chapter 7 of the Finish CPC details the roles and responsibilities of the parties involved, the presentation of evidence, and the decision-making process. These provisions apply for finalising national investigations, as they ensure that cases are handled efficiently and justly during the main hearing phase.

14

Nota bene: If Art. 27 EPPO Regulation is completed or exercised the same rules as presented above under “Actions if decision to open a case”, above → Art. 26 EPPO Regulation shall apply.

¹⁴⁵ Asian siirtäminen pääkäsittelyyn

12 § Laki oikeudenkäynnistä rikosasioissa

Asia on viipymättä määrättävä pääkäsittelyyn, kun valmistelu on toimitettu.

Asia on määrättävä suoraan pääkäsittelyyn, jos kirjallisen vastauksen pyytämistä tai suullista valmistelua pidetään tarpeettomana.

1. The European Delegated Prosecutor handling a case may, in accordance with this Regulation **and with national law**, either undertake the investigation measures and other measures on his/her own or instruct the competent authorities in his/her Member State. Those authorities shall, **in accordance with national law**, ensure that all instructions are followed and undertake the measures assigned to them. The handling European Delegated Prosecutor shall report through the case management system to the competent European Prosecutor and to the Permanent Chamber any significant developments in the case, in accordance with the rules laid down in the internal rules of procedure of the EPPO.

2. At any time during the investigations conducted by the EPPO, the competent national authorities shall take urgent measures **in accordance with national law** necessary to ensure effective investigations even where not specifically acting under an instruction given by the handling European Delegated Prosecutor. The national authorities shall without undue delay inform the handling European Delegated Prosecutor of the urgent measures they have taken.

3. The competent Permanent Chamber may, on proposal of the supervising European Prosecutor decide to reallocate a case to another European Delegated Prosecutor in the same Member State when the handling European Delegated Prosecutor:

- (a) cannot perform the investigation or prosecution; or
- (b) fails to follow the instructions of the competent Permanent Chamber or the European Prosecutor.

4. In exceptional cases, after having obtained the approval of the competent Permanent Chamber, the supervising European Prosecutor may take a reasoned decision to conduct the investigation personally, either by undertaking personally the investigation measures and other measures or by instructing the competent authorities in his/her Member State, where this appears to be indispensable in the interest of the efficiency to the investigation or prosecution by reasons of one or more of the following criteria:

(a) the seriousness of the offence, in particular in view of its possible repercussions at Union level;

(b) when the investigation concerns officials or other servants of the Union or members of the institutions of the Union;

(c) in the event of failure of the reallocation mechanism provided for in paragraph 3.

In such exceptional circumstances Member States shall ensure that the European Prosecutor is entitled to order or request investigative measures and other measures and that he/she has all the powers, responsibilities and obligations of a European Delegated Prosecutor in accordance with this Regulation and national law.

The competent national authorities and the European Delegated Prosecutors concerned by the case shall be informed without undue delay of the decision taken under this paragraph.

As part of the opening introduction to Art. 28 EPPO Regulation in this compendium, which is relevant to all EDPs and also affects the academic and political debate about specialised investigative personnel, the following can be said: The conduct of investigations is dependent on **instruction relationships** between prosecutors and subsequent authorities, whereby in contrast to the dependency in classically national systems, in the area of EU anti-fraud investigations the EPPO (i.e. the college level) has **supervisory powers** as it is a supranational, independent body. 1

In her speech for the first anniversary of the EPPO, given at the conference “EPPO one year in action – Towards Resolving Complexity and Bringing Added Value”¹⁴⁶ in the *Hémicycle* in Luxembourg on 1st June 2022, Laura Kövesi outlined that in order to enhance the detection rates of EU fraud specialized customs units and specialized financial experts, groups of specialized EU investigators educated in the typologies of EU frauds are needed to enhance the conduct of investigations. She underlined that these special units could be set up tomorrow and that doing so depended only on political will.¹⁴⁷ 2

- 3 As long as there are no special units in all countries as the first European Chief Prosecutor requested, the detection rates for fraud and other PIF offences depend on the frequency, the actual conduct of investigations and the cooperation with established – e.g. in Italy more than 100 years old structures in the area of tax investigations – national authorities – especially the assignment and instruction of investigative tasks to “those national authorities” are important as the often investigate and send **progress reports**. The situation in the present country chapter will be analysed below, stating the cooperation level and important actions to be taken.
- 4 The investigations on national level and at Union-level must be distinguished. Especially at the Union level, the investigation is different than at the national level. In some cases, investigations will be conducted within Union institutions (EU IBOAs). The EPPO has started to set up **working arrangements** for this type of investigation. For example, the one with the European Investment Bank provides for cooperation with the in-house fraud detection service (“a kind of internal investigation commission”). In the following we shall focus on the national investigations level regarding Finland.
- 5 For the different PIF offences, the specific country system provides different investigative bodies acting by virtue of different national codes such as the General Tax Act, the police laws and the customs laws including the customs administration laws. It depends, for the analysis of Art. 28 EPPO Regulation, on whether a centrally governed country of the EU is affected or whether there is a federal system with differentiated competences of the federal units.
- 6 In addition, the **lawfulness of the action** is particularly important as a generalisation of all instructions from the staff, which are made available to the EPPO and the EDPs from the national resource area.

a) The handling EDP conducting the investigative measures, para 1

- 7 Under Article 28 of the EPPO Regulation, the handling EDP conducts investigations through several key steps: initiating investigations based on evidence of a crime affecting the financial interests of the EU; gathering evidence by questioning witnesses, collecting documents, and conducting searches; coordinating with national authorities to ensure compliance with EU and national laws; making decisions about the continuation of the investigation and potential charges; and reporting findings to the European Public Prosecutor.

Steuer- und Zollfahnder vereinen. Ich schlage vor, dass wir eine Elitetruppe hoch qualifizierter Finanzbetrugsermittler innerhalb der EU bilden, die über die EPPO länderübergreifend arbeitet. Dafür muss man kein Gesetz ändern; es ist eine reine Organisationsentscheidung der zuständigen nationalen Behörden. Es kann schon morgen geschehen.” This statement was republished by various newspapers and journals across Europe (see eg Figaro article in the French country chapter).

List 1: Instructed and assigned national authorities

Instructed and assigned National authorities (list):

- Police
- Prosecutor
- Customs
- Border Guard
- Military Police

aa. Criminal and judicial police area

The preliminary investigation is mainly carried out by the police (cf. Section 1 Chapter 2 Pre-Trial Investigation Act). The Finnish prosecutor heads investigations only in specific cases involving police officers who have committed a crime relating to their official duties (Subsection 1 Section 4 Chapter 2 Pre-Trial Investigation Act). Other investigative authorities involved can be the Border Guard, Customs and military authorities (Subsection 2 Section 1 Chapter 2 Pre-Trial Investigation Act). 9

Averagely, the Finnish Police investigate 1,800 cases of economic crime per year.¹⁴⁸ Those are mainly investigated by the regional police departments while they cooperate with other national and international authorities.¹⁴⁹ 10

The Finnish Public Prosecutor has the task to enforce criminal liability,¹⁵⁰ and therefore is in principle not a criminal investigation authority. Rather, the prosecutor participates in the criminal investigation (Subsection 3 Section 1 Chapter 2 of the Criminal Investigation Act). Especially the ss. 2 and 3 of Chapter 5 in the Pre-Trial Investigations Act rule the cooperation between the criminal investigation authority (usually the police) and the prosecutor. The prosecutor only directs an investigation in case of the above-mentioned exception (Section 4 Chapter 2 Pre-Trial Investigation Act). 11

The prosecutor is nevertheless involved in the pre-trial investigations of economic crime and makes the decisions on indictment and the existence of probable grounds for crimes such as tax offences, corruption offences, fraud and money laundering.¹⁵¹ De facto, the role of the prosecutor in (difficult) economic crime investigations is assumed to be stronger, though the main principle stays the same: pre-trial investigations are normally 12

led by senior police officers, neither by prosecutors nor judges (see above → Introduction by the National Expert, mn. 10).

- 13** *Raimo Lahti* explains the situation in relation to the **jurisdiction of the EPPO**.¹⁵² The change that has been in progress for the role of the prosecutor in the EPPO context can be seen in the Finnish EPPO Act No. 66/2021 (e.g. sections 2, 5) and the amendments¹⁵³ made to the Finnish procedural laws. The following note by our national expert should be taken into consideration:

As *Petri Freundlich et al.* explain¹⁵⁴, the Legislative Committee of the Parliament was, however, emphasizing that there would be no real conflict between the prosecutor and investigative powers of the police. Nevertheless, a new subsection was added to Section 1 of Chapter 5 of the Criminal Investigation Act as a supplement to the provisions of Article 24 of the EPPO Regulation reporting a criminal case under the jurisdiction of the EPPO. It should be noted that in the travaux préparatoires of the Finnish EPPO Act (Government Bill 184/2020) the relationship of the EPPO to the Finnish Constitution was discussed. The criminal jurisdiction which was given to a supranational authority, EPPO, was as such regarded as being contrary to the constitutional principles, but when Finland had ratified the Consolidated versions of the Treaty on European Union and the Treaty on the Functioning of the European Union (including Article 86 of the last-mentioned Treaty) in a qualified procedure, there was now not a new colliding problem from the point of view of the Finnish Constitution.

1 § Laki oikeudenkäynnistä rikosasioissa – Viranomaiset esitutkinnaassa

Esitutkinnaassa toimittaa muu poliisi kuin suojelupoliisi. (26.4.2019/585)

Poliisiin lisäksi esitutkintaviranomaisia ovat rajavartio-, tulli- ja sotilasviranomaiset. Niiden esitutkintatoimival-lasta säädetään rikostorjunnasta Rajavartiolaitoksessa annetussa laissa (108/2018), rikostorjunnasta Tullissa an-netussa laissa (623/2015) ja sotilaskurinpäädöstä ja rikostorjunnasta puolustusvoimissa annetussa laissa (255/2014). (30.1.2018/113)

Esitutkintaviranomaisten lisäksi esitutkintaan osallistuu syyttäjä.

Section 2¹⁵⁶

Director of investigations

The preliminary investigation is led by the director of investigations, who is an official authorised to arrest referred to in chapter 2, section 9 of the Coercive Measures Act (806/2011).

However, the prosecutor acts as the head of the investigation only in the cases referred to in subsection 1 of section 4.

In a preliminary investigation conducted by the police, a criminal police constable or chief constable may act as the head of the investigation for reasons related to the quality of the case or for other similar justified reasons, and in a preliminary investigation conducted by another authority, an official whose right to act as the head of the investigation is provided for separately in the law.

The general director of the investigation can be appointed as the supervisor of the chief investigators of crimes belonging to the same criminal entity, who decides on the coordination of the preliminary investigation and, for that purpose, can issue orders regarding the chief investigators working under him.

Section 3¹⁵⁷

Investigator

Under the direction and supervision of the head of the investigation, the investigator conducts interrogations and other pre-investigation measures regarding the suspected crime, and implements the orders given by the head of the investigation regarding the investigation of the case and performs other measures that belong to the investigator according to the law.

¹⁵⁶ 2 § Laki oikeudenkäynnistä rikosasioissa Tutkinnanjohtaja Esitutkintaa johtaa tutkinnanjohtaja, jona toimii pakkokeinolain (806/2011) 2 luvun 9 §:ssä tarkoitettu pidättämiseen oikeutettu virkamies. Syyttäjä toimii tutkinnanjohtajana kuitenkin vain 4 §:n 1 momentissa tarkoitetuissa tapauksissa. Poliisin toimittamassa esitutkinnassa saa rikosylikonstaapeli tai ylikonstaapeli toimia tutkinnanjohtajana asian laatuun liittyvästä tai muusta vastaavasta perustellusta syystä ja muun viranomaisen toimittamassa esitutkinnassa virkamies, jonka oikeudesta toimia tutkinnanjohtajana säädetään laissa erikseen.

Samaan rikoskokonaisuuteen kuuluvien rikosten tutkinnanjohtajien esimieheksi voidaan määrätä tutkinnan yleisjohtaja, joka päättää esitutkinnan yhteensovittamisesta ja joka voi tuossa tarkoituksessa antaa alaisenaan toimivia tutkinnanjohtajia koskevia määräyksiä.

¹⁵⁷ 3 § Laki oikeudenkäynnistä rikosasioissa

Tutkija Tutkija suorittaa tutkinnanjohtajan johdon ja valvonnan alaisena epäiltyä rikosta koskevat kuulustelut ja muut esitutkinta-toimenpiteet sekä toteuttaa tutkinnanjohtajan antamat asian tutkintaa koskevat määräykset ja suorittaa muut tutkijalle lain mukaan kuuluvat toimenpiteet.

Section 4¹⁵⁸**Special investigation arrangements**

The prosecutor leads the preliminary investigation if a policeman is suspected of having committed a crime in connection with the performance of official duties. Even if the crime suspected to have been committed by a policeman was not committed in connection with the performance of official duties, the prosecutor can, if the seriousness of the crime or the quality of the case otherwise requires it, decide to become the head of the investigation. In the cases referred to above, the prosecutor can lead a preliminary investigation also to the extent that there is another suspect in the case in addition to the policeman, if it is appropriate for the investigation of the case. The prosecutor does not act as the head of the investigation if the matter is dealt with in the procedure stipulated in the Act on the imposition of fines and misdemeanor fines (754/2010).

When acting as the head of the investigation, the prosecutor has the same powers in that role as a police officer acting as the head of the investigation.

A crime suspected to have been committed by a police officer is always investigated in a police unit other than his place of business, if the matter is not dealt with in the procedure stipulated in the law on the imposition of fines and misdemeanor fines. Otherwise, if necessary, the police unit investigating the crime should be ordered so that trust in the impartiality of the preliminary investigation is not jeopardized.

bb. Tax area

Most of the cases of economic crime investigated by the police (see above → Criminal and judicial police area) are reported by the Finnish Tax Administration.¹⁵⁹ The potential offences are discovered during tax audits.¹⁶⁰ **14**

¹⁵⁸ 4 § (18.11.2016/988) Laki oikeudenkäynnistä rikosasioissa Erityiset tutkintajärjestelyt Syyttäjä johtaa esitutkintaa, jos poliisimiehen epäillään tehneen rikoksen virkatehtävän suorittamisen yhteydessä. Vaikka poliisimiehen tekemäksi epäilty rikosta ei ole tehty virkatehtävien suorittamisen yhteydessä, syyttäjä voi rikoksen vakavuuden tai asian laadun sitä muuten edellyttäessä päättää ryhtymisestään tutkinnanjohtajaksi. Syyttäjä voi edellä tarkoitetuissa tapauksissa johtaa esitutkintaa myös siltä osin kuin asiassa on poliisimiehen lisäksi muu epäilty, jos se on asian selvittämiseksi tarkoituksenmukaista. Syyttäjä ei toimi tutkinnanjohtajana, jos asia käsitellään sakon ja rikesakon määräämisestä annetussa laissa (754/2010) säädettyssä menettelyssä.

Tutkinnanjohtajana toimiessaan syyttäjällä on tuossa tehtävässään samat toimivaltuudet kuin tutkinnanjohtajana toimivalla päällystön kuuluvalla poliisimiehellä.

Poliisimiehen tekemäksi epäilty rikos tutkitaan aina muussa kuin hänen toimipaikkansa poliisiyksikössä, jos asiaa ei käsitellä sakon ja rikesakon määräämisestä annetussa laissa säädettyssä menettelyssä. Muutenkin rikoksen tutkiva poliisiyksikkö tulee tarvittaessa määrätä niin, ettei luottamus esitutkinnan puolueettomuuteen vaarannu.

Erinäiset säännökset

100 § *Tullilaki*

Tullin antama virka-apu

Sen lisäksi, mitä muualla laissa säädetään, Tulli voi toimivaltuuksiensa rajoissa antaa pyynnöstä virka-apua toiselle viranomaiselle sen laissa säädetyn valvontavelvollisuuden toteuttamiseksi. Virka-avun antamisen edellytyksenä on, että se voi tapahtua vaarantamatta Tullille säädettyjen muiden tärkeiden tehtävien suorittamista.

Päätöksen virka-avun antamisesta tekee Tullissa virka-aputehtävän suorittamisesta vastaavan Tullin hallinnosta annetussa laissa (960/2012) tarkoitetun Tullin yksikön päällikkö tai virka-aputehtävän suorittamisesta vastaavan toimintayksikön päällikkö. Esitutkintaa tai pakkokeinoja koskevan virka-avun antamisesta päättää pidättämiseen oikeutettu tullimies.

¹⁶⁵ 101 § *Tullilaki* Tullille annettava virka-apu Viranomaisen on annettava Tullille kuuluvan tehtävän suorittamiseksi sellaista tarpeellista virka-apua, jonka antamiseen asianomainen viranomainen on toimivaltainen. Tullille annettavasta avusta säädetään myös poliisin, Tullin ja rajavartiolaitoksen yhteistoiminnasta annetussa laissa (687/2009).

Päätöksen virka-avun pyytämisestä tekee virka-apua tarvitsevan Tullin hallinnosta annetussa laissa tarkoitetun Tullin yksikön päällikkö tai virka-apua tarvitsevan toimintayksikön päällikkö. Esitutkintaa tai pakkokeinoja koskevan virka-avun pyytämisestä päättää tutkinnanjohtaja.

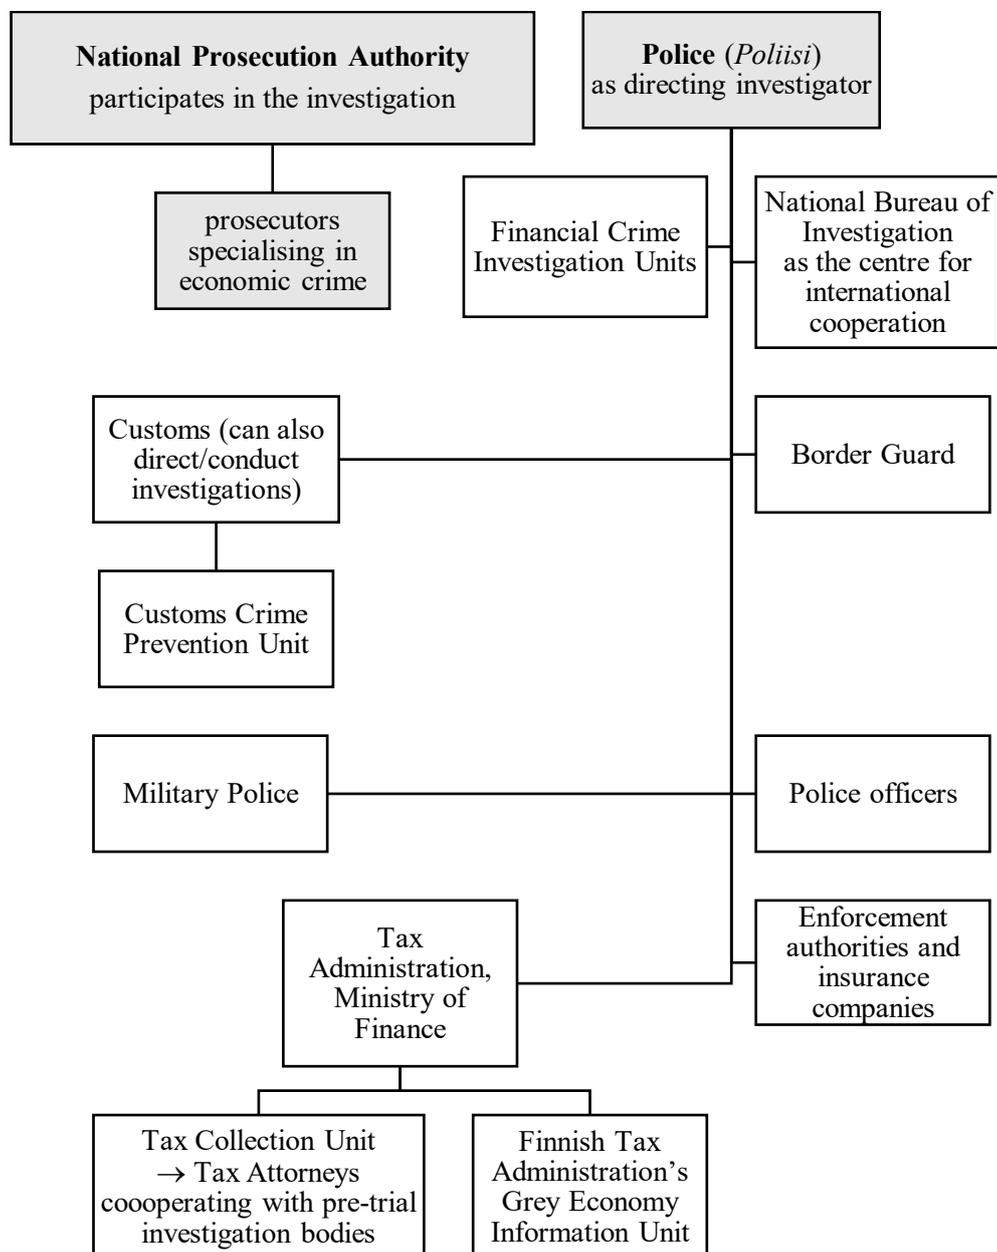

or the head of the operational unit in need of official assistance. The head of the investigation decides on the request for official assistance regarding the preliminary investigation or coercive measures.

As seen above, the EDPs can be assisted by Finnish authorities, especially customs-related authorities, during the preliminary investigation phase; under Chapter 2, Section 1 of the Customs Crime Prevention Act, Finish Customs has the authority to lead investigations related to customs crimes. Customs has investigative powers under the Customs Crime Prevention Act and can lead investigations into customs-related crimes (e.g., smuggling or VAT fraud). According to Section 4 of Chapter 2 of the Customs Crime Prevention Act, the head of an investigation conducted by Customs must be a Customs official authorised to make arrests. **16**

This ensures that investigations are led by experienced personnel who are authorised to act decisively. And if the police become aware of such crimes, they may also conduct investigations unless another agreement is reached between the authorities. Section 100 of the Customs Act allows Customs to provide official assistance to other authorities, including the police or prosecutors, for investigations or other supervisory obligations. This provision emphasises that Customs can actively assist the EPPO in its investigations when requested, if it does not compromise its duties. **17**

In Finland, **combating the shadow economy** and financial crimes including offenses detrimental to the EU's financial interests (PIF crimes) involves multiple authorities working in coordination: Finnish Customs (*Tulli*) monitors cross-border trade, preventing smuggling, customs fraud and VAT evasion. The police (*Poliisi*) investigate financial crimes including fraud and enforces criminal law. 20

The LVM (Ministry of Transport and Communications) oversees sectors susceptible to financial irregularities, ensuring compliance in transport and communications. The OM (Ministry of Justice) is responsible for legal frameworks, ensuring the prosecution of financial crimes, whereas the STM (Ministry of Social Affairs and Health) supervises sectors like social security and health-related financial systems, targeting misuse of EU funds. The TEM (Ministry of Economic Affairs and Employment) focuses on labor market compliance and business subsidies, addressing misuse of EU funds. The Traficom ensures compliance in transport and communication infrastructure, monitoring tax and financial irregularities. Finally, the SM (Ministry of the Interior) coordinates internal security, including the prevention of organized crime linked to the shadow economy. 21

c) Ensuring compliance with national law

aa. via the general investigation provisions

- 22** According to Subsection 1 Section 2 Chapter 5 of the Pre-Trial Investigation Act the public prosecutor has the power to request a pre-trial investigation or the conduct of an investigative measure. The pre-trial investigation authority must comply with the prosecutor's orders.
- 23** According to Section 3 of Chapter 5 Pre-Trial Investigation Act there is a duty to cooperate between the investigation authority and the public prosecutor. The criminal investigation authority shall notify the public prosecutor of the conducting of a criminal investigation and of circumstances connected with criminal investigation measures and of the progress in the investigation as well as discuss the case with the prosecutor.
- 24** As such, the **Government Bill 184/2020** on the introduction of the EPPO Act has ruled out the possibility that the national provisions could conflict with the Regulation:

“The responsibility for carrying out the measures referred to in Article 30(1) and (4) of the Regulation lies with the pre-trial investigation authorities under national law on coercive measures. According to Chapter 5, Section 2 of the Pre-Trial Investigation Act, the pre-trial investigation authority must, at the request of the prosecutor, conduct a pre-trial investigation or carry out a pre-trial investigation measure. The pre-trial investigation authority must also comply with the prosecutor's orders to ensure that the matters to be investigated in the pre-trial investigation within the meaning of Chapter 1, Section 2 of the ETL are clarified. In addition, once the preliminary investigation authority has concluded the preliminary investigation and the material has been transferred to the prosecution, the prosecution also decides on the coercive measures to be taken in the case.”¹⁶⁶

- 25** Therefore, the relevant provisions for Art. 28 EPPO Regulation can be seen in the following:

¹⁶⁶ “Vastuu asetuksen 30 artiklan 1 ja 4 kohdassa tarkoitettujen toimenpiteiden suorittamisesta kuuluu kansallisen pakkokeinolainsäädännön mukaan esitutkintaviranomaisille. Esitutkintalain 5 luvun 2 §:n mukaan esitutkintaviranomaisen on syyttäjän pyynnöstä toimitettava esitutkinta tai suoritettava esitutkintatoimenpide. Esitutkintaviranomaisen on muutenkin noudatettava syyttäjän määräyksiä, joilla pyritään turvaamaan ETL 1 luvun 2 §:ssä tarkoitettujen esitutkinnassa selvitettävien asioiden selvittäminen. Lisäksi esitutkintaviranomaisen päätettyä esitutkinnan ja aineiston siirrettyä syyttäjälle päättää syyttäjä myös jutun pakkokeinoista.”

Chapter 3 General provisions for conducting preliminary investigation

Section 3¹⁶⁷ Conducting a preliminary investigation

The preliminary investigation authority must submit a preliminary investigation when, on the basis of a report made to it or otherwise, there is reason to suspect that a crime has been committed.

Before starting the preliminary investigation, the preliminary investigation authority must, if necessary, clarify the facts related to the criminal suspicion referred to in subsection 1, in particular in such a way that no one is unjustifiably placed in the position of a suspect of a crime and that, if the case requires it, a decision can be made as referred to in section 9 subsection 1 or section 10 subsection 1 on not submitting a preliminary investigation. The provisions of this law shall apply to the measures prior to the initiation of the preliminary investigation.

The head of the investigation decides, if necessary, whether to conduct a preliminary investigation, and to find out the facts that may be necessary to make a decision. In order to clarify the matter, the necessary preliminary investigation measures can be taken before the decision of the head of the investigation.

Esitutinnan toimittamisen yleiset säännökset

3 § Laki oikeudenkäynnistä rikosasioissa

Esitutinnan toimittaminen

Esitutkintaviranomaisen on toimitettava esitutkinta, kun sille tehdyn ilmoituksen perusteella tai muuten on syytä epäillä, että rikos on tehty.

Ennen esitutinnan aloittamista esitutkintaviranomaisen on tarvittaessa selvitettävä 1 momentissa tarkoitettuun rikosepäilyyn liittyvät seikat erityisesti siten, että ketään ei aiheettomasti aseteta rikoksesta epäillyn asemaan ja että asian sitä edellyttäessä voidaan tehdä 9 §:n 1 momentissa tai 10 §:n 1 momentissa tarkoitettu ratkaisu esitutinnan toimittamatta jättämisestä. Esitutinnan aloittamista edeltäviin toimenpiteisiin sovelletaan soveltuvin osin tämän lain säännöksiä.

Tutkinnanjohtaja päättää tarvittaessa siitä, toimitetaanko esitutkinta, ja päätöksen tekemiseen mahdollisesti tarvittavien seikkojen selvittämisestä. Asian selvittämiseksi tarpeellisiin esitutkintatoimenpiteisiin saadaan ryhtyä ennen tutkinnanjohtajan päätöstä.

Section 8¹⁶⁸ A crime committed abroad

The preliminary investigation authority can investigate a crime suspected of having been committed abroad, if Finnish law can be applied to the crime based on the provisions of Chapter 1 of the Criminal Code and if conducting the preliminary investigation in Finland is appropriate for investigative reasons and in terms of carrying out criminal liability. If the investigation of such a crime in Finland requires an indictment by the Attorney General as referred to in Chapter 1, Section 12 of the Criminal Code, the prosecutor decides to start a preliminary investigation.

When the interested party informs the preliminary investigation authority of a crime committed in the territory of another European Union member state, the interested party's notification and his claim must be submitted to the competent authority of the member state in whose territory the crime was committed, if the preliminary investigation authority does not investigate the crime in accordance with subsection 1. In addition, the condition for delivery is that the interested party has not been able to make a report and present his claims in the state where the crime was committed, or that, in the case of a serious crime, he has not wanted to do so.

International cooperation to investigate crimes is regulated separately in the law.

Chapter 5 Preliminary investigation cooperation between the preliminary investigation authority and the prosecutor

Section 2¹⁶⁹ Powers of the prosecutor in the preliminary investigation

The preliminary investigation authority must deliver a preliminary investigation or perform a preliminary investigation measure at the request of the prosecutor. In any case, the pre-trial investigation authority must comply with the prosecutor's orders, which aim to secure the investigation of the case in the manner referred to in chapter 1, s. 2.

The prosecutor decides on preliminary investigation measures after the case is transferred to him after the conclusion of the preliminary investigation.

¹⁶⁸ 8 § Laki oikeudenkäynnistä rikosasioissa Ulkomailla tehty rikos Esitutkintaviranomainen voi tutkia ulkomailla tehdyksi epäillyn rikoksen, jos rikokseen rikoslain 1 luvun säännösten nojalla voidaan soveltaa Suomen lakia ja jos esitutkinnan toimittaminen Suomessa on tutkinnallisista syistä ja rikosvastuun toteuttamisen kannalta tarkoituksenmukaista. Jos tällaisen rikoksen tutkiminen Suomessa edellyttää rikoslain 1 luvun 12 §:ssä tarkoitettua valtakunnansyyttäjän syytemääräystä, syyttäjä päättää esitutkinnan aloittamisesta.

Kun asianomistaja ilmoittaa esitutkintaviranomaiselle toisen Euroopan unionin jäsenvaltion alueella tehdystä rikoksesta, asianomistajan ilmoitus ja hänen vaatimuksensa on toimitettava sen jäsenvaltion toimivaltaiselle viranomaiselle, jonka alueella rikos on tehty, jos esitutkintaviranomainen ei 1 momentin mukaisesti tutki rikosta. Edellytyksenä toimittamiselle on lisäksi, että asianomistaja ei ole voinut tehdä ilmoitusta ja esittää vaatimuksiaan tekopaikan valtiossa tai että vakavan rikoksen ollessa kysymyksessä hän ei ole halunnut menetellä niin.

Kansainvälisestä yhteistyöstä rikosten selvittämiseksi säädetään laissa erikseen.

¹⁶⁹ 2 § Laki oikeudenkäynnistä rikosasioissa Syyttäjän toimivaltuudet esitutkinnassa Esitutkintaviranomaisen on syyttäjän pyynnöstä toimitettava esitutkinta tai suoritettava esitutkintatoimenpide. Esitutkinta-viranomaisen on muutenkin noudatettava syyttäjän määräyksiä, joilla pyritään turvaamaan asian selvittäminen 1 luvun 2 §:ssä tarkoitettulla tavalla.

Syyttäjä päättää esitutkintatoimenpiteistä asian siirryttyä hänelle esitutkinnan päättämisen jälkeen.

Syyttäjän toimimisesta tutkinnanjohtajana säädetään 2 luvun 4 §:ssä.

Provisions are made on the prosecutor's work as the head of the investigation in chapter 2, section 4.

Section 3¹⁷⁰ Obligation to cooperate

(1) The criminal investigation authority shall, in the manner required by the nature or scope of the matter, notify the public prosecutor of the conducting of a criminal investigation and of circumstances connected with criminal investigation measures and otherwise of progress in the investigation. If the criminal investigation authority has notified the public prosecutor of the opening of an investigation in an offence, the head investigator shall, before concluding the criminal investigation, hear the public prosecutor on whether the matter has been clarified sufficiently in the manner referred to in **Chapter 1, section 2** [see above → Article 26, The level of sufficiency], if the nature or scope of the matter require that the public prosecutor be heard, or if the intention is to conclude the criminal investigation without submitting the matter to the prosecutor. The Coercive Measures Act contains provisions on the notification obligation concerning the use of coercive measures.

(2) The public prosecutor shall participate to the extent necessary in the criminal investigation in order to ensure that the matter is clarified in the manner referred to in Chapter 1, section 2.

(3) The criminal investigation authority and the public prosecutor shall discuss questions relating to the arrangement of cooperation in the criminal investigation.

¹⁷⁰ 3 § Laki oikeudenkäynnistä rikosasioissa Yhteistyövelvollisuus Esitutkintaviranomaisen tulee asian laadun tai laajuuden edellyttämällä tavalla ilmoittaa syyttäjälle esitutkinnan toimittamiseen ja esitutkintatoimenpiteisiin liittyvistä seikoista sekä tutkinnan edistymisestä muuten. Jos esitutkintaviranomainen on ilmoittanut tutkittavaksi tulleesta rikoksesta syyttäjälle, tutkinnanjohtajan on ennen esitutkinnan päättämistä kuultava syyttäjää siitä, onko asia selvitetty riittävästi 1 luvun 2 §:ssä tarkoitetulla tavalla, jos asian laatu tai laajuus edellyttää kuulemista tai jos esitutkinta on tarkoitus päättää saattamatta asiaa syyttäjän käsiteltäväksi. Pakkokeinojen käyttöön liittyvästä ilmoittamisvelvollisuudesta säädetään pakkokeinolaissa.

Syyttäjän on tarvittavassa määrin osallistuttava esitutkintaan sen varmistamiseksi, että asia selvitetään 1 luvun 2 §:ssä tarkoitetulla tavalla. Esitutkintaviranomaisen ja syyttäjän tulee neuvotella esitutkintayhteistyön järjestämiseen liittyvistä kysymyksistä.

¹⁷¹ 3 § *Laki rikostorjunnasta Tullissa* Tullin toimivalta Tulli vastaa tullirikostorjunnasta siten kuin siitä tässä laissa tai muualla laissa säädetään. Tulli on esitutkintalaissa tarkoitettu esitutkintaviranomainen.

bb. Via national administrative decrees under criminal procedural law

- 29 National administrative decrees and regulations play a pivotal role in the investigation and prosecution of VAT fraud, particularly within the telecommunications sector, under criminal procedural law. These regulations often provide the legal framework for actions, including investigations, tax assessments, and the enforcement of penalties in cases of tax fraud.
- 30
- Government regulation on the police 19.12.2013/1080.
 - Uniform instructions on criminal matters to be reported to the prosecutor, the notification procedure and the prosecutor's actions by the National Prosecutor's Office (VKS:2008:2; valid for the time being) and the Police Government (POL-2018-50758, 19 December 2018; valid from 1 January 2019 until 31 December 2023).¹⁷²

d) Urgent measures in accordance with national law necessary to ensure effective investigations

- 31 Urgent measures related to the quick gathering of evidence can be found in the Pre-Trial Investigation Act:

32 **Chapter 6 Attendance at the preliminary investigation**

Section 3 Pre-Trial Investigation Act¹⁷³

Immediate consultation

A person found at the scene of a crime or in its immediate vicinity must, at the request of the pretrial investigation official conducting the preliminary investigation of crimes, remain at that location or immediately reach the nearest office of the pretrial investigation authority represented by the official, suitable for the purpose, or the corresponding office of another pretrial investigation authority. If, without an acceptable reason, he refuses to comply with the request, or if this is likely based on his behaviour, the relevant official can prevent him from leaving the place or arrest him and take him to a hearing.

¹⁷³ 6 luku Läsnäolo esitutkinnassa

3 § Laki oikeudenkäynnistä rikosasioissa Välitön kuuleminen Rikospaikalta tai sen välittömästä läheisyydestä tavatun henkilön on rikosten esitutkintaa suorittavan esitutkintavirkamiehen kehotuksesta jätävä tälle paikalle tai saavuttava välittömästi virkamiehen edustaman esitutkintaviranomaisen lähimpään tarkoitukseen sopivaan toimipaikkaan tai muun esitutkintaviranomaisen vastaavaan toimipaikkaan. Jos hän ilman hyväksyttävää syytä kieltäytyy noudattamasta kehotusta tai tämä on hänen käyttäytymisensä perusteella todennäköistä, asianomainen virkamies voi estää häntä poistumasta paikalta tai ottaa hänet kiinni ja viedä kuultavaksi. (30.12.2013/1145)

Rikospaikalta poistumassa oleva saadaan ottaa kiinni 1 momentissa tarkoitettujen kehotusten antamiseksi, jos olosuhteet ovat sellaiset, että kehotusta ei voida muuten saattaa hänen tietoonsa ja asian selvittäminen muuten vaarantuisi.

A person leaving the scene of a crime may be apprehended in order to give the warning referred to in subsection 1, if the circumstances are such that the warning cannot otherwise be brought to his attention and the investigation of the matter would otherwise be jeopardized.

Section 4¹⁷⁴ Initiation of investigative measures without delay

The preliminary investigation measures, for which the person has arrived at the summons or been picked up for the preliminary investigation or has been ordered to remain at the scene or taken for a hearing pursuant to Section 3, must be started without undue delay.

e) Duration of the court processing

The national Statistics Office displays the following information with regard to the duration of investigations in the area of PIF offences (or similar national cases): **33**

Table 7: The duration of the case processing and the time from the incident to the filing of the criminal report as variables (Year, Authority, Crime group, details of the crime description, Information)

¹⁷⁴ 4 § Laki oikeudenkäynnistä rikosasioissa Tutkintatoimenpiteiden viivytyksetön aloittaminen
Esitutkintatoimenpiteet, joiden vuoksi henkilö on kutsusta saapunut tai noudeutu esitutkintaan taikka on 3 §:n nojalla määrätty jäämään paikalle tai viety kuultavaksi, on aloitettava ilman aiheetonta viivytystä.

- 34** The Finnish statistics highlight the significant time investment required for investigating serious economic crimes. From our point-of-view there is a slightly longer duration for PIF-Acquis offences such as aggravated fraud (1117): 498.0 days, gross tax fraud (1123): 538.0 days and aggravated forgery (1128): 502.6 days. These offenses align closely with the EU Commission’s concerns regarding VAT fraud, customs evasion, and falsified documentation. Their prolonged durations indicate the complexity of tracing financial flows and international cooperation requirements, areas where EPPO involvement could enhance efficiency.
- 35** Aggravated Embezzlement (1113) and accounting Crimes (1125), which are often complex and involve substantial financial losses, have some of the longest investigation durations, averaging 587.7–590.6 days. All of these durations reflect the extensive nature of evidence collection, the need for forensic accounting, and cross-agency coordination, all of which are likely relevant for EPPO cases involving fraud against the EU budget.¹⁷⁵
- 36** Crimes with longer durations of the case processing, particularly aggravated embezzlement (1113) and gross tax fraud (1123), may involve transnational elements, such as cross-border VAT fraud or misuse of EU subsidies. If this is the case, the EPPO’s cross-border mandate and tools (e.g., evocation of cases, access to EU-wide data, working arrangements and connections) could help to shorten the duration of some investigations.

¹⁷⁵ EPPO 2023, pp. 10 et seq. See in the glossary for all EPPO-related terms, pp. 114–116 explaining the different crimes falling into the EPPO mandate including definitions and see on p. 69 explaining that some frauds are “complex” and the *modus operandi*.

1. Where the investigations of the EPPO involve persons protected by a privilege or immunity **under national law**, and such privilege or immunity presents an obstacle to a specific investigation being conducted, the European Chief Prosecutor shall make a reasoned written request for its lifting **in accordance with the procedures laid down by that national law**.

2. Where the investigations of the EPPO involve persons protected by privileges or immunities under the Union law, in particular the Protocol on the privileges and immunities of the European Union, and such privilege or immunity presents an obstacle to a specific investigation being conducted, the European Chief Prosecutor shall make a reasoned written request for its lifting in accordance with the procedures laid down by Union law.

a) National privilege and immunity provisions, para 1

Such privileges or immunities are regulated in the Coercive Measures Act, Chapter 4, s. 2, ss. 2, and the provisions on the obligation or right to refuse to testify in the Chapter 17, Sections 10-23, on Evidence (732/2015) of the Judicial Procedure Code (originally Act of 3/1734)¹⁷⁶. A document may not be seized for using as evidence, if it presumably includes information about which the person concerned is not allowed to give evidence (see → Chapter 17 Judicial Procedure Code) and the document is in the possession of such a person or of another for whose benefit the professional secrecy has been enacted.

Any EDP may read the precedent of the **Supreme Court, KKO 2003:119** (concerning an advocate and his professional secrecy), in which also references were made i.a. to Strasbourg court of human rights and Finnish constitutional principles.

Chapter 4 Limitation of Contact

Section 2¹⁷⁷ (23.3.2023/452) Content of restriction of contact

Correspondence, use of the telephone, meetings and other contact or being together with persons with whom contact is restricted are prevented. However, the court may order that contact is permitted in one or more of the contact methods despite the restriction.

If a letter, other postal item or message is not delivered due to the contact restriction referred to in subsection 1, the sender must be informed of the matter without delay, unless it jeopardizes the purpose of the contact restriction. In addition, information about the matter must be given to the recipient without delay, if it is a person who is the subject of a contact restriction and if it does not endanger the purpose of the contact restriction.

A letter, other postal item or message that is not delivered must be returned to the sender or given to the person who has lost their freedom after the contact restriction has ended.

The provisions of Chapters 8 and 9 of the Pretrial Detention Act and Chapters 6 and 7 of the Act on the Treatment of Persons Detained by the Police regarding the monitoring of correspondence, phone calls, electronic communication and meetings are followed in the supervision of the communication between arrested, detained and remand prisoners.

[Section 2, amended by L. 452/2023, enters into force on 1 October 2023.]

¹⁷⁷ 2 § (23.3.2023/452) Yhteydenpidon rajoittamisen sisältö

Kiinni otetun, pidätetyn ja tutkintavangin kirjeenvaihto, puhelimen käyttö, tapaamiset ja muu yhteydenpito tai yhdessäolo estetään sellaisten henkilöiden kanssa, joihin yhteydenpitoa on rajoitettu. Tuomioistuimien voi kuitenkin määrätä, että yhteydenpito rajoituksesta huolimatta sallitaan yhdellä tai useammalla yhteydenpitotavoista.

Jos kirjettä, muuta postilähetystä tai viestiä ei toimiteta perille 1 momentissa tarkoitettuna yhteydenpitotavoitusta vuoksi, asiasta on annettava viipymättä tieto lähettäjälle, jollei se vaaranna yhteydenpitotavoitusta. Asiasta on lisäksi annettava viipymättä tieto vastaanottajalle, jos kyseessä on yhteydenpitotavoitusta kohteena oleva henkilö ja jollei se vaaranna yhteydenpitotavoitusta. Kirje, muu postilähetys tai viesti, jota ei toimiteta perille, on palautettava lähettäjälle tai annettava vapautensa menettäneelle yhteydenpitotavoitusta päätyttyä. Kiinni otetun, pidätetyn ja tutkintavangin yhteydenpidon valvonnassa noudatetaan tutkintavankeuslain 8 ja 9 luvun sekä poliisin säilyttämien henkilöiden kohtelusta annetun lain 6 ja 7 luvun säännöksiä kirjeenvaihdon, puhelujen, sähköisen yhteydenpidon ja tapaamisten valvonnasta. [L:lla 452/2023 muutettu 2 § tulee voimaan 1.10.2023]

¹⁸¹ 13 § (12.6.2015/732) Oikeudenkäyntiasiamies tai -avustaja taikka tulkki ei saa luvattomasti todistaa siitä, mitä hän on saanut tietää: 1) hoitaessaan oikeudenkäyntiin liittyvää tehtävää; 2) antaessaan oikeudellista neuvontaa päämiehen oikeudellisesta asemasta esitutkinnassa tai muussa oikeudenkäyntiä edeltävässä käsittelyvaiheessa; # 3) antaessaan oikeudellista neuvontaa oikeudenkäynnin käynnistämiseksi tai sen välttämiseksi. Tuomioistuimien voi velvoittaa muun 1 momentissa tarkoitetun henkilön kuin rikosasian vastaajan oikeudenkäyntiasiamiehen tai -avustajan tai tulkin todistamaan, jos syyttäjä ajaa syytettä rikoksesta, josta säädetty ankarin rangaistus on vähintään kuusi vuotta vankeutta. Asianajaja, luvan saaneista oikeudenkäyntiavustajista annetussa laissa tarkoitettu oikeudenkäyntiavustaja ja julkinen oikeusavustaja ei saa luvattomasti todistaa yksityisen tai perheen salaisuudesta tai liikesalaisuudesta, josta hän on muussa kuin 1 momentissa tarkoitetussa tehtävässään saanut tiedon. Tuomioistuimien voi kuitenkin velvoittaa henkilön todistamaan, jos syyttäjä ajaa syytettä rikoksesta, josta säädetty ankarin rangaistus on vähintään kuusi vuotta vankeutta, tai jos erittäin tärkeät syyt ottaen huomioon asian laatu, todisteen merkitys asian ratkaisemisen kannalta ja seuraukset sen esittämisestä sekä muut olosuhteet sitä vaativat. (10.8.2018/599)

¹⁸² 14 § (12.6.2015/732) Lääkäri tai muu terveydenhuollon ammattihenkilöistä annetussa laissa (559/1994) tai sen nojalla annetussa asetuksessa tarkoitettu terveydenhuollon ammattihenkilö ei saa todistaa henkilön tai hänen perheensä terveydentilaa koskevasta arkaluonteisesta tiedosta tai muusta henkilön tai perheen salaisuudesta, josta hän asemansa tai tehtävänsä perusteella on saanut tiedon, ellei se, jonka hyväksi salassapitovelvollisuus on säädetty, suostu todistamiseen. Tuomioistuimien voi velvoittaa 1 momentissa tarkoitetun henkilön todistamaan, jos syyttäjä ajaa syytettä rikoksesta, josta säädetty ankarin rangaistus on vähintään kuusi vuotta vankeutta.

function unless the person in whose benefit the secrecy obligation has been provided consents to such testimony.

The court may oblige a person referred to in subsection 1 to testify if the prosecutor has brought charges for an offence for which the maximum sentence is imprisonment for at least six years.

Section 15¹⁸³

Notwithstanding the provisions of section 11, subsections 2 and 3; section 12, subsection 1; or sections 13 or 14, a court may require that a person referred to in the legal provision testify if the person in whose benefit the secrecy obligation has been provided has deceased and if very important reasons require such testimony, taking into consideration the nature of the matter, the significance of the evidence for deciding the matter, and the consequences of presenting it and the other circumstances.

Notwithstanding the provisions of section 13 or 14 above, the person referred to in said sections **may testify to the extent** that presenting the information is necessary in order to provide a defence due to a penalty demand or other claim based on an offence directed at him or her or against a person in a relationship to him or her as referred to in section 22, subsection 2, or in order to exercise the rights of an injured party belonging to him or her or to a person in a relationship to him or her as referred to in section 22, subsection 2.

Section 16¹⁸⁴

A priest of a registered religious community referred to in the Act on the Freedom of Religion (453/2003) or a person in a corresponding position may not testify regarding information he or she has learned in confession or in private pastoral care **unless** the person in whose benefit the secrecy obligation has been provided consents to such testimony.

¹⁸³ 15 § (12.6.2015/732) Sen estämättä, mitä 11 §:n 2 ja 3 momentissa, 12 §:n 1 momentissa taikka 13 tai 14 §:ssä säädetään, tuomioistuim voi velvoittaa lainkohdassa tarkoitettua henkilön todistamaan, jos se, jonka hyväksi salassapitovelvollisuus on säädetty, on kuollut ja jos erittäin tärkeät syyt ottaen huomioon asian laatu, todisteen merkitys asian ratkaisemisen kannalta ja seuraukset sen esittämisestä sekä muut olosuhteet sitä vaativat.

Sen estämättä, mitä edellä 13 tai 14 §:ssä säädetään, mainituissa pykälissä tarkoitettu henkilö saa todistaa siltä osin kuin tiedon ilmaiseminen on välttämätöntä puolustuksen järjestämiseksi häntä tai häneen 22 §:n 2 momentissa tarkoitettua suhteessa olevaa henkilöä vastaan esitetyn rangaistusvaatimuksen tai muun rikokseen perustuvan vaatimuksen vuoksi taikka hänelle tai häneen 22 §:n 2 momentissa tarkoitettua suhteessa olevalle henkilölle asianomistajana kuuluvien oikeuksien käyttämiseksi.

¹⁸⁴ 16 § (12.6.2015/732) Uskonnonvapauslaissa (453/2003) tarkoitettua rekisteröidyn uskonnollisen yhdyskunnan pappi tai muu vastaavassa asemassa oleva henkilö ei saa todistaa siitä, mitä hän on ripissä tai yksityisessä sielunhoidossa saanut tietää, ellei se, jonka hyväksi salassapitovelvollisuus on säädetty, suostu todistamiseen.

Vaitiovelvollisuudesta Suomen evankelis-luterilaisessa kirkossa ja Suomen ortodoksisessa kirkossa säädetään kuitenkin erikseen.

Separate provisions apply to the confidentiality obligation in the Evangelical Lutheran Church of Finland and the Orthodox Church of Finland.

Section 17¹⁸⁵

The present or former spouse of a party or his or her present cohabiting partner, sibling, direct ascending or descending relative or a person who is in a corresponding close relationship to a party comparable to partnership or kinship may refuse to testify.

If the person referred to in subsection 1 agrees to testify in court, said consent may not be withdrawn unless otherwise provided by another provision in this chapter on the secrecy obligation or the right to remain silent.

Section 18¹⁸⁶

Any person has the right to refuse to testify to the extent that the testimony would subject him or her or a person in a relationship to him or her as referred to in section 17, subsection 1 to the risk of prosecution or would contribute to the investigation of his or her guilt or the guilt of a person in said relationship to him or her.

Notwithstanding the provisions of section 17 and above in this section on the right to remain silent of a person in a relationship to a party as referred to in section 17, subsection 1, **the court may, in a criminal matter, decide that an injured party being heard as witness who does not have any claims does not have the right to remain silent, if there is reason to suspect that he or she has not personally decided on the right to exercise his or her right to remain silent.**

Section 19¹⁸⁷

A person may refuse to testify regarding a business secret **unless** taking into consideration the nature of the matter, very important reasons, the significance of the evidence for deciding the matter, and the consequences of presenting it and the other circumstances require such testimony.

¹⁸⁵ 17 § (12.6.2015/732) Asianosaisen nykyinen tai entinen aviopuoliso taikka nykyinen avopuoliso, sisarus, sukulainen suoraan ylenevässä tai alenevassa polvessa taikka se, jolla on vastaavanlainen parisuhteeseen tai sukulaisuuteen rinnastuva läheinen suhde asianosaiseen, saa kieltäytyä todistamasta.

Jos 1 momentissa tarkoitettu henkilö suostuu todistamaan tuomioistuimessa, suostumusta ei voida peruuttaa, ellei muusta tässä luvussa säädetystä salassapitovelvollisuudesta tai vai tiolo-oikeudesta muuta johdu.

¹⁸⁶ 18 § (12.6.2015/732) Jokaisella on oikeus kieltäytyä todistamasta siltä osin kuin todistaminen saattaisi hänet tai häneen 17 §:n 1 momentissa tarkoitettussa suhteessa olevan henkilön syyteen vaaraan tai myötävaikuttaisi hänen tai häneen mainitussa suhteessa olevan henkilön syyllisyyden selvittämiseen.

Sen estämättä, mitä 17 §:ssä ja edellä tässä pykälässä säädetään asianosaiseen 17 §:n 1 momentissa tarkoitettussa suhteessa olevan henkilön vai tiolo-oikeudesta, tuomioistuin voi rikosasiassa päättää, ettei todistajana kuultavalla asianomistajalla, jolla ei ole vaatimuksia, ole vai tiolo-oikeutta, jos on syytä epäillä, ettei hän ole itse päättänyt vai tiolo-oikeuden käyttämisestä.

¹⁸⁷ 19 § (10.8.2018/599) Liikesalaisuudesta saa kieltäytyä todistamasta, jolleivät erittäin tärkeät syyt ottaen huomioon asian laatu, todisteen merkitys asian ratkaisemisen kannalta ja seuraukset sen esittämisestä sekä muut olosuhteet vaadi todistamista.

Section 20¹⁸⁸

The originator or publisher or broadcaster of a message provided to the public referred to in the Act on the Exercise of Freedom of Expression in Mass Media (460/2003) may refuse to testify about who has been the source of the information in the message or prepared the message provided to the public.

The court may oblige a person referred to in subsection 1 to testify if the prosecutor has brought charges for an offence for which the maximum sentence is imprisonment of at least six years or which concerns a violation of the secrecy obligation in a manner punishable by law.

Section 21¹⁸⁹

An anonymous witness referred to below in section 33 may refuse to testify to the extent that the testimony could reveal his or her identify or contact information.

Every person other than an anonymous witness has the obligation to refuse to testify to the extent that the testimony could reveal the identity or contact information of an anonymous witness.

Chapter 7, section 5a of the Criminal Procedure Act contains provisions on the disclosure of the identity of an anonymous witness on the basis of a court decision.

Section 22¹⁹⁰

The obligation or right to refuse to testify referred to above in section 11, subsection 2 or 3; section 12; section 13, subsection 1 or 3; section 14, subsection 1; section 16; or

¹⁸⁸ 20 § (12.6.2015/732) Sananvapauden käyttämisestä joukkoviestinnässä annetussa laissa (460/2003) tarkoitettu yleisön saataville toimitetun viestin laatija taikka julkaisija tai ohjelmatoiminnan harjoittaja saa kieltäytyä todistamasta siitä, kuka on antanut viestin perusteena olevat tiedot tai laatinut yleisön saataville toimitetun viestin.

Tuomioistuimien voi velvoittaa 1 momentissa tarkoitettua henkilöä todistamaan, jos syyttäjä ajaa syytettyä rikoksesta, josta säädetty ankaran rangaistus on vähintään kuusi vuotta vankeutta tai joka koskee salassapitovelvollisuuden rikkomista rangaistavaksi säädettyllä tavalla.

¹⁸⁹ 21 § (12.6.2015/732) Jäljempänä 33 §:ssä tarkoitettu anonyymi todistaja saa kieltäytyä todistamasta siltä osin kuin todistaminen saattaisi paljastaa hänen henkilöllisyytensä tai yhteystietonsa.

Jokaisella muulla kuin anonyymillä todistajalla on velvollisuus kieltäytyä todistamasta siltä osin kuin todistaminen saattaisi paljastaa anonyymien todistajan henkilöllisyyden tai hänen yhteystietonsa.

Anonyymien todistajan henkilöllisyyden paljastamisesta tuomioistuimen päätöksellä säädetään oikeudenkäynnistä rikosasioissa annetun lain 7 luvun 5 a §:ssä.

¹⁹⁰ 22 § (12.6.2015/732) Edellä 11 §:n 2 tai 3 momentissa, 12 §:ssä, 13 §:n 1 tai 3 momentissa, 14 §:n 1 momentissa taikka 16 §:ssä tai 20 §:n 1 momentissa tarkoitettu velvollisuus tai oikeus kieltäytyä todistamasta säilyy, vaikkei asianomainen henkilö enää ole siinä asemassa, jossa hän on saanut tiedon todistettavasta seikasta.

Sillä, joka on saanut 11 §:n 2 tai 3 momentissa, 13 §:n 1 tai 3 momentissa, 14 §:n 1 momentissa taikka 20 §:n 1 momentissa tarkoitettua tietoa toimissaan lainkohdassa tarkoitettua henkilöä palveluksessa tai muuten hänen apunaan, on vastaava velvollisuus tai oikeus kieltäytyä todistamasta kuin vastaavassa lainkohdassa tarkoitettua henkilöä. Palveluksessa tai apuna toiminut henkilö voidaan kuitenkin määrätä todistamaan 15 §:n 1 momentissa säädettyillä edellytyksillä. Palveluksessa tai apuna toiminut henkilö saa myös todistaa 15 §:n 2 momentissa säädettyillä edellytyksillä 13 tai 14 §:ssä tarkoitettua henkilöä ja muun hänen palveluksessaan tai apunaan toimineen henkilön asiassa. Sovellettaessa 12 §:n 3 momenttia, 13 §:n 2 momenttia, 14 §:n 2 momenttia tai 20 §:n 2 momenttia vähimmäisrangaistuksesta ei oteta huomioon, mitä rikoslain 6 luvun 8 §:ssä säädetään lievennetyistä rangaistusasteikosta.

section 20, subsection 1 is maintained even if the person in question is no longer in the position in which he or she has learned of the circumstance at issue in the testimony.

A person who has learned information referred to in section 11, subsection 2 or 3; section 13, subsection 1 or 3; section 14, subsection 1; or section 20, subsection 1 while acting in the service of or otherwise as an assistant to a person referred to in said provision, has the corresponding obligation or right to refuse to testify as the person referred to in the corresponding provision. **Nevertheless, a person who has acted in the service of or assisted such person may be ordered to testify on the conditions provided in section 15, subsection 1. A person who has acted in the service of or assisted such person may also testify on the conditions provided in section 15, subsection 2 in a matter concerning a person referred to in section 13 or 14 or concerning another person who has acted in the service of or assisted such person.**

The provisions of chapter 6, section 8 of the Criminal Code on a mitigated scale of punishment are not taken into consideration when applying section 12, subsection 3; section 13, subsection 2; section 14, subsection 2; or section 20, subsection 2 on the minimum punishment.

Section 23¹⁹¹

If a person refuses to testify, he or she shall state the grounds for the refusal and present probable cause supporting the grounds.

If, however, a person refuses to testify on the grounds referred to in sections 18 or 21, the refusal shall be accepted **unless** he or she is manifestly in error regarding the contents of the right or obligation to refuse or the refusal is otherwise manifestly devoid of grounds.

¹⁹¹ 23 § (12.6.2015/732)

Jos henkilö kieltäytyy todistamasta, hänen on ilmoitettava kieltäytymisensä peruste ja saatettava todennäköiseksi sitä tukevat seikat.

Jos henkilö kuitenkin kieltäytyy todistamasta 18 tai 21 §:ssä tarkoitettulla perusteella, kieltäytyminen hyväksytään, jollei hän ole selvästi erehtynyt kieltäytymistä koskevan oikeuden tai velvollisuuden sisällöstä tai kieltäytyminen ole muutoin selvästi perusteeton.

- 3) revealing the identity of a person who has provided information or intelligence in confidence or who has engaged in pseudo-purchases or undercover activities would apparently not seriously endanger his or her safety or the safety of persons close to him or her.

No one may testify regarding information recorded in a register on the witness protection programme referred to in section 24, subsection 1, paragraph 28 of the Act on the Openness of Government Activities or regarding other information concerning the witness protection programme. **Testimony on the information may, however, be given if charges have been brought regarding an offence directed against a person being protected by the witness protection programme.**

An official of the Safety Investigation Agency, a member of an investigation team or other person participating in a safety investigation referred to in the Safety Investigation Act (525/2011) may not testify regarding information he or she has learned in his or her duties regarding an accident. **The court may, however, oblige a person referred to above to testify if very important reasons so require, taking into consideration the nature of the matter, the significance of the evidence for deciding the matter, the consequences of presenting it and the other circumstances.**

Section 14 [See above → Provisions in Finnish law] [...]

The court may oblige a person referred to in subsection 1 to testify if the prosecutor has brought charges for an offence for which the maximum sentence is imprisonment for at least six years.

bb. Immunity provisions

The Members of the Finnish Parliament can have to deal with EU subsidies, or other EU grants and procurement projects. In this regard and if they are suspected of any irregularity, they might bring forward their immunity, which would be an obstacle. The immunity and the independence are regulated by ss. 29, 30 of the Finnish Constitution:

Section 29¹⁹² Independence of the Member of Parliament

A member of parliament is obliged to observe justice and truth in his work. He is obliged to comply with the constitution and is not bound by other regulations.

Section 30¹⁹³ The immunity of a member of parliament

A Member of Parliament may not be prevented from performing his duties.

A Member of Parliament may not be prosecuted or deprived of his liberty due to the opinions he has expressed in the Diet or the procedure he followed in handling the case, unless the Parliament has agreed to it with a decision supported by at least five-sixths of the votes cast.

The speaker of the parliament must be notified immediately of the arrest and imprisonment of a member of parliament. A member of parliament may not be arrested or imprisoned without the consent of the parliament before the start of the trial, unless there are compelling reasons to suspect him of being guilty of a crime for which the mildest punishment provided for is at least six months in prison.

¹⁹² 29 § Suomen perustuslaki Kansanedustajan riippumattomuus Kansanedustaja on velvollinen toimessaan noudattamaan oikeutta ja totuutta. Hän on siinä velvollinen noudattamaan perustuslakia, eivätkä häntä sido muut määräykset.

¹⁹³ 30 § Suomen perustuslaki Kansanedustajan koskemattomuus Kansanedustajaa ei saa estää hoitamasta edustajantointaan. Kansanedustajaa ei saa asettaa syyteeseen eikä hänen vapauttaan riistää hänen valtiopäivillä lausumiensa mielipiteiden tai asian käsittelyssä noudattamansa menettelyn johdosta, ellei eduskunta ole siihen suostunut päätöksellä, jota vähintään viisi kuudesosaa annetuista äänistä on kannattanut. Kansanedustajan pidättämisestä ja vangitsemisesta on heti ilmoitettava eduskunnan puhemiehelle. Kansanedustajaa ei saa ilman eduskunnan suostumusta pidättää tai vangita ennen oikeudenkäynnin alkamista, ellei häntä painavista syistä epäillä syylliseksi rikokseen, josta säädetty lievin rangaistus on vähintään kuusi kuukautta vankeutta.

Section 113¹⁹⁴ Criminal liability of the President of the Republic

If the chancellor of justice, the ombudsman or the government council deems the president of the republic guilty of treason, treason or a crime against humanity, the parliament must be notified. If the parliament then decides with three-fourths of the votes cast to bring charges, the attorney general must prosecute the case in the national court and the president must refrain from his actions for the time being. In other cases, the president may not be prosecuted.

cc. Provisions on the lifting of immunities?

- 6 The consent of the Parliament is needed, see → ss. 29, 30 above.
- 7 In the case of the President the following procedure applies:

Section 115¹⁹⁵ Initiation of the ministerial responsibility case

An investigation into the legality of a member of the State Council's official duties in the Parliament's Constitutional Law Committee can be initiated:

- 1) by notification to the Constitutional Law Committee by the chancellor of justice or the ombudsman;
- 2) with a reminder signed by at least ten MPs; mixed with an investigation request submitted to the Constitutional Law Committee by another parliamentary committee.

The Constitutional Law Committee can also, on its own initiative, start investigating the legality of the duties of a member of the Government Council.

b) Immunities and Privileges under union law, para 2

- 8 Article 29 para 2 focusses on Union staff. The EPPO may need to investigate crimes involving EU officials or other individuals enjoying privileges and immunities under Union law.¹⁹⁶ We do not concentrate on this procedure here, but can only hint you at the following:

¹⁹⁴ 113 § Suomen perustuslaki Tasavallan presidentin rikosoikeudellinen vastuu Jos oikeuskansleri, oikeusasiamies tai valtioneuvosto katsoo tasavallan presidentin syyllistyneen maanpetosrikokseen, valtiopetosrikokseen tai rikokseen ihmisyyttä vastaan, asiasta on ilmoitettava eduskunnalle. Jos eduskunta tällöin kolmella neljäsosalla annetuista äänistä päättää syytteen nostettavaksi, valtakunnansyyttäjän on ajettava syytettä valtakunnanoikeudessa ja presidentin on pidättäydyttävä siksi ajaksi toimestaan. Muissa tapauksissa presidentin virkatoimesta ei saa nostaa syytettä.

¹⁹⁵ 115 § Suomen perustuslaki Ministerivastuuasian vireillepano Valtioneuvoston jäsenen virkatoimen lainmukaisuuden tutkinta eduskunnan perustuslakivaliokunnassa voidaan panna vireille:

- 1) oikeuskanslerin tai oikeusasiamiehen perustuslakivaliokunnalle tekemällä ilmoituksella;
- 2) vähintään kymmenen kansanedustajan allekirjoittamalla muistutuksella; sekä
- 3) eduskunnan muun valiokunnan perustuslakivaliokunnalle esittämällä tutkintapyyntöillä.

Perustuslakivaliokunta voi myös omasta aloitteestaan ryhtyä tutkimaan valtioneuvoston jäsenen virkatoimen lainmukaisuutta.

- A standard template agreement between the EU Commission and EPPO regulates the procedure for lifting privileges and immunities. This template can be requested by the EPPO when necessary. **9**
- For acting in as case with Union officials, which enjoy specific protections under Protocol No. 7 of the Treaty on the Functioning of the European Union (TFEU) as an EDP you apply the Union law. **10**
- On 24 June 2024, the European Investment Bank (EIB) agreed to the request of the EPPO to lift the immunity of two former employees and revoke the inviolability of its premises and archives in Luxembourg. This request is part of an ongoing investigation into suspected corruption, abuse of influence, and misappropriation of EU funds, reported by OLAF. **11**
- The EIB's decision follows Protocol 7 on EU privileges and immunities, allowing the EPPO to effectively pursue the investigation in line with the rule of law and EU Charter of Fundamental Rights. All parties involved are presumed innocent until proven guilty. This case highlights how Article 29 enables the EPPO to tackle serious crimes even when privileges initially restrict direct investigative actions.¹⁹⁷ **12**
- For justice staff, this serves as a reminder of the importance of following the formal steps outlined in the EPPO Regulation. **13**

1. At least in cases where the offence subject to the investigation is punishable by a maximum penalty of at least 4 years of imprisonment, Member States shall ensure that the European Delegated Prosecutors are entitled to order or request the following investigation measures:

- (a) search any premises, land, means of transport, private home, clothes and any other personal property or computer system, and take any conservatory measures necessary to preserve their integrity or to avoid the loss or contamination of evidence;
- (b) obtain the production of any relevant object or document either in its original form or in some other specified form;
- (c) obtain the production of stored computer data, encrypted or decrypted, either in their original form or in some other specified form, including banking account data and traffic data with the exception of data specifically retained in accordance with national law pursuant to the second sentence of Article 15(1) of Directive 2002/58/EC of the European Parliament and of the Council;
- (d) freeze instrumentalities or proceeds of crime, including assets, that are expected to be subject to confiscation by the trial court, where there is reason to believe that the

owner, possessor or controller of those instrumentalities or proceeds will seek to frustrate the judgement ordering confiscation.

(e) intercept electronic communications to and from the suspect or accused person, over any electronic communication means that the suspect or accused person is using;

(f) track and trace an object by technical means, including controlled deliveries of goods.

2. Without prejudice to Article 29, the investigation measures set out in paragraph 1 of this Article may be subject to conditions in accordance with the applicable national law if the national law contains specific restrictions that apply with regard to certain categories of persons or professionals who are legally bound by an obligation of confidentiality.

3. The investigation measures set out in points(c), (e) and (f) of paragraph 1 of this Article may be subject to further conditions, including limitations, provided for in the applicable national law. In particular, Member States may limit the application of points (e) and (f) of paragraph 1 of this Article to specific serious offences. A Member State intending to make use of such limitation shall notify the EPPO of the relevant list of specific serious offences in accordance with Article 117.

4. The European Delegated Prosecutors shall be entitled to request or to order any other measures in their Member State that are available to prosecutors under national law in similar national cases, in addition to the measures referred to in paragraph 1.

5. The European Delegated Prosecutors may only order the measures referred to in paragraphs 1 and 4 where there are reasonable grounds to believe that the specific measure in question might provide information or evidence useful to the investigation, and where there is no less intrusive measure available which could achieve the same objective. The procedures and the modalities for taking the measures shall be governed by the applicable national law.

- 1 Art. 30 EPPO Regulation contains **many possibilities to discover EU frauds** and includes intrusive and effective means of investigative tools. Conducting the investigations, it is important to closely obey the law and follow the details. The following provisions from the **different Acts of Finland** in the Area of Criminal Justice give an overview of the actions that the EPPO carries out on behalf of the EU. The main provisions stem from the Coercive Measures Act.¹⁹⁸ The **National Statistics Office** keeps an eye on the use of these coercive measures. It presents extensive tables that show how many searches, seizures etc. were conducted on Finnish territory in the years before the EPPO started acting.¹⁹⁹

aa. Adaption Law of the Member State

Nota bene: The authorisation of an EDP (the “handling” EDP in one of the MS) to order or request could/should or must be enshrined in the new adaption laws which the Member States enacted to be fully operational for the EPPO and its tasks. As most of the Member States either amended their Criminal Procedure Act or their Code of the Organization of the Judiciary and/or the Public Prosecutor’s Office Act, the relevant provision(s) is (are) presented in the following.

bb. Provision in the CPC and Coercive Measures Act

4 Most of the investigation measures that the EDPs might use to verify EU Fraud Offences (see above → Art. 26 1. B) bb. (1)) and gather evidence to prove these offences are enshrined in the Coercive Measures Act:

Some of the investigation measures are explored in more details on the following pages **6** and offer the original wording and the English Law Text as well as examples and some case-law. Search measures were – if compared with the so-called PIF Offence and the EU Frauds and as seen from the statistical analysis – ordered quite frequently:

Coercive Measures Act

Chapter 8 – Search Search by location

Section 1²⁰² Definitions

Searches targeting a place in accordance with this chapter include a home search, which can be a general or special home search, and a location search.

A general home search refers to a search carried out in a place protected by domestic peace as referred to in Chapter 24, Section 11 of the Criminal Code.

²⁰⁰ 17 § Pakkokeinolaki – Erityistä kotietsintää koskeva tuomioistuinkäsittely

Erityisestä kotietsinnästä päättää syyteasiassa toimivaltainen tuomioistuin. Ennen syytteen nostamista etsinnästä saa päättää myös se käräjäoikeus, jonka tuomiopiirissä etsinnän kohteena oleva paikka sijaitsee. Asiaa käsittelevä käräjäoikeus on päätösvaltainen myös, kun siinä on yksin puheenjohtaja. [...]

²⁰¹ 29 § Pakkokeinolaki – Laite-etsinnästä päättäminen

Laite-etsinnästä päättää pidättämiseen oikeutettu virkamies ja 15 §:n 3 momentissa tarkoitettussa kiireellisessä tilanteessa poliisimies noudattaen soveltuvin osin 16 §:ssä säädettyä. Jos kysymys on 1 §:n 3 momentissa tarkoitetuista tiedoista, noudatetaan soveltuvin osin erityistä kotietsintää koskevia 15 §:n 1 ja 2 momenttia ja 17 §:ää.

²⁰² 8 luku Etsintä Paikkaan kohdistuva etsintä, 1 § Pakkokeinolaki Määritelmät

Tämän luvun mukaisia paikkaan kohdistuvia etsintöjä ovat kotietsintä, joka voi olla yleinen tai erityinen kotietsintä, sekä paikanetsintä. Yleisellä kotietsinnällä tarkoitetaan rikoslain 24 luvun 11 §:ssä tarkoitettua kotirauhan suojaamassa paikassa toimitettavaa etsintää.

Erityisellä kotietsinnällä tarkoitetaan etsintää sellaisessa tilassa, jossa etsinnän kohteeksi on syytä olettaa joutuvan tietoa, josta oikeudenkäymiskaaren 17 luvun 10–14, 16, 20 tai 21 §:n mukaan on velvollisuus tai oikeus kieltäytyä todistamasta ja johon ei tämän lain 7 luvun 3 §:n nojalla saa kohdistaa takavarikkoa tai asiakirjan jäljentämistä. (12.6.2015/737) Paikanetsinnällä tarkoitetaan etsintää, joka toimitetaan muussa kuin 2 tai 3 momentissa tarkoitettussa paikassa, vaikka siihen ei ole yleistä pääsyä tai yleinen pääsy siihen on rajoitettu tai estetty etsinnän toimitamisajankohtana, taikka jonka kohteena on kulkuneuvo.

A special home search means a search in such a space, where there is reason to assume that the object of the search will be information about which, according to Chapter 17 Sections 10–14, 16, 20 or 21 of the Judicial Code, there is an obligation or right to refuse to testify and which is not covered by Chapter 7 Section 3 of this law confiscation or copying of the document may be imposed. (12.6.2015/737)

A search of a place means a search that is carried out in a place other than that referred to in subsections 2 or 3, even if there is no public access to it or public access to it is limited or blocked at the time the search is carried out, or the target is a vehicle.

Section 4²⁰³ Prerequisites for location search

A location search may be submitted in order to find an object, property, document, information or matter under the conditions stipulated in section 2 subsection 1 section 2 and to find the person referred to in section 3 subsection 1.

Police Act/*Poliisilaki*

Chapter 2 General powers

Section 6²⁰⁴ Entry and search in danger and damage situations

A police officer has the right to enter a space or other place protected by domestic peace or public peace, or a space or other place to which there is no general access, or to a vehicle and, if necessary, conduct a search there, if there is reasonable reason to assume that:

- 1) an act or event endangering life, health or personal freedom or causing considerable damage to property or the environment is imminent or ongoing;
- 2) someone is in need of immediate help due to an already committed crime or accident or other similar rea-son; or
- 3) a dead person is found during the search.

In the case referred to in point 1 of subsection 1 above, it is also a condition that the measure is necessary to prevent danger or damage or to search for and take possession of explosives, weapons or other dangerous sub-stances and objects.

²⁰³ 4 § Pakkokeinolaki Paikanetsinnän edellytykset Paikanetsintä saadaan toimittaa esineen, omaisuuden, asiakirjan, tiedon tai seikan löytämiseksi 2 §:n 1 momentin 2 kohdassa säädetyin edellytyksin ja 3 §:n 1 momentissa tarkoitetun henkilön löytämiseksi.

²⁰⁴ 6 § Poliisilaki Sisäänkäynti ja etsintä vaara- ja vahinkotilanteissa Poliisimiehellä on oikeus päästä kotirauhan tai julkisrauhan suojaamaan tilaan tai muuhun paikkaan tai tilaan tai muuhun paikkaan, johon ei ole yleistä pääsyä, taikka kulkuneuvoon ja suorittaa siellä tarvittaessa etsintä, jos on perusteltua syytä olettaa, että:

- 1) henkeä, terveyttä tai henkilökohtaista vapautta vaarantava tai huomattavaa omaisuus- tai ympäristövahinkoa aiheuttava teko tai tapahtuma on välittömästi uhkaamassa tai käynnissä;
- 2) joku on jo tapahtuneen rikoksen tai onnettomuuden taikka muun vastaavan syyn vuoksi välittömän avun tarpeessa; tai
- 3) etsinnässä löytyy kuollut henkilö.

Edellä 1 momentin 1 kohdassa tarkoitetussa tapauksessa edellytyksenä on lisäksi, että toimenpide on välttämätön vaaran tai vahingon estämiseksi taikka räjähdysaineiden, aseiden tai muiden vaarallisten aineiden ja esineiden etsimiseksi ja haltuun ottamiseksi.

Muissa kuin kiireellisissä tilanteissa vakituiseen asumiseen käytettävään tilaan pääseminen edellyttää päällystään kuuluvan poliisimiehen määräystä.

In non-urgent situations, access to a space used for permanent living requires an order from a police officer.

Section 6a²⁰⁵ Entry and search to secure the enforcement of a decision on the temporary seizure of firearm

A police officer has the right to enter the premises referred to in Chapter 24, Section 11 of the Criminal Code and carry out a search there to the extent necessary in accordance with the Firearms Act (1/1998) Section 92 regarding the temporary seizure of firearms, weapon parts, cartridges and particularly dangerous ammunition in order to secure the execution of the decision, if there is reason to suspect that the person in possession of the items will not deliver a weapon, part of a weapon, cartridges or particularly dangerous ammunition to the police in accordance with the decision, and the measure is necessary to protect life and health.

The measure referred to in subsection 1 above requires an order from a police officer who is part of the staff.

(b) Search any means of transport

- 10 See → Search any premises or land (Chapter 8 Section 4 **Coercive Measures Act**; Chapter 2 Sections 6 and 6a **Police Act**).

(c) Search any private home

- 11 See → Search any premises or land (Chapter 8 Section 4 **Coercive Measures Act**; Chapter 2 Sections 6 and 6a **Police Act**).

(d) Search any clothes and any other personal property

- 12 Chapter 8, ss. 30 et seq. Coercive Measures Act provides for the search of a person and the clothing if there is e.g., a slight suspicion for fraud:

²⁰⁵ 6 a § (8.9.2017/625) Poliisilaki

Sisäänpääsy ja etsintä ampuma-aseiden väliaikaista haltuunottoa koskevan päätöksen täytäntöönpanon turvaamiseksi

Poliisimiehellä on oikeus päästä rikoslain 24 luvun 11 §:ssä tarkoitettuihin kotirauhan piiriin kuuluviin tiloihin ja suorittaa siellä välttämättömässä laajuudessa etsintä ampuma-aselain (1/1998) 92 §:ssä tarkoitetun ampuma-aseen, aseosien, patruunoiden ja erityisen vaarallisten ammusten väliaikaista haltuunottoa koskevan päätöksen täytäntöönpanon turvaamiseksi, jos on syytä epäillä, ettei henkilö, jonka hallussa esineet ovat, päätöksen mukaisesti toimita asetta, aseosaa, patruunoita tai erityisen vaarallisia ammuksia poliisin haltuun, ja toimenpide on välttämätön hengen ja terveyden suojaamiseksi.

Edellä 1 momentissa tarkoitettu toimenpide edellyttää päällystöön kuuluvan poliisimiehen määräystä.

A search targeting a person**Section 30²⁰⁶ Types of searches targeting a person**

A search targeting a person can be:

- 1) personal inspection to examine what the person being inspected has on their clothes or otherwise wearing or in the goods they are carrying; or
- 2) personal examination, which includes checking the subject's body, taking a blood sample or other sample, or other examination of the body.

Section 31²⁰⁷ Requirements for personal inspection

A personal search to find an object, property, document, information or matter may be carried out under the conditions set out in section 2, subsection 1, point 2, of a suspect:

- 1) for a crime for which the severest punishment prescribed is at least six months in prison;
- 2) for mild abuse;
- 3) for pickpocketing, mild embezzlement, mild unauthorised use, mild motor vehicle theft, possession of a burglary tool, mild alcohol crime;
- 4) slight damage; or
- 5) for slight fraud.

A person other than a suspect in a crime may be inspected only if it can be assumed with very valid grounds that the inspection will find an object, property, document, information or circumstance referred to in section 2, subsection 1, point 2.

²⁰⁶ 30 § Pakkokeinolaki Henkilöön kohdistuvan etsinnän lajit Henkilöön kohdistuva etsintä voi olla:

- 1) henkilöntarkastus sen tutkimiseksi, mitä tarkastettavalla on vaatteissaan tai muuten yllään taikka mukanaan olevissa tavaroissa; tai
- 2) henkilönkatsastus, joka käsittää katsastettavan kehon tarkastamisen, verinäytteen tai muun näytteen ottamisen taikka muun kehoon kohdistuvan tutkimuksen.

²⁰⁷ 31 § Pakkokeinolaki Henkilöntarkastuksen edellytykset

Henkilöntarkastus esineen, omaisuuden, asiakirjan, tiedon tai seikan löytämiseksi saadaan tehdä 2 §:n 1 momentin 2 kohdassa säädettyin edellytyksin sille, jota on syytä epäillä:

- 1) rikoksesta, josta säädetty ankarin rangaistus on vähintään kuusi kuukautta vankeutta;
- 2) lievistä pahoinpitelystä;
- 3) näpistyksestä, lievistä kavalluksesta, lievistä luvottomasta käytöstä, lievistä moottorikulkuneuvon käytöväarkaudesta, murtovälineen hallussapidosta, lievistä alkoholirikoksesta;
- 4) lievistä vahingonteosta; tai
- 5) lievistä petoksesta.

Muu kuin rikoksesta epäilty saadaan tarkastaa vain, jos erittäin pätevin perustein voidaan olettaa, että tarkastuksessa löytyy 2 §:n 1 momentin 2 kohdassa tarkoitettu esine, omaisuus, asiakirja, tieto tai seikka.

Section 32²⁰⁸ Requirements for personal inspection

A person suspected of a crime may be searched in order to find an object, property, document, information or matter under the conditions set out in Section 2 subsection 1, point 2, if there are probable reasons to suspect him of a crime for which the severest punishment is at least one year in prison, or for a drunken driving or drug use offense. If there are no probable reasons for suspicion, the suspect may only be searched if, on very valid grounds, it can be assumed that the object, property, document, information or circumstance referred to in the mentioned paragraph will be found.

If a crime has been committed, for which the severest punishment is at least four years in prison, the necessary background check to determine the DNA identifier or to take a gunpowder smoke sample or to perform other similar research can be carried out even without his consent on a person who is not suspected of the crime in question. The condition for such a background check is that the investigation has a very important meaning for the investigation of the crime because the investigation of the crime would be impossible or substantially more difficult using means that do not interfere with the rights of the subject of the investigation. DNA identifiers and corresponding investigation results must be destroyed and stored samples must be destroyed when the matter has been legally resolved or left to its own devices.

(e) Search any computer system

- 13** Chapter 8, ss. 20 Coercive Measures Act regulate the requisites of a device discovery. First, a device search is defined. The requirements, scope and limitations are explained then in more detail.
- 14** The following statistical data shows how many times the search of a device was ordered in the past in relation to the offences that can also constitute PIF offences:

²⁰⁸ 32 § Pakkokeinolaki Henkilönkatsastuksen edellytykset Rikoksesta epäillylle saadaan tehdä henkilönkatsastus esineen, omaisuuden, asiakirjan, tiedon tai seikan löytämiseksi 2 §:n 1 momentin 2 kohdassa säädettyin edellytyksin, jos on todennäköisiä syytä epäillä häntä rikoksesta, josta säädetty ankarin rangaistus on vähintään vuosi vankeutta, taikka rattijuopumuksesta tai huumausaineen käyttörikoksesta. Jollei epäilyyn ole todennäköisiä syytä, epäilty saadaan katsastaa vain, jos erittäin pätevin perusteiden voidaan olettaa löytyvän mainitussa kohdassa tarkoitettu esine, omaisuus, asiakirja, tieto tai seikka. Jos on tehty rikos, josta säädetty ankarin rangaistus on vähintään neljä vuotta vankeutta, saadaan DNA-tunnisteen määrittämiseksi tai ruutisavunäytteen ottamiseksi taikka muun vastaavan tutkimuksen suorittamiseksi tarpeellinen henkilönkatsastus tehdä ilman hänen suostumustaan henkilöille, jota ei epäillä kyseisestä rikoksesta. Edellytyksenä tällaiselle henkilönkatsastukselle on, että tutkimuksella on erittäin tärkeä merkitys rikoksen selvittämiseksi sen vuoksi, että rikoksen selvittäminen olisi mahdotonta tai olennaisesti vaikeampaa käyttämällä tutkinnan kohteen oikeuksiin vähemmän puuttuvia keinoja. DNA-tunnisteen ja vastaavat tutkintatulokset on hävitettävä ja säilytetyt näytteet tuhottava, kun asia on lainvoimaisesti ratkaistu tai jätetty sillensä.

 Section 28 - Application of the provisions concerning the search directed at the place
 Section 29 - Deciding on device search

16 Section 20²⁰⁹ Device discovery definition

Device search refers to a search directed to the information content in a computer, telecommunications terminal or other similar technical device or information system at the time the search is submitted.

The device search may not be aimed at a confidential message, which is regulated in chapter 10 on wiretapping, telemonitoring and technical monitoring. (30.12.2013/1146).

Section 21

[See → Art. 30 Para 5: National Procedures and national modalities for taking investigative measures]

Section 22²¹⁰ Taking possession of the device

A police officer may take possession of a technical device for the purpose of conducting a device search. After the search, the device must be returned without undue delay to the person from whose possession it was taken or who otherwise has the right to it.

If the device search cannot be delivered without delay, the device must be confiscated.

Section 23

[See → Art. 30 Para 2: Specific restrictions in national law that apply with regard to certain categories of persons or professionals with an LLP obligation, Art. 29]

Section 27²¹¹ Providing device discovery as a remote discovery

If required by the expediency of the criminal investigation or the urgency of the matter, the device search may be delivered as a remote search, where the device search is delivered without using the device that is with or in the possession of the person who is the subject of the search.

²⁰⁹ 20 § Laite-etsinnän määritelmä Laite-etsinnällä tarkoitetaan tietokoneessa, telepäätelaitteessa tai muussa vastaavassa teknisessä laitteessa tai tietojärjestelmässä etsinnän toimittamishetkellä olevaan tietosisältöön kohdistettavaa etsintää. Laite-etsintää ei saa kohdistaa sellaiseen luottamukselliseen viestiin, jota koskevasta telekuuntelusta, televalvonnasta ja teknisestä tarkkailusta säädetään 10 luvussa. (30.12.2013/1146)

²¹⁰ 22 § Laitteen haltuun ottaminen Poliisimies saa ottaa teknisen laitteen haltuunsa laite-etsinnän toimittamista varten. Etsinnän jälkeen laite on ilman aiheetonta viivytystä palautettava sille, jonka hallusta se on otettu tai jolla muuten on siihen oikeus. Jos laite-etsintää ei voida viivytyksettä toimittaa, laite on takavarikoitava.

²¹¹ 27 Laite-etsinnän toimittaminen etäetsintänä

Rikostutkinnallisten tarkoituksenmukaisuussyiden tai asian kiireellisyyden sitä edellyttäessä laite-etsintä saadaan toimittaa etäetsintänä, jossa laite-etsintä toimitetaan käyttämättä etsinnän kohteena olevan henkilön luona tai hallussa olevaa laitetta.

Section 28²¹² Application of the provisions on search directed at the place

When a device search is delivered in connection with a location-based search, the regulations regarding the delivery of the latter apply. In other cases, the provisions of § Section 5–13 and 19 shall be followed as applicable with regard to attendance, procedure, search officer, opening and examination of the document, and the protocol.

Section 29²¹³ Deciding on a device search

The device search is decided **by an official authorised** to arrest and, in an urgent situation referred to in section 15, subsection 3, **by a police officer**, following the applicable provisions of section 16. If the question is about the information referred to in section 1, subsection 3, section 15 subsections 1 and 2 and section 17 concerning special home searches shall be followed as applicable.

(2) Conservatory measures: Necessary to preserve their integrity, Necessary to avoid the loss, Necessary to avoid the contamination of evidence

This requisite of the EPPO Regulation may e.g. encompass a Data Retention Order stipulated by Chapter 8, s. 24 et seq. Coercive Measures Act: 17

Section 24²¹⁴ Data retention order [Computer Search]

If, before the device search is carried out, there is reason to assume that data, which may be relevant to the investigation of the crime under investigation, will be lost or changed, the official entitled to arrest may issue a data retention order. It orders the person in possession or control of the data, but not the suspect of a crime, to keep it unchanged. The order may also apply to data that can be assumed to enter the device or information 18

²¹² 28 Paikkaan kohdistuvaa etsintää koskevien säännösten soveltaminen

Kun laite-etsintä toimitetaan paikkaan kohdistuvan etsinnän yhteydessä, sovelletaan viimeksi mainitun toimitamista koskevia säännöksiä. Muissa tapauksissa läsnäolon, menettelyn, etsintävaltuutetun, asiakirjan avaamisen ja tutkimisen sekä pöytäkirjan osalta noudatetaan soveltuvin osin 5–13 ja 19 §:n säännöksiä.

²¹³ 29 § Laite-etsinnästä päättäminen Laite-etsinnästä päättää pidättämiseen oikeutettu virkamies ja 15 §:n 3 momentissa tarkoitettussa kiireellisessä tilanteessa poliisimies noudattaen soveltuvin osin 16 §:ssä säädettyä. Jos kysymys on 1 §:n 3 momentissa tarkoitetuista tiedoista, noudatetaan soveltuvin osin erityistä kotietsintää koskevia 15 §:n 1 ja 2 momenttia ja 17 §:ää.

²¹⁴ 24 § Datan säilyttämismääräys Jos ennen laite-etsinnän toimittamista on syytä olettaa, että data, jolla voi olla merkitystä tutkittavana olevan rikoksen selvittämiseksi, häviää tai sitä muutetaan, pidättämiseen oikeutettu virkamies voi antaa datan säilyttämismääräyksen. Sillä määrätään dataa hallussaan tai määräysvallassaan pitävä, ei kuitenkaan rikoksesta epäiltyä, säilyttämään se muuttumattomana. Määräys voi koskea myös dataa, jonka voidaan olettaa tulevan laitteeseen tai tietojärjestelmään määräyksen antamista seuraavan kuukauden aikana. Määräyksestä on pyynnöstä annettava kirjallinen todistus, jossa yksilöidään määräyksen kohteena oleva data.

Mitä 1 momentissa säädetään, koskee myös tietojärjestelmän välityksellä siirrettyyn viestiin liittyvää tietoa viestin alkuperästä, määränpäästä, reitistä ja koosta sekä viestinnän ajankohdasta, kestosta, laadusta ja muista vastaavista seikoista (*liikennetieto*). (30.12.2013/1146)

Esitutkintaviranomaisella ei ole 1 momentissa tarkoitettujen säilyttämismääräyksen nojalla oikeutta saada tietoonsa viestin, liikennetiedon tai muun tallennetun tiedon sisältöä. Jos 2 momentissa tarkoitettujen viestin välittämiseen on osallistunut useampi palveluntarjoaja, esitutkintaviranomaisella on oikeus saada tietoonsa palveluntarjoajien tunnistamiseksi tarvittavat liikennetiedot. (30.12.2013/1146)

system during the month following the issuance of the order. A written certificate of the order must be provided upon request, specifying the data that is the subject of the order. What is stipulated in subsection 1 also applies to information about the origin, destination, route and size of the message transmitted via the information system, as well as the time, duration, quality and other similar aspects of the communication (traffic information). (30.12.2013/1146)

Pursuant to the retention order referred to in subsection 1, the preliminary investigation authority does not have the right to obtain the content of a message, traffic information or other stored information. If more than one service provider has participated in the transmission of the message referred to in subsection 2, the preliminary investigation authority has the right to obtain the traffic data necessary to identify the service providers. (30.12.2013/1146).

Section 25²¹⁵ Duration of the data retention order

The data retention order is issued for three months at a time. The order can be renewed if the investigation of the crime requires it. The order must be revoked as soon as it is no longer necessary.

Section 26²¹⁶ Confidentiality of data retention order

The recipient of the data retention order is obliged to keep the order confidential. The punishment for breaching the confidentiality obligation regarding the preservation order is sentenced according to Chapter 38 Section 1 or Section 2 of the Criminal Code, unless a more severe punishment is provided for the act elsewhere in the law.

Datan säilyttämismääräyksen saanut on velvollinen pitämään määräyksen salassa.

Chapter 2 Customs' powers in the fight against customs crime

Section 14²¹⁹ Access to information from private and public entities or individuals

Customs has the right to receive from a private or public entity or person the necessary information to prevent, reveal or investigate a customs crime, without being hindered by the corporate, banking or insurance secrecy that binds a member of the entity, **an auditor**, the CEO, a member of the board of directors or a supervisory board, or an employee. Customs has the corresponding right to receive the necessary information to clarify the conditions for imposing a business ban. (17.11.2017/750)

Customs has the right, upon a separate request, to receive contact information from the telecommunications company and the corporate subscriber for a telephone address that is not mentioned in the public list, or information identifying the telephone address or telecommunication terminal, if the information is necessary to prevent, reveal or investigate a customs crime. Customs has the corresponding right to receive delivery address information from the entity engaged in postal operations.

The request for the information referred to in subsections 1 and 2 of the decision is made by the customs officer authorised to detain.

Customs has the right to receive the information referred to in subsections 1 and 2 free of charge, unless the law provides otherwise. The information referred to in subsections 1 and 2 above can be provided using an electronic data transmission method, if the protection of the data as referred to in section 32 subsection 1 of the Personal Data Act (523/1999) has been ensured.

²¹⁹ 14 § Laki rikostorjunnasta Tullissa Tietojen saanti yksityiseltä ja julkiselta yhteisöltä tai henkilöltä Tullilla on oikeus saada yksityiseltä tai julkiselta yhteisöltä tai henkilöltä yhteisön jäsentä, tilintarkastajaa, toimitusjohtajaa, hallituksen tai hallintoneuvoston jäsentä tai työntekijää velvoittavan yritys-, pankki- tai vakuutuslainsäätöön estämättä tarvittavat tiedot tullirikoksen estämiseksi, paljastamiseksi tai selvittämiseksi. Tullilla on vastaava oikeus saada välttämättömät tiedot liiketoimintakiellon määräämisen edellytysten selvittämiseksi. (17.11.2017/750) Tullilla on oikeus erikseen tekemästään pyynnöstä saada teleyritykseltä ja yhteisötilaajalta yhteystiedot sellaisesta teleosoitteesta, jota ei mainita julkisessa luettelossa, taikka teleosoitteen tai telepäätelaitteen yksilöivät tiedot, jos tiedot ovat tarpeen tullirikoksen estämiseksi, paljastamiseksi tai selvittämiseksi. Tullilla on vastaava oikeus saada postitoimintaa harjoittavalta yhteisöltä jakeluosoitetietoja. Päätöksen 1 ja 2 momentissa tarkoitettujen tietojen pyynnöstä tekee pidättämiseen oikeutettu tullimies.

Tullilla on oikeus saada 1 ja 2 momentissa tarkoitettut tiedot maksutta, jollei laissa toisin säädetä. Edellä 1 ja 2 momentissa tarkoitettut tiedot voidaan antaa sähköistä tiedonsiirtomenetelmää käyttäen, jos tietojen suojaaminen henkilötietolain (523/1999) 32 §:n 1 momentissa tarkoitetulla tavalla on varmistettu.

Tulli voi velvoittaa antamaan tiedot kohtuullisessa määräajassa. Tulli voi asettaa velvoitteen noudattamisen tehosteeksi uhkasakon. Uhkasakon asettamispäätöstä on noudatettava sitä koskevasta muutoksenhausta huolimatta. Uhkasakkoa ei kuitenkaan saa asettaa, jos asianosaista on aihetta epäillä rikoksesta ja pyydetty aineisto liittyy rikosepäilyn kohteena olevaan asiaan. Uhkasakon asettamisesta ja sen määrästä voidaan antaa tarkempia säännöksiä valtiovarainministeriön asetuksella. Muilta osin uhkasakosta säädetään uhkasakkolaissa (1113/1990). Henkilötietolain 523/1999 on kumottu Tietosuojalain 1050/2018. Ks. L henkilötietojen käsittelystä Tullissa 650/2019. See Byrne 2019 for the role of auditors in the Member States.

Customs can oblige you to provide the information within a reasonable period of time. Customs can impose a penalty fine as an effect of complying with the obligation. The decision to impose a fine must be followed regardless of the appeal. However, a threatened fine may not be imposed if there is reason to suspect the party involved of a crime and the requested material is related to a matter subject to criminal suspicion. More detailed regulations on the imposition of a threatened fine and its amount can be issued by a decree of the Ministry of Finance. In other respects, the penalty fine is regulated in the penalty fine act (1113/1990).

Mitä 1 momentissa säädetään, koskee myös tietoa, joka on teknisessä laitteessa tai muussa vastaavassa tietojärjestelmässä taikka sen tallennusalustalla (data). Tässä luvussa asiakirjasta säädettyä sovelletaan myös datan muodossa olevaan asiakirjaan. (20.5.2016/357)

Tässä luvussa esineestä säädettyä sovelletaan myös aineeseen. Esineestä voidaan irrottaa osa takavarikoitavaksi todisteena käyttämisistä varten, jos tutkintatoimenpidettä ei voida muuten suorittaa ilman suuria vaikeuksia.

Section 23²²² Information system owner’s obligation to provide information

The holder, administrator and other person of the information system are obliged to provide the pre-trial investigation authority with the passwords and other similar information necessary to provide the device search at its request. Upon request, a written certificate must be given to the person to whom the request was made.

²²¹ 3 § Laki pankki- ja maksutilien valvontajärjestelmästä

Pankki- ja maksutilien valvontajärjestelmää käyttävät viranomaiset

Seuraavilla toimivaltaisilla viranomaisilla on oikeus käyttää pankki- ja maksutilien valvontajärjestelmää, jos se on välttämätöntä rahanpesun ja terrorismin rahoittamisen estämiseksi, paljastamiseksi ja selvittämiseksi:

1) rahanpesun ja terrorismin rahoittamisen estämisestä annetussa laissa (444/2017) tarkoitetuilla valvontaviranomaisilla ja asianajajayhdistyksellä mainitussa laissa tarkoitetun valvontatehtävän suorittamiseen;

2) rahanpesun selvittelykeskuksella rahanpesun selvittelykeskuksesta annetun lain (445/2017) 2 §:n 1 momentin 1–4 ja 7 kohdassa tarkoitettujen tehtävien hoitamiseen;

3) rahanpesun ja terrorismin rahoittamisen estämisestä annetun lain 9 luvun 5 §:n mukaisilla viranomaisilla huolehtimisvelvoitteen toteuttamiseksi.

²²² 23 § Pakkokeinolaki Tietojärjestelmän haltijan tietojenantovelvollisuus Tietojärjestelmän haltija, ylläpitäjä ja muu henkilö ovat velvollisia antamaan esitutkintaviranomaiselle tämän pyynnöstä laite-etsinnän toimittamiseksi tarpeelliset salasanat ja muut vastaavat tiedot. Pyyntöä on pyydettyessä annettava kirjallinen todistus sille, jolle pyyntö on esitetty.

Jos henkilö kieltäytyy antamasta 1 momentissa tarkoitettuja tietoja, häntä voidaan kuulustella tuomioistuimessa esitutkintalain 7 luvun 9 §:ssä säädettyllä tavalla.

Edellä 1 momentissa säädetty ei koske rikoksesta epäiltyä eikä 7 luvun 3 §:n 1 tai 2 momentissa tarkoitettua, joka on oikeutettu tai velvollinen kieltäytymään todistamasta.

The provisions in subsection 1 above do not apply to a suspect of a crime or to the person referred to in subsection 1 or 2 of section 3 of chapter 7, who is entitled or obliged to refuse to testify.

Section 24²²³ Data retention order

If, before the device search is carried out, there is reason to assume that data, which may be relevant to the investigation of the crime under investigation, will be lost or changed, the official entitled to arrest may issue a data retention order. It orders the person in possession or control of the data, but not the suspect of a crime, to keep it unchanged. The order may also apply to data that can be assumed to enter the device or information system during the month following the issuance of the order. A written certificate of the order must be provided upon request, specifying the data that is the subject of the order.

What is stipulated in subsection 1 also applies to information about the origin, destination, route and size of the message transmitted via the information system, as well as the time, duration, quality and other similar aspects of the communication (traffic information). (30.12.2013/1146)

Pursuant to the retention order referred to in subsection 1, the preliminary investigation authority does not have the right to obtain the content of a message, traffic information or other stored information. If more than one service provider has participated in the transmission of the message referred to in subsection 2, the preliminary investigation authority has the right to obtain the traffic data necessary to identify the service providers. (30.12.2013/1146)

²²³ 24 § Pakkokeinolaki Datan säilyttämismääräys Jos ennen laite-etsinnän toimittamista on syytä olettaa, että data, jolla voi olla merkitystä tutkittavana olevan rikoksen selvittämiseksi, häviää tai sitä muutetaan, pidättämiseen oikeutettu virkamies voi antaa datan säilyttämismääräyksen. Sillä määrätään dataa hallussaan tai määräysvallassaan pitävä, ei kuitenkaan rikoksesta epäiltyä, säilyttämään se muuttumattomana. Määräys voi koskea myös dataa, jonka voidaan olettaa tulevan laitteeseen tai tietojärjestelmään määräyksen antamista seuraavan kuukauden aikana. Määräyksestä on pyynnöstä annettava kirjallinen todistus, jossa yksilöidään määräyksen kohteena oleva data.

Mitä 1 momentissa säädetään, koskee myös tietojärjestelmän välityksellä siirrettyyn viestiin liittyvää tietoa viestin alkuperästä, määränpäästä, reitistä ja koosta sekä viestinnän ajankohdasta, kestosta, laadusta ja muista vastaavista seikoista (liikennetieto). (30.12.2013/1146)

Esitutkintaviranomaisella ei ole 1 momentissa tarkoitetun säilyttämismääräyksen nojalla oikeutta saada tietoonsa viestin, liikennetiedon tai muun tallennetun tiedon sisältöä. Jos 2 momentissa tarkoitetun viestin välittämiseen on osallistunut useampi palveluntarjoaja, esitutkintaviranomaisella on oikeus saada tietoonsa palveluntarjoajien tunnistamiseksi tarvittavat liikennetiedot. (30.12.2013/1146)

(3) Exception of data specifically retained in accordance with national law (pursuant to the second sentence of Article 15(1) of Directive 2002/58/EC of the European Parliament and of the Council)

26 Article 30 para (c) grants EDPs the power to obtain stored computer data, including banking and traffic data, in various forms. However, data specifically retained under national laws per Directive 2002/58/EC (Article 15 para 1, second sentence) is excluded.

- Act amending section 13 of the Act on the processing of personal data in police operations /Lag om ändring av 13 Section i lagen om behandling av personuppgifter i polisens verksamhet (Finlands Forfattningssamling (FFS); Number: 523; Publication date: 2004-06-23; Page: 01474-01474).

Thus, under Article 15 para 1, second sentence of Directive 2002/58/EC, Member States **28** may mandate data retention for crime prevention, including fraud affecting the EU's financial interests (see above → PIF offences).

For an EDP, national prosecutor or Finish investigator, sentence 2 of Article 15 para 1 **29** of Directive 2002/58/EC means that it should be checked whether Finland can require, according to the laws cited above, telecom providers to retain certain data for a limited time to help with investigations. Retained data (e.g., call logs, IP addresses) can provide crucial evidence in criminal cases, including fraud affecting EU financial interests (PIF offences). EPPO cannot access such retained data under Article 30 para 1 (c) of the EPPO Regulation, limiting investigative tools for cross-border financial crimes.

Additionally, the Coercive Measures Act (806/2011) cited above allows Finish (e.g. **30** customs or police) authorities to compel individuals, excluding suspects, to provide necessary information, such as passwords, to access data during investigations. These legal frameworks facilitate the collection of evidence in criminal cases, thereby supporting the prosecution process. Whilst these laws may help the EDPs, the situation is different in other countries of the EPPO zone. A better harmonization of the respective Directive with a special emphasis on the retention of data to reveal PIF offences or tax crimes, customs offences to the detriment of the EU budget could be included in future revisions *de lege ferenda europea*.

²³⁰ 4 § (26.10.2001/875) Rikoksentekevälineen menettäminen Valtiolle menetetyksi on tuomittava rikoksen tekemisessä käytetty:

- 1) ampuma- tai teräase sekä muu niihin rinnastettava hengenvaarallinen väline; ja
- 2) muu esine tai omaisuus, jonka hallussapito on rangaistavaa.

Menetetyksi voidaan tuomita myös:

- 1) esine tai omaisuus, jota on käytetty tahallisen rikoksen tekemisessä; ja
- 2) oikeudenkäynnin kohteena olevaan tahalliseen rikokseen läheisesti liittyvä esine tai omaisuus, joka on yksinomaan tai pääasiallisesti tahallista rikosta varten hankittu tai valmistettu taikka ominaisuuksiltaan erityisen sovelias tahallisen rikoksen tekemiseen.

Menetetyksi tuomitsemisen tarpeellisuutta harkittaessa on erityisesti kiinnitettävä huomiota uusien rikosten ehkäisemiseen.

²³¹ 5 § (26.10.2001/875)

Muun omaisuuden menettäminen

Rikoksella tuotettu, valmistettu tai aikaansaatu taikka rikoksen kohteena ollut esine tai omaisuus on tuomittava valtiolle menetetyksi, jos sen hallussapito on rangaistavaa.

Rikoksella tuotettu, valmistettu tai aikaansaatu taikka rikoksen kohteena ollut esine tai omaisuus voidaan tuomita kokonaan tai osaksi menetetyksi, jos menettämisestä on tarpeen:

- 1) esineen tai omaisuuden terveydelle tai ympäristölle haitallisten ominaisuuksien vuoksi;
- 2) uusien rikosten ehkäisemiseksi, ja esine on erityisen sovelias rikoksen kohteeksi tai rikolliseen käyttöön;
- 3) säännöstelyä taikka maahantuontia tai maastavientiä koskevien säännösten tai määräysten tarkoituksen toteuttamiseksi; tai
- 4) luonnon tai ympäristön suojelemiseksi annettujen säännösten tai määräysten tarkoituksen toteuttamiseksi.

- 3) to achieve the objective of the provisions or regulations on import, export or regulation, or
- 4) to achieve the objective of the provisions or regulations on the protection of nature or the environment.

Chapter 31, s. 12 of the Criminal Code holds a provision in relation to Money Laundering: **37**

Section 12²³² Confiscation

Property that has been the target of an offence referred to in section 6, 7 or 9 shall be confiscated. The provisions of chapter 10, section 11, subsection 3 apply to the confiscation. The provisions of chapter 10 apply to the confiscation of other property. Regardless of what is provided in subsection 1, property that has been the target of money laundering may be ordered to be given as compensation or restitution to the person injured by the predicate offence in compliance with the provisions of chapter 10, section 2, subsection 3 as appropriate, instead of confiscation, if the nature of the property is suitable for this and compensation or restitution has not been paid to the person. However, confiscation of the property shall be ordered if the nature of the property is not suitable or it cannot be ordered to be given as compensation or restitution to the injured person due to the impediment referred to in chapter 10, section 2, subsection 3. In such a case, the provisions of chapter 10, section 11, subsection 2 apply, as appropriate, to the right of the person injured by the predicate offence to receive an amount equivalent to compensation or restitution from state funds.

²³² 12 § (27.4.2012/187) Menettämisseuraamus Omaisuus, joka on ollut 6, 7 tai 9 §:ssä tarkoitetun rikoksen kohteena, on tuomittava valtiolle menetetyksi. Menettämisseuraamukseen sovelletaan, mitä 10 luvun 11 §:n 3 momentissa säädetään.

Muun omaisuuden menettämisen osalta noudatetaan, mitä 10 luvussa säädetään.

Sen estämättä, mitä 1 momentissa säädetään, rahanpesun kohteena ollut omaisuus voidaan valtiolle menetetyksi tuomitsemisen asemesta tuomita esirikoksella loukatulle vahingonkorvauksena tai edunpalautuksena, jos omaisuus on laadultaan tähän sopivaa eikä vahingonkorvausta tai edunpalautusta hänelle ole suoritettu, noudattaen soveltuvien osin, mitä 10 luvun 2 §:n 3 momentissa säädetään. Omaisuus on kuitenkin tuomittava menetetyksi, jollei se ole laadultaan sopivaa tai sitä ei voida tuomita loukatulle vahingonkorvauksena tai edunpalautuksena 10 luvun 2 §:n 3 momentissa tarkoitetun esteen vuoksi. Tällöin esirikoksella loukatun oikeudesta saada valtion varoista vahingonkorvausta tai edunpalautusta vastaava määrä noudatetaan soveltuvien osin, mitä 10 luvun 11 §:n 2 momentissa säädetään.

The Coercive Measures Act does not apply with regard to every possible EU Fraud Offence in Finland (see above → Art. 26). Instead, Chapter 10, s. 10 Coercive Measures Act already clearly distinguishes what kind of special law applies in certain circumstances: 7

Chapter 10 Secret means of coercion

General provisions

Section 1²³⁴ Scope of application

Wiretapping, obtaining information instead of wiretapping, telesurveillance, obtaining base station data, planned surveillance, covert data acquisition, technical surveillance (technical listening, technical viewing, technical monitoring and technical device monitoring), obtaining identification data of a telephone address or telecommunications terminal, covert activity, fake purchase, data source activity and controlled pass-through can be used in the preliminary investigation in secret from their targets. The use of these means to prevent and detect crime is regulated in the Police Act, the Customs Crime Prevention Act (623/2015) and the Law on Crime Prevention at the Border Guard (108/2018).

What is stipulated in this chapter regarding the right of a preliminary investigation authority or a preliminary investigation officer to use coercive means, except for covert operations, false purchase and controlled use of an information source, applies to border guard, customs and military authorities in addition to the police, according to what is separately stipulated in the law. Customs' right to use covert operations, fake purchases and controlled use of information sources in the preliminary investigation of a customs crime is regulated in the Customs Crime Prevention Act. Undercover operations and fake purchases in the preliminary investigation of a customs crime are carried out by the police at the request of the Customs. However, by decision of the head of the Central Criminal Police, covert operations and fake purchases carried out exclusively on the information network can also be carried out by a customs officer specially trained in secret information acquisition.

²³⁴ 1 § (22.5.2015/628) Soveltamisala Telekuuntelua, tietojen hankkimista telekuuntelun sijasta, televalvontaa, tukiasematietojen hankkimista, suunnitelmallista tarkkailua, peiteltyä tiedonhankintaa, teknistä tarkkailua (tekninen kuuntelu, tekninen katselu, tekninen seuranta ja tekninen laitetarkkailu), teleosoitteen tai telepäätelaitteen yksilöintitietojen hankkimista, peitetoimintaa, valeostoa, tietolähdetoimintaa ja valvottua läpilaskua voidaan käyttää esitutkinnassa salassa niiden kohteilta. Näiden keinojen käytöstä rikoksen estämiseksi ja paljastamiseksi säädetään poliisilaissa, rikostorjunnasta Tullissa annetussa laissa (623/2015) ja rikostorjunnasta Rajavartiolaitoksessa annetussa laissa (108/2018). (30.1.2018/112)

Mitä tässä luvussa säädetään esitutkintaviranomaisen tai esitutkintavirkamiehen oikeudesta käyttää pakkokeinoja, koskee peitetoimintaa, valeostoa ja tietolähteen ohjattua käyttöä lukuun ottamatta poliisiin lisäksi rajavartio-, tullija sotilasviranomaisia sen mukaan kuin siitä laissa erikseen säädetään. Tullin oikeudesta käyttää peitetoimintaa, valeostoa ja tietolähteen ohjattua käyttöä tullirikoksen esitutkinnassa säädetään rikostorjunnasta Tullissa annetussa laissa. Tullirikoksen esitutkinnassa suoritettavan peitetoiminnan ja valeoston toteuttaa poliisi Tullin pyynnöstä. Keskusrikospoliisin päällikön päätöksellä yksinomaan tietoverkossa tehtävän peitetoiminnan ja valeoston voi kuitenkin toteuttaa myös salaiseen tiedonhankintaan erityisesti koulutettu tullirikostorjunnan tullimies.

ff. Para 1(f) Tracking & Tracing an Object

42

Coercive Measures Act

Chapter 10 Secret Means of Coercion

Section 21²³⁶ Technical monitoring and its conditions

Technical monitoring refers to the monitoring of the movement of an object, substance or property with a radio transmitter to be placed separately or already in it, or other such technical device or method or software.

The preliminary investigation authority may apply technical surveillance to the subject of the crime or to the object, substance or property presumably possessed or used by the suspect, when there is reason to suspect the suspect of a crime for which the severest punishment provided for is at least one year in prison.

If the purpose of the technical monitoring is to monitor the movements of the person suspected of a crime by placing a tracking device on the clothes he is wearing or on an object he is carrying (technical monitoring of a person), the measure may only be carried out if there is reason to suspect him of the crime referred to in section 16, subsection 3.

²³⁶ 21 § Pakkokeinolaki Tekninen seuranta ja sen edellytykset Teknisellä seurannalla tarkoitetaan esineen, aineen tai omaisuuden liikkumisen seurantaan siihen erikseen sijoitettavalla tai siinä jo olevalla radiolähtimellä tai muulla sellaisella teknisellä laitteella taikka menetelmällä tai ohjelmistolla.

Esitutkintaviranomainen saa kohdistaa rikoksen kohteena olevaan tai rikoksesta epäillyn oletettavasti hallussa olevaan tai käyttämään esineeseen, aineeseen tai omaisuuteen teknistä seurantaan, kun epäiltyä on syytä epäillä rikoksesta, josta säädetty ankaran rangaistus on vähintään vuosi vankeutta.

Jos teknisen seurannan tarkoituksena on seurata rikoksesta epäillyn liikkumista sijoittamalla seurantalaite hänen yllään oleviin vaatteisiin tai mukanaan olevaan esineeseen (henkilön tekninen seuranta), saadaan toimenpide suorittaa vain, jos häntä on syytä epäillä 16 §:n 3 momentissa tarkoitettusta rikoksesta.

Section 22²³⁷ Deciding on technical monitoring

The court decides on technical monitoring of a person at the request of an official entitled to arrest. If the matter cannot tolerate delay, the official authorised to arrest may decide on the technical monitoring of the person until the court has resolved the request for the granting of the permit. The matter must be brought to the court for resolution as soon as it is possible, but no later than 24 hours after the coercive measure has been used.

The official authorised to arrest decides on other than the technical monitoring of the person.

The permit can be granted and the decision made for a maximum of six months at a time.

The requirement and decision regarding technical monitoring must state:

- 1) the suspected crime and the time it was committed;
- 2) suspected of a crime;
- 3) the facts on which the criminal suspicion against the suspect and the prerequisites for technical monitoring are based;
- 4) the validity period of the permit with the accuracy of the time;
- 5) toimenpiteen kohteena oleva esine, aine tai omaisuus;
- 6) an official authorised to arrest who leads and supervises the performance of technical monitoring;
- 7) possible limitations and conditions of technical monitoring.

²³⁷ 22 § Pakkokeinolaki Teknisestä seurannasta päättäminen Tuomioistuimien päätää henkilön teknisestä seurannasta pidättämiseen oikeutetun virkamiehen vaatimuksesta. Jos asia ei siedä viivytystä, pidättämiseen oikeutettu virkamies saa päättää henkilön teknisestä seurannasta siihen asti, kunnes tuomioistuimien on ratkaissut luvan myöntämistä koskevan vaatimuksen. Asia on saatettava tuomioistuimien ratkaistavaksi heti, kun se on mahdollista, kuitenkin viimeistään 24 tunnin kuluttua pakkokeinon käytön aloittamisesta. Pidättämiseen oikeutettu virkamies päättää muusta kuin henkilön teknisestä seurannasta.

Lupa voidaan antaa ja päätös tehdä enintään kuudeksi kuukaudeksi kerrallaan.

Teknistä seurannasta koskevassa vaatimuksessa ja päätöksessä on mainittava:

- 1) epäilty rikos ja sen tekoaika;
- 2) rikoksesta epäilty;
- 3) tosiseikat, joihin epäiltyyn kohdistuva rikosepäily ja teknisen seurannan edellytykset perustuvat;
- 4) luvan voimassaoloaika kellonajan tarkkuudella;
- 5) toimenpiteen kohteena oleva esine, aine tai omaisuus;
- 6) teknisen seurannan suorittamista johtava ja valvova pidättämiseen oikeutettu virkamies;
- 7) mahdolliset teknisen seurannan rajoitukset ja ehdot.

c) Para 2: Specific restrictions in national law that apply with regard to certain categories of persons or professionals with an LLP obligation, Art. 29

Without prejudice to Article 29, the investigation measures set out in paragraph 1 of this Article may be subject to conditions in accordance with the applicable national law if the national law contains specific restrictions that apply with regard to certain categories of persons or professionals who are legally bound by an obligation of confidentiality.

Section 23²³⁸ (23.3.2023/452)

Information and assistance obligation of the holder of the information system

The owner, administrator and other person of the information system are obliged to provide the preliminary investigation authority at its request with the passwords and other similar information necessary for the device search and to assist in using them. Upon request, a written certificate must be given to the person to whom the request was made. If a person refuses to provide the information referred to in subsection 1 or to assist in using it in the manner referred to in said subsection, he or she may be interrogated in court in the manner provided for in Chapter 7, Section 9 of the Pre-trial Investigations Act.

The provisions in subsection 1 above do not apply to a suspect of a crime or **to the person referred to in subsection 1 or 2 of section 3 of chapter 7²³⁹, who is entitled or obliged to refuse to testify.**

²³⁸ 23 § (23.3.2023/452) Pakkokeinolaki Tietojärjestelmän haltijan tietojenanto- ja avustusvelvollisuus
Tietojärjestelmän haltija, ylläpitäjä ja muu henkilö ovat velvollisia antamaan esitutkintaviranomaiselle tämän pyynnöstä laite-etsinnän toimittamiseksi tarpeelliset salasanat ja muut vastaavat tiedot sekä avustamaan näiden käyttämisessä. Pyyntöä on pyydettyessä annettava kirjallinen todistus sille, jolle pyyntö on esitetty.

Jos henkilö kieltäytyy antamasta 1 momentissa tarkoitettuja tietoja tai avustamasta näiden käyttämisessä mainitussa momentissa tarkoitetulla tavalla, häntä voidaan kuulustella tuomioistuimessa esitutkintalain 7 luvun 9 §:ssä säädettyllä tavalla.

Edellä 1 momentissa säädetty ei koske rikoksesta epäiltyä eikä 7 luvun 3 §:n 1 tai 2 momentissa tarkoitettua, joka on oikeutettu tai velvollinen kieltäytymään todistamasta.

²³⁹ § 3 (12.6.2015/737) Pakkokeinolaki

Confiscation and reproduction bans

A document or other object referred to in § 1 may not be seized or copied if it contains information about which there is an obligation or right to refuse to testify pursuant to §§ 10–14, 16, 20 or 21 of Chapter 17 of the Civil Procedure Code.

If the obligation or right to secrecy is based on § 11, sub§ 2 or 3, or § 13, 14, 16, or 20 of the Code of Judicial Conduct, chapter 17 [Chapter 17 (12.6.2015/732) About proof], in addition to what is stipulated in sub§ 1, the condition for the prohibition is that the object is the person referred to in the mentioned legal § or § 22 of the chapter referred to him in the possession of a person in a relationship referred to in sub§ 2 of

1) rikoksesta epäillyn ja hänen oikeudenkäymiskaaren 17 luvun 13 §:n 1 tai 3 momentissa tarkoitetun oikeudellisen avustajansa tai 1 momentissa tarkoitetun tulkin taikka mainittuun avustajaan 22 §:n 2 momentissa tarkoitetussa suhteessa olevan henkilön väliseen viestiin;

Section 21²⁴⁴ Coercive Measures Act

Requirements for device search [Computer-search]

[see → Search any premises or land for the definition of a computer and device search]

The device search can be delivered if:

- 1) there is reason to suspect that a crime has been committed, for which the severest punishment provided is at least six months in prison, or matters related to the sentencing of a community fine need to be clarified; and
- 2) during the search, it can be assumed that a document or information to be seized as referred to in subsection 1 or 2 of chapter 7, section 1, related to the crime under investigation, or a document to be copied pursuant to chapter 7, section 2, will be found.

A device search can also be delivered to return the device to the person entitled to it, if there is reason to assume that it has been taken from someone by crime.

The decision to conduct a site-specific search can also be extended to the technical device or information system at the place where the search is performed, if it is not a site-specific search to find a person.

²⁴⁴ 21 §Pakkokeinolaki Laite-etsinnän edellytykset Laite-etsintä saadaan toimittaa, jos:

1) on syytä epäillä, että on tehty rikos, josta säädetty ankarin rangaistus on vähintään kuusi kuukautta vankeutta, tai selvittävänä ovat yhteisösakon tuomitsemiseen liittyvät seikat; ja

2) etsinnässä voidaan olettaa löytyvän tutkittavana olevaan rikokseen liittyvä 7 luvun 1 §:n 1 tai 2 momentissa tarkoitettu takavarikoitava asiakirja tai tieto taikka 7 luvun 2 §:n nojalla jäljennettävä asiakirja.

Laite-etsintä voidaan toimittaa myös laitteen palauttamiseksi siihen oikeutetulle, jos on syytä olettaa, että se on rikoksella joltakulta viety.

Päätös paikkaan kohdistuvan etsinnän toimittamisesta saadaan ulottaa koskemaan myös etsinnän toimituspaikassa olevaa teknistä laitetta tai tietojärjestelmää, jos kyseessä ei ole paikkaan kohdistuva etsintä henkilön löytämiseksi.

Section 32²⁴⁵ Requirements for personal inspection

A person suspected of a crime may be searched in order to find an object, property, document, information or matter under the conditions set out in Section 2 subsection 1, point 2, if there are probable reasons to suspect him of a crime for which the severest punishment is at least one year in prison, or for a drunken driving or drug use offense. If there are no probable reasons for suspicion, the suspect may only be searched if, on very valid grounds, it can be assumed that the object, property, document, information or circumstance referred to in the mentioned paragraph will be found.

If a crime has been committed, for which the severest punishment is at least four years in prison, the necessary background check to determine the DNA identifier or to take a gunpowder smoke sample or to perform other similar research can be carried out even without his consent on a person who is not suspected of the crime in question. The condition for such a background check is that the investigation has a very important meaning for the investigation of the crime because the investigation of the crime would be impossible or substantially more difficult using means that do not interfere with the rights of the subject of the investigation. DNA identifiers and corresponding investigation results must be destroyed and stored samples must be destroyed when the matter has been legally resolved or left to its own devices.

²⁴⁵ 32 § Pakkokeinolaki

Henkilönkatsastuksen edellytykset

Rikoksesta epäillylle saadaan tehdä henkilönkatsastus esineen, omaisuuden, asiakirjan, tiedon tai seikan löytämiseksi 2 §:n 1 momentin 2 kohdassa säädettyin edellytyksin, jos on todennäköisiä syitä epäillä häntä rikoksesta, josta säädetty ankarin rangaistus on vähintään vuosi vankeutta, taikka rattijuopumuksesta tai huumausaineen käytörikoksesta. Jollei epäilyyn ole todennäköisiä syitä, epäilty saadaan katsastaa vain, jos erittäin pätevin perustein voidaan olettaa löytyvän mainitussa kohdassa tarkoitettu esine, omaisuus, asiakirja, tieto tai seikka.

Jos on tehty rikos, josta säädetty ankarin rangaistus on vähintään neljä vuotta vankeutta, saadaan DNA-tunnisteen määrittämiseksi tai ruutisavunäytteen ottamiseksi taikka muun vastaavan tutkimuksen suorittamiseksi tarpeellinen henkilönkatsastus tehdä ilman hänen suostumustaan henkilöille, jota ei epäillä kyseisestä rikoksesta. Edellytyksenä tällaiselle henkilönkatsastukselle on, että tutkimuksella on erittäin tärkeä merkitys rikoksen selvittämiseksi sen vuoksi, että rikoksen selvittäminen olisi mahdotonta tai olennaisesti vaikeampaa käyttämällä tutkinnan kohteen oikeuksiin vähemmän puuttuvia keinoja. DNA-tunnisteet ja vastaavat tutkintatulokset on hävitettävä ja säilytetyt näytteet tuhottava, kun asia on lainvoimaisesti ratkaistu tai jätetty sillensä.

bb. Coercive Measures Act, Chapter 10 Secret Investigation Measures

49

Coercive Measures Act**Section 14²⁴⁶ Covert information acquisition and its prerequisites**

Covert information acquisition refers to the acquisition of information directed at a specific person in a short-term interaction, where false, misleading or hidden information is used to conceal the task of a policeman or a customs officer of the Customs' crime prevention.

The police may use covert information gathering if there is reason to assume that the measure will provide an explanation:

- 1) for a crime for which the severest punishment prescribed is at least four years in prison;
- 2) exploitation or pimping of a person who is the subject of sex trafficking;
- 3) for a narcotics offence;
- 4) for the preparation of a crime committed with terrorist intent or training for the commission of a terrorist crime, traveling for the purpose of committing a terrorist crime, or public incitement related to terrorist crimes, if the seriousness of the act would require a prison sentence;
- 5) for a gross customs clearance crime;
- 6) for theft or concealment related to planned, organized, professional, continuous or repeated criminal activity;
- 7) preparation for taking a hostage; or
- 8) for the preparation of aggravated robbery.

²⁴⁶ 14 § (22.5.2015/628) Pakkokeinolaki Peitelty tiedonhankinta ja sen edellytykset Peiteltyllä tiedonhankinnalla tarkoitetaan tiettyyn henkilöön kohdistuvaa lyhytkestoisessa vuorovaikutuksessa tapahtuvaa tiedonhankintaa, jossa poliisimiehen tai Tullin rikostorjunnan tullimiehen tehtävän salaamiseksi käytetään väärää, harhauttavia tai peiteltyjä tietoja. Poliisi saa käyttää peiteltyä tiedonhankintaa, jos on syytä olettaa, että toimenpiteellä saadaan selvitystä:

- 1) rikoksesta, josta säädetty ankarin rangaistus on vähintään neljä vuotta vankeutta;
- 2) seksikaupan kohteena olevan henkilön hyväksikäytöstä tai parituksesta;
- 3) huumausainerikoksesta;
- 4) terroristisessa tarkoituksessa tehtävän rikoksen valmistelusta taikka kouluttautumisesta terrorismirikoksen tekemistä varten, matkustamisesta terrorismirikoksen tekemistä varten tai terrorismirikoksiin liittyvästä julkisesta kehottamisesta, jos teon vakavuus edellyttäisi vankeusrangaistusta;
- 5) törkeästä tulliselvitysrikoksesta;
- 6) suunnitelmalliseen, järjestäytyneeseen, ammattimaiseen, jatkuvaan tai toistuvaan rikolliseen toimintaan liittyvästä varkaudesta tai kätkemisrikoksesta;
- 7) panttivangin ottamisen valmistelusta; taikka
- 8) törkeän ryöstön valmistelusta.

(22.12.2021/1268)

Tulli saa käyttää peiteltyä tiedonhankintaa, jos on syytä olettaa, että toimenpiteellä saadaan selvitystä:

- 1) rikoksesta, josta säädetty ankarin rangaistus on vähintään neljä vuotta vankeutta;
- 2) tullirikokseksi katsottavasta huumausainerikoksesta;
- 3) salakuljetuksesta; taikka
- 4) törkeästä tulliselvitysrikoksesta.

Peitelty tiedonhankinta ei ole sallittua asunnossa edes asunnonhaltijan myötävaikutuksella.

Customs may use covert information acquisition if there is reason to assume that the measure will provide an explanation:

- 1) for a crime for which the severest punishment prescribed is at least four years in prison;
- 2) for a narcotics crime considered a customs crime;
- 3) smuggling; or
- 4) for gross customs clearance crime.

Covert information acquisition is not allowed in the apartment, even with the cooperation of the owner of the apartment.

Section 15²⁴⁷ Deciding on covert information acquisition

The head of the central criminal police, protection police or police department, or an official specially trained for covert information acquisition and authorised to arrest, decides on covert information acquisition. Covert information acquisition to investigate a customs crime is decided by the head of Customs' crime prevention or a customs officer assigned to the task who is specially trained for covert information acquisition and entitled to arrest.

The decision on covert information acquisition must be made in writing. The decision must state:

- 1) the measure and its goal sufficiently identified;
- 2) the unit carrying out the covert information acquisition and the police officer responsible for it or the customs officer of the Customs Crime Prevention;
- 3) suspected crime;
- 4) a person subject to covert information acquisition;
- 5) the facts on which the criminal suspicion is based;
- 6) the planned implementation date of the measure;
- 7) possible restrictions and conditions of covert information acquisition.

If necessary, the decision must be revised if circumstances change.

²⁴⁷ 15 § Pakkokeinolaki Peitellystä tiedonhankinnasta päättäminen Keskusrikospoliisin, suojelupoliisin tai poliisilaitoksen päällikkö taikka tehtävään määrätty salaiseen tiedonhankintaan erityisesti koulutettu pidättämiseen oikeutettu virkamies päättää peitellystä tiedonhankinnasta. Peitellystä tiedonhankinnasta tullirikoksen selvittämiseksi päättää Tullin rikostorjunnan päällikkö tai tehtävään määrätty salaiseen tiedonhankintaan erityisesti koulutettu pidättämiseen oikeutettu tullimies. (22.5.2015/628)

Päätös peitellystä tiedonhankinnasta on tehtävä kirjallisesti. Päätöksessä on mainittava:

- 1) toimenpide ja sen tavoite riittävästi yksilöitynä;
- 2) peitellyn tiedonhankinnan toteuttava yksikkö ja siitä vastaava poliisimies tai Tullin rikostorjunnan tullimies; (22.5.2015/628)
- 3) epäilty rikos;
- 4) peitellyn tiedonhankinnan kohteena oleva henkilö;
- 5) tosiseikat, joihin rikosepäily perustuu;
- 6) toimenpiteen suunniteltu toteuttamisajankohta;
- 7) mahdolliset peitellyn tiedonhankinnan rajoitukset ja ehdot.

Päätöstä on olosuhteiden muuttuessa tarvittaessa tarkistettava.

Section 16²⁴⁸ Technical listening and its prerequisites

Technical eavesdropping refers to the listening, recording and other processing with a technical device, method or software of a conversation or message of a suspect of a crime, which is not intended for the information of outsiders and in which the listener does not participate, taking place with a technical device, method or software, the content of the conversation or message or its to investigate the parties or the suspected activity.

The pre-trial investigation authority may direct technical wiretapping to a criminal suspect who is outside the premises used for permanent residence and to a criminal suspect who has lost his liberty as a result of the crime in the authorities' premises. Eavesdropping can be carried out by targeting a space or other place where the suspect is likely to stay or visit.

The prerequisite for technical wiretapping is that there is reason to suspect the subject of wiretapping:

- 1) for a crime for which the severest punishment prescribed is at least four years in prison;
- 2) for a narcotics offence;
- 3) preparation for a crime committed with terrorist intent or training for committing a terrorist crime, traveling for the purpose of committing a terrorist crime, or public incitement related to terrorist crimes, if the seriousness of the act would require a prison sentence;
- 4) for a gross customs clearance crime;
- 5) preparation for taking a hostage; or
- 6) for the preparation of aggravated robbery.

²⁴⁸ § 16 Pakkokeinolaki

Tekninen kuuntelu ja sen edellytykset

Teknisellä kuuntelulla tarkoitetaan rikoslain 24 luvun 5 §:n estämättä tapahtuvaa rikoksesta epäillyn sellaisen keskustelun tai viestin, joka ei ole ulkopuolisten tietoon tarkoitettu ja johon keskusteluun kuuntelija ei osallistu, kuuntelua, tallentamista ja muuta käsittelyä teknisellä laitteella, menetelmällä tai ohjelmistolla keskustelun tai viestin sisällön tai sen osapuolten taikka epäillyn toiminnan selvittämiseksi.

Esitutkintaviranomainen saa kohdistaa teknistä kuuntelua vakituiseen asumiseen käytettävän tilan ulkopuolella olevaan rikoksesta epäiltyyn ja viranomaisten tiloissa olevaan rikoksen johdosta vapautensa menettäneeseen rikoksesta epäiltyyn. Kuuntelu voidaan toteuttaa kohdistamalla se tilaan tai muuhun paikkaan, jossa epäillyn voidaan olettaa todennäköisesti oleskelevan tai käyvän.

Teknisen kuuntelun edellytyksenä on lisäksi, että kuuntelun kohteena olevaa henkilöä on syytä epäillä:

- 1) rikoksesta, josta säädetty ankarin rangaistus on vähintään neljä vuotta vankeutta;
- 2) huumausainerikoksesta;
- 3) terroristisessa tarkoituksessa tehtävän rikoksen valmistelusta taikka kouluttautumisesta terrorismirikoksen tekemistä varten, matkustamisesta terrorismirikoksen tekemistä varten tai terrorismirikoksiin liittyvästä julkisesta kehottamisesta, jos teon vakavuus edellyttäisi vankeusrangaistusta;
- 4) törkeästä tulliselvitysrikoksesta;
- 5) panttivangin ottamisen valmistelusta; taikka
- 6) törkeän ryöstön valmistelusta.

(22.12.2021/1268)

2. Articles 31 and 32 Cross-border investigations and Enforcement of assigned measures

- 50** Article 31 describes the procedures for the Finish EDP to “assign” investigative measures to an EDP in another Member State e.g. soon Sweden. This mechanism ensures that cross-border investigations are conducted efficiently, respecting the legal frameworks of the involved jurisdictions; Art. 4 para 3 TFEU and Art. 325 TFEU and recitals 14 and 68 request **efficiency**. Art. 31 para 2, 3–5 specify that the justification and adoption of such measures are governed by the law of the handling EDP’s Member State, while the execution falls under the law of the assisting EDP’s Member State.
- 51** Article 32 addresses the recognition and execution of decisions regarding precautionary measures and alternative sanctions. It ensures that such decisions made in one Member State are recognized and can be executed in another, facilitating seamless judicial cooperation and the effective functioning of the EPPO across different legal systems.
- 52** On 21 December 2023, the EJC decided the case *C-281/22 G.K. and Others*, providing critical **clarification on Article 31**. The Court ruled that when an EDP assigns an investigative measure to an EDP in another Member State, the judicial authorization required in the assisting Member State pertains solely to the enforcement aspects, not the justification or adoption of the measure. This distinction underscores that the substantive grounds for the measure are to be assessed under the law of the handling EDP’s Member State, while the procedural execution is subject to the assisting EDP’s national law.
- 53** For an EDP conducting an investigation, it can be said that this judgment needs to be read in full (see → Austrian and German volume). Even any **defence lawyer** needs to know that it is worthwhile to control the proportionality of investigative acts of the EPPO. Art. 31 and 32 EPPO Regulation clarify, read in conjunction with the ECJ’s argument for efficiency that in cross-border assignments, the responsibility for justifying and adopting investigative measures lies with the handling EDP, and the assisting EDP’s role is to facilitate the execution in compliance with their national procedures. This argument may streamline cross-border investigations²⁴⁹, reduce bureaucratic hurdles, and enhance the EPPO’s operational efficiency. Still this frequent repetition of the efficiency principle has been critiqued by many authors as procedural rights come only second.²⁵⁰ For further analysis see → e.g. the German volume for a general overview.

²⁴⁹ The principle is that any EDP managing the case can directly delegate an investigative action to a colleague in the Member State where it will occur, without needing mutual recognition tools. Exceptionally if the delegated action isn’t available in a purely internal situation but can be used in a cross-border case, the EDP may choose to use the relevant mutual assistance tools, see Art. 13, 31 para 6 EPPO.

b) Para 1: Provisions for arrest and pre-trial detention

A special feature of the renewed Finnish Criminal Code is (among other things) that if prison is or will be defined as a sanction within the criminal framework, the provision should be made in the Criminal Code (and not in the ancillary criminal code). For example, Finland does not have a unified tax code comparable to the Federal Republic of Germany's comprehensive Tax Code (*Abgabenordnung*). Instead, Finland relies on specific tax laws for different areas, such as income tax, value-added tax, and corporate tax, without a singular codified framework integrating all tax procedures. Possible criminal conduct shall despite the various code, be regulated in the Criminal Code. The decree of a sanction might be of relevance to determine arrest of detention conditions.

aa. Arrest

3

Pre-Trial Investigation Act

Chapter 6 Presence at the preliminary investigation

Section 3²⁵¹ Immediate consultation

A person found at the scene of a crime or in its immediate vicinity must, at the request of the pretrial investigation official conducting the preliminary investigation of crimes, remain at that location or immediately reach the nearest office of the pretrial investigation authority represented by the official, suitable for the purpose, or the corresponding office of another pretrial investigation authority. If, without an acceptable reason, he refuses to comply with the request, or if this is likely based on his behaviour, the relevant official can prevent him from leaving the place or arrest him and take him to a hearing. (30.12.2013/1145)

A person leaving the scene of a crime may be apprehended in order to give the warning referred to in subsection 1, if the circumstances are such that the warning cannot otherwise be brought to his attention and the investigation of the matter would otherwise be jeopardized.

Coercive Measures Act

Chapter 2 Arrest, detention, imprisonment and pretrial detention (30.1.2018/101)

Section 1²⁵² A policeman's right to arrest

In order to investigate a crime, a policeman can arrest a crime suspect who is caught in the act of murder or fleeing.

A policeman may also arrest a criminal suspect who has been ordered to be arrested or imprisoned. In addition, during the court's main hearing or decision consideration, a

²⁵¹ 3 § Välitön kuuleminen Rikospaikalta tai sen välittömästä läheisyydestä tavatun henkilön on rikosten esitutkintaa suorittavan esitutkintavirkamiehen kehotuksesta jäätävä tälle paikalle tai saavuttava välittömästi virkamiehen edustaman esitutkintaviranomaisen lähimpään tarkoitukseen sopivaan toimipaikkaan tai muun esitutkintaviranomaisen vastaavaan toimipaikkaan. Jos hän ilman hyväksyttävää syytä kieltäytyy noudattamasta kehotusta tai tämä on hänen käyttäytymisensä perusteella todennäköistä, asianomainen virkamies voi estää häntä poistumasta paikalta tai ottaa hänet kiinni ja viedä kuultavaksi. (30.12.2013/1145)

Rikospaikalta poistumassa oleva saadaan ottaa kiinni 1 momentissa tarkoitettujen kehotusten antamiseksi, jos olosuhteet ovat sellaiset, että kehotusta ei voida muuten saattaa hänen tietoonsa ja asian selvittäminen muuten vaarantuisi.

²⁵² 2 luku Kiinniottaminen, pidättäminen, vangitseminen ja tutkinta-aresti (30.1.2018/101) Kiinniottaminen

1 § Poliisimiehen kiinniotto-oikeus Poliisimies saa rikoksen selvittämistä varten ottaa kiinni verekseltä tai pakenemasta tavatun rikoksesta epäillyn. Poliisimies saa myös ottaa kiinni rikoksesta epäillyn, joka on määrätty pidätettäväksi tai vangittavaksi. Poliisimies saa lisäksi ottaa tuomioistuimen pääkäsitteilyn tai päätösharkinnan aikana kiinni vastaajan, jonka vangitsemista on vaadittu tuomitsemisen yhteydessä, jos kiinniottaminen on tarpeen hänen poistumisensa estämiseksi. Jos pidättämiseen on edellytykset, poliisimies saa ottaa rikoksesta epäillyn kiinni ilman pidättämismääräystäkin, jos pidättäminen voi muuten vaarantua. Poliisimiehen on ilmoitettava kiinniottamisesta viipymättä pidättämiseen oikeutetulle virkamiehelle. Tämän on 24 tunnin kuluessa kiinniottamisesta päätettävä, onko kiinni otettu päästettävä vapaaksi vai pidätettävä. Kiinnioton jatkuminen yli 12 tuntia edellyttää pidättämisen edellytysten olemassaoloa.

police officer may arrest a defendant whose detention has been demanded in connection with the sentencing, if the arrest is necessary to prevent him from leaving.

If there are conditions for an arrest, a police officer may arrest a suspect of a crime even without an arrest warrant, if the arrest could otherwise be jeopardised. The police officer must immediately notify the officer entitled to arrest about the arrest. This must decide within 24 hours of the arrest whether the arrested person should be released or detained. The continuation of detention for more than 12 hours requires the existence of the conditions for detention.

Section 2²⁵³ General right of arrest

Anyone may arrest a criminal suspect caught in the act of murder or fleeing, if the crime may result in imprisonment or the crime is minor assault, theft, minor embezzlement, minor unauthorised use, minor theft of a motor vehicle, minor damage or minor fraud.

Everyone can also arrest the person who, according to the wanted notice issued by the authorities, needs to be arrested or imprisoned.

Anyone caught must be handed over to a policeman without delay

Section 3²⁵⁴ Use of force

If the detainee resists or flees in connection with the exercise of the general right of arrest, the detainee may use such means of force as are necessary for the execution of the arrest, which can be considered as defensible when evaluated as a whole, taking into account the nature of the crime, the detainee's behaviour and the situation in general.

Exaggeration of the use of force is regulated in Chapter 4, Section 6, Subsection 3 and Section 7 of the Criminal Code.

Section 4²⁵⁵ Notification of arrest

The person arrested must be informed of the reason for the arrest without delay.

The law on the treatment of persons detained by the police (841/2006) provides for the notification of arrest to a relative or other person of the arrested person in chapter 2, section 2, subsection 2.

²⁵³ 2 § Yleinen kiinniotto-oikeus Jokainen saa ottaa kiinni verekseltä tai pakenemasta tavatun rikoksesta epäillyn, jos rikoksesta saattaa seurata vankeutta tai rikos on lievä pahoinpitely, näpistys, lievä kavallus, lievä luvaton käyttö, lievä moottorikulkuneuvon käyttövarkaus, lievä vahingonteko tai lievä petos.

Jokainen saa ottaa kiinni myös sen, joka viranomaisen antaman etsintäkuulutuksen mukaan on pidätettävä tai vangittava. Kiinni otettu on viipymättä luovutettava poliisimiehelle.

²⁵⁴ 3 § Voimakeinojen käyttö Jos kiinniotettava yleisen kiinniotto-oikeuden käyttämisen yhteydessä tekee vastarintaa tai pakenee, kiinniottaja saa käyttää sellaisia kiinniottamisen toimittamiseksi välttämättömiä voimakeinoja, joita voidaan pitää kokonaisuutena arvostellen puolustettavina, kun otetaan huomioon rikoksen laatu, kiinniotettavan käyttäytyminen ja tilanne muutenkin.

Voimakeinojen käytön liioittelusta säädetään rikoslain 4 luvun 6 §:n 3 momentissa ja 7 §:ssä.

²⁵⁵ 4 § Kiinniottamisesta ilmoittaminen Kiinni otetulle on viipymättä ilmoitettava kiinniottamisen syy.

Kiinniottamisesta ilmoittamisesta kiinni otetun läheiselle tai muulle henkilölle säädetään poliisin säilyttämien henkilöiden kohtelusta annetun lain (841/2006) 2 luvun 2 §:n 2 momentissa.

Customs Act

Section 33²⁵⁶ Arresting the wanted person

The customs officer has the right to arrest a wanted person who, according to the notice issued by the competent authority, must be arrested, arrested or imprisoned or taken into custody. An arrested person, who is wanted by someone other than Customs, must be handed over to police custody without delay, unless he has to be released immediately. A wanted person other than the one referred to in subsection 1 is obliged to arrive at the police station or another place where the measures according to the wanted notice can be carried out upon the summons of the customs officer. If he does not comply with the request or if it is likely that he will try to avoid the action mentioned in the search warrant, the customs officer has the right to arrest him in order to carry out the action mentioned in the search warrant.

The subject of a search warrant, unless the law provides otherwise regarding the duration of the measures required by the search warrant, is obliged to arrive for the execution of the measure no later than six hours after the apprehension.

²⁵⁶ 33 § Etsintäkuulutetun kiinniottaminen Tullimiehellä on oikeus ottaa kiinni etsintäkuulutettu, joka toimivaltaisen viranomaisen antaman kuulutuksen mukaan on otettava kiinni, pidätettävä tai vangittava taikka otettava säilöön. Kiinniotettu, joka on muun kuin Tullin etsintäkuulutama, on viipymättä toimitettava poliisin huostaan, jollei häntä ole päästettävä heti vapaaksi.

Muu kuin 1 momentissa tarkoitettu etsintäkuulutettu on velvollinen tullimiehen kehotuksesta saapumaan poliisiasemalle tai muuhun paikkaan, jossa etsintäkuulutuksen mukaiset toimenpiteet voidaan suorittaa. Jollei hän noudata kehotusta tai jos on todennäköistä, että hän pyrkii välttämään etsintäkuulutuksessa mainitun toimenpiteen, tullimiehellä on oikeus ottaa hänet kiinni kuulutuksessa mainitun toimenpiteen suorittamiseksi.

Etsintäkuulutettu on, jollei etsintäkuulutuksen edellyttämien toimenpiteiden kestoajasta laissa toisin säädetä, velvollinen olemaan toimenpiteen suorittamiseksi saapuvilla enintään kuusi tuntia kiinniottamisesta.

Detention**Section 5²⁵⁷ Conditions of detention**

A suspect with probable cause for a crime can be arrested if:

- 1) no lighter punishment than two years' imprisonment has been provided for the crime;
- 2) the crime has a lighter punishment than two years in prison, but the harshest punishment is at least one year in prison and based on the suspect's personal circumstances or other circumstances, there is reason to suspect that he:
 - a) runs away or otherwise avoids preliminary investigation, trial or execution of punishment;
 - b) complicates the investigation of the case by destroying, corrupting, changing or hiding evidence or by influencing a witness, interested party, expert or accomplice; or
 - c) continue criminal activity;
- 3) he is unknown and refuses to give his name or address or gives apparently incorrect information about it; or
- 4) he does not have a permanent residence in Finland and it is likely that by leaving the country he will avoid a preliminary investigation, a trial or the execution of a sentence.

When there is reason to suspect a person of a crime, he may be arrested, even if there are no probable reasons for the suspicion, if the conditions for arrest are otherwise stipulated in subsection 1 and the arrest of the suspect is very important due to the expected further investigation.

A suspect of a criminal act committed under the age of 15 may not be arrested.

²⁵⁷ Pidättäminen 5 § Pidättämisen edellytykset Rikoksesta todennäköisin syin epäilty saadaan pidättää, jos:

- 1) rikoksesta ei ole säädetty lievempää rangaistusta kuin kaksi vuotta vankeutta;
- 2) rikoksesta on säädetty lievempi rangaistus kuin kaksi vuotta vankeutta, mutta siitä säädetty ankarin rangaistus on vähintään vuosi vankeutta ja epäillyn henkilökohtaisten olosuhteiden tai muiden seikkojen perusteella on syytä epäillä, että hän:
 - a) lähtee pakoon taikka muuten karttaa esitutkintaa, oikeudenkäyntiä tai rangaistuksen täytäntöönpanoa;
 - b) vaikeuttaa asian selvittämistä hävittämällä, turmelemalla, muuttamalla tai kätkemällä todistusaineistoa taikka vaikuttamalla todistajaan, asianomistajaan, asiantuntijaan tai rikoskumppaniinsa; taikka

- 3) hän on tuntematon ja kieltäytyy ilmoittamasta nimeään tai osoitettaan taikka antaa siitä ilmeisesti virheellisen tiedon; tai
- 4) hänellä ei ole vakinaista asuntoa Suomessa ja on todennäköistä, että hän poistumalla maasta karttaa esitutkintaa, oikeudenkäyntiä tai rangaistuksen täytäntöönpanoa.

Kun henkilöä on syytä epäillä rikoksesta, hänet saadaan pidättää, vaikka epäilyyn ei ole todennäköisiä syitä, jos pidättämiseen on muuten 1 momentissa säädetyt edellytykset ja epäillyn pidättäminen on odotettavissa olevan lisäselvityksen vuoksi erittäin tärkeää.

Alle 15-vuotiaana tehdystä rikollisesta teosta epäiltyä ei saa pidättää.

Section 6²⁵⁸ Prohibition of unreasonable detention

No one may be arrested if the arrest would be unreasonable due to the quality of the case or the age or other personal circumstances of the suspect.

Section 7²⁵⁹ Releasing the detainee

The detainee must be released as soon as the conditions for detention no longer exist. The detainee must be released at the latest after the time stipulated for making a request for detention, unless he is required to be detained.

The official authorised to make the arrest decides whether to release the arrested person. However, when dealing with the request for detention, the court decides on it.

Section 8²⁶⁰ Re-arrest

A person arrested or imprisoned for a crime who has been released may not be re-arrested for the same crime on the basis of a fact that was known to the authority when it decided to arrest or imprison. (26.4.2019/587)

Section 9²⁶¹ Official authorised to arrest

The decision to arrest is made by an official entitled to arrest. Officials entitled to arrest are:

1) Chief of Police, Chief of Police of the National Police Board, Chief Inspector of Police and Police Inspector, Chief of Police, Deputy Chief of Police, Chief and Deputy

²⁵⁸ 6 § Kohtuuttoman pidättämisen kielto Ketään ei saa pidättää, jos pidättäminen olisi kohtuutonta asian laadun taikka rikoksesta epäillyn iän tai muiden henkilökohtaisten olosuhteiden vuoksi.

²⁵⁹ 7 § Pidätetyn vapaaksi päästäminen

Pidätetty on päästettävä vapaaksi heti, kun pidättämisen edellytyksiä ei enää ole. Pidätetty on päästettävä vapaaksi viimeistään vangitsemisvaatimuksen tekemistä varten säädetyn ajan kuluttua, jollei häntä vaadita vangittavaksi.

Pidätetyn päästämisestä vapaaksi päättää pidättämiseen oikeutettu virkamies. Vangitsemisvaatimusta käsiteltäessä siitä päättää kuitenkin tuomioistuin.

²⁶⁰ 8 § Uudelleen pidättäminen

Rikoksesta pidätettyä tai vangittua, joka on päästetty vapaaksi, ei saa uudelleen pidättää samasta rikoksesta sellaisen seikan nojalla, joka on ollut viranomaisen tiedossa sen päättäessä pidättämisestä tai vangitsemisesta.

²⁶¹ 9 § (26.4.2019/587) Pidättämiseen oikeutettu virkamies

Pidättämisestä päättää pidättämiseen oikeutettu virkamies. Pidättämiseen oikeutettuja virkamiehiä ovat:

4) syyttäjät.

Pidättämiseen oikeutetuista puolustusvoimien virkamiehistä säädetään erikseen.

Section 10²⁶² Notification of arrest

The detainee must be informed of the reason for the arrest without delay when the decision to arrest has been made or he has been arrested on the basis of an arrest warrant.

Notification of the arrest to the relative or other person of the arrested person is provided for in Chapter 2, Section 2, Subsection 2 of the Act on the Treatment of Persons Detained by the Police.

²⁶² 10 § Pidättämisestä ilmoittaminen

Pidätetylle on ilmoitettava pidättämisen syy viipymättä, kun päätös pidättämisestä on tehty tai hänet on otettu pidättämismääräyksen perusteella kiinni.

Ilmoittamisesta pidättämisestä pidätetyn läheiselle tai muulle henkilölle säädetään poliisin säilyttämien henkilöiden kohtelusta annetun lain 2 luvun 2 §:n 2 momentissa.

Imprisonment

Section 11²⁶³ Conditions of imprisonment

The court may, at the request of an official entitled to request detention, order the detention of a suspect of a crime with probable cause under the conditions stipulated in section 5, subsection 1.

When there is reason to suspect a person of a crime, he may be imprisoned, even if there are no probable reasons for the suspicion, if the conditions for the imprisonment are otherwise stipulated in section 5, subsection 1, and the imprisonment is very important due to the expected further investigation. If the suspect has been detained pursuant to this subsection, the detention case concerning him must be re-processed as stipulated in Chapter 3, Section 11. At the request of the person making the request for detention, the court can transfer the retrial of the detention case to the competent court in the prosecution case. The court shall immediately notify this court of its decision.

A suspect with the most probable cause of a crime, whose extradition to Finland will be requested, may be imprisoned if the severest punishment prescribed for the crime is at least one year in prison and if, based on the suspect's personal circumstances, the number or quality of the crimes included in the extradition request, or other similar circumstances, there is reason to suspect that he will not voluntarily come to Finland for prosecution for.

A suspect of a criminal act committed under the age of 15 may not be imprisoned.

A suspect under the age of 18 may not be imprisoned or ordered to continue to be detained, unless compelling reasons require it.

²⁶³ Vangitseminen 11 § Vangitsemisen edellytykset Tuomioistuimien saa vangitsemisvaatimuksen esittämiseen oikeutetun virkamiehen vaatimuksesta määrätä rikoksesta todennäköisin syin epäillyn vangittavaksi 5 §:n 1 momentissa säädettyin edellytyksin.

Kun henkilöä on syytä epäillä rikoksesta, hänet saadaan vangita, vaikka epäilyyn ei ole todennäköisiä syitä, jos vangitsemiseen muuten on 5 §:n 1 momentissa säädetty edellytykset ja vangitseminen on odotettavissa olevan lisäselvityksen vuoksi erittäin tärkeää. Jos epäilty on vangittu tämän momentin nojalla, on häntä koskeva vangitsemisasiä käsiteltävä uudelleen siten kuin 3 luvun 11 §:ssä säädetään. Vangitsemisvaatimuksen tekijän pyynnöstä tuomioistuimien voi siirtää vangitsemisasiän uudelleen käsittelyn syyteasiassa toimivaltaiselle tuomioistuimelle. Tuomioistuimen on heti ilmoitettava päätöksestään tälle tuomioistuimelle.

Rikoksesta todennäköisin syin epäilty, jonka luovuttamista Suomeen tullaan pyytämään, saadaan vangita, jos rikoksesta säädetty ankaran rangaistus on vähintään vuosi vankeutta ja jos epäillyn henkilökohtaisten olosuhteiden, luovuttamispyyntöön sisällytettävien rikosten määrän tai laadun taikka muiden vastaavien seikkojen perusteella on syytä epäillä, ettei hän saavu vapaaehtoisesti Suomeen syytetoimenpiteitä varten.

Alle 15-vuotiaana tehdystä rikollisesta teosta epäiltyä ei saa vangita.

Alle 18-vuotiaasta epäiltyä ei saa vangita tai määrätä pidettäväksi edelleen vangittuna, elleivät painavat syyt sitä vaadi. (15.3.2019/323)

Section 12²⁶⁴ Conditions for the imprisonment of a convicted person

The court may, at the request of the prosecutor or the interested party who demanded punishment for the defendant, order that the person sentenced to unconditional imprisonment be imprisoned or kept in further imprisonment, if:

- 1) the sentenced punishment is at least two years in prison;
- 2) the sentenced punishment is less than two years of imprisonment but at least one year of imprisonment and it is likely that the convicted:
 - a) runs away or otherwise avoids the execution of the punishment; or
 - b) continue criminal activity;
- 3) the sentenced punishment is less than one year of imprisonment and:
 - a) the convicted person does not have a permanent home in Finland and it is likely that he will avoid the execution of the sentence by leaving the country; or
 - b) he has been sentenced by one or more decisions to imprisonment for several crimes committed in short intervals and imprisonment is necessary to prevent the continuation of criminal activity of a similar degree of seriousness.

A convicted person under the age of 18 may not be imprisoned or ordered to continue to be imprisoned, unless compelling reasons require it.

The decision to imprison the convicted person is valid until the execution of the sentence begins or the appeals court decides otherwise.

²⁶⁴ 12 § Tuomitun vangitsemisen edellytykset

Tuomioistuimien saa syyttäjän tai vastaajalle rangaistusta vaatineen asianomistajan vaatimuksesta määrätä ehdottomaan vankeusrangaistukseen tuomitun vangittavaksi tai pidettäväksi edelleen vangittuna, jos:

- 1) tuomittu rangaistus on vähintään kaksi vuotta vankeutta;
- 2) tuomittu rangaistus on vähemmän kuin kaksi vuotta vankeutta mutta vähintään yksi vuosi vankeutta ja on todennäköistä, että tuomittu:
 - a) lähtee pakoon tai muuten karttaa rangaistuksen täytäntöönpanoa; tai
 - b) jatkaa rikollista toimintaa;
- 3) tuomittu rangaistus on vähemmän kuin yksi vuosi vankeutta ja:
 - a) tuomitulla ei ole vakinaista asuntoa Suomessa ja on todennäköistä, että hän poistumalla maasta karttaa rangaistuksen täytäntöönpanoa; tai
 - b) hänet on tuomittu yhdellä tai useammalla päätöksellä vankeusrangaistukseen useista lyhyin väliajoin suoritetuista rikoksista ja vangitseminen on tarpeen vakavuusasteeltaan samanlaisen rikollisen toiminnan jatkamisen estämiseksi. Alle 18-vuotiasta tuomitua ei saa vangita tai määrätä pidettäväksi edelleen vangittuna, elleivät painavat syyt sitä vaadi. (15.3.2019/323)

Päätös tuomitun vangitsemisesta on voimassa, kunnes rangaistuksen täytäntöönpano alkaa tai muutoksenhaku-tuomioistuimien toisin päättää.

Section 12a²⁶⁵ Investigative arrest

Instead of arrest and detention, in the situations referred to in Section 12, Subsection 1, Sections 2 and 3, the convicted person may be ordered to pretrial detention, if the travel ban referred to in Chapter 5, Section 1 is an insufficient means of coercion. A free defendant can only be placed in pre-trial detention at the request of the prosecutor or the interested party who demanded punishment for the defendant. The court may, on its own initiative, order pretrial detention instead of detaining a person who has been detained or who is required to be detained.

The prerequisite for ordering pre-trial detention is that:

- 1) the convicted person agrees to the execution of the pre-trial detention and undertakes to comply with the obligations set in the decision regarding the pre-trial detention;
- 2) based on the convict's personal circumstances and other circumstances, it can be considered probable that the convict will comply with the obligations imposed on him.

When considering ordering pre-trial detention, the court must take into account the explanation presented during the hearing of the case:

- 1) about the personal circumstances of the convicted person and other similar matters;
- 2) on the suitability of the convicted person's apartment or other suitable place for living for the execution of the investigative arrest;
- 3) the convict's need to move outside the apartment or other place suitable for living.

Investigative arrest is carried out in the convicted person's apartment or in another place suitable for living under supervision as referred to in section 12 d.

Provisions are made on investigative detention in the Court of Appeal and appeals against the decision on investigative detention in Chapter 3, Section 18 and 19.

²⁶⁵ 12 a § (30.1.2018/101) Tutkinta-aresti Vangitsemisen ja vangittuna pitämisen sijasta tuomittu voidaan 12 §:n 1 momentin 2 ja 3 kohdassa tarkoitetuissa tilanteissa määrätä tutkinta-arestiin, jos 5 luvun 1 §:ssä tarkoitettu matkustuskielto on riittämätön pakkokeino. Vapaana oleva vastaaja saadaan määrätä tutkinta-arestiin vain syyttäjän tai vastaajalle rangaistusta vaatineen asianomistajan vaatimuksesta. Tuomioistuimien saa omasta aloitteestaan määrätä vangitun tai vangittavaksi vaaditun vangitsemisen sijasta tutkinta-arestiin.

Tutkinta-arestiin määräämisen edellytyksenä on, että:

- 1) tuomittu suostuu tutkinta-arestin toimeenpanoon ja sitoutuu noudattamaan tutkinta-arestia koskevassa ratkaisussa asetettavia velvollisuuksia;
- 2) tuomitun henkilökohtaisten olosuhteiden ja muiden seikkojen perusteella voidaan pitää todennäköisenä, että tuomittu noudattaa hänelle asetettuja velvollisuuksia.

Harkitessaan tutkinta-arestiin määräämistä tuomioistuimen on otettava huomioon asian käsittelyn yhteydessä esitetty selvitys:

- 1) tuomitun henkilökohtaisista olosuhteista ja muista vastaavista seikoista;
- 2) tuomitun asunnon tai muun asumiseen soveltuvan paikan soveltuvuudesta tutkinta-arestin toimeenpanoon;
- 3) tuomitun tarpeesta liikkua asunnon tai muun asumiseen soveltuvan paikan ulkopuolella.

Tutkinta-aresti toimeenpannaan tuomitun asunnossa tai muussa asumiseen soveltuvassa paikassa 12 d §:ssä tarkoitettulla tavalla valvottuna.

Tutkinta-arestista muutoksenhakutuomioistuimessa ja muutoksenhausta tutkinta-arestia koskevaan päätökseen säädetään 3 luvun 18 ja 19 §:ssä.

Section 12b²⁶⁶ Content of investigative detention

A person ordered into pre-trial detention is obliged to stay in their apartment or in another habitable place for at least 12 and at most 22 hours a day. As a general rule, the obligation should be scheduled between 9 p.m. and 6 a.m. The person ordered into pre-trial detention is also required to undergo the technical supervision referred to in section 12 d.

The number of hours and the timing of the obligation for the work, study or other necessary reason comparable to those ordered to pre-trial detention can be determined differently from what is stipulated in subsection 1.

In addition, the decision regarding investigative detention may oblige the person ordered to be detained:

- 1) to stay in the settlement in the designated locality or area;
- 2) to stay away from a certain area mentioned in the decision or not to move there;

Section 12c²⁶⁷ Decision on pre-trial detention

The decision ordering pre-trial detention must state:

²⁶⁶ 12 b § (30.1.2018/101) Tutkinta-arestin sisältö Tutkinta-arestiin määrätty velvoitetaan pysymään asunnossaan tai muussa asumiseen soveltuvassa paikassa vähintään 12 ja enintään 22 tuntia vuorokaudessa. Velvoite tulee pääsääntöisesti ajoittaa kello 21:n ja kello 6:n väliseksi ajaksi. Tutkinta-arestiin määrätty velvoitetaan lisäksi 12 d §:ssä tarkoitettuun tekniseen valvontaan.

Tutkinta-arestiin määrätyn työstä, opiskelusta tai muusta niihin rinnastettavasta välttämättömästä syystä velvoitteen tuntimäärä ja sen ajoittuminen voidaan määrätä toisin kuin 1 momentissa säädetään.

Tutkinta-arestiin määrätty voidaan lisäksi tutkinta-arestia koskevassa ratkaisussa velvoittaa:

- 1) pysymään ratkaisussa määrättyllä paikkakunnalla tai alueella;
- 2) pysymään poissa tietyltä ratkaisussa mainitulta alueelta tai olemaan liikkumatta siellä;
- 3) olemaan tiettyinä aikoina tavattavissa työ- tai opiskelupaikallaan;

²⁶⁷ 12 c § (30.1.2018/101) Ratkaisu tutkinta-arestista Ratkaisusta, jolla tutkinta-arestiin määrätään, on käytävä ilmi:

- 1) asunnossa pysymisen velvoitteen tuntimäärä ja ajoittuminen sekä tekninen valvontatapa;
- 2) muut tutkinta-arestiin määrättylle asetetut velvollisuudet;
- 3) seuraamukset tutkinta-arestin velvollisuuksien rikkomisesta.

Tutkinta-arestiin määräämistä koskevasta ratkaisusta ja sen tiedoksiannosta on ilmoitettava Rikosseuraamuslaitokselle. Jos tutkinta-arestiin määrätty on vapaana eikä ratkaisua tutkinta-arestista anneta hänen läsnä ollessaan, tuomioistuimen on annettava ratkaisu tutkinta-arestista tiedoksi jotakin oikeudenkäymiskaaren 11 luvun mukaista todisteellista tiedoksiannototapaa noudattaen. (12.4.2019/509)

Ratkaisu tuomitun tutkinta-arestista on voimassa, kunnes rangaistuksen täytäntöönpano alkaa tai ylempi tuomioistuin toisin päättää.

- 1) the number of hours and timing of the obligation to stay in the apartment, as well as the technical control method;

4. Some provisions on Defence laws relating to EPPO actions concerning PIF Crime offences

a) Defence in the investigation phase.....	233	(a) Investigation of Offence of the Criminal Code and the Constitution.....	236
aa. The Input from the Regulation 2017/1939 ...	235	(b) Customs Investigation (Customs Act/ <i>Tullilaki</i>).....	237

(2) Access to EPPO case file	236	b) Defence in Indictment phase and the trial phase ...	239
bb. Defence while investigation is under-way, Art. 28–33 EPPO Regulation.....	236		
(1) In cases involving investigative measures of Art. 30 EPPO-Regulation	236		

Defence laws are important in EPPO proceedings, holding the EPPO and its staff **accountable** and the mechanism fair and proportionate. However, Member States have different legal systems, despite EU Directives from the 2012 roadmap, like Directive 2010/64/EU (right to interpretation and translation) and others. These are only partially harmonised in Article 41 of the EPPO Regulation, leading to inconsistent procedures and varying rights protection for suspects. The EPPO works in between EU and national law, where the CFR applies when EU law is “implemented/executed”. The ECJ states that the Charter applies to EU institutions and Member States when implementing EU law, not extending EU powers. It requires EU acts to comply with **fundamental rights**, but this can potentially create gaps in procedural protections in EPPO cases.²⁶⁹ **1**

a) Defence in the investigation phase

The main provision from the Finnish Constitution in this regard is Section 21 ensuring the right to legal protection: **2**

3

²⁶⁹ Court of Justice of the European Union 2021.

Section 21²⁷⁰ Legal protection

Everyone has the right to have their case dealt with properly and without undue delay in a court or other authority competent by law, and the right to have a decision regarding their rights and obligations submitted to a court or other independent judicial body. The publicity of the proceedings and the right to be heard, to receive a reasoned decision and to apply for an appeal, as well as other guarantees of a fair trial and good administration, are protected by law.

- 4 Another important provision that can be brought forward by Finnish Defence Lawyers is s. 8 of the Constitution that ensures that the criminal law of the Finnish Republic must be based on the principle *nulla poena sine lege stricta*. This might become relevant in the case of a certain conduct e.g. in the area of tax conduct where it remains unclear if the conduct is still legal or already illegal (see → Cum-ex fraud explanations in the German volume or look up “Double-Dutch Sandwich”, a tax avoiding scheme):

5 **Section 8²⁷¹ The principle of legality in criminal law**

No one may be held guilty of a crime or sentenced to punishment on the basis of an act that was not punishable by law at the time of the act. The crime may not be sentenced to a harsher punishment than is prescribed by law at the time of the crime.

²⁷⁰ 21 § Suomen perustuslaki

Oikeusturva

Jokaisella on oikeus saada asiansa käsitellyksi asianmukaisesti ja ilman aiheetonta viivytystä lain mukaan toimivaltaisessa tuomioistuimessa tai muussa viranomaisessa sekä oikeus saada oikeuksiaan ja velvollisuuksiaan koskeva päätös tuomioistuimen tai muun riippumattoman lainkäyttöelimen käsiteltäväksi.

Käsittelyn julkisuus sekä oikeus tulla kuulluksi, saada perusteltu päätös ja hakea muutosta samoin kuin muut oikeudenmukaisen oikeudenkäynnin ja hyvän hallinnon takeet turvataan lailla.

²⁷¹ 8 § Suomen perustuslaki Rikosoikeudellinen laillisuusperiaate Ketään ei saa pitää syyllisenä rikokseen eikä tuomita rangaistukseen sellaisen teon perusteella, jota ei tekohetkellä ole laissa säädetty rangaistavaksi. Rikoksesta ei saa tuomita ankarampaa rangaistusta kuin tekohetkellä on laissa säädetty.

aa. The Input from the Regulation 2017/1939**(1) Access to national case file**

The Pre-Trial Investigation Act and Act on the Publicity of Official Activities apply.

6

e.g. **Section 15 Pre-Trial Investigation Act**²⁷²

Publicity of the parties involved in the preliminary investigation

After the initiation of the preliminary investigation, the party involved has the right to receive information about the facts that led to the preliminary investigation and that came to light in the preliminary investigation, as well as the preliminary investigation material that can or has had an impact on the handling of his case.

The party concerned does not have the right referred to in subsection 1 before the investigation is terminated, if the provision of information is detrimental to the investigation of the matter.

The interested party does not have the right referred to in subsection 1 if not providing information is necessary to protect a very important public or private interest. The interested party does not have the right to receive information about the information referred to in Section 11, Subsection 2, Section 6a, 7 or 7a of the Act on the Publicity of Public Authorities' Activities.

When considering the right of the party to receive information or its limitation, the evaluation must take into account the right of the party to properly defend himself or otherwise properly exercise his right in the trial.

The right to receive information about the use of secret means of coercion also applies to what is stipulated in Sections 60 and 62 of the Coercive Measures Act, Chapter 10, and to the right to receive information about the use of secret means of obtaining information, what is stipulated in Chapter 5, Sections 58 and 60 of the Police Act.

²⁷² 15 § (17.10.2014/818) Asianosaisjulkisuus esitutkinnassa Asianosaisella on esitutinnan aloittamisen jälkeen oikeus saada tieto esitutkintaan johtaneista ja esitutkinnassa ilmi tulleista seikoista sekä esitutkinta-aineistosta, joka voi tai on voinut vaikuttaa hänen asiansa käsittelyyn.

Asianosaisella ei ole 1 momentissa tarkoitettua oikeutta ennen tutkinnan lopettamista, jos tietojen antamisesta on haittaa asian selvittämislle.

Asianosaisella ei ole 1 momentissa tarkoitettua oikeutta, jos tiedon antamatta jättäminen on välttämätöntä erittäin tärkeän yleisen tai yksityisen edun turvaamiseksi. Asianosaisella ei ole oikeutta saada tietoa viranomaisten toiminnan julkisuudesta annetun lain (621/1999) 11 §:n 2 momentin 6 a, 7 tai 7 a kohdassa tarkoitetuista tiedoista. (8.1.2016/10) Kun harkitaan asianosaisen oikeutta saada tietoja tai sen rajoittamista, arvioinnissa on otettava huomioon asianosaisen oikeus puolustautua asianmukaisesti tai muuten asianmukaisesti valvoa oikeuttaan oikeudenkäynnissä. Oikeuteen saada tieto salaisen pakkokeinon käytöstä sovelletaan lisäksi, mitä pakkokeinolain 10 luvun 60 ja 62 §:ssä säädetään ja oikeuteen saada tieto salaisen tiedonhankintakeinon käytöstä, mitä poliisilain (872/2011) 5 luvun 58 ja 60 §:ssä säädetään.

Asianosaisen oikeuteen saada tieto esitutkinta-aineistosta sovelletaan muutoin, mitä viranomaisten toiminnan julkisuudesta annetussa laissa säädetään. Tiedon antamiseen ääni- ja kuvallenteesta sovelletaan kuitenkin, mitä tämän lain 9 luvun 7 §:n 2 momentissa säädetään.

The right of the party to receive information about the preliminary investigation material is otherwise governed by what is stipulated in the Act on the Publicity of Authorities' Activities. However, what is stipulated in chapter 9, section 7, subsection 2 of this law applies to the provision of information about audio and video recordings.

(2) Access to EPPO case file

- 7 The provision is mentioned above → Access to national case file applies.

bb. Defence while investigation is under-way, Art. 28–33 EPPO Regulation

- 8 The defense during an ongoing investigation is critically important for several reasons. Foremost the accused has certain legal rights, such as the right to remain silent, the right to translation²⁷³, the right to legal counsel, and protection against unlawful searches or seizures. A strong defense ensures these rights are upheld.

(1) In cases involving investigative measures of Art. 30 EPPO-Regulation

- 9 The defense can challenge improper and useful investigative techniques, such as unlawful searches, wiretaps, or coerced confessions, to ensure that any evidence collected in violation of the law is excluded from the trial. And it can start gathering its own evidence, interviewing witnesses, and preparing an effective case while the investigation is still underway. This allows for a proactive rather than reactive approach in court.

(a) Investigation of Offence of the Criminal Code and the Constitution

- 10 Especially if the Finnish authorities carry out data intensive investigation measures, they must obey the standard of the Finnish Constitution (Art. 30 para 1 (e), (f), para 4). Art. 10 of the Constitution protects the privacy:

Section 10²⁷⁴ Privacy protection

Everyone's private life, honor and peace at home are protected. The protection of personal data is regulated in more detail by law.

The secrecy of a letter, phone call and other confidential message is inviolable.

The law can provide for measures that are necessary to protect fundamental rights or to investigate crimes, which extend to domestic peace. (5/10/2018/817)

²⁷³ See ECBA 2023.

²⁷⁴ 10 § Yksityiselämän suoja Jokaisen yksityiselämä, kunnia ja kotirauha on turvattu. Henkilötietojen suojasta säädetään tarkemmin lailla.

Kirjeen, puhelun ja muun luottamuksellisen viestin salaisuus on loukkaamaton.

Lailla voidaan säätää perusoikeuksien turvaamiseksi tai rikosten selvittämiseksi välttämättömistä kotirauhan piiriin ulottuvista toimenpiteistä. (5.10.2018/817)

Lailla voidaan säätää välttämättömistä rajoituksista viestin salaisuuteen yksilön tai yhteiskunnan turvallisuutta taikka kotirauhaa vaarantavien rikosten tutkinnassa, oikeudenkäynnissä, turvallisuustarkastuksessa ja vapaudenmenetyksen aikana sekä tiedon hankkimiseksi sotilaallisesta toiminnasta taikka sellaisesta muusta toiminnasta, joka vakavasti uhkaa kansallista turvallisuutta. (5.10.2018/817)

The law can provide for necessary restrictions on the secrecy of the message in the investigation, trial, security inspection and deprivation of liberty of crimes endangering the safety of an individual or society or domestic peace, as well as for obtaining information about military activities or other activities that seriously threaten national security. (5/10/2018/817)

C. OLAF-Regulation (EU, EURATOM) No 883/2013

I. General Introduction: Investigation Powers and National Law Related to OLAF in Finland (Art. 3–8 OLAF Regulation)

As OLAF has been directed by a person from Finland a long time in the last decade it can be expected that the Finish awareness for OLAF is strong. OLAF’s task and role as well as its actions are determined primarily by Union law. The history of OLAF can be traced back to the early 2000s and its predecessor UCLAF.²⁸⁶ OLAF has a renewed role within the changed **anti-fraud architecture** of the Union in the 2020s and is an important actor against fraud within the Multi-annual framework legislation and the Union’s policies, which depend on the action of the Member States and the agreements concluded on the political levels. 1

In addition to that OLAF and its investigators shall follow **internal guidelines**²⁸⁷, manuals on procedures²⁸⁸ reports and working arrangements with union partners²⁸⁹ as well as Administrative Cooperation Agreements (ACAs) with national partners, EU external actors²⁹⁰. OLAF issues compendia, researches itself, organizes meetings and conferences and workshops for its national partners. All of these non-binding guides and handbooks might be useful in the course of investigations.²⁹¹ The statistics on latest actions and the past year can be deduced from the OLAF Reports, equal to the new EPPO’s annual report and the PIF Report, which is issued by the EU Commission in close cooperation with OLAF, IBOAs and the EPPO as well as the input from ECA and national AFCOS, governments and researchers. 2

The European Anti-fraud office is well accommodated in the Union anti-fraud architecture these days the academic research is extensive and long lasting since the 2000s.²⁹² 3

²⁹² Brüner 2001, pp. 17–26; Brüner 2008, pp. 859–872; Gellert 2009, pp. 85–88.

Last decade's landmark judgement "*Sigma Orionis SA vs European Commission*", decided by the European General Court²⁹³, clarified the application of national law and Union law²⁹⁴ in relation to external investigations of OLAF.²⁹⁵ In the light of this jurisprudence the resistance to the actions of OLAF, in order to awaken national law, might be a defence strategy that Economic operators use. If this is the case, OLAF has to rely on national homologue investigators and thus as well limitations, thresholds and conditions of national law i.e., **investigative powers** in various areas of budget spending and structural funds (direct management) and revenue-related obligations (indirect management).

- 4 Current debates evolve around the effectiveness of investigations regarding digital evidence by virtue of the Regulation 2185/96, which stems in parts from a more analogue society.²⁹⁶ More and more it becomes clear the analogue society, which is still present in law enforcement and the area of criminal justice in many countries at the beginning of the 2020s is a major concern and a real problem if the digital age crashes in and the analogue structures are obstacles to effective investigations. The access to bank accounts and registers is incredibly important for OLAF investigators as well as their national homologues. The relationship to the EPPO, especially the regional centres of the EDPs in the present country should be close. In addition to that the external investigations require a good coordination, which shall be governed by the relevant AFCOS (see below → Art. 12a OLAF Regulation), which has been part of the current study and answered a questionnaire or commented and reviewed (for some countries that are very prone to frauds or countries that have recently changed their anti-fraud prevention in order to fulfil the requests for a national anti-fraud prevention strategy) Part B. of this chapter.
- 5 Another question and debate have ever since existed concerning the Reports of OLAF (cf. → Art. 11), which can and shall constitute evidence – even – in national criminal trials. They concern EPPO cases (see → Art. 23-28 EPPO Regulation) or cases below the thresholds for which the EDPs could exercise their competence and jurisdiction on behalf of the EPPO. This area has been professionally researched in OLAF studies from the last decade, which we can refer to.²⁹⁷
- 6 Compendium Part B, alike to the first Part. A. on the EPPO and its investigative powers, gives a “bilingue” collection of the relevant laws – including the recently adopted on-the-spot checks laws (in relation to Regulation (EC) 2185/96) of certain countries – in

Art. 1 Objectives and tasks

1. In order to step up the fight against fraud, corruption and any other illegal activity affecting the financial interests of the European Union and of the European Atomic Energy Community (hereinafter referred to collectively, when the context so requires, as ‘the Union’), the European Anti-Fraud Office established by Decision 1999/352/EC, ECSC, Euratom (‘the Office’) shall exercise the powers of investigation conferred on the Commission by:

(a) the relevant Union acts; and

(b) the relevant cooperation and mutual assistance agreements concluded by the Union with third countries and international organisations.

2. The Office shall provide the Member States with assistance from the Commission in organising close and regular cooperation between their competent authorities in order to coordinate their action aimed at protecting the financial interests of the Union against fraud. The Office shall contribute to the design and development of methods of preventing and combating fraud, corruption and any other illegal activity affecting the financial interests of the Union. The Office shall promote and coordinate, with and among the Member States, the sharing of operational experience and best procedural practices in the field of the protection of the financial interests of the Union, and shall support joint anti-fraud actions undertaken by Member States on a voluntary basis.

3. This Regulation shall apply without prejudice to:

(a) Protocol No. 7 on the privileges and immunities of the European Union attached to the Treaty on European Union and to the Treaty on the Functioning of the European Union;

(b) the Statute for Members of the European Parliament;

(c) the Staff Regulations;

(d) Regulation (EC) No. 45/2001.

4. Within the institutions, bodies, offices and agencies established by, or on the basis of, the Treaties (‘institutions, bodies, offices and agencies’), the Office shall conduct administrative investigations for the purpose of fighting fraud, corruption and any other illegal activity affecting the financial interests of the Union. To that end, it shall investigate serious matters relating to the discharge of professional duties constituting a dereliction of the obligations of officials and other servants of the Union liable to result in disciplinary or, as the case may be, criminal proceedings, or an equivalent failure to discharge obligations on the part of members of institutions and bodies, heads of offices and agencies or staff members of institutions, bodies, offices or agencies not subject to

the Staff Regulations (hereinafter collectively referred to as ‘officials, other servants, members of institutions or bodies, heads of offices or agencies, or staff members’).

5. For the application of this Regulation, competent authorities of the Member States and institutions, bodies, offices or agencies may establish administrative arrangements with the Office. Those administrative arrangements may concern, in particular, the transmission of information and the conduct of investigations.

7 The (legal) definitions²⁹⁸ are regulated by Art. 2 OLAF Regulation:

In a report from 2012 by the Council of the European Union it was clearly stated that Finnish authorities are well aware about their report obligations to OLAF.

“5.1.2. Information of OLAF on the outcome of relevant cases

The customs service reports to OLAF quarterly on any detected fraud involving a customs fee amounting to EUR 10 000 or more. Notifications about fraud and malpractice can be made with the help of the OWNRES application. Training has been arranged for the people making notifications.”²⁹⁹

inspections or on-the-spot
checks 309

1. In the areas referred to in Article 1, the Office shall carry out on-the-spot checks and inspections in Member States and, in accordance with cooperation and mutual assistance agreements and any other legal instrument in force, in third countries and on the premises of international organisations.

2. The Office shall **carry out on-the-spot checks and inspections in accordance with this Regulation and, to the extent not covered by this Regulation, in accordance with Regulation (Euratom, EC) No 2185/96.**

3. Economic operators shall cooperate with the Office in the course of its investigations. The Office may request written and oral information, including through interviews.

4. Where, in accordance with paragraph 3 of this Article, the **economic operator concerned submits** to an on-the-spot check and inspection authorised pursuant to this Regulation, Article 2(4) of Regulation (EC, Euratom) No 2988/95, the third subparagraph of Article 6(1) of Regulation (Euratom, EC) No 2185/96 and Article 7(1) of Regulation (Euratom, EC) No 2185/96 **shall not apply insofar as those provisions require compliance with national law** and are capable of restricting access to information and documentation by the Office to the same conditions as those that apply to national administrative inspectors.

5. At the request of the Office, the **competent authority of the Member State** concerned shall, without undue delay, provide the staff of the Office with the assistance needed in order to carry out their tasks effectively, as specified in the written authorisation referred to in Article 7(2).

The **Member State concerned shall ensure**, in accordance with Regulation (Euratom, EC) No 2185/96, that the **staff of the Office are allowed access to all information, documents and data relating to the matter under investigation which prove necessary in order for the on-the-spot checks and inspections to be carried out effectively and efficiently, and that the staff are able to assume custody of documents or data to ensure that there is no danger of their disappearance.** Where privately owned devices are used for work purposes, those devices may be subject to inspection by the Office. The Office shall subject such devices to inspection only under the same conditions and to the same extent that national control authorities are allowed to investigate privately owned devices and where the Office has reasonable grounds for suspecting that their content may be relevant for the investigation.

6. Where the staff of the Office find that an **economic operator resists** an on-the-spot check and inspection authorised pursuant to this Regulation, namely where the economic operator refuses to grant the Office the necessary access to its premises or any other areas used for business purposes, conceals information or prevents the conduct of any of the activities that the Office needs to perform in the course of an on-the-spot check and inspection, the **competent authorities, including, where appropriate, law**

enforcement authorities of the Member State concerned shall afford the staff of the Office the necessary assistance so as to enable the Office to conduct its on-the-spot check and inspection effectively and without undue delay.

Article 2(4) of Regulation (EC, Euratom) No 2988/95

Subject to the Community law applicable, the procedures for the application of Community checks, measures and penalties shall be governed by the laws of the Member States.

the third subparagraph of Article 6(1) of Regulation (Euratom, EC) No 2185/96

~~On the spot checks and inspections shall be carried out on the Commission's authority and responsibility by its officials or other servants, duly empowered, hereinafter called 'Commission inspectors'. Persons placed at the disposal of the Commission by the Member States as national experts on secondment may assist in such checks and inspections.~~

~~Commission inspectors shall exercise their powers on production of a written authorization showing their identity and position, together with a document indicating the subject matter and purpose of the on the spot check or inspection.~~

Subject to the Community law applicable, they shall be required to comply, with the rules of procedure laid down by the law of the Member State concerned.

Article 7(1) of Regulation (Euratom, EC) No 2185/96

Commission inspectors shall have access, under the same conditions as national administrative inspectors and in compliance with national legislation, to all the information and documentation on the operations concerned which are required for the proper conduct of the on-the-spot checks and inspections. They may avail themselves of the same inspection facilities as national administrative inspectors and in particular copy relevant documents.

On-the-spot checks and inspections may concern, in particular:

- professional books and documents such as invoices, lists of terms and conditions, pay slips, statements of materials used and work done, and bank statements held by economic operators,
- computer data,
- production, packaging and dispatching systems and methods,
- physical checks as to the nature and quantity of goods or completed operations,
- the taking and checking of samples,
- the progress of works and investments for which financing has been provided, and the use made of completed investments,
- budgetary and accounting documents,
- the financial and technical implementation of subsidized projects.]

When providing assistance in accordance with this paragraph or with paragraph 5, the competent authorities of Member States **shall act in accordance with national proce-**

dural rules applicable to the competent authority concerned. If such assistance requires authorisation from a judicial authority in accordance with national law, such authorisation shall be applied for.

7. The Office shall conduct on-the-spot checks and inspections upon production of written authorisation, as provided for in Article 7(2). It shall, at the latest at the start of the on-the-spot check and inspection, inform the economic operator concerned of the procedure applicable to the on-the-spot check and inspection, including the applicable procedural safeguards, and the economic operator's duty to cooperate.

8. In the exercise of the powers assigned to it, the Office shall comply with the procedural guarantees provided for in this Regulation and in Regulation (Euratom, EC) No 2185/96. In the conduct of an on-the-spot check and inspection, the economic operator concerned shall have the right not to make self-incriminating statements and to be assisted by a person of the economic operator's choice. When making statements during an on-the-spot check and inspection, the economic operator shall be provided with the possibility to use any of the official languages of the Member State where that economic operator is located. The right to be assisted by a person of choice shall not prevent access by the Office to the premises of the economic operator and shall not unduly delay the start of the on-the-spot check and inspection.

9. Where a Member State does not cooperate with the Office in accordance with paragraphs 5 and 6, the Commission may apply the relevant provisions of Union law in order to recover the funds related to the on-the-spot check and inspection in question.

10. As part of its investigative function, the Office shall carry out the checks and inspections provided for in Article 9(1) of Regulation (EC, Euratom) No 2988/95 and in the sectoral rules referred to in Article 9(2) of that Regulation in Member States and, **in accordance with cooperation and mutual assistance agreements and any other legal instrument in force**, in third countries and on the premises of international organisations.

11. During an external investigation, the Office may have access to any relevant information and data, irrespective of the medium on which it is stored, held by the institutions, bodies, offices and agencies, connected with the matter under investigation, where necessary in order to establish whether there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union. For that purpose Article 4(2) and (4) shall apply.

12. Without prejudice to Article 12c(1), where, before a decision has been taken whether or not to open an external investigation, the Office handles information which suggests that there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union, it may inform the competent authorities of the Member States concerned and, where necessary, the institutions, bodies, offices and agencies concerned.

Without prejudice to the sectoral rules referred to in Article 9(2) of Regulation (EC, Euratom) No 2988/95, the competent authorities of the Member States concerned shall ensure that appropriate action is taken, in which the Office may take part, **in accordance with national law**. Upon request, the competent authorities of the Member States concerned shall inform the Office of the action taken and of their findings on the basis of information referred to in the first subparagraph of this paragraph.

On-the-spot checks have been discussed in the last decade quite thoroughly,³⁰⁰ but not enough for all countries. For Finland, it is worth taking a closer look at the applicable provisions. **1**

a) On the spot-checks and inspections – Renouncing the applicable national law – Para 2, 4

The national law is renounced if the economic operator, the beneficiary, the grant recipient etc. submits to the investigation of the Office. In this case Union law applies. **2**

b) Assistance needed, competent authorities and access to information in the Member States, para 5

Even in the case that Union law applies, OLAF may need the help and information from national authorities in the Member states (managing authorities, control bodies, customs, and tax offices, etc.). **3**

c) Resistance by the economic operator vs. law enforcement and effective investigations, para 6 or the new model and the relevance of resistance or conformity of the Economic Operator

If the economic operator, the beneficiary, the grant recipient etc. resists this conduct influences the applicability of law. The ECJ rules in *Sigma Orionis* that national law applies in the case of resistance, which means that the investigations need to be in conformity with the national law applicable in similar national investigations. **4**

d) The basic principle of conformity to Regulations 2185/96 and 883/2013

aa. Submission: Compliance with Union law

In the case of compliance of an Estonian Economic Operator Union law applies; thus the Regulation allows OLAF officials to conduct on-the-spot checks without prior information of national authorities. **5**

³⁰⁰ See Bovend'Eerdt 2018; in more-depth recently Bovend'Eerdt 2024, who analyses the OLAF Regulation in terms of on-the-spot checks and procedural rights touched by an OLAF investigation (using the examples of Netherlands and Germany; see in the Dutch volume for more impact of his research in this regard)..

bb. Resistance: Assistance in conformity with national procedural rules applicable

- 6 Does the participant, the personal or Economic operator concerned resist, the Regulation indicates that OLAF must follow national law and inform national authorities that can aid in conformity with national procedural rules applicable.³⁰¹

e) Competent authorities

- 7 The table shows non-extensively the most important competent authorities, which need to be contacted if the Economic operator resists and thus national law applies if OLAF wants to conduct investigations into irregularities:
- 8 Who is responsible depends on which area is affected (direct or shared management) and which type of irregularity or fraud is suspected, as well as in which payment (expenditure) or payment (revenue) area.

Its task is to ensure the realisation of criminal liability, i.e. that the proper statutory punishment is attached to a criminal act.</p> <p>The National Prosecution Authority is a key actor in the processing chain of criminal matters and is the only authority involved at all stages of processing a criminal matter: the pre-trial investigation, the consideration of charges and the trial. f) National law and “checks and inspections” of OLAF

- 10** National checks and inspections are essential to discover fraud and irregularities in the various area of revenue and expenditure. They are the corner stone of an anti-fraud policy of the Union and the Member States under Aart. 325 TFEU. In this area national law might apply and enable OLAF with its national partners to conduct investigations.

aa. Administrative procedure in general

- 11** The administrative procedure in Finland is regulated mainly by the Administrative Act (*Hallintolaki*). It has the following structure and contents:

But the specific administrative areas, such as the Budget Area, the procurement Area or the Structural Funds area are regulated by different Acts. **12**

In the customs Area the Customs Act e.g., regulates the customs procedure as a special administrative process (see → Customs Act Chapter 3 Powers to carry out customs procedure). **13**

The Act on Tax Administration contains rules for this specific administrative process. The Tax Act and the VAT Act contain further rules as well. ³²² **14**

An example from the Budget Control Area shows that the controller has a very important function: **15**

Section 24f³²³ Duties and powers of the treasury controller function

The task of the treasury controller function is to: [...]

3) coordinate the internal and administrative control of European Union funds under the responsibility of the State of Finland and prepare statements and reports regarding the control and audit of Union funds as well as errors in the management of funds and misuse of funds for the institutions of the European Union and other bodies, unless they are part of the tasks of another authority; [...]

The treasury controller function can present a report on its findings to the Government and the ministry as well as to the government agency, institution, business institution and fund and present its possible proposals for measures in it. In addition, depending on the quality of the case, the function may bring its observations and proposed measures

³²³ 24 f § (19.12.2003/1216)

Valtiovarain controller -toiminnon tehtävät ja valtuudet

Valtiovarain controller -toiminnon tehtävänä on:

3) sovittaa yhteen Suomen valtion vastuulla olevien Euroopan unionin varojen sisäistä ja hallinnollista valvontaa ja valmistella unionin varojen valvontaa ja tarkastusta sekä varojen hoidon virheitä ja varoihin kohdistuneita väärinkäytöksiä koskevat kannanotot ja selvitykset Euroopan unionin toimielimille ja muille elimille, jolleivät ne kuulu jonkin muun viranomaisen tehtäviin; [...].

to the attention of the State Audit Office and other authorities competent in the matter for possible measures.

bb. Special administrative powers and provisions in certain areas of revenue and expenditure

(1) Administrative provisions

- 16** The administrative provisions are important because they contain the national law, which applies if an Economic Operator resists and OLAF must rely on its national equivalent institutions with special rights to intervene in an administrative procedure e.g. carry out an audit, an inspection, or an investigation into a certain irregularity according to the Union definition of an irregularity. The complete list of single administrative provisions cannot be displayed here, but it can be said that they have in common the rules on granting and refusing money or a certain action by a Finnish administrative body, which is competent either to ensure that the duties on the revenue side of the EU budget or that the duties on the expenditure side are fulfilled.
- 17** If they come across an irregularity during the administrative process or the assessment of a contract, an assignment, an official reasoning of an operator, an application etc. they must probably report the incidence according to the reporting obligations (within the EU Regulations) to the relevant bodies. OLAF will then decide based on Art. 5 OLAF Regulation and potentially act in accordance with Art. 7 OLAF Regulation.

(aa) Principle of investigation (General Tax Act, Customs Act)

A typical administrative process starts either via an information or ex officio if the documents request an action of the relevant body: **21**

Section 19³²⁵ Initiating the case

The case is initiated in writing by stating the requirements and the grounds. With the consent of the authority, the matter may also be initiated orally.

Section 20³²⁶ The initiation of the matter

An administrative case is initiated when the document intended to initiate the case has arrived at the competent authority or when the case has been presented to it in connection with an oral initiation and the necessary information to start processing has been recorded.

The principle of investigation is, equally to Germany and other countries a primary state task. Thus, the state bodies carry out investigations ex-officio. **22**

(bb) External audit (General Tax/Customs Act)

Audits are typical and usually annualy, or at least frequently, according to a preset plan carried out inspections and review including assesment of relevant budget material e.g. of an Economic operator, which received EU funding or someone, who has to pay duties to the EU budget. The Finnish Tax Authorities and the Finnish Customs are competent in this area. The Audit Act contains rules on the audit process.³²⁷ The Act on Tax Administration contain special rules for this area. **23**

A typical audit is described for the persons concerned online.³²⁸ **24**

The Tax Procedures Act foresees the following: **25**

³²⁵ 19 §

Asian vireillepano

Asia pannaan vireille kirjallisesti ilmoittamalla vaatimukset perusteineen. Viranomaisen suostumuksella asian saapanna vireille myös suullisesti.

³²⁶ 20 §

Asian vireilletulo

Hallintoasia tulee vireille, kun asian vireille panemiseksi tarkoitettu asiakirja on saapunut toimivaltaiseen viranomaiseen tai kun asia on sille suullisen vireillepanon yhteydessä esitetty ja käsittelyn aloittamiseksi tarvittavat tiedot on kirjattu.

Section 14³²⁹ Tax audit

At the request of the Tax Administration, during the tax year or later, the taxpayer must present his accounting, records, as well as everything related to business activities or other income-generating activities, as well as other materials and assets that may be necessary for his taxation or when handling appeals regarding his taxation, for inspection in Finland.

The tax payer must be notified in advance of the start date and location of the tax audit, unless there is a special reason for another procedure. (9/9/2016/772)

A tax audit report must be drawn up on the performed tax audit, unless there are special reasons.

A representative of another authority can assist as an expert in the tax audit.

The procedure to be followed in the tax audit, as well as the material and assets to be presented, are regulated in more detail by a government decree.

- 26 The Budget Act might apply as well. But be aware that the provisions there relate to internal audits. The internal control procedures are required in sections 69 and 69a of the State Budget Regulation. The task of the internal audit is to find out to the management the appropriateness and adequacy of the internal control and to perform the audit tasks assigned by the management.

(cc) Tax and customs investigation (Customs Act/General Tax Act)

In 2020 a high-level conference on customs fraud took place in Finland.³³⁰

³²⁹ § 14

Verotarkastus

Verovelvollisen on Verohallinnon kehotuksesta verovuoden aikana tai myöhemmin esitettävä Suomessa tarkastettavaksi kirjanpitoa, muistiinpanonsa samoin kuin kaikki se elinkeinotoimintaan tai muuhun tulonhankkimistoimintaan liittyvä sekä muu aineisto ja omaisuus, joka saattaa olla tarpeen hänen verotuksessaan tai hänen verotustaan koskevaa muutoksenhakua käsiteltäessä. (11.6.2010/520)

Verotarkastuksen aloittamisajankohdasta ja tarkastuspaikasta on ilmoitettava verovelvolliselle etukäteen, jollei erityisestä syystä ole aihetta muuhun menettelyyn. (9.9.2016/772)

Suoritetusta verotarkastuksesta on laadittava verotarkastuskertomus, jollei erityisistä syistä muuta johdu.

Toisen viranomaisen edustaja voi avustaa asiantuntijana verotarkastuksessa. (13.11.2020/782)

Verotarkastuksessa noudatettavasta menettelystä sekä esitettävästä aineistosta ja omaisuudesta säädetään tarkemmin valtioneuvoston asetuksella. (9.9.2016/772)

“Cigarettes: The seizures of cigarettes have slightly decreased from previous years, but the smuggling of cigarettes has become more organized, international and large-scale. The contraband cigarettes have primarily been Chinese counterfeit products that have been smuggled into Finland either from Russia or Estonia.”³³¹

It is very hard to obtain new data about such conduct in Finland. But the National Statistics Office offers more information about relevant conduct for OLAF investigators.

Frontex reported in June 2023 “46 people smugglers arrested, millions of cigarettes seized in global operation led by Frontex”

More than 30 million of cigarettes seized, 43 fraudulent documents confiscated, 46 people smugglers arrested in a global operation against tobacco, human smuggling.

Frontex coordinated Joint Action Days (JAD) Arktos 5, focusing on tackling tobacco smuggling, migrant smuggling and document fraud in the Baltic Sea Region. This JAD was led by Latvia and co-led by both Estonia and Lithuania. The coordination centre was established in Frontex HQ, with border guards and customs representatives from participating countries as well as Interpol.

Between 9–19 June, eight EU Member States joined their efforts to prevent hundreds of thousands smuggled excise goods. Other organisations, including EUROJUST, EUROPOL, INTERPOL and OLAF, were also involved.”³³²

As OLAF and Finland were both parts of this FRONTEX operation it can be guessed that at least cases with a connection to Finland or Finish customs were suspected. This shows that this kind of fraudulent conduct is still an important matter and could potentially make on-the-spot-checks by OLAF necessary in Finland.

(dd) Fiscal supervision

The Finnish Ministry of Finance has certain functions but one of the most important is the control of the fiscal area, the spending and the revenue and the execution of the Budget Laws. It supervises the whole area including the EU money area in Finland.³³³ **27**

(b) Administrative provisions in the area of structural funds and internal policies (interne Politiken) = expenditure

- 28** The area of spending on structural funds is highly important and therefore dealt with in the Finnish Ministry of Finance. A special controller, which audits the Finnish Budget and the money Finland receives from the EU has the following tasks:

“Treasury controller function

The treasury controller function supports and ensures compliance with the principles of good governance. We develop control and reporting systems for state finances and operations and ensure their quality. We are responsible for the guidance, coordination and development of internal control and the risk management included in it. In terms of EU financial management, we coordinate, among other things, fraud prevention cooperation and are responsible for the audit tasks of several EU-funded programs in Finland.

The treasury controller function has a treasury controller unit. In connection with the operation, the independent audit authority unit and the verification authority unit and the independent internal audit of the ministry, which works under the head of the secretary of state’s office, also operate.

The state treasury controller function and unit is headed by Jaana Kuusisto, controller of the government.

Audit advisor Kari Rouvinen is the head of the audit authority unit.

Audit advisor Jarkko Huhtaniska is the head of the verification authority unit.”³³⁴

- 29** This information, which stem directly from the self-presentation of the Finnish Ministry of Finance on the website present a first hint on whom to contact if OLAF has issues dealing with audits and the audit system in Finland itself. Another possibility is to contact the AFCOS body, see → Art. 12a OLAF Regulation below.

(aa) Structural funds

- 30** The area of structural funds has been updated for the period 2021–2027:

Section 7³³⁵ Conditions for the recipient of the support

Support can be granted to a public-law entity and a private-law legal entity. If it is a joint project or a group project, all applicants must meet the conditions set for the grant recipient.

The recipient of the support must have sufficient financial and other conditions to implement the project and sufficient conditions to ensure the continuity of operations after the end of the project, unless ensuring continuity is unnecessary due to the nature of the operation.

A Government decree can provide more detailed regulations on the conditions for the recipient of the support.

Chapter 3 Special provisions concerning the implementation of the European Union's regional and structural policy program**Section 37³³⁶ Specific obstacles to the granting of support in the European Union's regional and structural policy program**

In addition to what this “of the law” the obstacles to the granting of support granted pursuant to are stipulated in Section 8, no support is granted from the funds of the European Union's regional and structural policy program if the project or the recipient of the support does not meet the general selection criteria referred to in Article 73 of the general regulation, approved by the monitoring committee and confirmed by the administrative authority.

The following codes may be applicable as well:

- Law on amending the law on internal affairs funds in the program period 2021–2027³³⁷
- Law 1334/2022 on the implementation of certain European Union and national agricultural subsidies³³⁸

Tuen saajalla tulee olla riittävät taloudelliset ja muut edellytykset hankkeen toteuttamiseksi ja riittävät edellytykset toiminnan jatkuvuudesta huolehtimiseksi hankkeen päättymisen jälkeen, jollei jatkuvuudesta huolehtiminen ole toiminnan luonteen vuoksi tarpeetonta.

On the management of the strategic plan of the common agricultural policy “given” “of the law” (1324/2022), hereinafter the Administration Act, Chapter 3 provides for the authorities and institutions referred to in EU legislation.

³⁴⁶ 4 § (29.12.2022/1336)

Ruokaviraston yleistoimivalta ja EU:n lainsäädännössä tarkoitettu viranomainen

Ruokavirasto on toimivaltainen kansallinen viranomainen EU:n yhteisen maatalouspolitiikan markkinajärjestelyn ja suunnitelma-asetuksen III osaston III luvun täytäntöönpanossa ja vastaa markkinajärjestelyyn ja mainittuun lukuun liittyvien kansalliselle viranomaiselle kuuluvien toimenpiteiden täytäntöönpanosta ja täytäntöönpanon edellyttämistä päätöksistä, jollei jäljempänä tässä laissa toisin säädetä.

(2) Investigative powers

Investigative powers are very important tools. If OLAF cannot act directly, it has to rely on the powers of potential partners of the Finish law enforcement or administrative branch. This requires the OLAF SNEs, OLAF Units and Investigators to know the applicable national law. The next pages are by no way exhaustive, but they try to picture the scenery of investigative powers, which OLAF can rely on, if it cooperates in an external investigation with Finish authorities. **39**

(a) Investigative powers in the area of customs duties and VAT (General Tax Act)

The investigative powers in the area of customs duties and VAT (General Tax Act) vested to the Finish Customs are particularly important for OLAF because a lot of EU irregularities and fraudulent conduct stems from this area according to press releases. **40**

Customs Investigations Measures 1

	Measures
<p>In Chapter 3 of the Customs Act the powers to carry out a customs procedure and inspection are regulated within sections 7 et seq. The detailed provisions will be explored below (Single measures), see ss. 2, 4 (controlled deliveries) 5 (criminal units and investigation teams, 8 (border control), 9 (international cooperation). In 2022 the parliament wanted to amend the VAT Act to enable an easier inspection of fraudulent activities. See the government's proposal to the parliament as a law on amending the value added tax law and some other laws in the province of Åland (2022). Other measures are regulated in the Customs Act and the Act on the Enforcement of Taxes and Public Payments.</p>	

(b) Investigative powers around structural funds and internal policies

Given that structural funds are managed jointly by the EU and national authorities under the **shared management principle**, Finish authorities (see above → **Institutions**) need to pay great attention and act according to the laws in order to properly oversee the distribution and utilisation of these funds.³⁵⁰ For instance, in 2023, the European Union faced significant challenges with its budget as nearly €11 billion in spending was marked by irregularities, according to the EU's auditors.³⁵¹ The Ministry of Economic points out

The Act on the financing of regional development and regional and structural policy projects of the European Union **13.8.2021/757** applies, too. ³⁸⁹ 68 § Asiakirjojen säilyttäminen

³⁹⁰ See OECD 2019, pp. 7, 14: "The implementation stage of the project cycle brings with it numerous fraud and corruption risks due to the number of actors potentially involved in project implementation and the complexity of some of the processes at this stage. For projects with high investment value, such as large-scale infrastructure projects, this stage becomes even more vulnerable to fraud and corruption. Furthermore, tenders put out either directly by the MA or beneficiary are common during the implementation stage, and procurement processes are notoriously prone to fraud and corruption. As shown in the illustrated schemes in the final part of the guide, there are a number of procurementspecific risks that occur at this stage. For example, members of an MA or beneficiary may tailor tender specifications or leak commercially sensitive tender information to favour one particular company or individual. Companies or contractors may also take part in collusive bidding schemes to manipulate competitive procedures. Responses from an OECD survey that was distributed to programme authorities show that procurement-related fraud and corruption risks at the level of beneficiaries are sometimes overlooked in risk analysis activities. In addition, some MAs generally base the identification of fraud risks on their own experience, without any additional input from other knowledgeable actors. Outside of the procurement process, perpetrators employ other tactics to siphon off funds and defraud the EU budget. For example, a beneficiary may fabricate fictitious works, services or activities, or inflate labour costs. In attempt to cover up fraudulent or corrupt behaviour or to justify non-eligible expenditure, perpetrators may manipulate documents and submit fictitious invoices. In some cases, perpetrators may even attempt to bribe officials or staff within programme authorities to conceal the scheme.

51 “Direct expenditure

Accounting for 14% of the EU budget, this is expenditure allocated and directly managed by EU institutions, bodies, agencies alone (not jointly with national authorities, as with the structural funds). Beneficiaries are located in EU countries.

It includes expenditure in, among others, the following areas:

- research and innovation (e.g. Horizon Europe programme)
- education, training and mobility of young people (e.g. ERASMUS+ programme)
- supporting the competitiveness of industry and in particular of micro, small and medium-sized enterprises (e.g. Single Market programme)
- environment and climate action (LIFE programme)
- improving the capacity of the EU to face security threats (Internal Security Fund)
- European public administration.

As a rule, national authorities are not involved in investigating fraud affecting direct expenditure.”³⁹¹

52 In the area of direct expenditure beneficiaries subject themselves often under the regime of civil and administrative anti-fraud clauses, which are usually enshrined in the contract between the recipient and the monitoring payment office.

53

Examples: The EU Commission supports large infrastructure projects.

54 OLAF has a **special unit**, which is competent to investigate and detect irregularities in the area of direct expenditure:

Chapter 15 Procurement control

Section 139³⁹³ Supervisory authority and taking measures to investigate illegal conduct

The Finnish Competition and Consumer Authority supervises compliance with this law. Anyone who considers that the procurement unit has acted in violation of this law can submit a request for action to the Finnish Competition and Consumer Authority to investigate the legality of the procedure. The provisions of chapter 8a of the Administrative Law on administrative complaints apply to the making and processing of a request for action. The processing of the request for action shall cease if the Competition and Consumer Agency deems the act that is the subject of the action request, in accordance with Section 53 c of the Administration Act, to take measures to initiate the procedure provided for in this or another law.

The Finnish Competition and Consumer Authority can take a case under its jurisdiction for investigation also on its own initiative.

Section 142³⁹⁴ Information obligation of the procurement unit, contract partner and tenderer

The procuring entity, its contractual partner, the entity exercising control over the procuring entity and the business operator who participated in the procurement procedure are obliged, regardless of confidentiality regulations, at the request of the Competition and Consumer Agency to provide it with all the information and documents necessary to determine the legality of the procurement procedure.

If required, the information must be provided in writing.

The Finnish Competition and Consumer Authority can impose a penalty fine as an effect of complying with the call referred to in subsection 1. A fine is ordered to be paid by the market court.

³⁹³ 15 luku Hankintojen valvonta

139 § *Hallintolaki*

Valvontaviranomainen ja toimenpiteisiin ryhtyminen lainvastaisen menettelyn tutkimiseksi

Kilpailu- ja kuluttajavirasto valvoo tämän lain noudattamista.

Jokainen, joka katsoo hankintayksikön menetelleen tämän lain vastaisesti, voi tehdä Kilpailu- ja kuluttajavirastolle toimenpidepyynnön menettelyn lainmukaisuuden tutkimiseksi. Toimenpidepyynnön tekemiseen ja käsittelyyn sovelletaan, mitä hallintolain 8 a luvussa säädetään hallintokantelusta. Toimenpidepyynnön käsittely raukeaa, jos Kilpailu- ja kuluttajavirasto katsoo toimenpidepyynnön kohteena olevan teon antavan hallintolain 53 c §:n mukaisesti aiheen ryhtyä toimenpiteisiin tässä tai muussa laissa säädetyn menettelyn käynnistämiseksi.

Kilpailu- ja kuluttajavirasto voi ottaa toimivaltaansa kuuluvan asian tutkittavakseen myös omasta aloitteestaan.

³⁹⁴ 142 § Hankintayksikön, sopimuskumppanin ja tarjoajan tietojenantovelvollisuus

Hankintayksikkö, tämän sopimuskumppani, hankintayksikössä määräysvaltaa käyttävä taho ja hankintamenettelyyn osallistunut elinkeinonharjoittaja on salassapitosäännösten estämättä velvollinen Kilpailu- ja kuluttajaviraston kehotuksesta antamaan sille kaikki hankintamenettelyn lainmukaisuuden selvittämiseksi tarpeelliset tiedot ja asiakirjat. Tiedot on niin vaadittaessa annettava kirjallisina.

Kilpailu- ja kuluttajavirasto voi asettaa 1 momentissa tarkoitettun kehotuksen noudattamisen tehosteeksi uhkasakon. Uhkasakon tuomitsee maksettavaksi markkinaoikeus.

Administrative law/Hallintolaki**Chapter 6 Investigating the matter and hearing the party involved****Section 31³⁹⁵ et seq.****Obligation to clarify**

The authority must take care of sufficient and appropriate investigation of the case by obtaining the necessary information and reports to resolve the case.

The interested party must present an explanation of the grounds for his claim. The party involved must also contribute to the investigation of the case he initiated.

Section 38³⁹⁶ Review

The authority can deliver an inspection if it is necessary to clarify the matter. The interested party must be given the opportunity to be present at the inspection and express his opinion on the issues raised. If the quality of the case so requires, an authority whose tasks include the supervision of the relevant activity according to the law or whose expertise is needed to resolve the case must also be invited to the inspection. The review must be delivered without causing unreasonable harm to the subject of the review or its holder.

A protocol must be kept during the inspection, which must reveal the key observations made by the authority and the comments made by the party involved. The minutes must be given to the interested party and others invited to the delivery without delay.

The review is public. The authority can restrict the public's access to the viewing if it is necessary due to the quality of the matter or the nature of the activity subject to the viewing. The inspection may not be carried out in the premises covered by domestic peace, unless the law specifically provides otherwise.

³⁹⁵ 6 luku Asian selvittäminen ja asianosaisen kuuleminen

31 § Selvittämisvelvollisuus

Viranomaisen on huolehdittava asian riittävästä ja asianmukaisesta selvittämisestä hankkimalla asian ratkaisemiseksi tarpeelliset tiedot sekä selvitykset.

Asianosaisen on esitettävä selvitystä vaatimuksensa perusteista. Asianosaisen on muutoinkin myötävaikutettava vireille panemansa asian selvittämiseen.

³⁹⁶ 38 § *Hallintolaki* Katselmus Viranomainen voi toimittaa katselmuksen, jos se on tarpeen asian selvittämiseksi.

Asianosaiselle on varattava tilaisuus olla läsnä katselmuksessa ja esittää mielipiteensä esille tulevista seikoista. Asian laadun niin vaatiessa katselmukseen on kutsuttava myös viranomainen, jonka tehtäviin asianomaisen toiminnan valvonta lain mukaan kuuluu tai jonka asiantuntemusta tarvitaan asian ratkaisemiseksi. Katselmus on toimitettava aiheuttamatta kohtuutonta haittaa katselmuksen kohteelle tai sen haltijalle.

Katselmuksessa on pidettävä pöytäkirjaa, josta tulee käydä ilmi viranomaisen tekemät keskeiset havainnot ja asianosaisen esittämät huomautukset. Pöytäkirja on viipymättä annettava tiedoksi asianosaiselle ja muille toimittukseen kutsutuille.

Katselmus on julkinen. Viranomainen voi rajoittaa yleisön pääsyä katselmukseen, jos se on tarpeen asian laadun tai katselmuksen kohteena olevan toiminnan luonteen vuoksi. Katselmusta ei saa toimittaa kotirauhan piiriin kuuluvissa tiloissa, ellei laissa erikseen toisin säädetä.

Section 39³⁹⁷ Inspection

The authority must notify the party directly affected of the start date of the inspection within its jurisdiction, unless the notification endangers the fulfillment of the purpose of the inspection. The interested party referred to above has the right to be present at the inspection and to present his opinion and questions about matters related to the inspection. During the inspection, the interested party must, if possible, be informed about the objectives of the inspection, its execution and follow-up measures. The inspection must be carried out without causing unreasonable harm to the object of the inspection or its holder.

The inspector must immediately draw up a written inspection report of the inspection, which must reveal the course of the inspection and the main observations made by the inspector. The inspection report must be served on the party entitled to be present at the inspection.

Section 40³⁹⁸ Oral evidence

For a special reason, a witness can be heard on the basis of an insurance policy in an administrative case, as well as the parties involved orally. The interested parties, who are directly affected by the decision made in the case, must be given the opportunity to be present when hearing the witness or the interested party. The parties involved have the right to ask questions to the hearing party and express their opinion on the hearing party's story.

Official assistance to use oral evidence is provided by the administrative court where the hearing of the witness or party can take place most appropriately. In the judicial administration matter before the court, the hearing is delivered by the relevant court.

The provisions of the Act on Trial in Administrative Matters apply to the witness's disability and the witness's right to refuse to testify. (27.11.2020/854)

³⁹⁷ 39 § *Hallintolaki* Tarkastus Viranomaisen on ilmoitettava toimivaltaansa kuuluvan tarkastuksen aloittamisajankohdasta asianosaiselle, jota asia välittömästi koskee, jollei ilmoittaminen vaaranna tarkastuksen tarkoituksen toteutumista. Edellä tarkoitettulla asianosaisella on oikeus olla läsnä tarkastuksessa sekä esittää mielipiteensä ja kysymyksiä tarkastukseen liittyvistä seikoista. Tarkastuksen kuluessa asianosaiselle on, mikäli mahdollista, kerrottava tarkastuksen tavoitteista, sen suorittamisesta ja jatkotoimenpiteistä. Tarkastus on suoritettava aiheuttamatta tarkastuksen kohteelle tai sen haltijalle kohtuutonta haittaa.

Tarkastajan on viipymättä laadittava tarkastuksesta kirjallinen tarkastuskertomus, josta tulee käydä ilmi tarkastuksen kulku ja tarkastajan tekemät keskeiset havainnot. Tarkastuskertomus on annettava tiedoksi tarkastuksessa läsnäoloon oikeutetulle asianosaiselle.

³⁹⁸ 40 § (26.6.2015/801) *Hallintolaki*

Suullinen todistelu Erityisestä syystä hallintoasiassa voidaan kuulla todistajaa vakuutuksen nojalla sekä suullisesti asianosaista. Asianosaisille, joita asiassa tehtävä päätös välittömästi koskee, on varattava tilaisuus olla läsnä kuultavassa todistajaa tai asianosaista. Asianosaisilla on oikeus esittää kuultavalle kysymyksiä sekä lausua käsityksensä kuultavan kertomuksesta. Virka-apua suullisten todistuskeinojen käyttämiseksi antaa se hallinto-oikeus, jossa todistajan tai asianosaisen kuuleminen voi tapahtua soveliaimmin. Tuomioistuimen käsiteltävässä oikeushallintoasiassa kuulemisen toimittaa asianomainen tuomioistuin. Todistajan esteellisyyteen sekä todistajan oikeuteen kieltäytyä todistamasta sovelletaan, mitä oikeudenkäynnistä hallintoasioissa annetussa laissa säädetään. (27.11.2020/854)

(3) Protection of information

57 OLAF officials and national inspectors and investigators need to obey the rules that apply in order to protect confidentiality and data protection or they have to rely on exemptions that empower them to check despite a provision that requests confidentiality:

(a) Tax secrecy and Customs Secrecy (General Tax Act)

58 In the tax area, the following applies:

- 30.12.1999/1346, The Act on Publicity and Confidentiality of Tax Information
- See for the tax secrecy³⁹⁹

59 A special customs secrecy does not exist and the customs officers have powerful rights to control goods and check whether an offence is committed or an irregularity exists, see e.g.:

60

Customs Act 29/04/2016/304

Section 30 Checking of funds⁴⁰⁰

The customs officer has the right to check the money and other property in his possession in order to reveal the money laundering crime referred to in chapter 32 of the Criminal Code and the financing of terrorism referred to in chapter 34 a of the Criminal Code, which is considered a customs crime.

(b) Administrative secrecy (Administrative laws)

61 The Act on public authorities' activities might apply.

62

§ 2 Scope of the law

This law provides for the right to obtain information about the public documents of the authorities, as well as the duty of confidentiality of the person working in the authority, the confidentiality of documents and other restrictions on access to information necessary to protect public and private interests, as well as the obligations of the authorities to implement the purpose of this law.

The information management of official documents is regulated in the Act on Information Management in Public Administration (906/2019).

63 The Administrative Act itself refers to the confidentiality e.g. in section 13 for the agent or assistant.

³⁹⁹ See Lohiniva-Kerkelä, Mirva, Verosalaisuus.

⁴⁰⁰ 30 § Rahavarojen tarkastaminen Tullimiehellä on oikeus tarkastaa henkilön mukana olevat rahavarat ja muu hänen hallussaan oleva omaisuus tullirikoksena pidettävän, rikoslain 32 luvussa tarkoitetun rahanpesurikoksen ja rikoslain 34 a luvussa tarkoitetun terrorismin rahoittamisen paljastamiseksi.

(c) Data secrecy (Data protection laws, Customs Act, General Tax Act)

In the general area the GDPR Regulation applies directly in all areas that concern OLAF investigations in Finland. **64**

In the area of the Budget Control and Accounting the following applies: **65**

The Budget Act contains certain provisions that ensure during this special administrative procedure the confidentiality and data protection: **66**

The right of access to information might confere with the data secrecy and requires then lawful action to intercept confidential information: **67**

Section 24g State Budget Act⁴⁰¹**Right of access to information**

The controller function of the state treasury has the right to receive the information, documents and reports necessary for the performance of their duties free of charge from the state agency and institution, the state business institution and the extra-budgetary fund.

The state treasury controller function has the right to receive information and documents from the state agency and institution, state business enterprise and non-budgetary state fund about the state economy and operations, as well as the state economy or funds or property under the state's responsibility or related to them, from the state agency and institution, the state enterprise and the state fund outside the budget, if for the function section 24 f: The performance of the task stipulated in subsection 1, paragraphs 1–3 necessarily requires it.

⁴⁰¹ 24 g § (19.12.2003/1216) Laki valtion talousarviosta

Tietojensaantioikeus Valtiovarain controller -toiminnolla on oikeus saada maksutta tehtäviensä hoitamiseksi tarpeelliset tiedot, asiakirjat ja selvitykset valtion virastolta ja laitokselta, valtion liikelaitokselta sekä talousarvion ulkopuoliselta rahastolta.

Valtiovarain controller -toiminnolla on oikeus saada salassapitosäännösten estämättä valtion virastolta ja laitokselta, valtion liikelaitokselta ja talousarvion ulkopuolella olevalta valtion rahastolta tietoja ja asiakirjoja valtion taloudesta ja toiminnasta sekä valtiontaloutta tai valtion vastuulla olevia varoja tai omaisuutta koskevasta tai niihin kohdistuvasta menettelystä, jos toiminnolle 24 f §:n 1 momentin 1–3 kohdassa säädetyn tehtävän suorittaminen sitä välttämättä edellyttää.

(4) Investigation reports (Customs Act, General Tax Act)

68 The Customs Act contains provisions that request to draw a report, e.g.:

69 **Section 11⁴⁰² Taking possession of the goods**

If Customs determines that the conditions for the import, export, transfer or transit of the goods referred to in section 10 subsection 1 are not met, or if it determines during the customs inspection that the person does not have the right to keep the goods according to section 83 of the Alcohol Act (1102/2017) in possession, it makes a decision to take possession of the goods. (28.12.2017/1120)

The decision is given to the person from whom the goods are taken over. The decision to take over the postal shipment is given to the recipient or sender of the goods, if the recipient or sender is known to Customs.

Customs must keep a record of seized goods.

Chapter 12 provides for the sale, other transfer and disposal of seized goods.

70 The State Audit Office Act requires the Office to submit a report:

71 **Section 5⁴⁰³ Inspection report**

The Audit Office issues the audit report drawn up from the audit for information and necessary measures to the audited and the ministry to which the audited belongs, as well as for information to the parliamentary audit committee and the Ministry of Finance. The auditee and the ministry to which the auditee belongs must inform the audit agency what measures have been taken as a result of the comments presented in the audit report. (25.5.2007/597)

The regulations on confidentiality are not an obstacle to issuing an inspection report to the inspected authority and other authorities referred to in subsection 1. Confidential information can be given to an auditee other than the authority, to the extent that he or

⁴⁰² 11 § Tavarahan haltuunotto Jos Tulli toteaa, että 10 §:n 1 momentissa tarkoitettujen tavarain tuontia, vientiä, siirtoa tai kauttakuljetusta koskevat edellytykset eivät täyty, taikka jos se toteaa tullitarkastuksen yhteydessä, että henkilöllä ei ole alkoholilain (1102/2017) 83 §:n mukaan oikeutta pitää tavaraa hallussaan, se tekee päätöksen tavarain haltuunotosta. (28.12.2017/1120)

Päätös annetaan sille, jolta tavara otetaan haltuun. Päätös postilähetyksen haltuunotosta annetaan tavarain vastaanottajalle tai lähettäjälle, jos vastaanottaja tai lähettäjä on Tullin tiedossa.

Tullin on pidettävä haltuun otetuista tavaroista kirjaa.

Haltuun otetun tavarain myynnistä, muusta luovutuksesta ja hävittämisestä säädetään 12 luvussa.

⁴⁰³ 5 § Tarkastuskertomus Tarkastusvirasto antaa tarkastuksesta laaditun tarkastuskertomuksen tiedoksi ja tarvittavia toimenpiteitä varten tarkastetulle ja ministeriölle, jonka toimialalle tarkastettu kuuluu, sekä tiedoksi eduskunnan tarkastusvaliokunnalle ja valtiovarainministeriölle. Tarkastetun ja ministeriön, jonka toimialalle tarkastettu kuuluu, on ilmoitettava tarkastusvirastolle, mihin toimenpiteisiin tarkastuskertomuksessa esitettyjen huomautusten johdosta on ryhdytty. (25.5.2007/597)

Salassapitoa koskevat säännökset eivät ole esteenä tarkastuskertomuksen antamiselle tarkastetulle viranomaiselle ja muille 1 momentissa tarkoitetuille viranomaisille. Muulle tarkastetulle kuin viranomaiselle salassa pidettäviä tietoja voidaan antaa siltä osin kuin tällä olisi viranomaisen toiminnan julkisuudesta annetun lain (621/1999) tai muun lain nojalla oikeus saada kertomukseen sisältyviä tietoja. Tarkastusvirasto voi myös antaa tarkastusta suoritettaessa saatuja salassa pidettäviä asiakirjoja ja muita tietoja näille viranomaisille ja eduskunnan asianomaiselle valiokunnalle, jos se on tarpeen tarkastushavaintojen edellyttämien toimenpiteiden suorittamiseksi tai muutoin niiden tehtävän hoidon kannalta perusteltua.

she has the right to receive the information contained in the report under the Act on the Publicity of the Authority's Activities (621/1999) or another law. The Audit Office can also provide confidential documents and other information obtained during the audit to these authorities and the relevant committee of the parliament, if it is necessary to carry out the measures required by the audit findings or otherwise justified in terms of handling their tasks.

(5) Support to the inspectors (Customs Act, General Tax Act)

The State Audit Office Act requires the competent authorities or the persons investigated to cooperate. The same applies in a customs or tax procedure. **72**

(6) Preservation of Evidence

The preservation of evidence is foreseen by every Act, which allows the inspection of premises, things, files etc. See below → Inspection. **73**

g) Single measures

It is important to take a closer look at single measures as the thresholds for Investigations stem from the details in the law. **74**

aa. Interviewing/Questioning of “persons concerned” (in relation to suspects/defendants)

Persons concerned may be interviewed if they are informed about their status and their rights according to the Croatian Constitution and the relevant Acts, such as the Administrative Procedure Code, the Tax Code, the Customs Code and the relevant Acts from the area of budget spending (Budget Act, Structural Funds Acts established according to the structural funds related EU Regulations): **75**

bb. The taking of statements from Economic Operators

In a normal administrative process, the inspectors or the person handling the case will be obliged to hear the economic operator as proclaimed e.g. in the Finnish Administrative Act: **76**

77 **Section 34⁴⁰⁴ Hearing of the party concerned**

Before the case is settled, the interested party must be given an opportunity to state his opinion on the matter and to give his explanation of such requirements and explanations that may affect the settlement of the case.

The case may be resolved without hearing the parties involved, if:

- 1) the claim is left unexamined or rejected immediately as unfounded;
- 2) the matter concerns admission to employment or voluntary training;
- 3) the matter concerns the granting of an advantage based on an assessment of the applicant's characteristics;
- 4) the hearing may jeopardize the realization of the purpose of the decision or the delay in handling the matter caused by the hearing causes considerable harm to people's health, public safety or the environment; or
- 5) a claim is accepted that does not concern the other party involved, or the hearing is otherwise obviously unnecessary.

cc. Interviewing/Questioning of witnesses

78 Again, we can refer to make an example for this heading to the Finnish Administrative Act, which relates to witness hearings in section 40:

79 **Section 40⁴⁰⁵ Oral evidence**

For a special reason, a witness can be heard on the basis of an insurance policy in an administrative case, as well as the parties involved orally. The interested parties, who are directly affected by the decision made in the case, must be given the opportunity to be present when hearing the witness or the interested party. The parties involved have the right to ask questions to the hearing party and express their opinion on the hearing party's story.

⁴⁰⁴ § 34 Asianosaisen kuuleminen Asianosaiselle on ennen asian ratkaisemista varattava tilaisuus lausua mielipiteensä asiasta sekä antaa selityksensä sellaisista vaatimuksista ja selvityksistä, jotka saattavat vaikuttaa asian ratkaisuun. Asian saa ratkaista asianosaista kuulematta, jos:

- 1) vaatimus jätetään tutkimatta tai hylätään heti perusteettomana;
- 2) asia koskee palvelussuhteeseen tai vapaaehtoiseen koulutukseen ottamista;
- 3) asia koskee hakijan ominaisuuksien arviointiin perustuvan edun myöntämistä;
- 4) kuuleminen saattaa vaarantaa päätöksen tarkoituksen toteutumisen tai kuulemisesta aiheutuva asian käsittelyn viivästyminen aiheuttaa huomattavaa haittaa ihmisten terveydelle, yleiselle turvallisuudelle taikka ympäristölle; tai

5) hyväksytään vaatimus, joka ei koske toista asianosaista tai kuuleminen on muusta syystä ilmeisen tarpeetonta.

⁴⁰⁵ 40 § (26.6.2015/801) Suullinen todistelu Erityisestä syystä hallintoasiassa voidaan kuulla todistajaa vakuutuksen nojalla sekä suullisesti asianosaista. Asianosaisille, joita asiassa tehtävä päätös välittömästi koskee, on varattava tilaisuus olla läsnä kuultaessa todistajaa tai asianosaista. Asianosaisilla on oikeus esittää kuultavalle kysymyksiä sekä lausua käsityksensä kuultavan kertomuksesta. Virka-apua suullisten todistuskeinojen käyttämiseksi antaa se hallinto-oikeus, jossa todistajan tai asianosaisen kuuleminen voi tapahtua soveliaimmin. Tuomioistuimen käsiteltävässä oikeushallintoasiassa kuulemisen toimittaa asianomainen tuomioistuin.

Todistajan esteellisyyteen sekä todistajan oikeuteen kieltäytyä todistamasta sovelletaan, mitä oikeudenkäynnistä hallintoasioissa annetussa laissa säädetään. (27.11.2020/854)

Official assistance to use oral evidence is provided by the administrative court where the hearing of the witness or party can take place most appropriately. In the judicial administration matter before the court, the hearing is delivered by the relevant court. The provisions of the Act on Trial in Administrative Matters apply to the witness's disability and the witness's right to refuse to testify. (27.11.2020/854).

dd. Inspections

Inspections in general are very **important tools** within an on-the-spot check. They are allowed by the relevant acts in the area of the most prominent frauds, such as tax and customs frauds to the detriment of the Union's budget: **80**

- Customs Inspection
- Tax Inspection
- Structural Funds Inspection
- Agricultural Related Inspections
- Classical Budget Inspections
- Other Special Inspections (e.g. wine producers, alcohol producers etc.)
- Fishing Area

(1) General Administrative Inspection

The general administrative law regulates a **normal inspection**, which can be initiated to determine a matter concerning a certain EU-related question e.g. a decision about a grant, a contract etc.: **81**

Section 39⁴⁰⁶ Inspection **82**

The authority must **notify the party directly affected of the start date of the inspection** within its jurisdiction, unless the notification endangers the fulfillment of the purpose of the inspection. The interested party referred to above has the right to be present at the inspection and to present his opinion and questions about matters related to the inspection. During the inspection, the interested party must, if possible, be informed about the objectives of the inspection, its execution and follow-up measures. The inspection must be carried out without causing unreasonable harm to the object of the inspection or its holder.

⁴⁰⁶ 39 § Tarkastus

Viranomaisen on ilmoitettava toimivaltaansa kuuluvan tarkastuksen aloittamisajankohdasta asianosaiselle, jota asia välittömästi koskee, jollei ilmoittaminen vaaranna tarkastuksen tarkoituksen toteutumista. Edellä tarkoitettulla asianosaisella on oikeus olla läsnä tarkastuksessa sekä esittää mielipiteensä ja kysymyksiä tarkastukseen liittyvistä seikoista. Tarkastuksen kuluessa asianosaiselle on, mikäli mahdollista, kerrottava tarkastuksen tavoitteista, sen suorittamisesta ja jatkotoimenpiteistä. Tarkastus on suoritettava aiheuttamatta tarkastuksen kohteelle tai sen haltijalle kohtuutonta haittaa.

Tarkastajan on viipymättä laadittava tarkastuksesta kirjallinen tarkastuskertomus, josta tulee käydä ilmi tarkastuksen kulku ja tarkastajan tekemät keskeiset havainnot. Tarkastuskertomus on annettava tiedoksi tarkastuksessa läsnäoloon oikeutetulle asianosaiselle.

The inspector must immediately draw up a written inspection report of the inspection, which must reveal the course of the inspection and the main observations made by the inspector. The inspection report must be served on the party entitled to be present at the inspection.

(2) Customs Inspection

83 A customs inspection is regulated in Chapters 2–4 Customs Act. The use of force during an inspection or to prevent customs crime from happening is regulated in Chapter 4 Customs Act.

(3) State Audit Office Act

84 Section 2⁴⁰⁷ Right of inspection

The Audit Office has the right to inspect:

2 a) hyvinvointialueiden ja hyvinvointialueesta annetun lain (611/2021) 4 §:ssä tarkoitettuun hyvinvointialuekonserniin kuuluvien yhteisöjen ja säätiöiden taloudenhoidon laillisuutta ja tarkoituksenmukaisuutta sekä mainitussa pykälässä tarkoitettuja sellaisia muita yhteisöjä, säätiöitä ja laitoksia joissa hyvinvointialue yhdessä yhden tai useamman hyvinvointialueen, yhden tai useamman kunnan tai valtion kanssa käyttää määräysvaltaa valtiolta saadun rahoituksen osalta; (29.6.2021/660)

2 b) Helsingin kaupungin sosiaali- ja terveydenhuollon sekä pelastustoimen sekä näitä tehtäviä varten perustettujen kaupungin määräysvallassa olevien yhteisöjen toiminnan ja taloudenhoidon laillisuutta, tarkoituksenmukaisuutta ja tuloksellisuutta valtiolta saadun rahoituksen osalta; (29.6.2021/660)

3) valtiolta varoja tai muuta taloudellista tukea tai etua saaneita kuntia, kuntayhtymiä, säätiöitä sekä muita yhteisöjä ja oikeushenkilöitä sekä yksityisiä henkilöitä sen selvittämiseksi, ovatko varojen tai muun taloudellisen tuen tai edun saamiseksi annetut tiedot oikeat, onko myöntämispäätöksessä määrättyjä ehtoja noudatettu ja onko varat tai muu taloudellinen tuki tai etu käytetty siihen tarkoitukseen, johon ne on annettu;

5) valtion maksuliikettä hoitavia luottolaitoksia ja muita yhteisöjä valtion maksuliikkeen hoidon selvittämiseksi samoin kuin sellaisia muita yhteisöjä ja oikeushenkilöitä, joille on uskottu muu valtion varojen käyttöä, omaisuuden hoitoa tai tilinpitoa koskeva tehtävä sen hoidon selvittämiseksi; sekä

6) valtion viranomaisten hallussa olevia muille kuuluvia varoja, joista valtio on vastuussa.

Mitä 1 momentin 3 kohdassa säädetään valtion tuen ja muun rahoituksen saajasta, koskee soveltuvin osin myös varojen välittäjää ja sitä, jonka käyttöön saaja on siirtänyt näitä varoja.

Tarkastusoikeutta ei kuitenkaan ole siltä osin kuin yksityinen henkilö on saanut varoja tai muuta taloudellista tukea tai etua omiin henkilökohtaisiin tai perheensä tarpeisiin tai kotitaloutensa suoranaiseen tukemiseen.

What is stipulated in subsection 1, section 3, regarding the recipient of state support and other funding, also applies, where applicable, to the intermediary of the funds and the person to whose use the recipient has transferred these funds.

However, there is no right of inspection to the extent that a private person has received funds or other financial support or benefits for their own personal or family needs or for the direct support of their household.

Section 3⁴⁰⁸ Conducting inspections

Inspections are carried out based on the inspection plan approved by the inspection agency.

The inspection agency has the right to carry out inspections in the premises of the persons to be inspected mentioned in § 2, and the persons to be inspected are obliged to

⁴⁰⁸ 3 § Tarkastusten suorittaminen Tarkastusten suorittaminen perustuu tarkastusviraston vahvistamaan tarkastussuunnitelmaan. Tarkastusvirastolla on oikeus suorittaa tarkastukset 2 §:ssä mainittujen tarkastettavien tiloissa ja tarkastettavat ovat velvollisia tarvittaessa avustamaan tarkastuksen suorittajaa. Asunnossa tarkastus voidaan suorittaa vain, jos se on välttämätöntä 2 §:n 1 momentin 3 kohdassa tarkoitettujen seikkojen selvittämiseksi ja jos on perusteltua syytä epäillä varojen käytöstä annettuja säännöksiä rikotun tai rikottavan. Tarkastusvirasto voi käyttää tarkastuksen suorittamisessa apunaan asiantuntijoita.

assist the person performing the inspection if necessary. An inspection can only be carried out in the apartment if it is necessary to find out the matters referred to in section 2, subsection 1, point 3, and if there is a justified reason to suspect that the provisions on the use of funds have been violated or will be violated.

The Audit Office can **use experts to assist** in carrying out the audit.

Subsection 4 has been repealed by L 25.5.2007/597.

(4) Structural Funds Inspection

85 The main Act in this area is the Act on the financing of regional development and regional and structural policy projects of the European Union from 13.8.2021/757.

86 **Section 47 Audits regarding the use of funds from the European Union's regional and structural policy program**

Based on articles 72 and 74 of the general regulation, the administrative authority has the right to carry out inspections related to the use of the funds of the European Union's regional and structural policy program on intermediary institutions and aid recipients. [...]

Section 49 [See above for the original text → Investigative powers around structural funds and internal policies]

The authority of the European Union regional and structural policy program inspector

In order to properly conduct the inspection referred to in Section 47 above, the administrative authority, the inspection authority and the authority referred to in Section 48 authorised by them and the auditor have the right to enter buildings, premises and places relevant to the use of the support. However, the inspection may not be performed in premises used for permanent housing. [...]

ee. Searches

87 A search is *per se* a (very) **intensive and potentially fundamental rights infringing coercive measure**. This is the reasons, why the Finnish Coercive Measures Act is often cited within other laws and these laws refer to the regulations on searches within this special Act.

88 Despite these searches and search measures are allowed by various Acts. They enable inspectors and investigators to find things that are hidden within buildings, on premises, in cupboards or stored **digitally on a computer** or smart device hidden in a room within a building etc. (e.g. a computer not connected to the internet is very rare today but sometimes used by criminals – it can only be found via a search).

Generally speaking, two kinds of searches can be distinguished – either the search for a person or the search for a thing or things. 89

(1) Finnish Acts allowing searches

The following Acts are important: 90

- Customs Act 91
- General Tax Act, VAT Act
- Act on Support for Rural Development (1443/2006)
- Act on the financing of regional development and regional and structural policy projects of the European Union, 13.8.2021/757

An excerpt of the Act below shows an important part that relates to the right mentioned above: 92

Section 49 The authority of the European Union regional and structural policy program inspector Act on the financing of regional development and regional and structural policy projects of the European Union, 13.8.2021/757 93

In order to properly conduct the inspection referred to in Section 47 above, the administrative authority, the inspection authority and the authority referred to in Section 48 authorised by them and the auditor have the right to enter buildings, premises and places relevant to the use of the support. However, the inspection may not be performed in premises used for permanent housing.

The person performing the inspection has the **right to inspect all information, reports, documents, information systems, recordings, other material and conditions necessary for the inspection**. The inspector has the right to take possession of the material referred to above, if the proper conduct of the inspection requires it. The seized documents and other material must be returned without delay when the inspection no longer requires their possession.

The Customs Act contains the following: This provision applies when e.g. EU fraud is suspected in customs matters in Finland. Thus, probably if the person is suspected on the most probable grounds of a crime related to customs fraud, the suspected crime needs a minimum penalty of at least one year in prison (e.g., serious smuggling, fraud affecting EU financial interests (see above → Part A); it needs to be conducted to check for prohibited goods during customs procedures. The search shall be discreet, documented, and must follow the Coercive Measures Act rules, which were cited above in the EPPO Part. A preliminary investigation does not need to be initiated for the search. The wording of the relevant sections can be read and retrieved below: 94

95 Section 18⁴⁰⁹ A search targeting a person

In order to check whether a person is carrying goods, the control of import, export or transit of which has been stipulated to be the task of Customs, the person may, upon entering the Finnish customs territory, when leaving the Finnish customs territory, or when visiting a vehicle or a place where goods are unloaded, loaded or stored, or for a special reason elsewhere in the Finnish customs territory, carries out the search of a person referred to in Chapter 8, Section 30 of the Coercive Measures Act as stipulated below.

The customs officer performing the customs procedure decides on the performance of the personal inspection referred to in Chapter 8, Section 30 of the Coercive Measures Act in order to examine what the person being inspected has on their clothes or in the goods they are carrying.

A personal search or a personal search referred to in Chapter 8, Section 30 of the Coercive Measures Act, to examine what the subject is wearing other than his clothes, can be carried out on a person who is suspected on the most probable grounds of a crime, for which the severest punishment prescribed is at least one year in prison. The inspection can then be carried out without starting a preliminary investigation. The customs officer assigned to the task as the supervisor of customs crime prevention or customs supervision decides on the execution of the measure.

The search of a person must be carried out discreetly and in such a way that it does not cause unnecessary harm or damage to the person being searched or damage to the property on him or with him. A protocol must be prepared for the search of a person referred to in subsection 3 above, in which the course of the delivery is explained with sufficient accuracy. A copy of the minutes must be given to the auditee upon request. When conducting a search on a person, the procedure must also comply with the Coercive Measures Act.

⁴⁰⁹ 18 § Henkilöön kohdistuva etsintä Sen tarkastamiseksi, onko henkilöllä mukanaan tavaraa, jonka tuonnin, viennin tai kauttakuljetuksen valvonta on säädetty Tullin tehtäväksi, henkilölle voidaan hänen saapuessaan Suomen tullialueelle, lähtiessään Suomen tullialueelta tai käydessään sellaisessa kulkuneuvossa tai paikassa, jossa tavaraa puretaan, lastataan tai säilytetään taikka erityisestä syystä muuallakin Suomen tullialueella, suorittaa pakkokeinolain 8 luvun 30 §:ssä tarkoitettu henkilöön kohdistuva etsintä siten kuin jäljempänä säädetään.

Pakkokeinolain 8 luvun 30 §:ssä tarkoitettujen henkilöntarkastusten suorittamisesta sen tutkimiseksi, mitä tarkastettavalla on vaatteissaan tai mukanaan olevissa tavaroissa päättää tullitoimenpidettä suorittava tullimies.

Pakkokeinolain 8 luvun 30 §:ssä tarkoitettu henkilönkatsastus tai henkilöntarkastus sen tutkimiseksi, mitä tarkastettavalla on muuten kuin vaatteissaan yllään, voidaan suorittaa henkilölle, jota epäillään todennäköisin syin rikoksesta, josta säädetty ankaran rangaistus on vähintään vuosi vankeutta. Tarkastus voidaan tällöin suorittaa esitutkintaa aloittamatta. Toimenpiteen suorittamisesta päättää tehtävään määrätty tullirikostorjunnan tai tullivalvonnan esimiehenä toimiva tullimies.

Henkilöön kohdistuva etsintä on suoritettava hienotunteisesti ja siten, ettei siitä aiheudu tarpeetonta haittaa tai vahinkoa tarkastettavalle henkilölle tai vahinkoa hänen yllään tai mukanaan olevalle omaisuudelle. Edellä 3 momentissa tarkoitettusta henkilöön kohdistuvasta etsinnästä on laadittava pöytäkirja, jossa toimituksen kulku selostetaan riittävällä tarkkuudella. Pöytäkirjasta on pyynnöstä annettava tarkastettavalle jäljennös. Henkilöön kohdistuvaa etsintää toimitettaessa menettelyssä on lisäksi noudatettava pakkokeinolakia.

Section 19⁴¹⁰ Security check

The customs officer has the right to check what the person has in his clothes or otherwise wearing, or in the belongings he is carrying, in connection with the search of a person referred to in § 18 and in connection with the arrest, detention, imprisonment, detention and other measures affecting personal freedom. The security check ensures that he does not have any objects or substances in his possession that could endanger his inspection or storage or cause danger to himself or others. The customs officer may perform an inspection on a person to find such objects or substances in other cases as well, if it is necessary for a justified reason to ensure the customs officer's work safety or the performance of the customs procedure.

If necessary, the dangerous objects and substances referred to in subsection 1 must be removed from the inspection. Such objects and substances must also be removed, the possession of which is prohibited by law or a regulation or order issued pursuant to it.

The security inspection is carried out by hand palpation, using a trained dog, using a metal detector or other similar technical device, or in another comparable way. The inspection must not interfere with the personal integrity of the person being inspected more than is necessary to perform the task. In the inspection, the tact required by the circumstances must be observed.

(2) General remarks

The **system of searches and search measures** is regulated mostly in the same way in the various Acts. A special body or a controller, an inspector e.g., is allowed to carry out a search in case of a certain irregularity and threshold. **96**

(3) Formal requirements

Chapter 6 of the Customs Act contains rules on all measures, which relate to the prevention of customs crime or the control of customs duties. It contains formal and substantive requirements, which must be ensured in order to make the whole process lawful. **97**

⁴¹⁰ 19 § Turvallisuustarkastus Tullimiehellä on oikeus 18 §:ssä tarkoitetun henkilöön kohdistuvan etsinnän sekä kiinniottamisen, pidättämisen, vangitsemisen, säilöön ottamisen ja muun henkilökohtaiseen vapauteen kohdistuvan toimenpiteen yhteydessä tarkastaa, mitä henkilöllä on vaatteissaan tai muuten yllään taikka mukanaan olevissa tavaroissa. Turvallisuustarkastuksella varmistetaan, ettei hänellä ole hallussaan esineitä tai aineita, joilla hän voi vaarantaa tarkastamisen tai säilyttämisen taikka aiheuttaa vaaraa itselleen tai muille. Tullimies voi tehdä henkilölle tarkastuksen tällaisten esineiden tai aineiden löytämiseksi muussakin tapauksessa, jos se on perustellusta syystä tarpeen tullimiehen työturvallisuuden tai tullitoimenpiteen suorittamisen varmistamiseksi.

Edellä 1 momentissa tarkoitetut vaaralliset esineet ja aineet on tarvittaessa otettava pois tarkastettavalta. Myös sellaiset esineet ja aineet on otettava pois, joiden hallussapito on lain tai sen nojalla annetun säännöksen tai määräyksen nojalla kielletty.

Turvallisuustarkastus toimitetaan käsin tunnustelemalla, koulutettua koiraa käyttäen, metallinilmainsinta tai muuta vastaavaa teknistä laitetta käyttäen taikka muulla niihin rinnastettavalla tavalla. Tarkastuksella ei saa puuttua tarkastettavan henkilökohtaiseen koskemattomuuteen enempää kuin tehtävän suorittamiseksi on välttämätöntä. Tarkastuksessa on noudatettava olosuhteiden edellyttämää hienotunteisuutta.

Chapter 6 Customs Act Procedure when exercising powers

[See above for the original texts →

Defence laws are important in EPPO proceedings, holding the EPPO and its staff **accountable** and the mechanism fair and proportionate. However, Member States have different legal systems, despite EU Directives from the 2012 roadmap, like Directive 2010/64/EU (right to interpretation and translation) and others. These are only partially harmonised in Article 41 of the EPPO Regulation, leading to inconsistent procedures and varying rights protection for suspects. The EPPO works in between EU and national law, where the CFR applies when EU law is “implemented/executed”. The ECJ states that the Charter applies to EU institutions and Member States when implementing EU law, not extending EU powers. It requires EU acts to comply with fundamental **rights**, but this can potentially create gaps in procedural protections in EPPO cases.

Defence in the investigation phase, Defence while investigation is under-way, → Art. 28–33 EPPO Regulation, Customs Investigation]

Section 34 Respect for fundamental rights and human rights

Customs must respect basic rights and human rights, and when exercising its powers, choose from the justifiable alternatives the one that best promotes the realization of these rights.

Section 35 Proportionality principle

Customs measures must be defensible in relation to the importance, dangerousness and urgency of the task, the goal to be pursued, the behaviour, age, health and other similar aspects of the person subject to the measure, as well as other aspects affecting the overall assessment of the situation.

Section 36 The principle of least harm

Customs measures may not interfere with anyone’s rights any more and may not cause anyone more damage or harm than is necessary to perform the task.

Section 37 The principle of purposefulness

Customs may use its authority only for the prescribed purpose.

Section 38 Managing and prioritizing tasks

Customs duties must be performed efficiently and appropriately. When circumstances require, tasks must be prioritised.

Section 39 Expressing the position of the customs officer and identifying the customs officer

If necessary, the customs officer must state to the person subject to the customs procedure that he is a customs officer and, upon request, present his identity card. Customs must ensure that the customs officer who performed the official duty can be identified if necessary.

Section 40 Notification of the basis for the use of the authority

The basis for the use of the authority aimed at a person's freedom must be notified to the person who is the subject of the measure or his representative as soon as possible, taking into account the person's condition and other circumstances.

Unless the law provides otherwise, the person who is the subject of a measure other than one aimed at freedom or his representative has the right to receive information about the basis for the exercise of jurisdiction as soon as possible without jeopardizing the execution of the customs measure.

Section 41 The authority of the customs officer

When using the authority provided for in this law, the Customs Crime Prevention Act or another law, the customs officer has the right in individual cases to issue every binding order and prohibition necessary for the execution of the task of the Customs.

Section 42 Treatment of the detained person

The treatment of persons apprehended by Customs pursuant to this Act is governed by the Act on the Treatment of Persons Detained by the Police (841/2006) and what is stipulated regarding the application of that law in relation to the person detained by Customs and the place of storage of Customs in Chapter 2, Section 12, Subsections 2 and 3 of the Customs Crime Prevention Act.

Section 43 Minutes and entry in another document

The arrest of a person in accordance with section 17, subsection 2 of this law, the seizure of property in connection with a security inspection in accordance with section 19, subsection 2, the seizure of objects and substances endangering public order and safety in accordance with section 20, and the arrest of a wanted person in accordance with section 33 shall be without undue delay a protocol to be drawn up or an entry to be made in another document.

Upon request, a copy of the minutes or entry in another document must be given to the person who has been arrested or from whom the goods have been seized.

Customs issues more detailed regulations on drawing up the protocol and making a note on the other document, as well as on the content of the protocol and the note.

(4) Substantive requirements

- 99 For the Customs Act the rules have been displayed above. It is important that the officers and the servants obey foremost the **proportionality principle**. An administrative court will assess if the measure was necessary and if none other method would have been less heavy. A search is often allowed but it is a measure like others: It should in principle be ultima ratio.

ff. Seizure of (other) evidence Customs/Tax (Procedures) Code

- 100 The Customs Acts contains provisions on what to do with seized property and hereby reveals that seizure is an option:

Section 21⁴¹¹ Handling of seized property

Objects and substances seized by Customs pursuant to Sections 19 and 20 must be returned to the person from whom they were seized without delay and within 14 days at the latest.

However, goods will not be returned if:

- 1) the object or substance cannot be safely returned to the person from whom it was taken;
- 2) Customs or another authority has taken the confiscation measure referred to in Chapter 7 of the Coercive Measures Act;
- 3) another authority has taken measures to revoke the permit for possession of the object or substance;
- 4) according to the law, there is another obstacle to return.

If the object or substance cannot be safely returned to the person from whom it was taken, it will be handed over to the police for the measures stipulated in the Police Act or the Firearms Act (1/1998).

Section 49 The authority of the European Union regional and structural policy program inspector

Act on the financing of regional development and regional and structural policy projects of the European Union, 13.8.2021/757 In order to properly conduct the inspection referred to in Section 47 above, the administrative authority, the inspection authority and the authority referred to in Section 48 authorised by them and the auditor have the right

⁴¹¹ 21 § Haltuun otetun omaisuuden käsittely Tullin haltuun 19 ja 20 §:n nojalla otetut esineet ja aineet on palautettava sille, jolta ne otettiin haltuun, viipymättä ja viimeistään 14 vuorokauden kuluessa.

Tavaroita ei kuitenkaan palauteta, jos:

- 1) esinettä tai ainetta ei voida vaaratta palauttaa sille, jolta se otettiin haltuun;
- 2) Tulli tai muu viranomainen on ryhtynyt pakkokeinolain 7 luvussa tarkoitettuun takavarikointitoimenpiteeseen;
- 3) muu viranomainen on ryhtynyt toimenpiteisiin esineen tai aineen hallussapitoa koskevan luvan peruuttamiseksi;
- 4) palauttamiselle on lain mukaan muu este.

Jollei esinettä tai ainetta voida vaaratta palauttaa sille, jolta se otettiin haltuun, se luovutetaan poliisille poliisilaissa tai ampuma-aselaissa (1/1998) säädettyjä toimenpiteitä varten.

to enter buildings, premises and places relevant to the use of the support. However, the inspection may not be performed in premises used for permanent housing.

The person performing the inspection has the right to inspect all information, reports, documents, information systems, recordings, other material and conditions necessary for the inspection. The inspector has the right to take possession of the material referred to above, if the proper conduct of the inspection requires it. The seized documents and other material must be returned without delay when the inspection no longer requires their possession. [...]

gg. Special kinds of seizure

A special kind of seizure would be the **seizure with the use of force.** **101**

hh. The seizure of digital forensic evidence including bank account information

The seizure of digital forensic evidence including bank account information becomes increasingly important. The **recent changes** of the OLAF Regulation No 883/2013 (as amended **2020/2223**) codified that OLAF shall under the same conditions that apply to national competent authorities have access to bank account information. The relevant national law shall be displayed by the compendium on the following pages: **102**

- Banking Act
- Act on the Monitoring System of Bank and Payment Accounts

ii. Digital forensic operations within inspections or on-the-spot checks

Digital forensic operations within inspections or on-the-spot checks became increasingly important in the last decade already, Bulgaria, which has included a special paragraph in the State Investigations Office Act, Art. 31a (see → Bulgarian volume) makes a direct reference to Art. 7 of the applicable provision of Regulation 2185/96 and is therefore a role model regarding Digital forensic operations within inspections or on-the-spot checks of OLAF. **103**

The **Act on Support for Rural Development** (1443/2006) contains in s. 25 of the Act specifically that the beneficiary must maintain books for the supported measure in a way that allows clear identification and distinction from other financial activities. The bookkeeping must be integrated into the overall financial record-keeping of the beneficiary but organized in such a way that it's easy to track the use of funds related to the supported measure. Given the provisions in the law, these records will likely be maintained digitally, as most businesses today use digital bookkeeping systems to comply with regulations and ensure efficient tracking of financial transactions. **104**

- 105** Moreover, the law also grants authorities the right to access the beneficiary's premises and the related books and documents. This access can typically include digital records stored by the beneficiary, as modern bookkeeping often involves digital storage for ease of access, accuracy, and compliance with legal obligations.
- 106** Further Finnish frameworks that allows digital forensic operations during inspections or on-the-spot checks primarily involves laws related to financial audits, data protection, and criminal investigations are the Accounting Act (1336/1997).
- 107** The Customs Act provides Finnish Customs with the authority to perform inspections, including on-the-spot checks, for issues like smuggling, tax fraud, and other customs violations. Digital forensics can be used during these inspections to analyze electronic records, devices, and data for evidence.
- 108** The Finish Data Protection Act and the GDPR lay down the rules under which digital forensics can be conducted, ensuring that privacy rights are respected even during inspections or on-the-spot checks.
- 109** Last but not least the **Act on Electronic Communications Services** (917/2014) might apply as this Act has the objective to foster the provision and use of electronic communications services and to ensure that everyone across Finland has access to communications networks and services at reasonable conditions, which typically involves access for investigators if crimes or irregularities are suspected (see → Chapter 18, s. 145a, 19, ss. 167 et seq. Obligation to store data for the purposes of the authorities in connection with the Coercive Measures Act (806/2011), which involves Traficom according to s. 172 and s. 173 excludes legal counsels, notaries and taxation matters.

2. Article 4 Internal investigations

1. Investigations within the institutions, bodies, offices and agencies in the areas referred to in Article 1 shall be conducted **in accordance with this Regulation and with the decisions adopted by the relevant institution, body, office or agency** ('internal investigations'). [...]

8. Without prejudice to Article 12c(1), where, before a decision has been taken whether or not to open an internal investigation, the Office handles information which suggests that there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union, it may inform the institution, body, office or agency concerned. Upon request, the institution, body, office or agency concerned shall inform the Office of any action taken and of its findings on the basis of such information.

Where necessary, the Office shall also inform the **competent authorities of the Member State concerned**. In this case, the procedural requirements laid down in the second and third subparagraphs of Article 9(4) shall apply. If the **competent authorities** decide to **take any action on the basis of the information transmitted to them, in accordance with national law**, they shall, upon request, inform the Office thereof.

Internal investigations of OLAF can lead to repercussions at national level i.e. the level of the authorities that cooperate with OLAF and which e.g. employed the economic operator, managed his funds etc. or who are responsible for disciplinary actions for officials that work at Union level or as a national expert for OLAF (corruption cases). The relationship of national disciplinary, union disciplinary proceedings and national criminal proceedings is incredibly important.⁴¹² **1**

The competent authorities have been enumerated above, see → Institutions. The wording "Where necessary, the Office shall also inform the competent authorities of the Member State concerned" means that the competent Finnish authorities in this case could be the Finnish Police, Customs, Tax Administration, or any other relevant authority with the responsibility to investigate financial crimes, fraud, or other relevant matters affecting EU funds. In Finland para 8 means that Finnish authorities (e.g., the Finnish police or tax authorities) must follow the national procedural rules, such as a fair administrative procedure when receiving the information from OLAF and, if they decide to take any actions based on the information received, they must also respect Finnish laws on criminal investigations, privacy, and due process. **2**

If e.g. OLAF identifies fraudulent activities involving EU-funded customs projects in Finland, OLAF notifies the Finnish Tax Administration and Finnish Customs. If these authorities decide to investigate the fraud (in line with Finnish law), they must inform OLAF of their actions, upon request, about how the case progresses. **3**

⁴¹² See ECJ, Research note, Impact of ongoing criminal proceedings on the conduct of disciplinary proceedings, https://curia.europa.eu/jcms/upload/docs/application/pdf/2022-09/ndr_2020_001_neutralisee_en.pdf.

3. Article 5 Opening of investigation

1. The Director-General may open an investigation when there is a sufficient suspicion, which may also be based on information provided by any third party or anonymous information, that there has been fraud, corruption or any other illegal activity affecting the financial interests of the Union. The decision by the Director-General whether or not to open an investigation shall take into account the investigation policy priorities and the annual management plan of the Office established in accordance with Article 17(5). That decision shall also take into account the need for efficient use of the Office's resources and for proportionality of the means employed. With regard to internal investigations, specific account shall be taken of the institution, body, office or agency best placed to conduct them, based, in particular, on the nature of the facts, the actual or potential financial impact of the case, and the likelihood of any judicial follow-up.

2. The decision to open an external investigation shall be taken by the Director-General, acting on his own initiative or following a request from a Member State concerned or any institution, body, office or agency of the Union.

3. While the Director-General is considering whether or not to open an internal investigation following a request as referred to in paragraph 2, and/or while the Office is conducting an internal investigation, the institutions, bodies, offices or agencies concerned shall not open a parallel investigation into the same facts, unless agreed otherwise with the Office.

4. Within two months of receipt by the Office of a request as referred to in paragraph 2, a decision whether or not to open an investigation shall be taken. It shall be communicated without delay to the Member State, institution, body, office or agency which made the request. Reasons shall be given for a decision not to open an investigation. If, on the expiry of that period of two months, the Office has not taken any decision, the Office shall be deemed to have decided not to open an investigation.

Where an official, other servant, member of an institution or body, head of office or agency, or staff member, acting in accordance with Article 22a of the Staff Regulations, provides information to the Office relating to a suspected fraud or irregularity, the Office shall inform that person of the decision whether or not to open an investigation in relation to the facts in question.

5. 4. Article 7 Investigations procedure

1. The Director-General shall direct the conduct of investigations on the basis, where appropriate, of written instructions. Investigations shall be conducted under his or her direction by the staff of the Office designated by him or her. The Director-General shall not personally carry out concrete investigative acts.

2. The staff of the Office shall carry out their tasks on production of a written authorisation showing their identity and their capacity. The Director-General shall issue such authorisation indicating the subject matter and the purpose of the investigation, the legal bases for conducting the investigation and the investigative powers stemming from those bases.

3. The competent authorities of Member States shall give the necessary assistance to enable the staff of the Office to fulfil their tasks in accordance with this Regulation effectively and without undue delay. When providing such assistance, the competent authorities of Member States shall **act in accordance with any national procedural rules applicable to them.**

3a. At the request of the Office, which shall be explained in writing, in relation to matters under investigation, the relevant competent authorities of the Member States shall, **under the same conditions as those that apply to the national competent authorities,** provide the Office with the following:

(a) information available in the centralised automated mechanisms referred to in Article 32a(3) of Directive (EU) 2015/849 of the European Parliament and of the Council (4);

(b) where strictly necessary for the purposes of the investigation, the record of transactions.

The request of the Office shall include a justification of the appropriateness and proportionality of the measure with regard to the nature and gravity of the matters under investigation. Such request shall refer only to information referred to in points (a) and (b) of the first subparagraph.

Member States shall notify to the Commission the relevant competent authorities for the purposes of points (a) and (b) of the first subparagraph.

4. Where an investigation combines external and internal elements, Articles 3 and 4 shall apply respectively.

5. Investigations shall be conducted continuously over a period which must be proportionate to the circumstances and complexity of the case.

6. Where investigations show that it might be appropriate to take precautionary administrative measures to protect the financial interests of the Union, the Office shall without delay inform the institution, body, office or agency concerned of the investigation in progress. The information supplied shall include the following:

- (a) the identity of the official, other servant, member of an institution or body, head of office or agency, or staff member concerned and a summary of the facts in question;
- (b) any information that could assist the institution, body, office or agency concerned in deciding on the appropriate precautionary administrative measures to be taken in order to protect the financial interests of the Union;
- (c) any special measures of confidentiality recommended, in particular in cases entailing the use of investigative measures falling within the competence of a national judicial authority or, in the case of an external investigation, within the competence of a national authority, **in accordance with the national rules applicable to investigations.**

The institution, body, office or agency concerned may at any time consult the Office with a view to taking, in close cooperation with the Office, any appropriate precautionary measures, including measures for the safeguarding of evidence. The institution, body, office or agency concerned shall inform the Office without delay about any precautionary measures taken.

7. Where necessary, it shall be for the competent authorities of the Member States, at the Office's request, to take the **appropriate precautionary measures under their national law**, in particular measures for the safeguarding of evidence.

8. If an investigation cannot be closed within 12 months after it has been opened, the Director-General shall, at the expiry of that 12-month period and every six months thereafter, report to the Supervisory Committee, indicating the reasons and, where appropriate, the remedial measures envisaged with a view to speeding up the investigation.

The Director-General oversees investigations but does not conduct acts personally but more generally speaking organizes the structure of operations on the highest level. OLAF staff must have written authorisation detailing legal grounds and scope. Finish authorities must assist OLAF and provide data (e.g., financial records and transaction histories) under national rules. **1**

If financial risks arise, OLAF must inform EU bodies to take preventive actions. All investigations initiated must be proportionate, with progress reports if exceeding 12 months. Thus, the actions must respect national laws and procedural safeguards, ensuring proportionality and confidentiality where required. **2**

This will ensure structured and legal investigations as they require strict procedural adherence. OLAF needs justified requests as coordination with Finish authorities is essential as well as coordination with EU authorities to protect EU finances. **3**

Tässä tai muussa laissa säädetyn lisäksi tullimiehellä on lakiin perustuvan tehtävänsä yhteydessä oikeus ottaa tilapäisesti haltuun ampuma-aseet, räjähdysaineet, järjestyslain (612/2003) 9 §:ssä tarkoitetut vaaralliset esineet ja mainitun lain 10 §:ssä tarkoitetut toisen vahingoittamiseen soveltuvat esineet ja aineet siltä, jonka voidaan perustellusti epäillä ikänsä, päihtymyksensä, mielentilansa tai muiden olosuhteiden perusteella aiheuttavan välitöntä vaaraa yleiselle järjestykselle ja turvallisuudelle.

Koko esineen sijasta saadaan ottaa haltuun sellainen esineeseen kuuluva tai siihen liittyvä osa, jonka poistamisella vaaran aiheuttaminen voidaan estää.

Instead of the entire object, a part belonging to or related to the object can be taken over, the removal of which can prevent the creation of a hazard.

Chapter 4 Use of force

Section 22⁴²⁶ Use of force

A customs officer working in customs crime prevention or customs control duties has the right to use such necessary means of force, which can be considered defensible, when performing his duties:

- 1) to break the resistance;
- 2) to remove the person from the place;
- 3) to apprehend a person;
- 4) to prevent the escape of the person who has lost his liberty;
- 5) to remove the obstacle;
- 6) to prevent an immediately threatening crime or other dangerous act or event.

When evaluating the defensibility of the means of force, the importance and urgency of the official task, the danger of resistance, the available resources and other factors affecting the overall assessment of the situation must be taken into account. The means of force must be used only to the extent and until it is necessarily necessary for the performance of official duties stipulated by law.

A customs officer working in customs crime prevention or customs control duties also has the right to emergency protection in the performance of his

⁴²⁶ 22 § Voimakeinojen käyttö Tullirikostorjunta- tai tullivalvontatehtävissä työskentelevällä tullimiehellä on virkatehtävää suorittaessaan oikeus käyttää sellaisia tarpeellisia voimakeinoja, joita voidaan pitää puolustettavina:

- 1) vastarinnan murtamiseksi;
- 2) henkilön paikalta poistamiseksi;
- 3) henkilön kiinniottamiseksi;
- 4) vapautensa menettäneen pakenemisen estämiseksi;
- 5) esteen poistamiseksi;
- 6) välittömästi uhkaavan rikoksen tai muun vaarallisen teon tai tapahtuman estämiseksi.

Voimakeinojen puolustettavuutta arvioitaessa on otettava huomioon virkatehtävän tärkeys ja kiireellisyys, vastarinnan vaarallisuus, käytettävissä olevat voimavarat sekä muut tilanteen kokonaisarvosteluun vaikuttavat seikat. Voimakeinoja on käytettävä vain siinä määrin ja siihen saakka kuin se on välttämättä tarpeen laissa säädetyn virkatehtävän suorittamiseksi.

Tullirikostorjunta- tai tullivalvontatehtävissä työskentelevällä tullimiehellä on virantoimituksessa lisäksi oikeus hätävarjeluun siten kuin rikoslain 4 luvun 4 §:ssä säädetään. Tällaisessa hätävarjelussa tullimies toimii virkavastuulla. Arvioitaessa hätävarjeluun puolustettavuutta on otettava huomioon tullimiehelle koulutuksensa ja kokemuksensa perusteella asetettavat vaatimukset.

Sillä, joka tullirikostorjunta- tai tullivalvontatehtävissä työskentelevän tullimiehen pyynnöstä tai hänen suosituksellaan tilapäisesti avustaa tullimestä tilanteessa, jossa on välttämätöntä turvautua sivullisen apuun voimakeinojen käytössä erittäin tärkeän ja kiireellisen tullirikostorjunnan tai tullivalvonnan virkatehtävän suorittamisessa, on oikeus tullimiehen ohjauksessa sellaisten välttämättömien voimakeinojen käyttämiseen, joihin tullimies toimivaltansa nojalla hänet valtuuttaa.

Voimakeinojen käytön liioittelusta säädetään rikoslain 4 luvun 6 §:n 3 momentissa ja 7 §:ssä sekä hätävarjeluun liioittelusta rikoslain 4 luvun 4 §:n 2 momentissa ja 7 §:ssä.

duties as stipulated in Chapter 4 Section 4 of the Criminal Code. In this kind of emergency protection, the customs officer acts with official responsibility. When assessing the defensible nature of emergency detention, the requirements set for the customs officer based on his training and experience must be taken into account.

Anyone who, at the request of or with the consent of a customs officer working in customs crime prevention or customs control duties, temporarily assists a customs officer in a situation where it is necessary to rely on the help of an outsider in the use of force in the performance of a very important and urgent duty of customs crime prevention or customs control, has the right, under the guidance of the customs officer, to use such necessary means of force to which the customs officer by virtue of his authority authorise.

Excessive use of force is regulated in Chapter 4, Section 6, subsection 3 and Section 7 of the Criminal Code, and excessive use of emergency protection is regulated in Chapter 4, Section 4, Section 2 and Section 7 of the Criminal Code.

5. Article 8 Duty to inform the Office

[...] 2. The institutions, bodies, offices and agencies and, unless **prevented by national law, the competent authorities of the Member States** shall, at the request of the Office or on their own initiative, transmit without delay to the Office any document or information they hold which relates to an ongoing investigation by the Office. [...]

3. The institutions, bodies, offices and agencies and, unless **prevented by national law, the competent authorities of Member States** shall transmit without delay to the Office, at the request of the Office or on their own initiative, any other information, documents or data considered pertinent which they hold, relating to the fight against fraud, corruption and any other illegal activity affecting the financial interests of the Union.

A **report obligation** can at least be determined from the principle of sincere cooperation with Union bodies, cf. Art. 4 para 3 TEU. This principle applies in all areas of potential irregularities and frauds (for the typology of EU frauds see → the EU Fraud Commentary and see above → Art. 26 EPPO Regulation, where the material scope of the EPPO is determined). **1**

Additionally, Art. 12a in combination with Art. 8 para 2 and 3 OLAF Regulation 883/2013 obliges the AFCOS of the present Member State **to report to OLAF any of the requested material.** **2**

The obligations exist throughout the **different areas of irregularities** (tax revenue related, customs revenue related; tax expenditure related i.e. structural funds area, direct grants etc.) and are therefore enshrined in different national laws. The competent authorities of the Member States are either the same that can conduct external investigations (in cases of resistance, *Sigma Orionis*⁴²⁷) or those that must be informed by the Director General if he/she decides not open a case according to Art. 5 para 5 OLAF Regulation No 883/2013 as amended 2020/2223. **3**

In the area of customs irregularities and customs fraud the Customs Crime Prevention Act applies: **4**

5 Chapter 4 Obligation to remain silent and right to remain silent

Section 1⁴²⁸ Obligation of confidentiality

An official who is a member of the customs staff may not reveal information about the identity of the person who confidentially provided information or acted as a fake buyer or undercover person, if revealing the information would endanger the safety of the person who provided information in confidence or who acted as a fake buyer or undercover person or his relatives. The obligation of non-disclosure is also valid if the disclosure of identity information would endanger ongoing or future data acquisition.

The same obligation of confidentiality applies to those who, on the basis of an assignment agreement or in an employment relationship with Customs, have become aware of information kept confidential by Customs. The obligation to remain silent is also valid after the end of the assignment agreement or service relationship at the Customs.

In addition, the duty of confidentiality is regulated by the Act on the Openness of Government Activities. (29.4.2016/310)

Section 2⁴²⁹ Providing information without the obligation of confidentiality

The obligation of non-disclosure of a customs official or other person referred to in section 1, subsection 2 does not prevent the provision of information to an authority or an entity performing a public function, which, due to its mandated function, needs to obtain information about a matter that would otherwise be kept secret.

The duty of confidentiality laid down in section 1 subsection 2 above does not prevent the disclosure of such information, the disclosure of which there is a compelling reason in an individual case to prevent an event dangerous to life or health, a crime against freedom or significant damage to the environment, property or wealth, or to ensure the security of the state.

⁴²⁸ 1 § Vaitiovelvollisuus Tullin henkilöstöön kuuluva virkamies ei saa ilmaista luottamuksellisesti tietoja antaneen taikka valeostajana tai peitehenkilönä toimineen henkilöllisyyttä koskevaa tietoa, jos tiedon ilmaiseminen vaarantaisi luottamuksellisesti tietoja antaneen tai valeostajana tai peitehenkilönä toimineen tai hänen läheistensä turvallisuuden. Vaitiovelvollisuus on voimassa myös, jos henkilöllisyyttä koskevan tiedon ilmaiseminen vaarantaisi käynnissä jo olevan tai tulevan tiedonhankinnan.

Sama vaitiovelvollisuus on sillä, joka on toimeksiantosopimuksen perusteella tai työsopimussuhteessa Tulliin saanut tietoonsa Tullin salassa pidettävää tietoa. Vaitiovelvollisuus on voimassa myös toimeksiantosopimuksen tai palvelussuhteen Tullissa päätyttyä.

Lisäksi vaitiovelvollisuudesta säädetään viranomaisten toiminnan julkisuudesta annetussa laissa. (29.4.2016/310)

⁴²⁹ 2 § Tietojen antaminen vaitiovelvollisuuden estämättä Tullin henkilöstöön kuuluvan virkamiehen tai muun 1 §:n 2 momentissa tarkoitetun henkilön vaitiovelvollisuus ei estä tiedon antamista viranomaiselle tai julkista tehtävää hoitavalle yhteisölle, jolla säädetyn tehtävänsä vuoksi on tarve saada tieto muuten salassa pidettävästä seikasta.

Edellä 1 §:n 2 momentissa säädetty vaitiovelvollisuus ei estä ilmaisemasta sellaisia tietoja, joiden ilmaisemiseen on yksittäistapauksessa painava syy hengelle tai terveydelle vaarallisen tapahtuman, vapauten kohdistuvan rikoksen tai huomattavan ympäristö-, omaisuus- tai varallisuusvahingon estämiseksi taikka valtion turvallisuuden varmistamiseksi.

Section 3⁴³⁰ The right to remain silent

A member of the Customs staff is not obliged to reveal information about the identity of the person who confidentially provided the information during his employment, nor any tactical or technical methods that are kept secret.

The obligation to keep the information and methods referred to in subsection 1 secret in certain cases is regulated in section 1 subsection 1 of this chapter and in section 24 subsection 1 section 5 of the Act on the Publicity of Official Activities.

Section 4⁴³¹ Obligation to disclose in court proceedings

The court may order the disclosure of the information referred to in section 1, subsection 1 or section 3, subsection 1, if failure to disclose could violate the right of the party to properly defend himself or otherwise properly enforce his right in the trial. In addition, a condition for the order is that the prosecutor prosecutes a crime for which the severest punishment is at least six years in prison, or for attempting or participating in such a crime. Even then, the identity of a person who has provided information in confidence, or who has acted as a fake buyer or in an undercover activity, may not be ordered to be revealed if it would obviously cause a serious danger to his safety or that of his loved ones.

⁴³⁰ 3 § Vaitiolo-oikeus Tullin henkilöstöön kuuluva ei ole velvollinen ilmaisemaan hänelle hänen palvelussuhteensa aikana luottamuksellisesti tietoja antaneen henkilöllisyyttä koskevaa tietoa eikä salassa pidettäviä taktisia tai teknisiä menetelmiä.

Velvollisuudesta pitää 1 momentissa tarkoitetut tiedot ja menetelmät salassa tietyissä tapauksissa säädetään tämän luvun 1 §:n 1 momentissa ja viranomaisten toiminnan julkisuudesta annetun lain 24 §:n 1 momentin 5 kohdassa.

⁴³¹ 4 § Ilmaisuvollisuus oikeudenkäynnissä Tuomioistuimien voi määrätä ilmaistavaksi 1 §:n 1 momentissa tai 3 §:n 1 momentissa tarkoitetun tiedon, jos ilmoittamatta jättäminen voisi loukata asianosaisen oikeutta puolustautua asianmukaisesti tai muuten asianmukaisesti valvoa oikeuttaan oikeudenkäynnissä. Edellytyksenä määräämiselle on lisäksi, että syyttäjä ajaa syytettä rikoksesta, josta säädetty ankarin rangaistus on vähintään kuusi vuotta vankeutta, taikka sellaisen rikoksen yrityksestä tai osallisuudesta siihen. Luottamuksellisesti tietoja antaneen henkilön taikka valeostajana tai peitetoiminnassa toimineen henkilöllisyyttä ei tällöinkään saa määrätä ilmaistavaksi, jos siitä ilmeisesti aiheutuisi vakavaa vaaraa hänen tai hänen läheistensä turvallisuudelle.

Section 5⁴³² Disclosure obligation when investigating a crime

A member of the customs staff, regardless of his duty or right to remain silent, is obliged to disclose the information referred to in section 1, subsection 1 or section 3, subsection 1, the disclosure of which is necessary to assess the conditions for the initiation of a preliminary investigation, when the person who provided the information in confidence is in that capacity or a fake buyer or cover person is involved justified reason to assume that a crime has been committed in the task.

A member of the customs staff is obliged to disclose the information referred to in subsection 1 also to obtain an explanation in a case where a preliminary investigation has been initiated, if there is reasonable reason to suspect that the person who confidentially provided information in that capacity or a fake buyer or an undercover person in that capacity has committed a crime.

If a member of the Customs staff refuses to disclose the information referred to in subsections 1 or 2, the court may, at the request of the official entitled to arrest, order that the information must be given to the requestor, if there is no legal basis for the refusal. The court can also, at the request of the interested party, order that a member of the Customs staff must provide information confidentially about the identity of the person who provided the information to the Customs, if the disclosure is necessary in order to protect the right to prosecute the interested party referred to in Chapter 1 Section 14 of the Act on Trial in Criminal Matters. When dealing with the matter referred to in this subsection, the provisions of chapter 7, section 9 of the Pretrial Investigations Act on the questioning of witnesses in court are followed.

⁴³² 5 § Ilmaisovelvollisuus rikosta selvitetäessä Tullin henkilöstöön kuuluva on vaitiolovelvollisuudestaan tai oikeudestaan huolimatta velvollinen ilmaisemaan 1 §:n 1 momentissa tai 3 §:n 1 momentissa tarkoitetun sellaisen tiedon, jonka ilmaiseminen on välttämätöntä esitutkinnan aloittamisen edellytysten arvioimiseksi, kun luottamuksellisesti tietoja antaneen on siinä ominaisuudessa taikka valeostajan tai peitehenkilön on siinä tehtävässä perusteltua syytä olettaa syyllistyneen rikokseen.

Tullin henkilöstöön kuuluva on velvollinen ilmaisemaan 1 momentissa tarkoitetun tiedon myös selvityksen saamiseksi asiassa, jossa esitutkinta on aloitettu, jos on perusteltua syytä epäillä, että luottamuksellisesti tietoja antanut siinä ominaisuudessa taikka valeostaja tai peitehenkilö siinä tehtävässä on syyllistynyt rikokseen.

Jos Tullin henkilöstöön kuuluva kieltäytyy ilmaisemasta 1 tai 2 momentissa tarkoitettua tietoa, tuomioistuim voi pidättämiseen oikeutetun virkamiehen vaatimuksesta määrätä, että tieto on annettava vaatimuksen esittäjälle, jos kieltäytymiselle ei ole laillista perustetta. Tuomioistuim voi samoin asianomistajan vaatimuksesta määrätä, että Tullin henkilöstöön kuuluvan on annettava tieto luottamuksellisesti tietoja Tullille antaneen henkilöllisyydestä, jos ilmaiseminen on välttämätöntä oikeudenkäynnistä rikosasioissa annetun lain 1 luvun 14 §:ssä tarkoitetun asianomistajan syyteoikeuden turvaamiseksi. Tässä momentissa tarkoitettua asiaa käsiteltäessä noudatetaan esitutkintalain 7 luvun 9 §:n säännöksiä todistajankuulustelusta tuomioistuimessa.

Harkitessaan 3 momentissa tarkoitetun määrärauksen antamista tuomioistuimen on kiinnitettävä huomiota siihen, voiko ilmaisovelvollisuus aiheuttaa vaaraa valtion turvallisuudelle tai jonkun hengelle tai terveydelle taikka vaarantaa käynnissä olevan tiedonhankinnan, ja miten perusteltua ilmoittaminen toisaalta on ottaen huomioon rikosepäilyn laatu ja asianomistajan oikeus asianmukaisesti valvoa oikeuttaan oikeudenkäynnissä.

Jos 3 momentissa tarkoitettu asia koskee valeostoa, peitetointia tai tietolähteen ohjattua käyttöä, asia käsitellään Helsingin käräjäoikeudessa. Muu ilmaisovelvollisuutta koskeva asia käsitellään siinä käräjäoikeudessa, jossa se käy sopivasti päinsä. Tiedon ilmaisemista koskevan pyynnön esittäjän ja ilmaisemisesta kieltäytyneen henkilön on oltava läsnä asiaa käsiteltäessä. Asiaa käsiteltäessä käräjäoikeus on päätösvaltainen myös, kun siinä on yksin puheenjohtaja.

When considering issuing the order referred to in subsection 3, the court must pay attention to whether the obligation to disclose may cause a danger to the security of the state or someone's life or health, or endanger the ongoing acquisition of information, and how justified the notification is, on the one hand, taking into account the nature of the criminal suspicion and the right of the person concerned to properly exercise his right in the trial.

If the matter referred to in subsection 3 concerns a fake purchase, covert activity or controlled use of an information source, the matter will be heard in the Helsinki district court. Other matters related to the duty of disclosure will be dealt with in the district court where it is appropriately dealt with. The person making the request to disclose the information and the person who refused to disclose must be present when the matter is being processed. When dealing with the matter, the district court has decision-making power even when it is chaired alone.

Taking into account the cited provisions and the analysis of Art. 3 OLAF Regulation, in Finland, “prevented by national law” is fulfilled when disclosing information would be endangered e.g.: **6**

- safety of informants, undercover agents, or relatives.
- ongoing or future investigations.
- state security or cause serious harm.
- right to a fair trial, unless disclosure is court-ordered.

II. References to National law in the OLAF Regulation (Art. 9–17 OLAF Regulation)

1. Article 9 (Procedural guarantees)

[...] 3. As soon as an investigation reveals that an official, other servant, member of an institution or body, head of office or agency, or staff member may be a person concerned, that official, other servant, member of an institution or body, head of office or agency, or staff member shall be informed to that effect, provided that this does not prejudice the conduct of the investigation or of any investigative proceedings **falling within the remit of a national judicial authority**.

4. [...] In duly justified cases where necessary to preserve the confidentiality of the investigation or an ongoing or future criminal investigation by the EPPO or a national judicial authority, the Director-General may, where appropriate after consulting the EPPO or **the national judicial authority concerned**, decide to defer the fulfilment of the obligation to invite the person concerned to comment. - 1 Articles 9, 9a, and 9b of the OLAF Regulation set out **procedural safeguards** for individuals (economic operators, a person concerned) involved in OLAF investigations, ensuring their rights are protected. These provisions align with **EU law principles**, such as fairness and the right to a defense, and **balance investigative efficiency** with fundamental rights. Lawyers can use these safeguards to scrutinize OLAF's measures, particularly by invoking the right to remain silent, the right to information, and the right to be heard.⁴³³
- 2 *Telos* of these provisions is to enhance the legitimacy and fairness of OLAF investigations while preserving their effectiveness. In procedural rights contexts, the relationship between Union and national law is clarified through rulings like *Foto-Frost* (exclusive EU competence for reviewing EU acts)⁴³⁴, *Commission v. Consob* (strengthening procedural safeguards)⁴³⁵, and *Orkem* (self-incrimination rights)⁴³⁶, which underscore the need to harmonise rights with investigatory practices at both levels.

a) Art. 9 para 3 – remit of a national judicial authority

Foremost the courts acting only following an accusation or a file brought by the prosecution offices, offices powered to conduct administrative fine proceedings and other proceedings leading to a sanctioning procedure.

b) Art. 9 para 4 – national judicial authorities

In criminal matters the judicial authorities include thus the criminal courts (*käräjäoikeus*, district courts) and the prosecution offices. The second instance is provided for by the six Courts of Appeal and finally the Supreme Court is the highest judicial authority in matters falling within the jurisdiction of courts in civil and criminal proceedings, with the exception of matters decided by the Constitutional Court and the Supreme Administrative Court. The sanctions might be carried out by the Criminal Sanctions Agency. **4**

In administrative matters the Regional administrative courts, the higher administrative court and the Supreme Administrative Court are competent to judge on cases. The National Administrative Office for Enforcement collects money and ensures for example the reimbursement. **5**

Section 40⁴³⁹ Oral evidence

For a special reason, a witness can be heard on the basis of an insurance policy in an administrative case, as well as the parties involved orally. The interested parties, who are directly affected by the decision made in the case, must be given the opportunity to be present when hearing the witness or the interested party. The parties involved have the right to ask questions to the hearing party and express their opinion on the hearing party's story.

Official assistance to use oral evidence is provided by the administrative court where the hearing of the witness or party can take place most appropriately. In the judicial administration matter before the court, the hearing is delivered by the relevant court.

The provisions of the Act on Trial in Administrative Matters apply to the witness's disability and the witness's right to refuse to testify. (27.11.2020/854)

The following **administrative process-related law** provides a structured process for when and how oral hearings should be organized, balancing the need for hearings with the efficiency of resolving cases. It sets conditions for when the court may not hold a hearing and ensures that hearings are held only when necessary to clarify important aspects of a case. 8

⁴³⁹ 40 § (26.6.2015/801) Suullinen todistelu Erityisestä syystä hallintoasiassa voidaan kuulla todistajaa vakuutuksen nojalla sekä suullisesti asianosaista. Asianosaisille, joita asiassa tehtävä päätös välittömästi koskee, on varattava tilaisuus olla läsnä kuultaessa todistajaa tai asianosaista. Asianosaisilla on oikeus esittää kuultavalle kysymyksiä sekä lausua käsityksensä kuultavan kertomuksesta. Virka-apua suullisten todistuskeinojen käyttämiseksi antaa se hallinto-oikeus, jossa todistajan tai asianosaisen kuuleminen voi tapahtua soveliaimmin. Tuomioistuimen käsiteltävässä oikeushallintoasiassa kuulemisen toimittaa asianomainen tuomioistuin.

Todistajan esteellisyyteen sekä todistajan oikeuteen kieltäytyä todistamasta sovelletaan, mitä oikeudenkäynnistä hallintoasioissa annetussa laissa säädetään. (27.11.2020/854)

Chapter 7 Oral processing

Section 57⁴⁴⁰ et seq. Organisation of oral proceedings

The administrative court must organize an oral hearing if the court deems it necessary or if a private party demands it. In the oral hearing, the parties involved, the authority that made the decision, witnesses and experts can be heard, and other explanations can be received.

The court may, despite the party's request, not hold an oral hearing if:

- 1) the party status of the person who requested oral proceedings is based on membership of a welfare area, municipality or other community; (29.6.2021/639)
- 2) in order to resolve the case, a sufficient explanation of the relevant facts has already been obtained, on the basis of which the case can be resolved without the court having reasonable doubt about the facts;
- 3) the facts can be clarified in another way;
- 4) an oral hearing has already been organized in the same case in the administrative court; or
- 5) the organisation of an oral hearing is otherwise obviously unnecessary, taking into account the quality and importance of the case for the party concerned and the requirements of a fair trial.

The Supreme Administrative Court may, despite the party's request, not organize an oral hearing even if the matter is an appeal against the decision of the Administrative Court and the organization of an oral hearing is not necessary to resolve the matter.

⁴⁴⁰ 7 luku Suullinen käsittely 57 § Suullisen käsittelyn järjestäminen

Hallintotuomioistuimen on järjestettävä suullinen käsittely, jos tuomioistuin pitää sitä tarpeellisena tai yksityinen asianosainen sitä vaatii. Suullisessa käsittelyssä voidaan kuulla asianosaista, päätöksen tehnyttä viranomaista, todistajia ja asiantuntijoita sekä ottaa vastaan muuta selvitystä.

Tuomioistuin voi asianosaisen vaatimuksesta huolimatta jättää suullisen käsittelyn järjestämättä, jos:

- 1) suullista käsittelyä vaatineen asianosaisasema perustuu hyvinvointialueen, kunnan tai muun yhteisön jäsenyyteen; (29.6.2021/639)
- 2) asian ratkaisemiseksi merkityksellisistä tosiseikoista on jo saatu riittävä selvitys, jonka perusteella asia voidaan ratkaista ilman, että tuomioistuimelle jää vartenotettava epäilystä tosiseikoista;
- 3) tosiseikat voidaan selvittää muulla tavoin;
- 4) suullinen käsittely on jo järjestetty samassa asiassa hallintotuomioistuimessa; tai
- 5) suullisen käsittelyn järjestäminen on muuten ilmeisen tarpeetonta, kun otetaan huomioon asian laatu ja merkitys asianosaiselle sekä oikeudenmukaisen oikeudenkäynnin vaatimukset.

Korkein hallinto-oikeus voi asianosaisen vaatimuksesta huolimatta jättää suullisen käsittelyn järjestämättä myös, jos asiassa on kyse muutoksenhausta hallintotuomioistuimen päätökseen eikä suullisen käsittelyn järjestäminen ole tarpeen asian selvittämiseksi.

Suullista käsittelyä vaativan on ilmoitettava, minkä vuoksi sen järjestäminen on tarpeen ja mitä selvitystä hän esittäisi suullisessa käsittelyssä.

Jos asiassa vedotaan asiantuntijalausuntoon tai yksityisluonteiseen kirjalliseen todistajankertomukseen, suullinen käsittely asiantuntijan tai todistajan kuulemiseksi järjestetään vain, jos se on tarpeen asian selvittämiseksi.

The person requesting an oral hearing must state why it is necessary to organize it and what explanation he would present at the oral hearing.

If an expert statement or a private written witness report is relied on in the case, an oral hearing to hear the expert or witness will only be organized if it is necessary to clarify the matter.

5. Article 12a (Anti-fraud coordination services)

1. Each Member State shall, for the purposes of this Regulation, designate a service (the ‘anti-fraud coordination service’) to facilitate effective cooperation and exchange of information, including information of an operational nature, with the Office. Where appropriate, **in accordance with national law**, the anti-fraud coordination service may be regarded as a competent authority for the purposes of this Regulation. [...]

a) General remarks

aa. Definition and History

- 1 Cooperation, Coordination and Facilitation are buzz words in anti-fraud literature.⁴⁴¹ Anti-fraud coordination services are known worldwide and exist in many international organizations and cooperate with nation states.⁴⁴² In the EU the **term “AFCOS”** has a very special meaning as it means the Anti-fraud coordination services created on behalf of the European Anti-fraud Office for the facilitation of interactions with the national Member States of the EU (recitals below).⁴⁴³ The obligation to designate these services runs and derives from primary Union law. Art. 325 TFEU (ex-Art. 280 TEC) requests the Union and the Member States to fight fraud (together).⁴⁴⁴ The history of these services, adapted to the financial and budgetary law sector and set-up in the Member States’ internal justice and financial systems dates to the early 2000s.⁴⁴⁵ Historically, the coordinating bodies emerged primarily in the new Member States that were awaiting accession. The European Parliament has already in 2010 called for the AFCOS to be set up as independent bodies in the MS.
- 2 Today one could not be further from this idea than ever, since the AFCOS are mostly subordinated deep in the structure of a Financial or Treasury Department/Ministry, Financial Inspections Services of the Treasury Department/Ministry, the Department of Commerce, or the Ministry/Department of the Interior. The simplicity of the co-ordination from within a ministry and the size of the administrative apparatus certainly speak in favour of this, but the interconnectedness is also problematic from the point of view of efficiency (states with political goodwill coordinate very easily and others are politically manoeuvrable):

3

68. points out that the Anti-Fraud Coordination Units (AFCOS) set up for OLAF in the Member States that joined the European Union after 2004 are very important sources of information and contact points for OLAF; points out, however, **that the functional added value of these offices (in particular in terms of reporting irregularities to the Commission) is minimal as long as they are not independent from national administrations;** therefore calls on the Commission to submit a proposal to Parliament’s competent committee on how the work of these offices could be made more useful and considers it necessary to improve cooperation with the candidate countries”⁴⁴⁶

At least there is legal and technical oversight of the areas of administration in most states and nowadays the AFCOS are implemented at the highest level.⁴⁴⁷ 4

However, the existing Member States are also aware of weaknesses in the fight against fraud. Only since 2010 and in the last decade has more attention been paid to these coordination points. They have become a sine qua non in the EU’s fight against fraud and they are becoming more and more the “eyes and ears” of OLAF in the Member States. They only have their own investigative skills, which would make them an “extended arm” of OLAF in the member states, if at all, e.g. in Bulgaria or Italy. On the other hand, in Germany and France, they are more active in the background and do not appear too clearly. Activity reports may also have to be requested by the Commission, i.e. the responsible departments of OLAF. 5

bb. Legislative developments

- 6 The Commission has evaluated the **impact of the AFCOS** in the past decade.⁴⁴⁸ Recent changes at the beginning of the 2020s have enlarged the competences of the AFCOS. These are now even allowed to cooperate with each other and not only with OLAF in Luxembourg alone, which was the case prior to the **amendments of the Regulation (EU) 2020/2223**.
- 7 The recent changes describe the role of the AFCOS in the recitals. Thus, by reading them the task and role of these bodies becomes vivid:

8 (23) The Office is able, under Regulation (EU, Euratom) No 883/2013, to enter into administrative arrangements with **competent authorities of Member States**, such as anti-fraud coordination services, and institutions, bodies, offices and agencies, in order to specify the arrangements for their cooperation under that Regulation, in particular **concerning the transmission of information, the conduct of investigations and any follow-up action**.

(30) Due to the large diversity of national institutional frameworks, Member States should, on the basis of the principle of sincere cooperation, **have the possibility to notify to the Office the authorities that are competent to take actions upon recommendations of the Office**, as well as the authorities that need to be informed, such as for financial, statistical or monitoring purposes, for the performance of their relevant duties. Such authorities **may include national anti-fraud coordination services**. In accordance with the settled case-law of the CJEU, the Office recommendations included in its reports have no binding legal effects on such authorities of Member States or on institutions, bodies, offices and agencies.

(37) The anti-fraud coordination services of Member States were introduced by Regulation (EU, Euratom) No 883/2013 to facilitate an effective cooperation and exchange of information, including information of an operational nature, between the Office and Member States. The Commission evaluation report concluded that they have contributed positively to the work of the Office. The Commission evaluation report also identified the **need to further clarify the role of those anti-fraud coordination services** in order to ensure that the Office is provided with the necessary assistance to ensure that its investigations are effective, while leaving the organisation and powers of the anti-fraud coordination services to each Member State. In that regard, the anti-fraud coordination services should be able to provide or coordinate the

necessary assistance to the Office to carry out its tasks effectively, before, during or at the end of an external or internal investigation.

(40) It should be possible for the anti-fraud coordination services in the context of coordination activities to provide assistance to the Office, as well as for the anti-fraud coordination services **to cooperate among themselves**, in order to further reinforce the available mechanisms for cooperation in the fight against fraud.

6. Article 12e (The Office's support to the EPPO)

1. In the course of an investigation by the EPPO, and at the request of the EPPO in accordance with Article 101(3) of Regulation (EU) 2017/1939, the Office shall, in accordance with its mandate, support or complement the EPPO's activity, in particular by:

- (a) providing information, analyses (including forensic analyses), expertise and operational support;
- (b) facilitating coordination of specific actions of **the competent national administrative authorities** and bodies of the Union; [...]

- 1 See above → under Organisation of the Criminal Justice System in Finland, Administrative Authorities.
- 2 The Tax Administration, which can cooperate with OLAF in external investigations might be a useful source of information and can be such a competent national administrative authority, which might under Art. 12e OLAF Regulation help the EPPO via OLAF.
- 3 See e.g. the Tax Administration Act:

4 **Section 28⁴⁴⁹ Procedure in a criminal case**

The Tax Administration has the right, on behalf of all tax payers, with respect to the taxes and payments stipulated to be borne by the Tax Administration, to report a tax crime or other tax-related crime to the preliminary investigation authority for investigation and, represented by an agent appointed by it, to exercise the right to speak in a criminal case and in a case concerning compensation for damages resulting from a crime. Crime reports regarding car tax, fuel payment for private yachts, taxes falling within the scope of the Excise Tax Act (182/2010) and value added tax on the importation of goods are submitted to Customs and simultaneously reported to the police. (11.8.2017/528) In addition, the Tax Administration has the right to notify the preliminary investigation authority of the matter regarding the accounting crime it has detected for the purpose of the investigation.

- 5 The coordination and facilitation must be in accordance with the Act on the Processing of Personal Data in Criminal Matters.

⁴⁴⁹ 28 § Menettely rikosasiassa Verohallinnolla on oikeus kaikkien veronsaajien puolesta Verohallinnon kannettavaksi säädettyjen verojen ja maksujen osalta ilmoittaa verorikosta tai muuta verotukseen liittyvää rikosta koskeva asia esitutkintaviranomaiselle tutkintaa varten ja määräämänsä asiamiehen edustamana käyttää puhevaltaa rikosasiassa sekä rikoksesta johtuvaa vahingonkorvausta koskevassa asiassa. Autoveroa, yksityisestä huviveneestä suoritettavaa polttoainemaksua, valmisteverotuslain (182/2010) soveltamisalaan kuuluvia veroja ja tavaran maahan-tuonnin arvonlisäveroa koskevat rikosilmoitukset tehdään Tullille ja annetaan samanaikaisesti tiedoksi poliisille. (11.8.2017/528)

Verohallinnolla on lisäksi oikeus ilmoittaa esitutkintaviranomaiselle tutkintaa varten havaitsemansa kirjanpitorikosta koskeva asia.

Next, the Law on Joint Investigation Teams 30.12.2002/1313 (*Laki yhteisistä tutkintaryhmistä 30.12.2002/1313*) might apply and facilitate investigations.

Section 1⁴⁵⁰ Establishing a joint investigation team

The competent preliminary investigation authority can, together with the competent authority of a foreign state, enter into an agreement on the establishment of a joint investigation team (investigative team) to carry out the preliminary investigation of the crime. Before concluding the agreement referred to in subsection 1, the competent preliminary investigation authority must notify the competent prosecutor of the intention to establish an investigation team. A similar notification must also be made to Eurojust's Finnish national member if the investigation team's activities are related to Eurojust's jurisdiction or tasks. A competent prosecutor can register as a member of the investigation team. The request for the establishment of an investigation team must be treated as a request for legal aid.

Section 2⁴⁵¹ Composition of the investigative team

The investigative team consists of the competent authorities of the countries that established it. The investigation team also includes the competent Finnish prosecutor who has registered with the investigation team. According to what is separately stipulated in the contract, the investigation team may also include other persons. The composition of the investigation team must be determined in the agreement on the establishment of the investigation team.

If the investigation team concerns Finland and European Union funding is granted for the investigation team, the Finnish national member of Eurojust must be invited to the investigation team. The national member acts in the investigation team as Finland's national prosecuting authority and has the authority referred to in § 10 of the Act on the Public Prosecutor's Office (32/2019).

⁴⁵⁰ 1 § (11.4.2014/304) Yhteisen tutkintaryhmän perustaminen Toimivaltainen esitutkintaviranomainen voi yhdessä vieraan valtion toimivaltaisen viranomaisen kanssa tehdä sopimuksen yhteisen tutkintaryhmän (tutkintaryhmä) perustamisesta rikoksen esitutkinnan toimittamiseksi.

Ennen 1 momentissa tarkoitetun sopimuksen tekemistä toimivaltaisen esitutkintaviranomaisen on ilmoitettava toimivaltaiselle syyttäjälle aikomuksesta perustaa tutkintaryhmä. Vastaava ilmoitus tulee tehdä myös Eurojustin Suomen kansalliselle jäsenelle, jos tutkintaryhmän toiminta liittyy Eurojustin toimivaltaan tai tehtäviin. Toimivaltainen syyttäjä voi ilmoittautua tutkintaryhmän jäseneksi.

Tutkintaryhmän perustamista koskevaa pyyntöä on käsiteltävä oikeusapupyynnönä.

⁴⁵¹ 2 § (4.12.2019/1234) Tutkintaryhmän kokoonpano

Tutkintaryhmä koostuu sen perustaneiden valtioiden toimivaltaisista viranomaisista. Tutkintaryhmään kuuluu myös tutkintaryhmään ilmoittautunut Suomen toimivaltainen syyttäjä. Sen mukaan kuin sopimuksessa erikseen määrätään, tutkintaryhmään voi kuulua myös muita henkilöitä. Tutkintaryhmän kokoonpanosta on määrättävä tutkintaryhmän perustamista koskevassa sopimuksessa.

Jos tutkintaryhmä koskee Suomea ja tutkintaryhmää varten myönnetään Euroopan unionin rahoitusta, tutkintaryhmään on kutsuttava Eurojustin Suomen kansallinen jäsen. Kansallinen jäsen toimii tutkintaryhmässä Suomen kansallisena syyttäväviranomaisena ja hänellä on Syyttäjälaitoksesta annetun lain (32/2019) 10 §:ssä tarkoitettu toimivalta.

7. Article 13 (Cooperation of the Office with Eurojust and Europol)

1. [...] Where this may support and strengthen coordination and cooperation between **national investigating and prosecuting authorities**, or where the Office has forwarded to the **competent authorities of the Member States** information giving grounds for suspecting the existence of fraud, corruption or any other illegal activity affecting the financial interests of the Union in the form of serious crime, it shall transmit relevant information to Eurojust, within the mandate of Eurojust. [...]

- 1 See above → under Organisation of the Criminal Justice System in Finland, Criminal Investigating and Prosecution Authorities. OLAF can support and strengthen coordination and cooperation between national investigating and prosecuting authorities. This means that OLAF is encouraged to foster better collaboration between Member States' authorities (such as police, customs, and public prosecutors) when there is a need to address illegal activities that impact EU funds.
- 2 For the competent authorities see above → Art. 3 OLAF Regulation e). If Finnish authorities receive e.g. information from OLAF regarding potential fraud or corruption affecting EU financial interests, they are expected to act according to their own legal procedures (see above → Sources of law).
- 3 If the crime is serious and crosses borders, the information may be shared with Eurojust to facilitate coordination with other Member States' authorities. Finnish prosecutors, law enforcement agencies (e.g., Finnish Police, Customs), and other competent authorities will need to work with Eurojust if the case requires cross-border action or involves multiple jurisdictions.

[Article 14–16 omitted]

8. Article 17 (Director-General)

4. The Director-General shall report regularly, and at least annually, to the European Parliament, to the Council, to the Commission and to the Court of Auditors on the findings of investigations carried out by the Office, the action taken and the problems encountered, whilst respecting the confidentiality of the investigations, the legitimate rights of the persons concerned and of informants, and, where appropriate, **national law applicable to judicial proceedings**. Those reports shall also include an assessment of the actions taken by the **competent authorities of Member States** and the institutions, bodies, offices and agencies, following reports and recommendations drawn up by the Office.

7. The Director-General shall put in place an internal advisory and control procedure, including a legality check, relating, inter alia, to the respect of procedural guarantees and fundamental rights of the persons concerned and **of the national law of the Member States concerned**, with particular reference to Article 11(2). The legality check shall be carried out by Office staff who are experts in law and investigative procedures. Their opinion shall be annexed to the final investigation report.

a) National law applicable to judicial proceedings

- Administrative Act
- Law on Proceedings in Administrative Matters
- Customs Act
- Taxation Procedure Code
- Criminal Procedure Act

1

b) Internal advisory and control procedure: Legality check involving national law

OLAF, its **staff and seconded national experts** must ensure that its investigative activities comply with national laws when operating within EU Member States. This internal check involves verifying that OLAF's measures such as inspections, access to premises, and document reviews align with the legal and procedural requirements of Finland if the investigation takes place here. In order to fulfil this task and achieve this new aim the person handling the task must initiate a **legal compatibility check**. In practice, OLAF consults its legal service or relevant national legal experts to ensure that its actions do not contravene national laws as the Supervisory Committee has seen room for better quality standards in this regard.

2

The coordination with the national authorities, which were mentioned above (→ Institutions) is essential as OLAF works closely with them and any AFCOS to facilitate compliance and avoid legal conflicts. If any adjustments are necessary, the potential

3

inconsistencies with national law should be avoided or at least identified, and eventually OLAF adapts its investigative approach to maintain legality and effectiveness, whereby OLAF's internal rules for the check, which are not publicated must be complied with (e.g. the so-called **country mini-profiles**). An example for the provisions, which can apply for a legality check concerning an investigation in Finland, becomes vivid by reading e.g. the Law on Proceedings in Administrative Matters:

This **Finnish EPPO/OLAF volume** provides comprehensive information for the EPPO/OLAF sector, including case law, legal sources, and relevant organizations. It also summarises the national legislation relating to Finnish EPPO investigations, with a focus on the criminal investigation procedure. The last section deals with investigative missions in connection with OLAF investigations in Finland. Prof Dr Raimo Lahti has acted as the publication's national expert.

While written in English, the volume includes footnotes that reproduce the original Finnish legislation. Easily navigable with the help of visual symbols, it is designed as a quick reference tool for academics, students, practitioners and other interested readers.
